### SAI HARITHA BADAM

The Technical Applications Programmer must have at least two years of paid work experience in the following:

- ✓ Coding for systems in Visual Studio 2010, 2013, and 2019
- ✓ Web development including but not limited to HTML, ASP.net, Javascript, CSS, C# & Internet Information Services (IIS)
- ✓ Debugging code. Documenting code changes consistently throughout the developmental process
- ✓ Working with a team of developers to define new features and then code, test and integrate with existing systems

### PROFESSIONAL SUMMARY:

- **Dot net Professional with 5+ years of experience in Web/WinForms applications using ASP.NET, C#, VB.NET and SQL Server with active involvement in all the phases of Software Development Life Cycle process (SDLC) Analysis, Design, Development, and Implementation of Client/Server applications using Microsoft .NET.**
- Experience with applications that implement Object Oriented Design Pattern MVC.
- **Hands on experience and in web page design with Cascading Style Sheets (CSS3), HTML 4/5.**
- Expertise in ADO.NET objects as a part of accessing and updating with database and database Connectivity (ADO.Net) in Web and Win Forms Application
- Excellent skill in data modeling and implementing tables, views, stored procedures, functions, schemas, and Triggers using T-SQL Queries and PL/SQL.
- Good application deployment experience on Windows and on other platforms like UNIX, Solaris.
- Expertise on working with RDBMS like DB2 (v 8.1.2) and Oracle (v 8i, 9i, 10g) and knowledge of directory services like LDAP.
- Designed large numbers of WPF Forms and used XAML for the same.
- Involved in development of projects using SQL Server Integrated Services (SSIS), SQL Server Reporting Services (SSRS) and Data Transformation Services (DTS)
- **Good experience with Agile (SCRUM) methodology, Waterfall, and Test-driven development.**
- **Experienced in Requirement Analysis, Architecture & Design Documentation, Reviews, System Development, System Testing, System Implementation, User Documentation.**
- Experience in configuration and version management using Sub Version (SVN), Team Foundation Server (TFS), GIT and defect tracking tools like JIRA, **Visual Studio Team Services**, Database projects.
- Performed Unit Testing (using N-Unit), Integration Testing and Performance Testing.
- Experience in using multi-Threading concept. Experience using Team Foundation Server (TFS) for version Control, Microsoft Visual Source Safe (VSS) Source code control system and GIT Lab.
- Proficient in designing and generating reports using .NET integrated Crystal Reports
- Proficient in relational database like, data modeling, SQL Server 2005/2008/2012
- Experience in using SQL Server management Studio for monitoring the instances of SQL Server
- Strong object-oriented design concepts and practical knowledge of design patterns
- **Effective in working independently and collaboratively in teams.**

### TECHNICAL SKILLS

**Programming Languages:**

**C#.Net**, Visual Basic 6.0, PL/SQL.

## EDUCATION:

- Bachelor of Technology in Computer Science & Engineering from Sri Venkateswara University. India
- Master of Computer Applications (MCA) from Jawaharlal Nehru University, Anantapur India

## PROFESSIONAL EXPERIENCE:

**Feb 21 – Till date**

*.Net developer*

**Express Scripts, Franklin Lakes, NJ**

**Project description:** Pharmacy API services caters to specialty, home delivery pharmacies supporting prescription processing right from intake until dispensing. REST APIs supports various stages of prescription processing. Intake, Prescription creation, order entry, clearance, order scheduling, shipping, etc.

### Responsibilities:

- **Worked with ASP.NET Web Forms, State Management, Sessions, Cookies, Caching features for optimization and configuration of the web application using C#.**
- **Implemented ASP.NET architecture to accomplish task of isolating Business Layer, Presentation Layer and Data Layer. Involved in designing and development of SOA services using WCF.**
- **Involved in developing the UI pages using HTML5, CSS3, JavaScript, jQuery and AJAX.**
- Created and consumed Restful Web API to achieve Screening and transfer JSON data by using HTTP protocols
- Applying best design patterns such as n-tier, Repository, and Singleton for designing key reusable components.
- Used JQUERY and AJAX for service calls on pages to interact with the server for information.
- **Responsible to categorize incoming bug presented in TFS according to its respective module.**
- Use XML, XSLT, XPATH to design and to display documents developed in Visual Studio.
- Designed entire framework to support Test Driven Development (TDD) by making use of Dependency Injection through unity framework and developed a generic repository
- **Designed and enhance web application layout and forms using HTML5, CSS3, and JavaScript.**
- **Created Cross-Browser compatible and standards-compliant CSS-base page layouts.**
- **Designed table-less layouts using CSS and appropriate HTML tags as per W3C standards**
- **Handled all aspects of the web applications including maintaining, testing, debugging, and deploying.**
- Used NUnit Testing for testing and debugging of the application for better performance.
- Implemented Web Authentication in MVC 3 using Authorize keyword for the controllers and actions.
- Extensively worked on Data Annotations in MVC 3 application to perform the validations on HTML user controls.
- Extensively used Java script, and jQuery plugins for various client-side scenarios and for also validations.
- Extensively used CSS for the proper alignment across multiple browsers

PO Box 1187  
Charleston WV 25324  
855-807-6278 phone  
888-680-6555 fax

- Implemented Object-Oriented Programming concepts of interfaces, inheritance, abstraction, and polymorphism.
- Made Asynchronous calls to web services which take long time to return the result.
- Implemented exception blocking, tracing, and logging mechanism using the Enterprise Library5.0.

