## **Department of Administration 2022 AML Contract 8 Project North**

### **EXPRESSION OF INTEREST**

New River Engineering Inc. (NREI) and S & S Engineers, Inc. (S & S) is pleased to express our interest in providing environmental, engineering, architecture, and surveying services to the West Virginia Department of Administration as needed. S & S Engineers was established in 1980 and NREI was established in 1998 giving both companies a combined 60 years of experience. Our team is a West Virginia based civil / environmental engineering firm and is noted for design excellence and client focus. Our team's integrated design approach, our commitment to design quality, as well as our architectural and construction experience will help to ensure the quality of services that we will provide to the WV Department of Administration. Below, please find additional qualifications that make our team uniquely qualified to assist you with your potential needs.

We have a history of providing high quality design and engineering management services throughout West Virginia, Kentucky, Ohio, and Virginia. This quality has been recognized by the quantity of our repeat clients. We will use our engineering abilities and extensive design experience to aid the WV Department of Administration as any need would arise.

As President of our firm, Mr. Jessie O. Parker, Jr., P.E. will lead projects for the Administration. Mr. Parker has a Bachelor of Science in Civil Engineering from WVU Institute of Technology and a Master of Science in Engineering from Marshall University. Mr. Parker has a vast amount of experience working in the municipal market and has spent his entire career in the utility / infrastructure sector of engineering. Mr. Parker will be assisted by Mr. Matt Shelton, VP, PM, Mr. Christopher Burford, COO, PM, Mr. Elijah Laramie, P.E., Mr. Ashok Sanghavi, P.E., DEE, QEP, Mr. Randy Crace, P.S., Mr. Charles Kurzya P.E., P.S., Mr. Charles Strobe P.E., and the rest of our staff.

We have the training, experience, and multi-discipline support to meet the needs of our clients. Due to our small size, our Engineers and Architects become well rounded and deeply involved with each project. Our Engineers and Architects are able to put their heads together to create an excellent working knowledge of projects, creating high quality, personalized, and professional services. We would like to thank you for this opportunity and if we can be of service to you in this matter, please don't hesitate to contact us at (304) 342-7168.

S & S Engineers, Inc.

Engineering Services

New River Engineering, Inc.

## COMPANY PROFILE

### S & S ENGINEERS, INC.

S & S Engineers, Inc. (S & S) is an engineering, surveying, and consulting firm founded in 1980 in Charleston, WV and has been providing quality service to our clients for over 41 years. The firm is currently managed by Mr. Jessie O. Parker, Jr., P.E. - President, Mr. Christopher D. Burford - COO and Mr. Matt Shelton - Vice President. S & S has successfully provided an integrated approach to utility projects for our clients. S & S provides professional services to facility owners and operators, architects, and contractors throughout West Virginia, Kentucky, Ohio, Virginia, North Carolina and many others. S & S services range through all facets of civil engineering design as well as construction administration and project management.

S & S remains committed to the idea of providing high quality, client focused, design solutions that meet budget and schedule requirements. This commitment to quality has been recognized through the long-term client relationships that we have developed. S & S has the qualified professionals available to provide services throughout the duration of a project from the initial planning phases through construction completion and beyond.

S & S utilizes the abilities of designers with many years of experience in their area of expertise, teamed with younger designers on a "best resource for the project approach". We also provide project management services at levels ranging from general oversight to complete project delivery through all phases of design and construction. Our personnel have worked in both the private and public sector and are familiar with many methods of project delivery.

S & S has developed the following philosophy to guide the performance of its services:

- Provide superlative design services to our clients in new construction, improvements, and daily operations.
- Perform work in a timely, accurate and professional manner.
- Present multiple alternatives and solutions whenever possible.
- Work with our clients to control project costs.
- Be a technical sounding board for our clients in all situations.
- Strive to maintain professional competency through continuing education and training.

S & S utilizes a practical application approach to all projects throughout the design process to provide a well-rounded result. This methodology emphasizes the best overall solution, meeting all the client's needs, instead of just the best technical solution. We believe our small size provides a distinct advantage to our clients and affords us the freedom to easily team with the clients to achieve the overall best possible result.

S & S Engineers, Inc.

Engineering Services

New River Engineering, Inc.

## COMPANY PROFILE

### NEW RIVER ENGINEERING, INC.

New River Engineering, Inc. (NREI) is an engineering, surveying, and consulting firm that has been providing quality service to the industries for over 20 years. Mutual respect and trust are the cornerstones in the relationships established and maintained with our clients. NREI strives to perform all work in a professional and cost-effective manner, while providing our clients with quality and excellence. NREI primarily serves the coal, oil & gas, timber, and construction industries.

Our staff combines advanced technology with many decades of surveying, mining, and engineering experience and includes two professional engineers, one professional surveyor, four degreed engineers, AutoCAD/engineer technicians and ten full time survey crews.

As a full-service engineering and surveying firm, NREI will provide a whole host of services to our clients including, but not limited to the following:

- Construction Design
- Construction Management
- Construction Surveying
- Geotechnical Engineering & Drilling Management
- Environmental Permitting (WVDEP, NPDES, OAQ and USACOE)
- Underground / Surface Mine Engineering
- Underground / Surface Mining Surveying
- Civil Site Design / Engineering / Planning
- Drainage Design / Engineering / HECRAS
- Aerial Mapping
- Compaction Testing with Nuclear Density Gauge
- Subsurface Utility Locate Surveys with Ground Penetrating Radar & Pipe and Cable Locators
- Ohio DNR Environmental Permitting
- Oil & Gas Surveying
- Boundary & Property / Topographical Surveying
- GPS RTK & Static Surveying
- Reserve Studies

## COMPANY PROFILE

### GREEN & ASSOCIATES, LLC

Green and Associates, LLC is located in St. Clairsville, Ohio and is a subsidiary of NREI. Green and Associates, LLC has been providing quality surveying services for over 35 years to the following clients; oil and gas industries, coal industry, industrial, public service district, commercial, and residential. Green and Associates, LLC has established itself as one of the areas' most prestigious surveying firms.

### Green & Associates, LLC Services

- Well Pad Plats / Unit Surveys
- Well Pad & Horizontal Boundary Surveying
- Ohio DNR Permitting
- Well Pad Design & layout
- Well Pad As-Built Certifications
- Establishment of Water Line for Drilling Projects
- Sub-Division Design & Layout
- Property Boundary Surveying
- Topographical Surveys
- RTK GPS Surveying
- Construction Stake-Outs
- Drone Aerial Flight Surveys & Photos

## SCOPE OF WORK

West Virginia Department of Administration is looking for licensed architectural / engineering firms (A/E) in the state of West Virginia for the AML Contract 8 Project North project.

