In the event funds are not appropriated or otherwise made available, this Contract becomes void and of no effect beginning on July 1 of the fiscal year for which funding has not been appropriated or otherwise made available. If that occurs, the State may notify the Vendor that an alternative source of funding has been obtained and thereby avoid the automatic termination. Non-appropriation or non-funding shall not be considered an event of default.

The Purchasing Division Director may also cancel any purchase or Contract upon 30 days written notice to the Vendor in accordance with West Virginia Code of State Rules § 148-1-5.2.b.

Notwithstanding anything contained in this Contract to the contrary no modification of this Contract shall be binding without mutual written consent of the Agency, and the Vendor, with approval of the Purchasing Division and the Attorney General's office (Attorney General approval is as to form only). Any change to existing contracts that adds work or changes contract cost, and were not included in the original contract, must be approved by the Purchasing Division and the Attorney General's Office (as to form) prior to the implementation of the change or commencement of work affected by the change.

25. WAIVER: The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

26. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/default.html>.

31. YOUR SUBMISSION IS A PUBLIC DOCUMENT: Vendor's entire response to the Solicitation and the resulting Contract are public documents. As public documents, they will be disclosed to the public following the bid/proposal opening or award of the contract, as required by the competitive bidding laws of West Virginia Code §§ 5A-3-1 et seq., 5-22-1 et seq., and 5G-1-1 et seq. and the Freedom of Information Act West Virginia Code §§ 29B-1-1 et seq.

The Purchasing Division will disclose any document labeled "confidential," "proprietary," "trade secret," "private," or labeled with any other claim against public disclosure of the documents, to include any "trade secrets" as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

32. LICENSING: In accordance with West Virginia Code of State Rules § 148-1-6.1.e, Vendor must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. SUBCONTRACTOR COMPLIANCE: Vendor shall notify all subcontractors providing commodities or services related to this Contract that as subcontractors, they too are required to be licensed, in good standing, and up-to-date on all state and local obligations as described in this section. Obligations related to political subdivisions may include, but are not limited to, business licensing, business and occupation taxes, inspection compliance, permitting, etc. Notification under this provision must occur prior to the performance of any work under the contract by the subcontractor.

33. ANTITRUST: In submitting a bid to, signing a contract with, or accepting a Award Document from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.

34. VENDOR NON-CONFLICT: Neither Vendor nor its representatives are permitted to have any interest, nor shall they acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency.

Revised 11/1/2022

35. VENDOR RELATIONSHIP: The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, etc. and the filing of all necessary documents, forms, and returns pertinent to all of the foregoing.

Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

36. INDEMNIFICATION: The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

37. NO DEBT CERTIFICATION: In accordance with West Virginia Code §§ 5A-3-10a and 5-22-1(i), the State is prohibited from awarding a contract to any bidder that owes a debt to the State or a political subdivision of the State. By submitting a bid, or entering into a contract with the State, Vendor is affirming that (1) for construction contracts, the Vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, neither the Vendor nor any related party owe a debt as defined above, and neither the Vendor nor any related party are in employer default as defined in the statute cited above unless the debt or employer default is permitted under the statute.

38. CONFLICT OF INTEREST: Vendor, its officers or members or employees, shall not presently have or acquire an interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

39. REPORTS: Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

☐ Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.

☐ Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.division@wv.gov.

40. BACKGROUND CHECK: In accordance with W. Va. Code § 15-2D-3, the State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check. Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
 1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
 2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

43. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the Vendor must submit to the Agency a disclosure of interested parties prior to beginning work under this Contract. Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

RE: Four States Road (Vandevender) Subsidence
2022-NOR-049-154
Work Directive

Dear Mr. Hovatter:

The following information identifies the site requiring the services of your firm for the emergency project design and the reclamation activities needed to abate the problems associated with the referenced site.

A. GENERAL DESCRIPTION:

1. Name of Problem Area: Four States Road (Vandevender) Subsidence
2. Location of Problem Area: Possible subsidence event in Four States, WV
3. Approximate Site Location: 39° 28' 51.5"N -80° 18' 44.2"W
4. The area drains into the West Fork River.

