Dear Mr. Stephens:

As you are most likely already aware, the WV DEP received an email notification from the Department of Administration's Fleet Management Office stating that the truck ordered on CDO DEP21*01 was cancelled due to manufacturer cutoff times and will not be able to be processed under current contract pricing.

Please let me know if you need additional information.

Sincerely,

B.J. Chestnut

Good morning,

It is with great disappointment I must inform you that the CDO for the vehicle concerned below will be **cancelled**:

OASIS DOC TYPE	OASIS DOC or Purchase Order	NEW YEAR	NEW MAKE	NEW MODEL	FUEL TYPE	CLASS	COLOR	OPTION - COLOR CODE	TOTAL PRICE
CDO	FLT2100000019	2021	FCA	RAM 2500	GAS	28	WHITE	PW7	\$29,996.0

Due to a moved-up build-out date on the MV21 model after the order was submitted and now learning the manufacturer will not honor the new year model at current year pricing, the vendor, Stephens, will not be able to process the order.

Attached is a spreadsheet for the retiring and new vehicle concerned with this order. We ask that you create new DOA-FM-059 Vehicle Request forms (instead of modifying your previously submitted forms) if you wish to resubmit for an alternate vehicle to be ordered. I have attached the MV21 Synopsis and DOA-FM-059 Vehicle Request form for your reference and use. Please note that due to new approval hierarchy, after you receive Cabinet Level approval, you will submit to Director Yoakum (CC'd). He will review and then submit to the Governor's Office.

Please let me know if you have any questions.

Respectfully,

Stephanie Lane

POLICE INTERCEPTOR UTILITY - DAYTIME RUNNING LAMP OPERATION

Mar 3, 2021 1908 - 2020-2021 Police Interceptor Utility - Daytime Running Lamp Operation

Some 2020-2021 Police Interceptor Utility vehicles are equipped with Option Code 942 – Daytime Running Lamps (DRLs) Always On. The DRLs in this option package differ from the standard instrument cluster configurable daytime running lamps and cannot be turned off or reconfigured. No repair attempts should be made to turn off the DRLs in vehicles equipped with Option Code 942 as this is an operating characteristic.

- ¹ First available production week at the plant (not to be confused with "First Available Priority Code"). "First Available Priority Code" is often beyond the first available production week at the plant due to incoming orders exceeding weekly/monthly allocation. This is a point of reference determined when order(s) may be submitted to the plant.
- ² Every effort is made to accurately estimate the lead times and reflect longer lead times of specific commodities. In the absence of adjusted lead times for commodities, please use the high, medium, or low risk as a guide.
- ³ High-risk commodity has a lower probability of scheduling. Low-risk commodity has a higher probability of scheduling. Refer also to the *Product Information* section in the Fleet DNB for current material hold information.
- ⁴ First available applies to Fleet order that are ordered as region 80 or region 87 only.

GOVERNMENT SALES - 2021/2022 - TRANSIT 8 AND 10 PASSENGER SEATING RESTRICTIONS

All – Due to emission regulations the 8 and 10 passenger seating options on select Transit body codes will no longer be offered after 2022 MY. In addition, the options are now restricted to Government orders only (orders with valid Government FIN). At this time we do not want to enter into any new contracts that we will not be able to fulfill. The options are no longer available for retail or commercial orders. Please prepare modifiers in advance so they can plan to convert vans in the future. This action only impacts body codes K1C, K2C, K1Y and K2Y. Thank you in advance for your support in this transition.
