HAN has associates working in various facilities/institutions all over the country as displayed above & most of our clients are government-owned agencies and institutions and that is why we feel we are best suited to provide services under the anticipated agreement.

As such, HAN has the experience, capabilities and resources at both the organizational and individual levels to provide Technical Temporary Staffing Services to programs comparable in size, scope of work, and urgency as found within this solicitation. When the office is closed an on-call coordinator is available to provide qualified temporary and permanent staff quickly. This Contract will be responded to via order by order basis. We will provide accurate reports. We shall provide staffing during holidays and weekends as needed. We shall provide all the pertinent information and employee certifications or licenses before the work commences. The availability and commitment of our key executive staff will guarantee that the facility will be provided with the most qualified personnel available. HAN will be successful in filling the staffing orders for all Technical Temporary Staffing Services proposed. This is because we already have qualified people in our database who can fulfill the requirements.

HAN provides the best in background checks, personnel screening, physical exams, drug testing and job-specific skill testing. We will function as an objective advocate to facilitate any and all conflict resolution and will provide annual and special evaluation forms so that we can be provided with feedback as part of our quality control initiative.

HAN will provide the best tailored services, the best personnel, with the required qualifications for each order.

Staffing Methodology and Approach

HAN recruiters receive extensive training in order to identify experienced and qualified candidates to service our client accounts. Upon contract award, the Contract Manager will host an orientation with their Recruiters that is tailored to the staffing qualifications and contract terms for the awarded contract. Our Recruiters will become familiar with the specific requirements of the contract and the qualifications of the personnel needed to satisfy those requirements. These specifications and requirements will be used as a benchmark for recruiting experienced candidates.

After several years of staffing experience, HAN has established and adopted a very thorough and effective approach in providing quality services to our clients. The Personnel ordering process is described below:

- 1) A personnel request order may be placed by the client via fax, telephone, or email.
- 2) It is then entered into our database system.
- 3) An acknowledgement is sent to the client to confirm order and collect any pertinent information regarding the position.
- 4) A search is made in our system to identify potential candidates that match the skills requested.
- 5) A report is generated listing the candidates found and contact with the employee is made by phone and a description of the work to be performed is given, including pay, hours, facility location etc. If the employee is interested, we will request documentation that meets the minimum qualification and experience for the corresponding job titles in the classification system.

- 6) Depending on the duration and scope of the requested service, we will decide upon the appropriate action in regard to security clearance or any additional testing as needed.
- 7) Some of the candidates in the database have previously worked in other assignment hence have everything in file and may start work immediately if they match the skills requested and have completed application profiles in the database.

Once an order is placed and the potential candidate is found, contact with the employee is made by phone and a description of the work to be performed is given, including pay, hours, facility location, and licensing requirements. Then, if the employee is interested, we will request documentation that meets the minimum qualification and experience as are used for the corresponding job titles in the classification system. We will send in a copy of the current class specifications to be maintained on file. We also keep all pertinent information regarding competency skills and other documentations in a database for easy access and audits.

Orders received are then entered into our system and an acknowledgement is sent to the client/facility. This takes 1-2 hours depending on mode used-fax or email. Our firm will take 24 hours to deliver resumes of the requested temporary or permanent personnel. This is considering the confirmation period, calling back wait times, and other factors that affect immediate response to this timeline. As we continue recruiting for the same position, we usually find shorter response times on the positions we recruit for. For example, if we call a candidate in our database and get a hold of them and they are interested the resume can be delivered within an hour because all pertinent information is already in our database thus after initial contact, we will submit them to the facility/client within 24hrs.

A Client could reasonably expect to conduct interviews within 48hrs. If drug testing is required prior to start of duty then an additional 24 - 48hrs because negative results are typically communicated the day after collection, while positive confirmations are typically communicated within 24 to 72 hours of the screening, with 40% reported the day after collection.

HAN usually will review more than one person for the requested service so that in case the one who goes to work does not fit we can provide a replacement thus keep staff supplied to our clients.

HAN can respond to emergencies and urgent requests as our clients are able to get a hold of a person 24 hours 7 days a week just by calling our after-hours phone. A live person will be able to respond and call someone to come in to work. Our normal response time for emergency calls is within 2 hours for employees in our database. For those not in the database we can still provide services within the 2 hours, but all the screening may not be completed. For example, drug testing takes 24-72 hours as mentioned above

HAN manages our clients in various geographical areas by assigning a recruiting manager who oversees a certain region and is given an orientation of the contract requirements for that area. She then relays the information to her recruiters who match candidates to fit the needs of the clients. For example, in Florida we found it necessary to set up an office to cater to the Orange County client. Thus, setting up local offices is an option that we are open to exploring if it helps us service the client better.