1. **Browntown Refuse #2** – Regrade and soil cover of exposed coal refuse, reclamation of highwall (up to near 100-foot high), mitigation of water impoundments and installation, repair and/or replacement of proposed and/or existing drainage controls and features.

The WV Department of Administration is requesting the following services be provided:

- Access or accesses as required
- Geotechnical investigation and analyses
- Landslide Stabilization(s)
- Hydrologic and hydraulic analyses
- Clear and grub affected areas
- Regrade as necessary
- Install drainage channels, underdrains, and/or other controls to safely convey water off-site
- Demolition and removal / disposal of a silo and other structures
- Condition and revegetate all disturbed areas
- Obtain required permits as determined at the Pre-Design Meeting

S & S Engineers, Inc. and New River Engineering, Inc. will provide any other services required by the WV Department of Administration for the implementation of the current project.

## **PLAN OF APPROACH**

New River Engineering Inc. (NREI) and S & S Engineers, Inc. (S & S) are fully aware of the Department of Administration's needs, having served various communities in West Virginia for over 41 years. S & S and NREI believes in offering personal services as well as professional services. The following is a draft approach from project conception through project completion of the services S & S and NREI will provide.

NREI and S & S believe in a team approach for the development of projects. Therefore, our first task will be to meet with Administration officials to review existing data, reports, etc., and to ascertain the need of the specific project. Following data gathering, we will then evaluate alternatives and develop a cost-effective proposal that meets existing and future needs of a specific project. Throughout the process, Administration officials will be kept informed and involved in all important matters.

NREI and S & S will assist the Administration in preparation and submission of any funding application needs. Once the funding has been secured, we will then begin to develop detailed engineering drawings and specifications for the project. As information is gathered, it will be reviewed with the Administration to allow comment and coordination as the project progresses. The project engineer will be involved during all phases of developing a project, obtaining funding, design, and construction to assure coordination with personnel, and regulatory and funding agencies.

## **PRELIMINARY ENGINEERING REPORT (IF NEEDED)**

Our next task will be the preparation of a Preliminary Engineering Report. Specifically, the report will be organized in accordance with regulatory and funding agency requirements as follows:

1. Introduction and Overview
2. Planning Area and Future Needs
3. Evaluation of the Existing System
4. Proposed Improvements/Upgrades
5. Alternate Solutions
6. Cost Estimates – Capital and O & M
7. Environmental Issues
8. Public Participation
9. Final Plan Selection
10. Implementation

Prior to publication of the final report, all information will be shared and reviewed with the Department of Administration officials to assure that concerns are addressed.

## **DESIGN PHASE**

Initially NREI/S&S will request any additional documentation relative to the project that has not already been provided. This may include other viable sites already being considered, access route locations, topographic surveys, etc. Upon review of this information, NREI/S&S will begin meeting with your designated representatives to review and discuss preferred site features and orientations. Once the site and orientation are confirmed NREI/S & S will begin preparing the design drawings and specifications.

Upon completion of the preliminary design drawings NREI/S & S will schedule a second meeting to present the design and preliminary cost estimate to the designated officials for review and comments. NREI/S & S will then revise the design drawings and cost estimate to reflect any comments from Administration officials.

## **CONSTRUCTION DOCUMENTS PHASE**

Once the final design is complete NREI/S & S will begin procuring the necessary permits and preparing the bidding and construction documents, details, and specifications for the project. NREI/S & S will provide a 90% submission to the owner for review and comment to allow minor modifications prior to final binding and printing.

## **BIDDING PHASE**

During this phase NREI/S & S will assist by participating in the pre-bid meeting, answer addendum questions and reviewing contractor bids. NREI/S & S will also assist in the preparation of the construction agreement as required.

## **CONSTRUCTION PHASE SERVICES**

During construction our services include review of shop drawings and submittals, conducting regular progress site meetings, reviewing and preparing change orders and payment applications, conducting substantial and final inspections and reviewing close out documents.

NREI/S & S will also provide a Resident Construction Inspector for the duration of the project construction.

## **SCHEDULE**

Upon selection NREI/S & S will begin working on the project immediately.

## PROJECT EXPERIENCE

1. **Maple Eagle Complex, Fayette / Kanawha County, WV**
  - **Description:** Engineering, Environmental Permitting, Design & Construction Management for a Surface Mine and Deep Mine Facility. Activities include: Environmental Permitting, Pond Design & Construction, Primary Haul road / IUAR Design & Construction, Preparation of Mine Plans, Prospecting / Drilling Operations, Valley Fill Designs & Certifications, Excess Spoil Disposal Areas, Surface Mine Surveying Activities, Sediment Control Structures, Support for Excavation of Overburden & Removal of Coal, Underground Deep Mine Surveying, Preparation of Underground Mine Mapping, WVOMHS&T & MSHA Plans (including Ventilation, Ground Control, & Roof Control Plans), Underground Mine Seal Plans, SWORA Evaluations, Phase Maps, and Site Supervisor / Project Manager.
  - **Funding Source:** Maple Coal Co., Western Coal, Walter Resources, ERP Fuels, and currently Blackhawk Mining
  - **Project Cost:** Approximately \$8,500,000 to Current
  - **Project Status:** Started December 2005 and continues currently
2. **American Mining Group, Fayette County, WV**
  - **Description:** Engineering, Environmental Permitting, Design & Construction Management for a Surface Mine Facility. Activities include: Environmental Permitting, Pond Design & Construction, Primary Haulroad / IUAR Design & Construction, Preparation of Mine Plans, Prospecting / Drilling Operations, Excess Spoil Disposal Areas, Surface Mine Surveying Activities, Sediment Control Structures, Support for Excavation of Overburden & Removal of Coal, WVOMHS&T & MSHA Plans (including Ground Control, Plans), SWORA Evaluations, Phase Maps, and Site Supervisor / Project Manager.
  - **Funding Source:** American Mining Group
  - **Project Cost:** Approximately \$850,000 to Current
  - **Project Status:** Started Circa 2018 and continues currently
3. **Marshall County Coal Preparation Plant Geotechnical Investigation (2022)**
  - **Description:** Oversaw and performed a geotechnical investigation for an expansion to the Marshall County coal preparation plant. Provided structural designers geotechnical parameters for shallow and deep foundations, included drilled caissons and driven piles.
4. **AML Carbondale (Hill) Portals Phase II – Recently Awarded (2022)**

