| <b>Certifications</b>   |  |
| <b>SAFe 5.0 Certified Agilist, INS 21</b>   |  |
| <b>Professional Experience</b>  |  |
| <ul style="list-style-type: none"><li>Script forms, code and develop new Documaker applications to replace existing Documerge mainframe programming for driver letters, premium increase letters, and reinstatement transactions.</li><li>Manage offshore team provided by vendor(s) supporting forms applications for both Documerge and Documaker, including creating assignments, writing technical specifications, code review, testing (all phases – development, agile, QA staging), post-production validation, handling defects, and ad hoc requests. Demonstrated experience in programming.</li></ul> |  |

- Code, test, deploy various updates to Documaker ARS Directbill, COS (policy packet) and DNOC systems.
- experience in technologies like **C#, .NET CORE, .NET Framework, ASP.NET, ADO.NET, MVC Framework, Angular, ReactJS, Vue JS, AJAX, LINQ, VB.NET, Micro Services, Web Services, SOAP, REST API, Web API, SQL Server, Oracle, Visual Studio**
- Mentor, train over 10 agile team members with Documerge/Documaker products (includes providing form(s) design and matching coding solutions), which results in a significant decrease in delivery to market time frames and increase in volume of forms deployed each sprint.
- Support BOP quote proposal conversion from PEGA to Documaker Studio with real-time solution and agile teams with technical design, system flow.
- Provide direction and guidance with end-to-end forms processing expertise to DEVOPS team which built corresponding automation functionality (for both mainframe and distributed applications).
- Assist with re-platform analysis with several vendors for leadership review, which will direct the next phase in upgrading the entire forms **inventory**. Quadient Inspire, **Opentext Exstream, Oracle** Documaker and **Adobe** Experience Manager were vendors consulted.
- Collaborate with business operations, customer service, and business production support teams via workstreams in identifying/reviewing the insureds' pain points with policy packets and providing both short/long term solutions.
- Conduct proof concept (POC) with **PEGA** consultants to refactor form scheduling from TMF/**DB2** tables.
- Apply system vulnerability fixes/patches/updates to on-prem forms dedicated servers.
- Work with agile teams in transition of Documaker Studio applications, **Opentext** eDocs and AutoIT jobs to AWS cloud servers. Includes hands-on support with **Opentext** installation and batch job setup.
- Collaborate with agile teams in converting **TMF** forms scheduling to **DB2**, for both Umbrella and Workers Compensation products. This includes review of code, table entries, and testing validation.
- Spearhead effort with technical debt by introducing user stories to reduce **MIPS** consumption, help program flow (including reduction in lines of code in the Documerge VDRs), remove obsolete steps in job batch flows, automate forms releasing processing and eliminate **JAVA** components in eDocs validation process.
- Experience in Database Design, Database Management and Data Migration using **SQL Server, Oracle**
- Guided the integration of eSign (DocuSign) forms, **CSS** portal (eDocs availability of policy documents and proxy card voting) for insured clients and BIE ability to upload reduction in notice forms directly to Filenet.
- Enhanced Documaker Final Audit program with second phase business requirements updates, in providing additional and needed class code **data** to the insured.
- Solutioned, coded, tested process to automate printing of barcodes to Documerge applications (PMA project) through AutoIT script resulting in substantial cost savings to DS&L print operations.
- Introduced multiple product enhancements, which involved major complex declaration page redesign and managing high-volume form rollout migrations.
- Created, developed, and introduced forms design process of DCF format to Elixir to current state Documaker Studio.
- Experienced using different contract types including Cost Contracts Firm Fixed Price (**FFP**) Contracts of moderate to large complexity to include **MACC**.
- Developed Documerge application for Personal Lines CDJ with MICR print, this resulted in automating the manual process in place and saving labor costs.