HAN has determined 9-step that are proven to work in hiring and selecting quality personnel, increasing revenue, reducing the stress that comes from dealing with problem employees, and increasing client satisfaction.

1. Phone Screen
2. Application
3. Assessment
4. Interview
5. Criminal Background Check
6. Work References
7. Personal References
8. Drug Screen

9. Client Interview

After only the first three steps we can disqualify those applicants that don't meet our standards, saving time and money, and move forward with those applicants that meet our criteria.

Once determination has been made that the applicant is a viable applicant it's now time to have them complete the Pre-employment Assessment. This assessment includes three components:

- Personality and Behavior Assessment
- Cognitive Reasoning
- Attitudes Assessment

These three components have been proven to be the most effective predictors of job performance, job satisfaction and retention. The Personality and Behavior Assessment will prove to be extremely beneficial in matching the right candidate with the right client. The Attitudes Assessment has been proven to help companies evaluate whether an applicant may display inappropriate attitude and behavior with a client. As we all know, one bad hire can be the difference between a profitable case and a failure.

We pay particular attention to what the applicant expects from his/her employment with HAN so that we can best gauge their level of responsibility, flexibility and career expectations. HAN is able to meet the personnel and staffing needs by utilizing a unique multi-brand strategy and a variety of proven and effective recruitment methods, HAN is able to attract the largest network staff all around the U.S. We strive for sustainable short and long-term solutions to our client's needs. We use many proprietary and innovative methods developed in-house to fill our positions with the best-available candidates. We have several vehicles of candidate sourcing that we utilize in pursuit of recruiting personnel, which include (but are not limited to) the following:

- **Internet Recruiting Strategies:** HAN has differentiated itself in the marketplace through aggressive use of technology as a recruitment strategy. By establishing a strong Internet presence with largely, famous web portal sites as well as our company brand sites, we have been able to recruit highly qualified professionals from across the nation. Our world-class Database performs most of the work for us, and our management and staff compliments this Database. HAN uses JobDiva software to run its day to day recruiting and order-filling functions, because this software allows us to place an order, track its status, confirm an employee, authorize timesheets, and so much more by a click of the mouse. This data base has a personnel skill matching capability with an excellent query. When a client calls us, it takes a moment for us to identify ideal candidates to the needs of our clients in our Database. HAN also utilizes websites such as CareerBuilder, Monster, and Indeed to complement our database and only give the highest graded candidate who match that specific order for placement. All our recruiting efforts and hiring policies are customized based on a client's scope of work, and the requirements of each project that HAN undertakes.
- **Direct mail:** Through our years of recruiting, we have developed an extensive database of personnel and their home addresses. Our datasets are meticulously structured, and we send out carefully crafted mail pieces in a methodical manner that optimizes responses
- **Cold calling:** Cold calling is the tried and true strategy for sourcing candidates, which is why we still use it today. Using an algorithm developed in-house, we can determine exactly which personnel meet the job's criteria and their likelihood of responding positively. This can drastically shorten the time wasted cold calling candidates who aren't qualified and decreases the overall cost of sourcing.
- **Email distribution:** At HAN, we source most our candidates through our email distribution efforts. We have an in-house tech team dedicated to ensuring our email efforts are unmatched by anyone in the industry.
- **Passive candidate networking:** It's not an uncommon occurrence for us to learn of an organization need of a candidate and for us to already have a short-list of candidate looking for a career jump into that exact position.
- **Referral bonus-based sourcing:** Referrals continue to return the highest-qualified and best-fitting personnel and we encourage this with a financial incentive -- either to the referrer or a charity of their choice.

The following additional strategies will be utilized to help meet the needs of large and or emergency order requests.

- Job Fairs
- Social Media Recruiting
- Online Recruiting
- Referral Program
- Print advertising/flyers
- Recruiter Networking – with work source centers, back to work programs, One Stop, EDD
- Controlling Turn Over – Service Bonuses

Diversity Recruitment

Achieving diversity is an increasingly important aspect of HAN recruitment practices. HAN sees diversity as an important way to promote fairness and equity in the workplace, foster communication, creativity, innovation, and respect among members of the workforce, and thereby increase our ability to provide high-quality services to the clients we serve and the community.

