1. Introduction

The following sections in this Statement of Work (SOW) represent the background, scope, and schedule of the modifications as allowed under the WV Integrated Eligibility System (IES) Project, as well as high-level pricing and work estimate by Optum, a plan for staffing by Optum, and assumptions made by Optum in connection with the work.

This SOW addresses modification work and other activities needed to support the Departmental Name Change and new Logo changes for the West Virginia Department of Human Services. As mandated by the West Virginia Legislature, on January 1, 2024, the West Virginia Department of Health and Human Resources became three departments: Department of Human Services, Department of Health and Department of Health Facilities. These changes have cascading impact to the bureaus under the newly formed Department of Human Services (WV DoHS), including but not limited, their letterhead, logo, and other departmental information, both internal-facing and external-facing.

Optum will make the following modifications to the West Virginia Peoples Access to Help (WV PATH), in two Phases:

- In Phase 1, Optum will update external-facing items, including WV PATH Correspondence, Notices, Forms, in addition to both the Client Portal and Provider Portal, and other website access with external-facing impacts. WV PATH Training Documentation will also be updated as part of Phase 1.
- In Phase 2 Optum will update internal reports, agency worker portal access to the WV PATH application, and other areas where the DoHS rebranding is important, but internal in nature so not as time sensitive as Phase 1 material.

This SOW addresses the work to be done in Phase 1 as the CR for Phase 1 work was approved by WV DoHS on 01/30/2024. The approval of the Phase 2 Change Request by WV DoHS will trigger the creation of the Phase 2 SOW at a future time, yet to be determined.

Overall, these changes will be deployed to WV PATH in phases on a schedule to be determined by mutual agreement of the parties. Optum will use formalized change control to document the modifications with approval by WV DoHS prior to any impacts to the project schedule.

Although not anticipated with this particular SOW, Optum and WV DoHS understand that support for the development of additional requirements may require additional maintenance and support, which would be subject to an additional amendment.

The estimate of hours listed below is based on tasks that will be assigned to Optum resources in the Project Plan. As this is a time and materials arrangement, the specific task assignments may be adjusted as approved by the WV DoHS Project Manager. 4. Project Assumptions

Below are the assumptions for this Project:

- Work commences under this SOW upon execution of the Delivery Order by WV DoHS or an authorization to proceed letter issued by WV DoHS.
- Optum and WV DoHS will share details on a monthly basis of project hours worked for this SOW, so that the overall pool of hours can be jointly managed.
- The rates proposed for CY 7 are valid through November 16, 2024.
- For any work needed beyond November 16, 2024, the CMA would need to be extended to exercise Contract Year 8.
- WV DoHS will provide user acceptance testing personnel and scenarios to execute User Acceptance Testing in accordance with the estimated timeline in Section 4.2.
- Estimated timelines assume that the authorized representatives from the West Virginia Office of Technology, and the MIS Staff respond to Optum requests and provide necessary input and/or approvals in a timely manner so Optum may continue to meet the requirements and timeframes identified herein.
- WV DoHS will provide Optum with as much notice as possible regarding potential delays in work progress within the project plan. Optum will not be held responsible for missed deadlines held up by the completion of State-owned tasks or tasks with dependencies on State-owned tasks as documented in the project plan. Any such delay may prevent making WV PATH IE 1.0 Go Live.
- Maintenance and Operations (M&O) impacts related to this SOW are not fully known and may require additional support and funding.