**Environment:** Visual Studio 2013,2017,2019 .Net Framework 4.5, VB.NET 11.0, C#.NET, HTML5, OOPS, WCF, Webservices, Agile/Scrum, Windows 7, XML, XSLT, AJAX, JavaScript, TOAD, CSS3, SSRS, Web forms, T-SQL, Bootstrap, jQuery, SSIS, Web Services, NUnit, SQL Server 2012, Web API, PowerShell, MS Office, Team Foundation Server

**Apr 18 - Dec 20**

*Dot net developer*

**Tesla Motors, Fremont CA**

**Project description:** Scrap rebates are expected to be Tesla's need to maximize this revenue stream with more effective management and information flows. Manufacturing team scraps material per the current MES transaction process and discards in appropriate scrap bin. Inventory is now financially eliminated from Tesla's balance sheet. Recycling Program starts here to try to maximize our return on scrap

**Responsibilities:**

- Involved in gathering business/functional requirements to technical requirements.
- Involved in designing the Scrap Recycle System.
- Created windows form applications which converts web page to images.
- Designed the n tier architecture using Microsoft technologies
- Intranet Application has been created using MVC Asp.Net Razor, Kendo UI, C , WCF, Entity Framework 6.0, Sql Server 2008.
- Created WCF Service to look up and retrieve the data from database.
- Developed SQL Queries, Stored Procedures and Triggers using T-SQL in SQL Server.
- Used WPF to add graphics, worked heavily on custom template controls
- Involved in creating, deploying, and managing reports using SSRS.
- **Documentation of design options and solutions according to Software Development Life Cycle (SDLC) methodology.**
- Used Silverlight for presentation layer and LINQ for Data Access Layer.
- **Developed core functionality with the ASP.NET MVC Framework (C#.NET, ADO.NET)**
- Internet Web application for vendor's to bid on commodities has been created using asp.net, Telerik, WCF, entity framework, SQL server and deployed on SharePoint.
- Created task schedulers for running task to reward bid to highest bidder using windows application
- Created Dashboard to get overall picture of scarp recycle management
- Created reports using SSRS
- Created builds and deployed application on Dev, Staging, Production

**Environment:** C ,MVC ASP.NET Razor, Kendo, AJAX, HTML, DHTML, JavaScript, jQuery, CSS, XML/XSLT, WCF,SQL Server 2008, **Visual studio 2012, 2013**, SSRS, SSIS.

**Oct 13 – Sep 14**

*Dot net developer*

**Sabka Technologies Pvt.Ltd India**

**Project Description:** This Web Application involves in all major activities such as online registration of the students depending on their standard from nursery to higher education, parent registration and conducting online examination. after registration the parents has to buy the exams for their kids, the exams are scheduled on per week basis the parents have the feasibility to even purchase individual exams in which their kids are weak that is if a student is weak in mathematics, then the parents are accessible to see all the math exams depending on the standard of the student. Online exams saves time as it allows number of students to give the exam at a time and displays the results as the test gets over, so no need to wait for the

PO Box 1187  
Charleston WV 25324  
855-807-6278 phone  
888-680-6555 fax

result. It is automatically generated by the server. Soon after finishing the exams the test results are sent to the parents.

**Responsibilities:**

- Involved in Admin and User Module.
- Involved in the entire life cycle of SDLC like requirements, analysis, Implementation, and Maintenance.
- Involved in Development of UI using ASP, HTML, Ajax.
- Design and development of user interface using ASP.NET, VB.Net, HTML, JavaScript
- Created WCF Services and Client Proxy for communication between Application Server and Web Server.
- Provided session level security and password authentication using Session objects and Cookies.
- Designed and developed several SQL Server Stored Procedures, Triggers, Views, User defined Functions for all the DML functionality for the web site.
- Involved in testing the application using N-Unit testing.
- Written Queries using T-SQL Statements, Views, User Defined Functions, Stored Procedures, Triggers in SQL Server 2008 for inserting/Updating/Deleting the data into the Relational Tables.
- Worked Extensively with Query Optimization Techniques to Fetch Data with better Performance Tuning.
- Writing SQL Queries, Functions, and Procedures etc. for the application.

**Environment:** C#3.5, ASP.Net 3.5, SQL Server 2008, Microsoft **Visual Studio 2008**, Visual Source Safe, Windows XP Professional

**Sep 12 - Oct 13**

*Jr .Net developer*

**Sabka Technologies Pvt.Ltd India**

**Project Description:** This application fully covers the maintaining the medical / medication records of patients over web, each member who have signed up to specific hospital and who are registered will be holding chip enabled smart card which will hold the important contact details of the registered person. Information of the patient will be fetched from the smart card that will be registered to respective hospital.

**Responsibilities:**

- Developed Stored Procedures, Functions, DTS packages, Triggers, Cursors, Tables, Views, Indexes and other SQL joins and statements for applications.
- Designed stored procedures and triggers for automating tasks.
- Tested the reports and fixed bugs in Stored Procedures, Tables and Triggers.
- Schedules and performed data transfers using DTS including filtering appropriate to the data mart for data analysis.
- Implemented ADO.NET SQL Client objects like Command, Data Adapter, Dataset, and Data Reader for database connection and executed database queries to interact with SQL Server database.
- Developed and edited many complex reports with SQL Server Reporting Services 2005.
- Worked on ASP.net web forms with C#
- Code Review, unit testing and debugging.

**Environment:** C#.Net, .Net Framework 4.0, ADO.Net, SQL Server 2008, Microsoft **Visual Studio 2010**, Windows XP Professional

STATE OF WEST VIRGINIA  
Purchasing Division

# PURCHASING AFFIDAVIT

**CONSTRUCTION CONTRACTS:** Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

**ALL CONTRACTS:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**DEFINITIONS:**

**"Debt"** means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

**"Employer default"** means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

**"Related party"** means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