HAN seeks to increase the representation of minorities, women, veterans, and the disabled, especially in occupations and grades where they are currently underrepresented. As such, diversity is a key aspect of our recruitment strategies. And below is a list of some of the strategies we employ to ensure equity through our work: -

- Establishing intern programs targeted at minorities,
- Partnering and networking with professional associations and organizations whose members consist of persons who have been traditionally underrepresented in the labor force;
- Advertising in publications and on web sites whose focused readership include minorities, women, veterans, and the disabled;
- Partnering with military transition centers;
- Using targeted mailings and e-mailings; and
- Partnering with special emphasis event coordinators

Background Checks

HAN provides our clients a wide range and alternatives in the criminal history searches. This is performed based on the contractual agreement. The following are some of the background checks performed:

- ❖ **CRIMINAL HISTORY SEARCH** - This can be done on either a county level or, in some jurisdictions statewide search. The primary differences between the two searches are the time for return of product and the information contained in the report. Any search of an applicant who has been at their current residence for less than one year, begin at their prior residence.
 - **CORS** - This is our nationwide criminal history search tool and, as a screening tool, it is a wonderful addition to other products. This search includes hundreds of thousands of names of individuals charged with felonies and/or misdemeanor offenses; it touches every state, and includes a nationwide search of registered sexual offenders, departments of corrections, administrative office of courts, state repositories and county court records. In addition, some proprietary records are included from a variety of investigative sources. Because records from some of these sources, no matter who the provider is, may not be updated on a regular basis including some where the information is only updated on an annual basis. HAN does not recommend this as the only search to be conducted for criminal history information. It is a wonderful tool to identify areas not disclosed by a candidate that might require additional research.
 - **County criminal history search** – This information is obtained directly from the source-county. It should be noted that the only information available at this level is that which demonstrates incidents which took place in the one county. Incidents in a neighboring county will not be reported. The time period available from the courts will vary by jurisdiction. Generally, there will be a minimum of three years with the majority of courts providing at least seven years and some as many as 25 years or more. HAN searches county courts throughout the United States. In some jurisdictions, only the county level courts can be searched. California is an example of this research level. All searches are conducted to meet the guidelines of the state and national FCRA requirements and limitations.
 - **Statewide criminal history repository** – These repositories are generally maintained by a state agency such as the police department or administrative office of courts. In each state where a repository is retained, every jurisdiction is supposed to report information regarding both arrests and dispositions. The fact of the matter is that not all data is necessarily transmitted to the repository. That being said, more information is recorded than is visible in a single county search. Unfortunately, as in California, there are some states where the complete repository is not publicly disseminated. In these areas the only research that can be conducted is at the county level. If a candidate has lived in surrounding states, then a statewide search may be conducted. Statewide repositories often go back as much as 50 years and whatever information is recorded are also reported as long as it falls under Fair Credit Reporting Act compliance at the national and/or state level.
 - **Federal court searches** – Records of criminal offenses committed at the federal level, generally cases involving multiple jurisdictions, can be researched but are generally difficult to assure the identity of the person in question. Many of the cases will identify only the name of the subject with no other confirming identifiers. Unfortunately, this can lead to many “possible” records being found.
- ❖ **CREDIT REPORT** – This is a search of the prominent credit reporting agency for the applicant's residence. This provides information relative to the financial stability of the applicant and the applicant's overall sense of responsibility as well as confirmation of biographical data.
- ❖ **DRIVING RECORD** – This is either a three- or seven-year report of all violations filed against an individual's driving history. This report is also valuable in confirming the biographical information provided by the applicant.
- ❖ **EMPLOYMENT VERIFICATION (TELEPHONIC)** - Contact is made with an applicant's previous and, if authorized, current employer to learn more than just the dates of employment, salary and position held by the applicant. Reporting includes a comparison of the original application to determine any contradictions as well as any derogatory information that may be provided.
- ❖ **EMPLOYMENT VERIFICATION (GOVERNMENT RECORDS)** - A search of records provided to the Federal government of all FICA earnings reported by the applicant's employers. This information is obtained through

the signing of a special release form and will divulge concealed employments. For example, one study utilizing this report, at a large financial institution, found omissions or significant exaggerations on 40% of their applicants to include omissions from one to nineteen prior jobs in the past five years.

