

TEACHER 2

Nature of Work: Under limited supervision, performs professional work at the full-performance level supervising a staff of teachers and performing administrative duties. Plans and gives lessons in various general subject areas, or an area of special education, to child and/or adult clients of a state educational, rehabilitation, health care or correctional facility. Has latitude to vary methods and procedures to obtain desired results. Teaching level will vary by student's needs, abilities, learning levels and physical limitations. Performs related work as required.

Distinguishing Characteristics: Work at this level is distinguished from the "Instructor, Vocational" by the emphasis on general or academic education rather than vocational training. At this level, more emphasis is placed on administrative responsibilities.

Examples of Work

- Instructs pupils through lectures, demonstrations and audio/visual aids.
- Prepares daily or weekly lesson plans
- Assigns lessons and laboratory exercises.
- May conduct job try-outs to determine the student's potential for success in the field.
- Administers tests to evaluate student progress; interprets results and issues progress reports to counselors, other staff, and parents.
- Maintains necessary reporting system for unit.
- Participates in student evaluation and student staffing as assigned.
- Participates in faculty and professional meetings, education conferences, and teacher training workshops.
- Provides individual attention and assistance as required to meet the varied needs and abilities of the learners, to insure that all benefit from the instruction.
- May prepare individualized education programs for visually or hearing impaired students.
- Performs administrative and supervisory responsibilities in connection with the operation of the teaching unit.

Knowledge, Skills and Abilities

- Knowledge of curriculum development and classroom instructional techniques.
- Knowledge of testing techniques and evaluation of results.
- Knowledge of modern methodology and trends in educational development.
- Knowledge of human growth and development.