- Identify opportunities in the market and generate demand in pre-sales activities.
- Work with Goldengate logs to debug and setup for new environment.
- Performance tuning and debugging on different database flavors **Postgres, Oracle and SQL**.
- Worked on replication, DR activity on **Oracle 19c databases on Oracle cloud (OCI 2.0)**.
- Develops procedures and performs maintenance activities to monitor database operations including disk utilization, processor utilization and response time; develops standards and procedures related to database systems and monitors compliance.
- Experience **.Net Framework 3.5 and 4.0**, C#.Net, **VB.Net**, Win forms, Multithreading, **Web forms**, WCF, WPF, **Web Services**, Windows service, **ASP, COM, VB, XML, HTML, SQL Server**, MVC 4, CMS and IIS
- Use of **Python programming language** to develop scripts and applications for interaction of devices.
- Migrating data from on-prem main frame data to **SQL server in Azure cloud**.
- Analyzes database requirements of various applications; recommends solutions which require definition of the physical structure and functional design of databases; develops procedures and monitors compliance for data security and backup/recovery specifications; prepares detailed specifications and **entity relationship diagrams (ERD)**
- Develop time estimates for project schedules, monitor progress, and provide accurate and timely reports.

**Huntington Bank (Columbus, OH)**

**(Jan 2019 - Nov 2019)**

**Database Administrator**

**Roles & Responsibilities:**

Served as DBA in the completion of 80+ medium- to large-scale implementations, managing projects from business requirements analysis to solutions delivery and support.

- Interacted with business customers to define, analyze, and deliver customer requirements.
- Identify and evaluate business and technology risks, internal controls which mitigate risks and related opportunities for internal control improvement.
- Reduced the import time in data-pump of the 4Tb data from 35hrs to 6hrs.
- Maintained snowflake databases for development & staging.
- Experience in dimensional and data modeling and creating ETL pipelines.
- Worked on **SQL Server** failover clustering and SAN replication for db size more than 1TB.
- Work with Manager, Global parameters, Extract and trail files in Golden Gate.
- Collaborate with analytics and business stakeholders to understand and supply data needs.
- Utilize expertise in modern data warehousing, business intelligence, and data modeling to provide high-quality services to clients.
- Involved in creating Restful **Web Services using C# .NET framework and .NET Core**
- Python programming to script network design processes
- Use of **C++ programming** for input/output instructions
- Make sure to add new tables which needs to be replicated using GoldenGate and Qlik.
- Migrated databases from onprem to OCI cloud for POC, and coach the Junior dba's on the steps to do.
- Worked on replication, DR activity on Oracle and SQL databases.
- Document, and administer database backup and recovery plans, capacity plans and security plans to meet project requirements w.r.t **AWS cloud and on-prem**.

**FedEx (Memphis, TN)**

**(July 2018 - Dec 2018)**

**Database Administrator**

**Roles & Responsibilities:**

- Managed a \$1.2 million data-integration project that consolidated information from accounting applications, third-party market data and internal equities/fixed income applications. And supported over 13,000 Oracle databases.
- Perform Security patching, migrations and new business rollouts.
- Defines and develops detailed plans and metrics for large complex projects.
- Focus on internal and external customer Specification and Business Processes.
- Regular **MACC** unit and user focus group meetings as requested to discuss problems.
- Worked in a team-oriented environment where we analyzed and resolve highly complex problems.
- Worked on multiple applications (2 different applications) at the same time.
- Monitored production database using **AWR and ADDM** for Daily or weekly tuning needs.
- Worked on **SQL server** in maintain the objects, deploying scripts and performance tuning.
- Collaborate with analytics and business stakeholders to understand and supply data needs.
- Utilize expertise in modern **data warehousing, SAP-Hana, business intelligence, and data modeling** to provide high-quality services to clients.
- Experience in dimensional and data modeling and creating **ETL pipelines**.
- Helped the team in Implement IBM-Guardium policies- to hide customer's private and corporate information.
- Training dbas on specific application/Product Design schemas and secure the database.
- On call 24x7 production support experience.