5. **Cyprus Kanawha Corp, Fayette County, WV**
  - **Description:** Completed USACOE permitting requirements to expand a coal barge loading facility located on the Kanawha River. The expansion consisted of the construction of additional steel pile mooring cells, additional barge storage and increased loading speed of barges.
  - **Funding Source:** Cyprus Kanawha Corp
  - **Project Cost:** \$1,000,000
  - **Project Status:** Completed 1990 on Schedule
6. **United Coal Company, LLC (including Pocahontas Coal Company, LLC & Carter Roag Coal Company), Raleigh, Wyoming, Randolph, & Upshur County, WV**
  - **Description:** Coal Mining/Environmental Planning, Permitting, and Coordination including; engineer site review and reconnaissance; mine layout and design; drainage design; haulage layout and design; spoil balance and reclamation design; stream delineation and USACE permitting and approvals; WVDEP permit submittals and approvals including Article 3, Article 11, and Storm Water Construction; on-site construction stakeout; surveying, both surface and underground; field management and on-site project coordination; as-built certifications; coal slurry impoundment and coarse refuse disposal management, coordination, surveying, and design; and daily contact and coordination between the company, field personnel, and office personnel to ensure the proper running of daily mining and environmental activities and needs for various on-going mining and environmental projects.
  - **Funding Source:** Private Business Coal Extraction & Sales
  - **Project Cost:** \$13,400,000 average for completed and on-going services
  - **Project Status:** Began Circa August 2006 and continues currently
7. **TC Energy, Various Locations, WV, OH, VA, PA, KY, MI, NY, NJ & Etc.**
  - **Description:** Engineering, Surveying and Drafting for Multiple Projects Across the Eastern United States. Provide Surveying, Engineering and Drafting Support for the Long Wall Program, HCA Wire-Line Program, HCA-Dig Program, HCA-Hydro Test Programs, and Right-Of-Way Program. Provide Engineering & Geotechnical for Hazardous Steep Slope Winch Plans for Construction Operations.
  - **Funding Source:** Private Business / TC Energy
  - **Project Cost:** Approximately \$3,500,000 and on-going
  - **Project Status:** Started Circa 2017 and continues currently

8. **Nitro Regional Wastewater Utility, Kanawha County, WV**
  - **Description:** Planning including preliminary engineer site and system review and assessment, design, and construction management of a sewer line extension and construction of a new Belt Filter Press Building and Belt Filter Press.
  - **Funding Source:** WVDEP-CWSRF
  - **Project Cost:** \$8,226,840, completed project approximately \$100,000 under budget and used savings to upgrade the wastewater treatment plant headworks
  - **Project Status:** Completed 2017
9. **City of Sistersville, Tyler County, WV**
  - **Description:** Planning including preliminary engineer site and system review and assessment, design, and construction management of a new wastewater collection system in the Hanford City area with pump station and related work.
  - **Funding Source:** WVDEP-CWSRF
  - **Project Cost:** \$1,100,000, completed project approximately \$100,000 under budget and used savings to replace approximately 800 LF of existing sewer line
  - **Project Status:** Completed 2014
10. **Kanawha PSD, Kanawha County, WV**
  - **Description:** Planning including preliminary engineer site and system review and assessment, design, and construction management of 6 miles of gravity sewer & force mains, two (2) pump stations and three (3) grinder pump stations for Winifrede Hollow.
  - **Funding Source:** WVDEP-CWSRF0
  - **Project Cost:** \$5,370,000, completed project approximately \$450,000 under budget and used savings to purchase equipment, replaced diffusers in aeration basins at the WWTP, constructed a new laboratory
11. **Patriot Coal Corporation, Logan County, WV**
  - **Description:** Planning and design of a water line extension project which also included a water booster station and a 27,000-gallon water storage tank.
  - **Funding Source:** Patriot Coal Corporation
  - **Project Cost:** \$1,200,00
  - **Project Status:** Completed 2010

12. **Pocahontas Coal Company, Raleigh County, WV**
  - **Description:** Planning and design of a water and sewer line extension project which also included wastewater pump station.
  - **Funding Source:** Pocahontas Coal Company
  - **Project Cost:** \$400,000
  - **Project Status:** Completed 2010
  
13. **WVDOC Denmar Correctional Center, Pocahontas County, WV**
  - **Description:** Planning, design, and construction management of the replacement of two (2) water storage tanks with one 300,000-gallon water storage tank.
  - **Funding Source:** WVDOC
  - **Project Cost:** \$600,000
  - **Project Status:** Completed March 2015
  
14. **WVDNR Bluestone State Park, Summers County, WV**
  - **Description:** Planning, design, and construction management of the replacement of water line which also included the two (2) pressure reducing stations.
  - **Funding Source:** WVDNR
  - **Project Cost:** \$450,000
  - **Project Status:** Completed 2011
  
15. **Coonskin Park Flood Repairs, Kanawha County, WV**
  - **Description:** Planning, design, and construction management of 160 LF of H-Pile wall, a 40 LF H-Pile wall, Replacement of three 18" culverts, Paving of approx. 2,800 LF of Elk River Trail, and Replacement of 105 LF of 36" HDPE storm pipe. Project cost of approx. \$1.85 million.
  
16. **Big Bend / Coonskin, Kanawha County, WV**
  - **Description:** Planning and design for an embankment repair to address failed slope along the trail on the Elk River. Planning and design for an embankment repair to address failed slope that is adjacent to the Coal River in Tornado, WV.

## AVAILABLE RESOURCES

### **A. Current Staffing**

- 5 Registered Professional Engineers (Including Mining, Civil, Structural, and Geotechnical)
- 3 Registered Professional Engineers
- 4 Senior Engineers
- 4 Engineers in Training
- Multiple AutoCAD Operators
- 11 Survey Crews
- 1 GIS Analyst
- 2 Surveyors in Training
- Multiple Support Staff Members

### **B. Surveying & Mapping**

With over ten (10) survey crews and multiple support team members, NREI and S&S Engineers have the capability and availability to handle the needs and desires of our clients.

### **C. Drilling and Geotechnical**

With our in-house Geotechnical Engineer teamed with the crews of NGE Consulting, we have the necessary experience and capabilities to handle the needs and desires of our clients.

