If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

Demolition of Administration Building

GENERAL CONSTRUCTION SPECIFICATIONS (No AIA Documents)

1. **PURPOSE AND SCOPE:** The West Virginia Purchasing Division is soliciting bids on behalf of West Virginia Schools for the Deaf and Blind (WVSDB), located at 301 East Main Street, Romney, WV 26757, to establish a contract for the following:

Demolition and debris removal services of the School's Administration Building that was destroyed by fire.

Building and Site Information: The 13,678 square foot building had two occupied floor levels with an unfinished basement (Exhibit C). It was constructed of wood framing on various masonry foundations. The exterior was predominately brick veneer with some miscellaneous wood siding and architectural details. The roof of the building was comprised of asphalt shingles on wood decking. The roof, floors, and interiors were all a total loss in the fire and are now resting on the basement floor. Some exterior walls remain upright but are not considered salvageable and should be demolished as such. The building in its entirety, including foundations, walks, roads, and trees up to the distance specified in this document shall be removed. The remaining holes should be filled and compacted and then seeded for grass growth. The most recent AHERA report (Exhibit D) indicated that Asbestos was present in some areas of the structure and was indicated to be in the form of floor tile, plaster walls, and plaster ceilings. It is expected that the asbestos materials will not be separable from the debris, and the entirety of the building remains shall need to be handled and discarded in manner that is in accordance with all federal, state and local regulations regarding the handling and disposal of hazardous materials. As part of the demolition process, the amount specified in this document of exterior brick shall be salvaged, cleaned, and palleted. It is desirable that brick with the least exposure to the fire be selected for salvage. Currently, WVSDB has rented 1200 linear feet of construction fencing and installed around perimeter of building site. If additional fencing is required, the Vendor should provide in their Base Bid Amount.

The Vendor shall furnish all materials, labor, and equipment necessary to complete all Construction Services. The Vendor shall furnish any incidental work, materials, labor, and equipment that are necessary to complete the Construction Services, even if such incidental work is not explicitly included in the Project Plans.

2. **DEFINITIONS:** The terms listed below shall have the meanings assigned to them below. Additional definitions can be found in section 2 of the General Terms and Conditions and in the Project Plans as defined below.