**Blue Cross Blue Shield (Chicago, IL)**

**(Jan 2017 - June 2018)**

**Security Database Administrator**

**Roles & Responsibilities:**

- Worked with internal and external customers with traditional waterfall model to plan, evaluate, and design databases in accordance with company standards.
- Monitor databases and performed capacity planning based on last 6 months space usage captured through OEM.
- Responsible for development, troubleshooting and performance tuning for more than 200 Oracle Databases and 10 **Snowflake databases**.
- Monitored databases through spotlight and **OEM 13C** and assisted team in Root- cause Analysis.
- Perform Backup and Recovery of Primary and Standby Databases using RMAN and external backup.
- Did schema refreshes use **Datapump (expdp/impdp)** on same or different database environment.
- Worked on snowflake databases, maintaining data and cleaning up and sync up using pipelines.
- Supported development by providing better **SQL statement and optimizing ETL procedures** and removing load and query performance bottlenecks by using tools like Explain Plan, **SQL Trace, TOAD and Oracle Enterprise Manager (OEM)**.
- Monitoring and Tuning the CPU, memory usage, I/O contention, paging, network statistics on db servers by using foglight.
- Experience in dimensional and data modeling and creating ETL pipelines.
- Conducts detailed database analysis; prepares activity reports on database usage; recommends solutions to improve performance or solve problems; installs DBMS (database management system) software and other utilities; projects long-range requirements for database administration.
- Plan growth and changes (capacity planning) in RAC environment and worked with ASM.

- Maintains all documentation related to databases and license needs, provides common procedures to be carried out by operations and/or help desk personnel, relative to database availability and integrity.
- Creating Query and Audit reports on IBM Guardium and practice best practices to secure database.
- Scanning for Vulnerability assessments based on CIS and Oracle guidelines and discuss with the team as how to rectify.

**Genworth Financials (Raleigh, NC), Georgia Power (Atlanta, GA) (October 2013- December 2016)**  
**Oracle Database Administrator**

**Roles & Responsibilities:**

- Interacted with business Customers to define, analyze, and deliver Customer requirements. So have good understanding of the business process.
- Monitor databases using **OEM 13C** & supported Nuclear databases and Other Business Critical Applications including Exadata targets.
- Main focus on Oracle TDE encryption, encrypted more than 100 databases and created OKV.
- Meetings with application owners/ and project managers for the requirements and design/execute it from the scratch to release in production stage using agile methodology.
- Upgrade of **databases from 11.2.0.3 to 12.1.0.2** for more than 2000 Databases.
- Manages the strategy and roadmap implementation for Identity and Access Management.
- Supported development by providing better SQL statement and optimizing ETL procedures and removing load and query performance bottlenecks

### **Client-Centric Approach:**

Our client-centric philosophy places Department of Administration Purchasing Division, West Virginia at the heart of all our endeavours. We customize our Staffing Services to cater to distinctive needs, nurturing enduring partnerships founded on trust. At Clovity, our Staffing process is fundamentally driven by a client-centric ethos. We place paramount importance on comprehending our clients' individual needs, obstacles, as well as objectives, and then crafting staffing solutions that surpass their expectations. Our unwavering dedication to excellence guarantees that each resource we offer seamlessly aligns with our clients' needs, propelling them towards success and nurturing enduring collaborations.

### **Service Level Agreement:**

At Clovity, we pride ourselves on our commitment to delivering exceptional service to our valued clients. As part of our dedication to transparency and accountability, we are pleased to introduce our Service Level Agreement (SLA), outlining the standards of service you can expect from us. This document serves as a roadmap for our mutual success, defining key metrics, response times, and support procedures to ensure a seamless experience and maximum satisfaction. We believe that clear communication and defined expectations are crucial for building strong partnerships, and our SLA reflects our unwavering dedication to meeting and exceeding your needs. We look forward to continuing to serve you with excellence.

***Below are our Key SLA's, Clovity Inc assure to Department of Administration Purchasing Division, West Virginia:***

1. **Standard Turnaround Time:** Clovity Inc has its Standard Turnaround Time of 2-4 hrs under which we provide a candidate under this timeline keeping our quality intact.

## Key KPIs Dashboard

**95.8%**

Delivery Success Ratio (DSR)

**9.2/10**

Customer Satisfaction Score (CSS)

**2-4 Hours**

Standard Turnaround Time (TAT)

**1 Day**

Candidate Replacement SLA (CRS)

