## RESPONSE TO REQUEST FOR QUOTATION SOLICITATION NUMBER CRFQ 0313 DEP1900000001 DEP1900000002 & DEP1900000003

I, Randall Zortman, President and CEO of Tire & Rubber, Inc., hereby submit this request for quotation to the above solicitation number under protest for the following reasons:

This request for quotation does not mandate that all entities submitting a bid have a certificate of convenience and necessity from the West Virginia Public Service Commission as does Tire & Rubber, Inc., for the transportation of waste tires on an intrastate basis. Although Title 33 Legislative Rule, Department Of Environmental Protection, Division Of Waste Management, Series 5, Waste Tire Management Rule 33-5-2.24 "persons transporting waste tires generated by their own business activities, citizens transporting their own waste tires, or persons who are transporting waste tires generated from state authorized waste tire remediation or cleanup projects are not, in this instance, waste tire transporters," this series of rules does not circumvent W. Va. Code §24A-2-5 which states that "It shall be unlawful for any common carrier by motor vehicle to operate within this state without first having obtained from the commission a certificate of convenience and necessity." Furthermore, the aforementioned Waste Tire Management Rule 1.1.c.2. states that "In the event of conflict between this rule and other state agencies' rules, the more stringent rule prevails." According to the Rules Governing Motor Carriers, Private Commercial Carriers, and The Filing Of Evidence Of Insurance And Financial Responsibility By Motor Carriers, (150 CSR 9) of the West Virginia Public Service Commission. Rule 3.17.a. states "No common carrier by motor vehicle in the transportation of passengers, household goods, or solid waste may operate on the public highways of West Virginia without first having obtained a certificate of convenience and necessity from the Commission." In addition, Rule 3.17.g. of those same rules makes it a criminal act for any motor carrier to engage in the transportation of solid waste for hire over the public highways of West Virginia without first having obtained a certificate of convenience and necessity. Moreover, as set forth in those rules, Rule 1.8.t. defines "solid waste" and inclusive in that definition is "waste tires."

Finally, W. Va. Code §24-2-1b, in discussing the powers of the West Virginia Public Service Commission states, "The commission shall establish rules for the collection of waste tires by private commercial carriers of solid waste."

In summary, the Public Service Commission both by rule and statute mandates that common carriers of waste tires must have a certificate of convenience and necessity issued by the West Virginia Public Service Commission. This cannot be circumvented by the West Virginia Department of Environmental Protection nor does any rule or regulation of the West Virginia DEP change this mandate.

Respectfully submitted under protest,

Tire & Rubber Inc. P.O. Box 29 Weston, WV 26452 Kandall Zortman PRES FCEC
