INFORMATION SYSTEMS CONSULTANT SUPERVISOR

Nature of Work
Under general supervision, performs advanced work supervising a unit of Information System Consultants. Reviews the work of subordinates to ensure that specifications written and recommendations made will meet user needs and that the decisions are technically sound and cost effective. Prioritizes workloads, assigns schedules, and reviews requests. Manages and coordinates the work of independent consultants. Performs related work as required.

Distinguishing Characteristics
This level of Information Systems Consultant is designated as a supervisor with signature authority for leave requests, performance evaluations and time sheets. The supervisor makes job assignments based on the relative priority of a given project. The supervisor oversees the training of subordinates and determines availability and accessibility of seminars for training staff. The supervisor may complete major procurement documents independent of staff assistance.

Examples of Work
Reviews requests from state agencies for hardware/software and related information technology procurement; assigns research work to subordinates and monitors the completion schedule. Approves hardware/software and information technology related requests at an agency designated level. Reviews subordinates' work for consistency and for soundness of the decision; compares user requests with project recommendations to ensure cost effectiveness and user benefits. Reviews service charges to be billed to user agencies. Reports on the status of projects weekly. Works with subordinates as a project leader while training them to assume that position. Approves all sick and annual leave to ensure adequate staffing and authorizes time sheets. Identifies potential problems and their solutions when working on special projects. Manages and coordinates the work of independent consultants.

Knowledge, Skills and Abilities
Knowledge of capabilities and limitations of information technology. Knowledge of data processing/word processing concepts.