## PROJECT MANAGEMENT

With over 100 years of combined professional experience, the project team will be made up of the following personnel, along with the rest of S & S Engineers and New River Engineering:

Jessie O. Parker, Jr., P.E. Email: jop@s-s-eng.com	President (S&S) / Principal Engineer
Christopher D. Burford Email: cburford@nrei-wv.com	Chief Operating Officer (S&S)/ President (NREI)
D. Matt Shelton Email: dms@s-s-eng.com	Vice President (S&S) / Project Manager
Elijah T. Laramée, P.E. Email: etl@s-s-eng.com	Senior Engineer
Ashok M. Sanghavi, P.E., DEE, QEP Email: a.sanghavi@s-s-eng.com	Senior Engineer

## RESUMES OF KEY PERSONNEL

**Jessie O. Parker, Jr., P.E.**  
**President / Senior Engineer**  
**S & S Engineers, Inc.**

Mr. Parker began his career at S & S in 2003 working on a variety of environmental projects throughout West Virginia, Kentucky, Ohio, and Virginia. Mr. Parker has served in the capacity of Engineer, Project Manager, and Principal in Charge for a variety of projects at S & S. This experience includes environmental, water supply, wastewater, storm water and drainage projects. Mr. Parker's responsibilities include planning, design, and construction administration.

Mr. Parker also has experience in grading plans, construction management, payment request approvals, quantity & cost estimates, and has worked with City, City & PSD personnel, regulatory and funding agencies, as well as contractors.

Mr. Parker has proven to move projects forward in a professional, cost-effective, and timely manner. Has extensive knowledge of the state and federal water supply, and wastewater laws and regulations and is very familiar with federal and state grant and loan programs.

**D. Matt Shelton**  
**Vice President / Project Manager**  
**S & S Engineers, Inc.**  
**New River Engineering, Inc.**  
**Green and Associates, LLC**

Mr. Shelton began his career at S & S in 2004 working in civil engineering fields such as site development, water supply, wastewater, storm water and drainage. Also has experience in surveying, construction management, record keeping, quantity and payment reviews, inspection, and site grading. Having worked with general contractors, subcontractors, community representatives and residents, he has developed solid techniques to move the projects in a professional, cost-effective, and timely manner.

Experienced in site grading, surveying, quantity surveys, building layout, water & sewer system design and construction inspection on civil engineering projects.

Experience as Engineering Technician including design of water line extensions, water booster stations, water storage tanks, wastewater pump stations, sewer line extensions, manholes, drainage calculations, and preparation of quantity and cost estimates.

Experience as Survey Technician / Instrument man includes topographic surveys, construction stakeout for water & sewer systems and highways, building layout, cut sheets for sewer systems, GPS surveying for field control work, etc.

**Elijah Laramie, P.E.**  
**Professional Engineer**  
**S & S Engineers, Inc.**

Mr. Laramie has more than seventeen years of civil/structural design and management experience, including deep foundations, shallow foundations, concrete and steel structures, building enclosures, rigging, drainage, underground utilities, etc. Mr. Laramie is also proficient in several analysis & design, laser scan and 3D design software packages.

## **EXPERIENCE**

### **PROFESSIONAL ENGINEER**

Responsible for analysis and design of various types of structures and materials for compliance with building codes and design standards. Design work includes large steel structures, as well as retrofit of steel and concrete structures and foundations.

### **LEAD ENGINEER**

Perform design and analysis responsibilities of professional engineer with additional duties of coordinating the civil structural design effort with clients and other design disciplines. Duties include work planning, scheduling, cost control, quality management, design reviews, and construction packaging.

### **DEPARTMENT MANAGER**

Responsible for the overall execution and quality of the Civil Structural Department in U.S and India offices. Duties include resource planning, scheduling, technical oversight, development of people, procedural development, auditing, and determination of needs for tools and skills.

### **FIELD ENGINEER**

Provide inspection and verification of design in construction and provide solutions to issues encountered in the field. Review of submissions and creation of punch list items.

**Ashok M. Sanghavi, P.E., DEE, QEP**  
**Senior Engineer / Quality Control Officer**  
**S & S Engineers, Inc.**

Over forty-six years of professional experience in civil engineering fields such as environmental, water supply, wastewater, solid wastes management, drainage, and mining. He has provided planning, design, construction management and technical expert testimony for environmental and general civil engineering projects. He has prepared Phase I environmental site assessments and carried out subsequent Phase II and Phase III remediation work. He has prepared environmental impact statements for state and federal highway projects.

Having worked for the private industry as well as state government, he thoroughly understands both sides. He has extensive knowledge of the state and federal water supply, and wastewater laws and regulations and is also very familiar with federal and state grant and loan programs.

Mr. Scriptunas is a 1981 graduate of West Virginia University with a B.S. in Mining Engineering with over 30 years of experience in the mining and consulting fields. Vince specializes in surface and underground mine planning and design, reclamation, and environmental permitting.

New River Engineering, Inc. - Shrewsbury, WV, prepare surface mine permits as required by West Virginia state regulations.

Prepare surface mine NPDES permits as required by West Virginia state regulations. Provide technical assistance to clients for facilitation and implementation of more effective environmental reclamation and drainage control systems.

Horizon Natural Resources-Ashland, KY, Supervised reclamation, and mining activities. Evaluated reclamation liability of active and abandoned permits. Responsible for ensuring environmental compliance and permitting. Managed the final active mining of the Sycamore South Mountaintop Mine with no lost time accidents

Pittston Coal Company-Lebanon, VA, Prepared mine plan and schedules for mountain top/contour removal operation with annual production of over one million tons. Planned, organized, scheduled, and monitored construction and special projects. Served as a liaison between operations and governmental agencies. Responsible for ensuring environmental compliance permitting.

Cyprus Kanawha Corporation-Powellton, WV, developed a mine plan for a surface/highwall mining activities for a mountain top removal operation with annual production of 1.5 million tons. Prepared operations elemental budget for a truck/shovel mining operation. Developed and maintained comprehensive production analysis including yardage moved, blasting data, haulage, productivity, and availability. Reviewed West Virginia property tax appraisal resulting in a reduced tax expense.

Hawks Nest Mining Company- Powellton, WV, planning and operational engineering support for underground mines. Generated ventilation and roof control plans for underground mine as required by federal and state regulations.

Mr. Brown has served as Senior Engineer on numerous projects for clients in private industry as well as for state and federal agencies. He has performed a variety of roles in various projects from office management activities to coordination of field activities. Duties on these projects have included foundation investigation report production, foundation and retaining wall design, fill embankment and cut slope design, slope stability analysis, dam analysis, AutoCAD drafting, supervision of subsurface drilling programs, field activity coordination, environmental site assessments, operation and maintenance of groundwater extraction and remediation systems, structural inspections, GPS and conventional surveys, laboratory data computation and processing, performance of fieldwork, client relations, and supervision of technical and professional staff.

