CREDIT ANALYST 2

Nature of Work: Under limited supervision from the Credit Management Supervisor, oversees the management of receivables including the administration of delinquent and default employer accounts. Responsible for complex cases and accounts representing large sums of money. Through formal and informal training, acquires an understanding of workers’ compensation laws, rules and policies, credit management philosophies, practices, forms and procedures. Performs related work as required.

Distinguishing Characteristics: The Credit Analyst 2 is distinguished from the Credit Analyst 1 by the complex analysis and acumen necessary to manage accounts representing large sums of money owed the Division. Positions allocated to this class will manage, with minimal supervision, a significant number of employer accounts determined to have medium to high credit risk. This position will be responsible for administering the standards, methods, laws, and forms utilized by the Receivables Management Department.

Examples of Work
Meets or exceeds the performance measures established for the department.
Analyzes financial information from the employer such as tax documentation and financial statements, in order to determine the collection strategy applicable to an individual account.
Decides credit management tactics based on sound judgment and compliance with applicable rules and procedures.
Communicates directly with representatives from Customer Accounting, Field Audit, Underwriting and Legal Services to ensure that all account activities related to the employer are completed timely and that employer information is communicated in the proper manner.
Plans and directs meetings with employers to resolve delinquent and default accounts.
Negotiates repayment options with employers.
Demonstrates the ability to successfully collect delinquent and default accounts.
Provides testimony in civil and criminal court proceedings.