- ❖ **REFERENCE/CHARACTER VERIFICATION** - Contact is made with both supplied and developed references to learn more about the character of the applicant. The interviewing of these persons is done in a manner to elicit information about the applicant's social habits.
- ❖ **SOCIAL SECURITY NUMBER SEARCH AND VALIDATION (Back-Trac)** - This report contains the date and state in which the number was issued along with name and address history based on matches to the social security number submitted to a large number of public records and proprietary databases. The sources of this data may contain errors and omissions and thus cannot be used for employment decisions. It is used to corroborate names, addresses and associated dates that may or may not appear on the application and helps to provide a more comprehensive background investigation.
- ❖ **MALPRACTICE HISTORY** – Research is conducted through a variety of sources to determine any history of these records. Obviously, during employment verification, this is a topic of concern and may or may not be responded to by a previous employer. Secondly, searches conducted through state licensing regulators may disclose reports of wrongdoing, and a final option would be through the Health and Human Services Office of the Inspector General of the Federal Government. This is a search of persons who have been excluded by the government from receiving payment for any items or services involving a government transaction due to a violation of the law.

Drug Screening

HAN is committed to a drug-free, safe and healthy work environment. A minimum 5 panel pre-employment drug screening is performed on applicants. Any non-negative result will contribute a violation of HAN's Substance Abuse Policy and applicant will not be hired. HAN will also require active employees to submit to drug screening if the client/facilities share concerns of reasonable suspicion at any time during employment.

Our drug testing is outsourced and done by Emerge who have their own in-house MRO's. This company offer rigorous pre-employment screenings and ensure a wide variety of drug testing locations for our employees/clients to choose from. They also offer extended hours for drop-in or pre-scheduled appointments, making it as convenient as possible for the employee to integrate into our company's risk management program.

- A prospective employee would give a sample at a local clinic or vendor location.
- The drug screen results are reported directly to HAN. Negative results are typically communicated the day after collection, while positive confirmations are typically communicated within 24 to 48 hours of the screening, with 40% reported the day after collection.

HAN has agreements with our vendors to ensure they perform 5-10 panel pre-employment drug screening on applicants. We then upload and keep the pertinent information in the system to help assist our candidates in making a transition into new work environments.

Detailed Employee Screening/Selection Process

- **Initial Telephone Screening:** During our initial phone Interview of a candidate, we ask questions relative to their motivation to make a job change, education, credentials and licensure, experience, and references. We also verify that the candidate has a minimum of the required employment experience.
- **Employment Application:** A complete application, including education, work history, and references is required prior to candidate consideration.
- **USCIS Employment Eligibility Verification, including E-Verify:** We verify work eligibility in accordance with INS regulations.
- **Skills Proficiency Checklist** – Office software testing, ethics, typing etc. This list aids us in matching the candidates' skills with available position skill requirements.

- **Competency Testing:** To assess the skills and validate technical qualifications of qualified candidates
- **Comprehensive Interview:** Our interviewing process includes a targeted, situational- and behavioral-based questionnaire to assist in determining character and work ethic.
- **Background Check:** We conduct a comprehensive background check consisting of: 1) Social Security Match (Name, Number, Date-of-Birth, and Gender); 2) OIG/HHS - Excluded Individuals; 3) EPLS/GSA - Excluded Parties List System; 4) Criminal Records (both County and State); 5) Motor Vehicle Records; 6) State Sexual Predator/Abuse Registries; 7) Professional Licenses with Disciplinary History. This background check of professional credentials validates the certification or licensure is valid, within expiration, and reveals any disciplinary actions taken. Additional background check information is performed as a pre-placement requirement as requested by client facilities.
- **Summary of Professional Credentials:** We require a complete listing of all professional credentials from each employee – specifically those that qualify them for a specific position, which we then verify via our Background Check.
- **As needed - 10-Panel Urine Drug Screen:** The test screens for standard drugs of abuse and more commonly abused prescription medications.
- **Professional Reference Sourcing:** We perform one-on-one, direct sourcing of professional references, requiring at least one reference be obtained from a former Supervisor within the prior 2 years whenever possible.
- **Client Interview:** Some clients choose to interview the candidate prior to commencement of work. Otherwise the candidate is ready to start work after all the screening by HAN.

Clerical Assessments

HAN offers online competency and skills testing in relation to the job description/title. This information is usually included in the profile also. For example, administrative & clerical job testing will include typing, grammar, data entry, filing etc.