## KPI Trend (Last 5 Years)

Delivery Success Ratio (DSR) Percentage

Customer Satisfaction Score (CSS) Out of 10

Standard Turnaround Time (TAT) No. of Hours

Candidate Replacement SLA (CRS) No. of Days

- Delivery Success Ratio:** After years of service in the staffing industry, Clovity Inc has managed to deliver **almost 96% success ratio**. We ensure the same commitment to Department of Administration Purchasing Division, West Virginia as well.
- Candidate Replacement Time:** Clovity Inc understands the issues that may arise during the work tenure of employees. Therefore, in the case of any discrepancy in the work quality of its placed candidate. Clovity Inc ensure to replace the candidate with **24 hours**.
- Candidate Experience:** Clovity Inc believes in providing our clients what they ask for. Hence, we adhere to their demands and provide the best suited candidate with appropriate experience that is either asked or required by the given positions. We offer the same SLA to the Department of Administration Purchasing Division, West Virginia as well.
- Cost Per Hire:** Clovity Inc has the robust and well-versed team of recruiters who will offer the Department of Administration Purchasing Division, West Virginia the best candidates from our pool at highly competitive cost.

### Proven Results:

Clovity has a demonstrated history of achieving and surpassing project goals. We have successfully **completed multiple projects** similar to the one outlined in the scope of work, delivering on time and within budget. Recently we won 6 New Contracts in last month, similar to the services described in Scope of work by *University of Utah Health*.

### Financial Stability:

Clovity maintains a solid financial foundation, enabling us to invest in the necessary resources and technology required to meet and exceed project expectations. Our financial stability guarantees the successful and sustainable delivery of services throughout the project lifecycle.

In summary, Clovity is uniquely positioned to provide the requested services within the scope of work. Our combination of **technical expertise, client-centric approach, proven results, robust project management, and financial stability** make us the ideal partner for Department of Administration Purchasing Division, West Virginia. We look forward to the opportunity to contribute to the success of this project and build a lasting, mutually beneficial partnership.

### **Business Excellence**

---

Our technical excellence goes beyond merely recruiting personnel; we recognize the importance of comprehending the intricate demands and intricacies of the day-to-day operations in recruitment environments. By offering a diverse array of services, we ensure that our clients receive holistic solutions tailored to their specific needs. We believe that a deep understanding of the entire IT recruitment ecosystem is paramount for success in these critical sectors.

Clovity Inc always follow **FTR approach**. To achieve this, we always confirm candidate qualifications with key criteria's such as technical skills, experience, work habits, interpersonal skills, quality of work performed, etc.

We possess cutting-edge capabilities in IT procurement, ensuring that we stay at the forefront of all industry advancements. Our recruiting team is experienced in broad Recruitment for **Database Administrator, Business Analyst, Data Architect, IT Continuity Analyst, IT Project Manager, Software Developer, Network Engineer, Design Services, Engineering, Quality Assurance and Quality Control Analyst, Head, Senior Administrative Analyst, Project Support Assistant, Estimating, Integration Management, Information Technology, Procedures, Project Controls roles**.

### **Our Achievements**

---

Clovity Inc has grown **around 50% year-on-year** since its inception and is entrusted by several prominent private and public sector (full referenceable) customers, with several of them being customers since the company's inception. We are privately owned, have no outside investors, and have recorded **17 consecutive quarters of profitability including 2020, 2021 & 2023**. Clovity Inc business practice and engagement model provides technical staffing and professional services for every sector in the industries. Since the beginning of 2024, **we have been honoured with 7+ staffing awards and secured multiple contracts like The Department of Administration Purchasing Division, West Virginia's requirement**.

**In 2021, 2022 and 2023, we were ranked by Inc. 5000 List of "America's Fastest Growing Private Companies" (3 years in a row). Clovity Inc has won the "Fast 100 and Fast 50 Asian American Business Excellence Awards" in both 2023 and 2022 along with the "IoT Innovator Award - Best of IoT - Smart Buildings" in 2022. The journey of the **15+ years** has been marked by a series of significant milestones. From pioneering Staffing Services in multiple domains that revolutionize industries to garnering prestigious accolades for excellence, Clovity has left an indelible mark on the global stage. With a diverse portfolio of successful projects spanning IT, Non-IT, and healthcare. Clovity has proven time and again its ability to deliver transformative results that drive tangible business outcomes.

However, beyond the numbers and achievements, what truly sets Clovity apart is its unwavering commitment to its core values. Integrity, innovation, collaboration, and customer-centricity are not just buzzwords but guiding principles that permeate every aspect of the organization. It's this steadfast dedication to doing what's right and putting clients' needs first that has earned Clovity the trust and loyalty of partners and customers alike.

# Thank You