## Fields of Competence

- Subsurface Investigations
- Slope Stability Analysis
- Bridge Foundation Analysis
- Retaining Wall Design
- Landslide Analysis & Remedial Design
- Site Development Earthwork Design
- Foundation Investigations
- Seismic Site Class evaluation, per International Building Code (IBC) 2000 edition.
- Construction Monitoring
- Personnel Management
- Project Management (schedule and budget)
- Project Estimating

## Education

- BS, Civil Engineering Technology, Bluefield State College, 2000
- BS, Architectural Engineering Technology, Bluefield State College, 2000

## Registration/Certifications

- Registered Professional Engineer, West Virginia
- Licensed Remediation Specialist (LRS), West Virginia
- OSHA 1910.120 40-hour HAZWOPER Training, 2005
- OSHA 10-hour Construction Safety and Health, 2013

## Employment History

- 2022 – Present  
West Virginia Office Manager  
NGE, LLC
- 2018 – Present  
Geotechnical Services Manager  
NGE, LLC
- 2008 – 2018  
Project Engineer  
NGE, LLC
- 2006 – 2008  
Staff Engineer  
NGE, LLC
- 2001 – 2006  
Staff Engineer, Terradon Corporation
- 2000 – 2001  
Survey Technician, John E. Chance & Associates, Inc
- 1999  
Engineer Intern, Burgess & Niple, Ltd.

Mr. Nottingham currently serves President & Principal Engineer for NGE. In this capacity, he has served as lead Geotechnical Engineer on a variety of government and commercial design and construction projects. His responsibilities on these projects include direction and coordination of all geotechnical engineering activities. Duties on these projects have included foundation investigation report production, foundation and retaining wall design, fill embankment and cut slope design, slope stability analysis, pavement design, design of drainage systems, supervision of subsurface drilling programs, field activity coordination, laboratory data computation and processing, performance of field work, client relations, and supervision of technical and professional staff.

## Fields of Competence

- Highway & Airport Geotechnical Design
- Bridge & Building Foundation Analysis
- Subsurface Investigations
- Site Development Earthwork Design
- Slope Stability Analysis
- Landslide Analysis & Remedial Design
- Retaining Wall Design
- Reinforced Soil Slope Design
- Mine Subsidence Investigations
- Forensic & Insurance Investigations
- Construction Monitoring
- Personnel Management
- Project Management (schedule and budget)
- Project Estimating

## Education

- B.S., Civil Engineering, West Virginia University - 1987
- M.S., Civil Engineering, West Virginia University - 1995

## Registration/Certifications

- Registered Professional Engineer in West Virginia, Pennsylvania, Maryland, Virginia, Kentucky, and Ohio.
- Registered Professional Surveyor in West Virginia.

## Employment History

- 2016 - Present  
President, Principal Engineer NGE, LLC
- 2002 - 2016  
Branch Manager, Vice President, Principal Engineer NGE, LLC
- 1997 - 2002  
Vice President & Geotechnical Services Manager Triad Engineering, Inc.
- 1996 - 1997  
Senior Engineer - Triad Engineering, Inc.
- 1993 - 1996  
Project Engineer - Triad Engineering, Inc.
- 1988 - 1993  
Staff Engineer - Triad Engineering, Inc.

Mr. Lupardus has worked on numerous projects over the past 30 years as a drilling assistant and drill crew chief, providing drilling services for geotechnical, environmental, and construction projects. He now supervises all field activities. He has worked for industrial clients and for state and federal agencies. He has applied diversified knowledge of geotechnical drilling principles and practices to a broad array of assignments and field tasks and has the knowledge to correspond with team members to make decisions on geotechnical drilling issues and methods encountered in the field. He has provided training, supervision, and guidance to driller assistants in their development to become drillers.

## Fields of Competence

- Responsible for supervising day to day field activity.
- Responsible for loading and mobilizing equipment to project site
- Complies with NGE's daily Tailgate Safety Plan, as provided by the Geotechnical Drilling Division Manager.
- Performs preventative maintenance of drill rigs and associated equipment.
- Remains up to date with current industry and governmental specifications and standards affecting geotechnical drilling.
- Communicates well with on-site engineering consultants in a professional manor.
- Trains and develops junior operators/assistants.

## Registration/Certifications

- First Aid/CPR
- Safeland Training PEC
- OSHA 10 Hour Construction Industry Outreach Training, 2012

## Employment History

- 2018 – Present  
Drilling Field Supervisor, NGE
- 2017 – 2018  
Driller, TRIAD Engineering
- 2015 – 2017  
Driller, SLS
- 1988 – 2015  
Driller, TRIAD Engineering
- 1986 – 1988  
Driller's Assistant, TRIAD Engineering

# Brandon Wallace

Mr. Wallace has worked on numerous projects over the past 20 years as a drill crew chief, providing drilling services for geotechnical, environmental, and construction projects. He has worked for clients in private industry as well as for state and federal agencies. He has applied intensive and diversified knowledge of geotechnical drilling principles and practices to various assignments and field tasks. He has the knowledge to correspond with team members to make decisions on geotechnical drilling issues and methods encountered in the field. He has provided training, supervision, and guidance to numerous driller assistants in their development to become drillers.

## Fields of Competence

- Responsible for performing and documenting drilling project tasks (drilling logs).
- Responsible for loading and mobilizing equipment to the project site.
- Complies with NGE's daily Tailgate Safety Plan, as provided by the Geotechnical Drilling Manager.
- Performs preventative maintenance of drill rigs and associated equipment.
- Remains up to date with current industry and governmental specifications and standards affecting geotechnical drilling.
- Communicates well with on-site engineering consultants in a professional manor.
- Trains and develops junior operators/assistants.

## Registration/Certifications

- NHI-SSI-132079 Certified
- Ohio Class A CDL
- Safeland Training PEC - 2013
- OSHA 10-Hour Construction Industry Outreach Training, 2012

## Employment History

- August 2014 – Present  
Drill Crew Chief, NGE
- July 2009 – August 2014  
Lead Driller, F. Moore Drilling Service
- September 2008 – July 2009  
Driller, H.C. Nutting Company
- February 2001 – September 2008  
Driller, Central Star Drilling

# Water Supply, Treatment, Storage, and Distribution Systems

With over forty years of experience, we are your one stop shop for water supply, treatment, storage, and distribution systems. We implement our four-step process to each project to develop a better understanding of our client's needs and expectations: 1. Preliminary Engineering Report; 2. Design Phase; 3. Bidding Phase; 4. Construction Administration. We are "hands on" during all phases to ensure our clients obtain what they want in every project.

As a locally owned "small family" consulting firm, our clients get more for their money and receive more one-on-one time with our employees, which yields a more pleasurable experience. We excel in helping our clients ascertain funding from various governmental agencies to assist in the financing of the project.

