STATE OF UTAH COOPERATIVE CONTRACT AMENDMENT

AMENDMENT #: 6

CONTRACT #: MA152

Starting Date: 8/12/2019

Expiration Date: 8/11/2024

TO BE ATTACHED AND MADE PART OF the specified contract by and between the State of Utah Division of Purchasing and Cellco Partnership d/b/a Verizon Wireless (Referred to as CONTRACTOR).

BOTH PARTIES AGREE TO AMEND THE CONTRACT AS FOLLOWS:

Attachment B is amended as follows:

~~Section 3.4 of Attachment B, New Products added under Award Category 3, is changed to reflect that new Products may be added to, and pricing for Products may be changed by written approval by the Lead State and posting of a product addition form on the NASPO website in lieu of a formal amendment to the Master Agreement.~~

~~Attachment B: Section 2.2.1 "Equipment" is changed to the following definition:~~

~~"Equipment Any device approved for use on, and operating over cellular carrier provided network. Does not include servers, desktops or laptop computing devices. However, laptops are allowed if they are approved for use on the carrier's network and used in connection with a data plan under Award Category 1."~~

Attachment G: is amended as follows:

The Attachment G: Plan Description is fully replaced with the attached.

This new Attachment G includes the following additions:

Mobile Broadband Plans Enabled for Fixed Wireless Access Service:

\$39.99 Custom 4G Unlimited Mobile Broadband Plan with Mobile Broadband Priority and Preemption for National Security, Public Safety, and First Responders

\$39.99 Custom Business Plan for Data Devices

These Mobile Broadband (MBB) plans listed above are modified to permit Fixed Wireless Access (FWA) connectivity and to remove the restriction on use of stationary routers, provided that, in each instance, connectivity is limited to Verizon-certified routers. All MBB plans not listed above remain unchanged, with MBB service under these plans limited to MiFis, tablets and other devices expressly approved by Verizon for MBB service. Public Wi-Fi and Guest Wi-Fi on MBB and FWA plans are strictly prohibited.

Effective Date of Amendment: 2/10/2022

All other terms and conditions of the contract, including those previously modified, shall remain in full force and effect.

IN WITNESS WHEREOF, the parties sign and cause this contract to be executed.

- Master Service Agreement includes Smart Communities

Monthly Access Fee¹	\$70.00	\$90.00	\$140.00	\$190.00
Speed Tier Limit (Up to)²	10 Mbps	10 Mbps	10 Mbps	10 Mbps
Data Deprioritization Threshold³	25 GB	50 GB	100 GB	150 GB
Data Throughput Limit Threshold⁴	50 GB	100 GB	200 GB	300 GB
Throttled Speed (Up to)	600 Kbps	600 Kbps	600 Kbps	600 Kbps
Notes: Current coverage details and additional plan information can be found at www.verizonwireless.com. These plans are restricted to the Verizon Wireless 5G Nationwide® network and 4G network (domestic and international roaming are not available). For avoidance of doubt, Verizon's 5G Nationwide® network is a separate network from Verizon's 5G Ultra Wideband network. *These plans are for mobile broadband service, and only available to select Customer-provided data routers. The monthly access fee will not be pro-rated when moving to a higher speed tier plan during a billing cycle (the higher access fee will be billed); a line cannot move to a lower speed tier during a billing cycle. Speeds represent the maximum speed but may be lower in the event of network congestion. After the data deprioritization threshold is met on a line during any billing cycle, usage on that line may be prioritized behind other customers in the event of network congestion for the remainder of the then-current billing cycle. These plans cannot be backdated. ¹The monthly access fee will not be pro-rated when moving to a higher speed tier plan during a billing cycle (the higher access fee will be billed); a line cannot move to a lower speed tier during a billing cycle. ²Speeds represent the maximum speed but may be lower in the event of network congestion. ³After the data deprioritization threshold is met on a line during any billing cycle, usage may be prioritized behind other customers in the event of network congestion. ⁴If the data throughput limit threshold is exceeded on any line in any given billing cycle, Verizon Wireless will limit the data throughput speeds for additional usage for the remainder of the then-current billing cycle for the line that exceeds the data usage to the applicable throttled speed. Voice calls cannot be placed or received on these plans other than to 611 or 911 (these calls may be placed anywhere in the Nationwide Rate and Coverage Area). If the voice block feature is removed, there will be a \$0.25 per minute charge for voice calls. Text messages cannot be sent or received on these plans. If the text message block feature is removed, there will be a \$0.20 per message charge for messages sent or received. These plans can be used for point-of-sale, mobile terminal, and business productivity applications. Prohibited applications include, but are not limited to, continuously streaming video, public/Guest Wi-Fi, and web hosting systems without prior approval from Verizon Wireless.
