- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.

"Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process.

- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
  1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**5. CONTRACT AWARD:**

**5.1 Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. The Contract shall be awarded by District: see Section 4, Area of Service, and Exhibit B, WVEBA Sites. Contract(s) will be awarded to the Vendor(s) that provide the Contract Items meeting the required specifications for the lowest Total Bid Cost(s) as shown on the Pricing Pages (Exhibit A).

**5.2 Pricing Pages:** Vendor should complete the Pricing Pages (Exhibit A) by completing the table for each District (see Exhibit C, Sample Pricing Pages). Vendor should complete the Pricing Pages in their entirety as failure to do so may result in Vendor's bids being disqualified. Vendor must only complete pricing pages for each District on which they wish to bid.

The Pricing Pages contain a list of the Contract Items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

Pricing Page Yearly Travel Costs:

section 3.1.6.6.1 defines travel time as: "the amount of time required to reach a site and return (round-trip) when leaving from the Vendor's office."

---

For evaluation purposes, the total of the average round-trip time to travel from the Vendor's office to the Agency's office plus the average round-trip time to travel from the Agency's office to a tower is used to calculate a travel time / cost on the Pricing Pages. The bid travel cost is also based on two Vendor employees traveling. This means:

- The travel time on the Pricing Pages, TIME, will be the total of the average round-trip time to travel from the Vendor's office to the Agency's district office plus the average round-trip time to travel from the Agency's office to a tower (as listed in Exhibit B, WVEBA Sites).
- The hourly rate for travel time, RATE, shall be the rate submitted by the Vendor on the Pricing Pages.
- Est. Annual trips, TRIPS, is an estimated number of service calls expected annually for a district.
- Number of Vendor employees traveling to a site for a service call, TRAVELERS, shall be two (2) for bid comparison purposes.
- Yearly Cost of Travel =  $TIME \times RATE \times TRIPS \times TRAVELERS$ .

**Example:**

- Average round-trip travel time from the Vendor's office to the Agency's office is 2 (2) hours. Average round-trip travel time from the Agency's district office to a tower is two (2) hours.  $TIME = 2 \text{ hours} + 2 \text{ hours} = 4 \text{ hours}$ .
- Hourly rate entered by Vendor for travel, RATE, is \$75.00.
- Estimated number of annual service calls, TRIPS, is twenty-five (25).
- Number of Vendor's staff traveling, TRAVELERS, is two (2).
- Yearly Cost Travel =  $TIME \times RATE \times TRIPS \times TRAVELERS = 4 \times \$75.00 \times 25 \times 2 = \$15,000.00$

**Note:** The Pricing Pages supplied in Excel format will execute all calculations once the Vendor-required information has been entered.

Vendor should electronically enter the information into the Pricing Pages through wvOASIS, if available, or as an electronic document. In most cases, the Vendor can request an electronic copy of the Pricing Pages for bid

(Examples of how the multiplier should be used are shown below) For purposes of this Contract, Vendor's cost is the amount paid by Vendor to the manufacturer or supplier and does not include Vendor's overhead, delivery or freight charges, stocking fees, or other fees that are not direct payment for parts.