# Construction Management and Civil Site Design

We have been providing construction engineering solutions to our clients, including towns and municipalities for a combined total of over 60 years. We have established ourselves as one of the leading consulting firms in the area, and our experienced staff is committed and dedicated to your project from the initial site design and bid package development to inspections and certification.

We also offer Civil Site Design services including sub-division layouts, commercial development and design, HCA project areas, well pads, impoundments, street paving, drainage control, solid waste landfill, and impoundment design. We know and understand the value and importance of properly designed sites that offer the most cost effective and beneficial for our clients. Construction Management and Civil Site Design services include, but are not limited to the following:

- 3D Site Design
- Haulage & Access Road Design
- Excess Spoil Disposal Site Design
- Drainage Design and Runoff Calculations
  - Solid Wastewater Management and Land Fill Design
- Subdivision Design and Permit Applications
- Site Development Plans
- Pre, During, & Post Construction Surveying
- HECRAS Modeling
- Stability analysis
  - Site inspections / Project Management
  - Certifications
  - Cost Estimates
  - Subdivision Design
  - Street Paving Design and Drainage Control
  - Construction Management
  - Earth work quantity Estimates
  - Construction Staking
  - Concrete Inspection and Testing

# Environmental Permitting

Environmental permitting has become a complex and confusing landscape. We have an efficient and thorough team of environmental consultants making sure permitting, regulatory compliance, construction monitoring, and biological surveying are done with the utmost quality and cost effectiveness. This will save your project time and money from the start and avoid costly delays in the future. Compliance with Clean Air and Water Acts, NEPA, and other state and federal requirements is invaluable to every project. Our attention to detail and practical solutions to complex issues are second to none. Our environmental permitting team will make sure once your project is off the ground, it stays there! Environmental Permitting services include but are not limited to the following:

## Environmental Permitting services

- Storm Water Permitting, Design, and Management
- Water Quality Monitoring
- Flood Plan Determination and Flood Elevation Certificates
- Groundwater Protection Plans
- Stream & Wetland Delineation
- Spill Prevention Control & Countermeasures Plan (SPCC)
- Article 3 Mining Permits
- Article 11 NPDES Permits
- West Virginia 401 Certification Permitting
- Wastewater Permitting, Design, & Management
- Clean water Act Section 402 Permitting (NPDES Permit)
- United States Army Corps of Engineers 404 Permitting
- Air Quality Permitting
- Best Management Practices (BMP) Planning

# Mining Engineering

We are a full-service surveying, engineering, and consulting firm with deep roots in the mining industry of southern WV. Our qualified staff of professional engineers, engineering technicians, and professional surveyors have decades of combined experience in the field of mining engineering. We have established ourselves as one of the areas' leading mining engineering firms – specializing in both surface and underground mine design / planning; surveying; environmental and safety permitting; and project / construction management. We put the focus on identifying the needs of clients and providing cost-effective solutions with real results.

## Mining Engineering Services

- Coal Reserve Analysis and Evaluation
- Surface Mine Design and Planning
- Mine Surveying and Mapping
- MSHA / WVOHS&T Permitting
- Ventilation Plans
- Roof Control Plans
- Mining Under Bodies of Water (1716 Permit)
- Horizontal Drilling
- Methane and Dust Control (MMU Plan)
- West Virginia Mineral Tax Appraisal
- Returns
- Pre-Blast Surveys
- Prospecting Permits & Releases
- Slope Stability Analysis
- Reclamation & Revegetation Planning
- Valley Fill Certifications
- Drainage Certifications
- Ventilation Plans
- MSHA Compliance
- MHS&T Compliance

New River Engineering, Inc.

# Oil & Gas Engineering

The natural gas boom in the US has brought a wealth of opportunity for energy companies in the United States. We have answered the call of these companies by providing solutions to the unique design, permitting, and environmental needs of the ever-evolving Oil and Gas Industries

Oil and Gas engineering requires a unique approach to project development that differs from mining engineering. Our experienced staff is available to consult with clients on the most practical and cost-effective manner of addressing oil and gas engineering concerns. With a professional staff encompassing surveying, AutoCAD, professional engineers, and engineering technicians – we have the capacity to tackle the most complex oil and gas engineering projects

## Oil and Gas Engineering Services

- Gas Well Plats and Permits
- Well Location and Stakeout
- Site Design
- Gas Line Surveys
- Unit Surveys
- HCA Project Areas
- Right-of-Way
- Impoundment Design, Construction, and Certification
- Access Road Design and Stakeout
- Construction Layout and Oversight
- Pumps & Water Line Design

# Geotechnical Engineering

We have professional engineers and engineering technicians with extensive geotechnical engineering experience. We specialize in compaction testing, foundation design, slope failure remediation and embankment design. We put the focus on identifying the needs of clients, and providing cost-effective solutions with real results

## Geotechnical Engineering Services

- Drilling Oversight, Management, and Inspection
- Slope failure Remediation
- Slope Stability Analysis
- Gabion Basket Wall Design
- Compaction Testing
- Foundation Design
- Embankment Design
- Drainage Analysis
- Soldier Pile Wall Design

S & S Engineers, Inc.  
EOI Contract 5 North  
Engineering Services

New River Engineering, Inc.

# Structural Engineering

We offer a full range of structural engineering services to help meet the needs of our clients. In addition to professional training, our structural capabilities are bolstered by a depth and breadth of experience developed through solving unique and complex engineering challenges. We have experience with projects in the private, public, commercial, and industrial sectors. Whether designing new structures, retrofitting existing structures, addressing overstressed conditions, or assessing structural integrity, our clients can rest assured that we are capable of meeting their specific needs.

## Structural Engineering Services

- Structural Analysis
- Steel Structures and Building Enclosures
- Modular Design
- Pilings and Foundations
- Concrete Containment Structures
- Retrofit of Existing Overstressed Structures
- Building Permits and Code Analysis
- Bridge Cranes, Monorails, Jibs, etc.
- Truck/Rail Unloading Stations
- Lifting Beams and Rigging
- Industrial Architectural Design
- Structural Inspections and Assessments

New River Engineering, Inc.

# Surveying

We have established ourselves as one of the areas leading surveying firms with our 40+ years of experience in property, boundary, and topographic mapping. Our staff is skilled in courthouse research, finding property evidence, providing quality property surveys, and construction stake-outs.