B; NEED FOR PROJECT:

Mr. Brad Vandevender called the WV Spill Hotline to report a possible mine subsidence event. On 8-15-2022 WVDEPAML received the information and scheduled a site visit. Upon arrival there is a sinkhole approximately 15 feet in diameter, 20 feet deep and has approximately 6 feet of standing water in the bottom. The sinkhole is 30 feet behind his home at the edge of his back yard. There is a tree that has fallen in with the sinkhole and leaning onto an overhead communication line. The sinkhole has very similar characteristics of a mine subsidence event. However, after reviewing all the coal bed maps and known coal mining there is nothing shown as mined out coal areas at this location. There will need to be a subsurface geotechnical investigation to see if the mapping for this location may be incorrect and this sinkhole needs to be abated as a mine subsidence. There are no surface features that can prove why this sinkhole has formed so suddenly.

Promoting a healthy environment.

Under emergency guidelines, your firm has been chosen to perform the engineering work required to determine if the sinkhole is actually a mining related subsidence or not. If the findings from the subsurface investigation determines the site to not be associated with past mining activities, please prepare a report for the possible cause of the sinkhole. If the finding from the subsurface investigation determines the site to be associated with past mining activities, please initiate an abatement plan to stabilize and abate the hazards associated with the subsidence.

C: PREFERED SCOPE OF WORK:

Complete all surface and subsurface work needed to provide the abatement plans and specifications required to successfully eliminate the current hazards at the site. The preference is a minimum of three bore holes. At least one of which should go all the through and at least five feet below the Sewickly coal seam. If mining is found to be the cause of the sinkhole create design package and bidding documents. If no mining is found create a report as to the findings. The reports, documents, abatement plans and specifications shall be provided in both electronic as well as paper format.

D: SERVICES REQUIRED:

Provide the expected cost estimate for testing services, surveying and engineering time proposed to complete the plans and specifications that will achieve the design objective outlined in Section C.

The cost estimate should be returned to this office for evaluation within seven (7) working days from the date of receipt of this directive.

Please bear in mind that your cost estimate for all services must be based on the approved cost proposal for this contract. Should you have any questions concerning this directive or the site in question, please contact this office.

Sincerely,

**PRICE PROPOSAL
FOUR STATES ROAD (VANDEVENDER) SUBSIDENCE
MARION COUNTY, WEST VIRGINIA**

PROPOSAL BASIS

This proposal is based on a onsite meeting attended by Jeremy Ayers, Nick Payne, Matt Crowder and Dan Mozena of WVDEP and RJ Hovatter of The Thrasher Group, Inc. (TTG), on August 25th, 2022. During the meeting we walked the site, investigated the sink hole, and discussed possible remediation activities.

BACKGROUND

Mr. Vandevender report a possible mine subsidence event in his yard and WVDEP visited the site to investigate. A sinkhole approximately 15 feet in diameter and 20 feet deep was discovered. At the time approximately 6 feet of standing water was present in the bottom of the hole. The hole was approximately 30 behind the home at the edge of the tree line and his yard. Upon review of coal bed maps and known coal mining it was found that documented mining occurred near the elevation of the sinkhole in this area.

PREFERRED SCOPE OF WORK

1. Provide aerial mapping and base mapping of the site.
2. Perform subsurface investigation of the site.
3. Determine AML eligibility for the subsidence repair.
4. Prepare a remediation design plan and bidding documents if the site is determined to be AML eligible.

SUMMARY OF ANTICIPATED SCOPE OF WORK

1. Provide aerial mapping and base map for the site.
2. Perform the subsurface investigation.
3. Determine eligibility based upon the subsurface investigation.
4. If eligible provide a remediation plan and bidding documents for the proposed remediation.

SCOPE OF WORK

I. Mapping

TTG will utilize existing aerial mapping from our survey division to create the base mapping for the site.

II. Subsurface Investigation

TTG will subcontract with NGE to perform the subsurface investigation. NGE will perform a minimum of 3 test borings around the perimeter of the existing sink hole. One of these borings will extend to 5 feet below the bottom elevation of the Sewickley Coal seam. This seam is anticipated to be between 225 to 250 feet below the existing surface elevation.

II. Design Engineering and Contract Documents (If eligible)

A. The Contract drawings:

1. Subsidence Reclamation Plan
2. Details

B. Specifications

1. Terms and Conditions
2. Mobilization
3. Subsidence Area Stabilization
4. Quality Control
5. Site Preparation
6. Erosion and Sediment Control
7. Re-vegetation
8. Unclassified Excavation
9. Drainage Structures
10. Bore Logs

C. Pre-Bid Conference

TTG will provide a Project Manager to attend a pre-bid conference with the representatives of WVDEP. The Project Manager will explain the design and go through the proposed construction with the contractors.
