Facility Design	YES	NO
1. The facility design included input from the prospective users of the skate park prior to final acceptance of		
the design.The facility was designed by a landscape architect with experience in designing skateboard facilities and skate parks.		
 There is separation between walkways, rest areas, or spectator areas and the skating areas. Adequate drainage has been provided for half-pipes, bowls, and other areas of the skating surface to 		
eliminate water from skating areas.