Additionally, we offer aerial mapping utilizing drone surveys. Our aerial mapping has been proved to be invaluable for construction progress mapping, well pad progression, subdivision layouts, and civil site designs. Surveying services include, but are not limited to the following:

- Property Abstract & Research
- Boundary Surveys
- Survey Plats
- Subdivision Design & Layout
- Construction Surveying & Stakeout
- Underground Mining Surveying
- Right-of-Way & Land Acquisition
- GPS Services
- Aerial Mapping / Control
- Drone Flight & Surveying
- Topographical Surveys
- ALTA / ACSM Land Title Surveys
- Unit Surveys
- Surface Mining Surveying
- Computer Mapping
- GIS Services

S & S Engineers, Inc.  
EOI Contract 5 North  
Engineering Services

New River Engineering, Inc.

# Subsurface Utility Survey

We use some of the most advanced technology in Ground Penetrating Radar (GPR), pipe and cable locators, and smoke testing machines to accurately survey, map and inspect subsurface utilities. These services have been extensively used by our clients in the construction, oil, and gas industries, as well as public service districts. Subsurface Utility Survey services include, but are not limited to the following:

- Pipe and Cable Location
- Sewer Line Smoke Testing
- Ground Penetrating Radar (GPR)
- Internal Video Pipe Inspection

New River Engineering, Inc.

# Fiberoptic Broadband Services

We team with Mountain State Fiber and Alpha Technologies company which is a registered WV CLEC and was founded in 2000 specializing in Wide Area and Local Area Networks. Mountain State Fiber and Alpha Technologies is headquartered in Hurricane, WV.

Working with a full service fiber optic firm, S & S Engineers, Inc. (S & S) / New River Engineering Inc. (NREI) and Mountain State Fiber can provide a whole host of services to our clients including, but not limited to the following:

- Build Specifications based on network
- PONs
- Metro Ethernet
- Support for Tier 1-3 Helpdesk— Technical questions, Network Outages, Internet engineering and routing
- Regulatory—Federal: FDOF, USAC, Erate, USDA; State: CLEC, PSC
- Complete understanding of Pole Attachment Process

# Funding Assistance

We provide assistance for our clients in the preparation of grant/loan funding applications. We will represent our clients and coordinate with the various funding agencies to obtain a favorable funding package. Once the funding has been secured, we will then begin to develop detailed engineering drawings and specifications for the project. Funding Sources can include, but are not limited to the following:

- Ohio Public Works Commission Infrastructure Programs
- Ohio Water Development Authority
- Private Bank Funding
- Appalachian Regional Commission (ARC)
- United States Department of Agriculture Development Loans (US DA-RD)
- Housing and Urban Development – Community Development Block Grant (HUD-CDBG)
- Ohio Environmental Protection Agency (Ohio EPA)
- Ohio Rural Community Assistance Program (Ohio RCAP) – Funding Assistance
- United States Army Corps of Engineers (USACE)

# Technical Expert Testimony

With over forty years of professional engineering experience, we are more than capable of providing expert witness testimony to our clients should a need arise. We have multiple registered professional engineers in various disciplines, and these professionals are licensed throughout the United States. We are more than willing and ready in an utmost resolute manner to defend our clients and ensure that their interests are represented in the courtroom.

# GEOTECHNICAL DRILLING SERVICES

## GEOTECHNICAL DRILLING SERVICES

Geotechnical drilling is one of NGE's core areas of practice. Our highly-qualified and experienced staff of geotechnical engineers, geologists, and technicians enables us to provide practical and economical solutions to a variety of geotechnical problems. We are especially experienced and qualified in dealing with the types of geotechnical issues typically encountered in the Appalachian region.

### SOME OF THE DRILLING AND EXPLORATION SERVICES OFFERED INCLUDE:

- Test borings with standard penetration sampling
- Rock coring and sampling
- Shelby tube sampling
- Piezometer and monitoring well installation
- Slope inclinometer installation
- Dynamic cone penetrometer testing
- Portable drilling equipment for difficult site access

All of NGE's drill rigs are equipped with hollow stem augers, standard penetration testing and sampling equipment, wireline rock coring equipment, AW and NQ drilling rods.

### NGE'S CURRENT DRILLING EQUIPMENT INCLUDES THE FOLLOWING:

- Two Diedrich D-50 rubber track mounted drill rig
- Two CME 45 rubber track mounted drill rigs
- Acker Soil Scout rubber track mounted drill rig
- Acker portable tripod mounted drill rig
- Wildcat portable dynamic cone penetrometer
- AMS portable auguring and sampling equipment
- Casing advancer system
- Three drill rig haul trucks (tilt-bed and tractor/trailer)
- Water haul trucks and trailers
- Three off road utility vehicles
- Numerous water pumps, hose, and portable storage tanks

#### SAFETY STATS:

## CONSTRUCTION INSPECTION SERVICES

NGE offers a range of construction monitoring and inspection services to support highway, building and airport projects. NGE has a staff of well-trained and highly-experienced construction technicians who work under the supervision of licensed professional engineers. Our technicians are trained and have WVDOH certification in the areas of soil compaction, aggregate and bituminous materials.

### NGE can provide and manage the following services:

- Fill placement monitoring and soil compaction testing
- Concrete sampling and testing
- Aggregate sampling and testing
- Examination and verification of foundation bearing soils
- Pile driving inspection
- Drilled pier inspection

### CROSS-HOLE SONIC LOGGING OF DRILLED SHAFTS

NGE is experienced with conducting Crosshole Sonic Logging (CSL) testing to evaluate the integrity of drilled shafts. Our cross-hole analyzer is approved to conduct CSL testing in accordance with ASTM Standard D6760. Typically, our technician conducts the field tests on the drilled shafts and briefly reviews the data to verify that enough information has been collected. The data is then fully analyzed at our office and a final report summarizing the test results is prepared by our registered professional engineer.

Our construction inspection staff will ensure your specific project goals are met competently and efficiently. Not only can you rest assured that you have chosen the most knowledgeable company for the job, working with NGE will also help you meet your DBE goals for state-funded projects and Small Disadvantaged Business goals for federally-funded projects.

*Cross-Hole Sonic Logging Equipment*

## GEOTECHNICAL ENGINEERING SERVICES

NGE is a leading and recognized expert in the geotechnical engineering field. Our geotechnical practice combines senior geotechnical engineers with our in-house drill rigs and drilling staff to streamline geotechnical designs. Our team is experienced in characterizing subsurface conditions and predicting reactions to variable loading conditions. The benefits of utilizing our geotechnical engineering services often result in improved foundation design, fast-track construction time, lower project costs, and reduced delays. We are especially experienced and qualified in dealing with the types of geotechnical issues typically encountered in the Appalachian region.

