Comments: We are quoting two options.
 Your spec appears to have been written to describe a Kawasaki Mule 4010 Trans 4x4. While that is indeed a current Kawasaki model, they have severely curtailed production of that vehicle and are not accepting fleet orders for that vehicle in their government/fleet sales program. If you must have that vehicle, we are happy to provide it, but it will be an extended lead time, possibly 180+ days, and delivery time may be outside the window of the current budget. These are circumstances over which we unfortunately have no control. The cost for the Kawasaki option will be \$26,015/each, configured to your specifications.
 The other option we are proposing is a Can-Am Defender MAX DPS HD7. Please note the following 2 deviations from your specs:
 1.) The length is longer than you requested
 2.) The bed length has different dimensions (38" x 54")
 If these two deviations are not acceptable, PLEASE DO NOT SELECT THIS OPTION.
 However, please note that availability of the Can-Am option is between 30-45 days. The cost of the Can-Am option is \$25,740/each, configured to your specifications, except for the two deviations mentioned above.
