RE: West Virginia Tractor Contract DOT200000064

Dear Tammy Clevenger;

WV Tractor Contract DOT200000064 the Terex/Fermec parts contract bid pricing error in price list. When I downloaded and uploaded factory pricing in my system, I got a warning of Merged Cells, which I did not know exactly what that meant in the excel programming. Uploaded and downloaded into my system on Thursday and on Friday discovered that from line 10,304 to line 22,664 the prices were off one line and made the prices between these numbers off out of the 58,025 line items. This was caused by the Merged Cells by the manufacturer's price list. Sorry for the issue but at least I discovered it the following day that we started the pricing.

If you have any questions, you can contact me at 304-346-5301 or my mail wvcage@aol.com

Thanks,

Steven B Basham V.P

Steven B. Basham
Vice President