### SOME OF THE GEOTECHNICAL ENGINEERING SERVICES NGE PROVIDE INCLUDE:

- Commercial development geotechnical investigations and reports
- Shallow and deep foundation analysis
- Highway and bridge geotechnical studies
- Well pads and compressor stations geotechnical investigations
- Water storage tank investigations
- Freshwater and wastewater impoundment investigations
- Mine subsidence investigations
- Pile drivability studies
- Groundwater and seepage studies
- Slope stability studies
- Fill embankment analysis and design
- Cut slope analysis and design
- Retaining wall design
- Landslide investigations and remedial designs
- Laboratory soil testing
- Geotechnical instrumentation

10. HAS THIS JOINT-VENTURE WORKED TOGETHER BEFORE?			NO						

11. OUTSIDE KEY CONSULTANTS/SUB-CONSULTANTS ANTICIPATED TO BE USED. Attach "AML Consultant Confidential Qualification Questionnaire" for each if copy is not on file with AML.

[illegible]

12. A. Is your firm experienced in Abandoned Mine Lands Remediation/Mine Reclamation Engineering?

NO: Note that Novel Geo-Environmental (NGE) has not performed any AML design work to date, but our WV Office Manager (John E. Nottingham) and project geologist (Chuck Montgomery) have extensive AML experience with their former firm. Additionally, NGE has held contracts with WVDEP-AML for geotechnical drilling for the northern and southern districts of WV and has completed several drilling projects under this contract.

B. Is your firm experienced in Soil Analysis?

YES: NGE specializes in Geotechnical Engineering including foundation investigations, subsurface investigations, cut slope design, fill embankment analysis and design, slope stability analysis, landslide analysis and corrective design, mine subsidence investigations, geologic studies, groundwater seepage analysis, foundation design, retaining wall design, pavement design, subsurface drilling and monitoring well installation. NGE has performed a total of several thousand geotechnical engineering related projects since the company was formed in 2002.

C. Is your firm experienced in hydrology and hydraulics?

NO: While our firm has not performed any hydrology/hydraulics projects to date, our personnel have experience with former employers.

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?

NO

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in evaluation of aquifer degradation as a result of mining.)

NO

F. Is your firm experienced in Acid Mine Drainage Evaluation and Abatement Design?

NO

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
Nottingham, John, E.	12	4	0

Brief Explanation of Responsibilities

Mr. Nottingham was responsible for supervising field and design work for numerous AML related landslide abatement projects for the WVDEP while under the employment of Triad Engineering, Inc. In addition to landslide abatement projects, Mr. Nottingham was involved in subsidence determination investigations and subsidence abatement projects. Mr. Nottingham worked extensively on "emergency" projects which required quick field investigations and corrective designs.

EDUCATION (Degree, Year, Specialization)

Bachelor of Science in Civil Engineering, 1987, WVU, Specialization - Civil and Geotechnical Engineering  
Masters of Science in Civil Engineering, 1995, WVU, Specialization - Geotechnical Engineering

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

American Society of Civil Engineering (ASCE)  
West Virginia Chapter of AIA

REGISTRATION (Type, Year, State)

Professional Engineering, 1994, WV  
Professional Engineering, 2007, VA

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
Montgomery, Charles, E.	10	4	0

Brief Explanation of Responsibilities

Mr. Montgomery was responsible for coordinating field activities for AML landslide abatement projects for the WVDEP while employed with Triad Engineering, Inc. Mr. Montgomery has also participated in all project phases for other AML work involving subsidence determinations/abatement and impounded mine pools.

EDUCATION (Degree, Year, Specialization)

Bachelor of Science, Geology, 1991, Marshall University

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

Association of Engineering Geologists  
Geological Society of America

REGISTRATION (Type, Year, State)

Professional Geologist, 1999, Kentucky

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.) Nottingham, Larry C.	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE: 15	YEARS OF AML RELATED DESIGN EXPERIENCE: 5	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE: 0

**Brief Explanation of Responsibilities**

Dr. Nottingham planned and supervised several AML investigation and reclamation projects for WVDEP while employed by Triad Engineering. Projects included burning refuse pile investigations, unstable refuse pile investigations and remedial designs, landslide investigations and remedial designs, subsidence investigations, and underground mine fire investigations.

**EDUCATION (Degree, Year, Specialization)**  
 Bachelor of Science in Civil Engineering, 1965, Civil Engineering, West Virginia Institute of Technology  
 Master of Science in Civil Engineering, 1966, Geotechnical Engineering, University of Pittsburgh  
 Doctor of Philosophy, 1975, Geotechnical Engineering, University of Florida

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS	REGISTRATION (Type, Year, State)
Member, American Society of Civil Engineers	Professional Engineer, 1969, WV
Member, National Society of Professional Engineers	Professional Engineer, 1985, KY
	Professional Engineer, 1985, OH
	Professional Engineer, 2006, PA

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.) Brown, Gene	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE: 5	YEARS OF AML RELATED DESIGN EXPERIENCE: 5	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE: 0

**Brief Explanation of Responsibilities**

Mr. Brown was responsible for coordinating field activities for AML landslide abatement projects for the WVDEP while employed with Terradon, Corp. Mr. Brown has also participated in all project phases for other AML work involving subsidence determinations/abatement.

**EDUCATION (Degree, Year, Specialization)**  
 Bachelor of Science in Civil Engineering Technology, 2000, Bluefield State College  
 Bachelor of Science in Architectural Engineering Technology, 2000, Bluefield State College

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS	REGISTRATION (Type, Year, State)
	Professional Engineer, 2008, WV
	Licensed Remediation Specialist (LRS), WV

14. PROVIDE A LIST OF SOFTWARE AND EQUIPMENT AVAILABLE IN THE PRIMARY OFFICE WHICH WILL BE USED TO COMPLETE AML  
DESIGN SERVICES

Five rotary track-mounted drill rigs. Drills are equipped with hollow stem augers, split-spoon soil sampling equipment, and rock coring tools.

Portable dynamic cone penetrometer.

Electric concrete coring drill.

Two rollback trucks, one road tractor with trailer and two equipment hauling trailers.

Software includes: Word processing, PCSTABL - Slope Stability Analysis, LPILE Plus 4.0 - Pile Foundation Analysis, PYWALL 2.0 - Retaining Wall Analysis, ReSSA 2.0 - Reinforced Soil Slope Analysis, ReSlope 3.0 - Reinforced Soil Slope Design

Soil Laboratory Equipment: Soil Oven, Scales, Sieves, Liquid and Plastic Limits Machine, Direct Shear Machine, Unconfined Compression Machine, Point Load testing.
