- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

45. PROHIBITION AGAINST USED OR REFURBISHED: Unless expressly permitted in the solicitation published by the State, Vendor must provide new, unused commodities, and is prohibited from supplying used or refurbished commodities, in fulfilling its responsibilities under this Contract.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

ADDENDUM FOR PRE-BID

CRFQ 0803 DOT2100000107

CLASS 548 HYDRAULIC HAMMER

The original language in contract will be listed first with question and answer to follow below.

1. 3.1.2.1 Hydraulic hammer shall fit either:

A. John Deere 135G excavator

B. Link Belt 145X3 excavator

C. Volvo EC140E excavator

Question # 1: The manufacture tells me each of those machines requires a different mounting cap. Is each hammer to be supplied with all 3 mounting caps?

Question # 2: We need clarification on this. Are you wanting a hammer with (3) different hammer tops, one for each machine model? Also, are you wanting pins included with the tops for each individual machine since they are different?

Question # 3: Will a mounting bracket for each excavator be required?

Question # 4: Will pins for the mounting brackets be required?

Question # 5: If we must supply pins, do they have to be made of hardened steel?

Question # 6: Will all the excavators be fitted with hydraulic pin grabber style quick couplers?

Question # 7: If equipped with the quick couplers, will they be removed or stay installed on the excavators when the hammers are installed and used?

Question # 8: Will diverter valves and other adaptors be installed on the excavators in order for the hammers to also have the correct flow and pressures available?

Answer: Question 1 through 5. The pricing sheet will be modified with the three additional mounting caps to be priced along with the hammer pricing. Pins are to be included with the pricing. Supplied pins shall meet the requirements of both the hammer manufacturer and excavator manufacturer.

Question 6. Yes

Question 7. Couplers will stay attached

Question 8. Diverter valves will be added by the WVDOH if needed

2. 3.1.1.2 Tool size minimum 3.9 to maximum 4.5.

Question: We would request that this be adjusted to a maximum 4.72?

Answer: Will accept.

3. 6.1 Delivery Time: Pilot within 30 days, Standard orders within 90 days

Question: We would like to request that these be moved out to 60 days for the pilot, and 120 days for the standard orders.

Answer: Will change to read 60 days for the pilot and 120 for standard orders.