HAN clerical assessments are also done online. Technical assessments have an average of 50 questions each; most other assessments have between 25 and 30 questions. Once the candidate has completed the assessment he or she would not be able to re-enter that assessment. To complete an assessment, the candidate must answer all questions presented or choose to leave the assessment early. If the candidate is unable to complete the assessment due to loss of Internet service or other computer problems, he or she will be able to re-enter the assessment. In most cases, the candidate will be able to pick up where they left off. Due to the nature of some assessments (such as Typing or Data Entry), questions must be answered in one sitting and in a sequential order. For these types of assessments, the candidate will be able to re-enter the assessment but would have to begin again from the first question.

The Sales AP provides an overall recommendation on a candidate's suitability for sales positions.
- Customer Service Aptitude Profile (CSAP) The companion test to the SalesAP, the CSAP is a customer service test that measures personality traits that are important for customer service and related positions. The CSAP provides an overall recommendation on a candidate's suitability for customer service-related positions, based on traits such as cooperativeness, personal diplomacy, patience, and more.
- Employee Personality Profile (EPP) The Employee Personality Profile is a general personality profile derived from the Sales AP test. It measures ten personality traits that are relevant to a person's suitability for a wide variety of jobs. These traits are: Achievement, Motivation, Competitiveness, Managerial, Assertiveness, Extroversion, Cooperativeness, Patience, Self-Confidence, and Conscientiousness.

Attitudes

The Prophecy Behavioral Attitude Assessment measures six areas of potentially counterproductive behaviors by a self-descriptive inventory that taps six substantive areas of concern as well as a Good Impression (validity) scale.

- Conscientious (Dependability)
- Hostility (Aggression)
- Integrity (Honesty)
- Substance Abuse

Cognitive

There is little question among personnel psychologists that cognitive ability –the ability to process and retain information quickly– is a necessary skill that transcends most jobs. For most jobs there is a range of cognitive ability associated with on-the-job success; a higher level of cognitive ability is not necessarily associated with job success. What matters is the fit with the requirements of the job.

HAN clerical assessments are also done online. Technical assessments have an average of 50 questions each; most other assessments have between 25 and 30 questions. Once the candidate has completed the assessment he or she would not be able to re-enter that assessment. To complete an assessment, the candidate must answer all questions presented or choose to leave the assessment early. If the candidate is unable to complete the assessment due to loss of Internet service or other computer problems, he or she will be able to re-enter the assessment. In most cases, the candidate will be able to pick up where they left off. Due to the nature of some assessments (such as Typing or Data Entry), questions must be answered in one sitting and in a sequential order. For these types of assessments, the candidate will be able to re-enter the assessment but would have to begin again from the first question.

Our employment test portfolio includes aptitude, personality, and basic skills tests, and our TestMaker feature allows us to generate our own proprietary tests. Thus we can tailor our tests specifically according to the needs of our clients.

Orientation

HAN orientation process has three stages: The first stage is mainly performed by us. The other two stages vary depending on the client.

- A general orientation
- A departmental orientation, and
- A specific job orientation

The above stages are conducted by different parties and vary from client to client. The General Orientation is usually managed by HAN. Our general orientation starts by making the worker feel at ease. We ensure that they have received and had enough time to read the employee manual ahead of orientation time. At orientation, we cover the following: -

- Dress code
- Working hours
- Parking
- Directions
- Supervisor name
- Dates of work
- Time card preparation
- Phone number (HAN and Clients')

We also explain to the worker who the Management is and help them get acquainted with the operation of our organization and that we are their employer. We try to allay their fears and doubts by covering subjects such as the difficulties new employees experience, turnover figures, how people assimilate better, about how they can turn to us for any difficulties they experience, be it regarding their rejection by existing staff, client staff employees or other matters. We always let our candidates know they can always turn to us for confidential advice. The upper management also always welcomes the new candidates as part of orientation and assures them of management's commitment to helping them succeed.

At orientation, we assure the candidates that they are part of our team and as such we welcome their observations, comments, and critiques. Last but not least, we share company goals with them and ask what their own personal and career goals are and try to mesh their own goals with the company goals. This orientation strategy has proven to be highly successful and cuts down on turnover drastically, engenders trust, cooperation and motivation.

The departmental orientation is usually carried out by the client facility some actually have in class orientation and others just do a general orientation. This orientation is usually client specific and may or may not be applicable depending on the contract.
