Virginia Beach, VA 23462

Memo: CCTAUD2100000005

Dear Ms. Hyman:

Contract CCTAUD2100000005 is effective through April 9, 2026 with the option to renew for 3 additional one-year terms. We are Choosing to exercise Option Year 6 (first additional term) on the attached pricing sheet.

Optional Year 6 has an effective support term of February 27, 2026- February 26, 2027 (1671923).

Change Order No. 2 is issued to renew the original contract according to all terms, conditions, and specifications contained in the original contract with the price increase attached.

Optional renewal Years/Months remaining: 2 (years 7 and 8)

No other changes.

If your company accepts this renewal, please sign acceptance below and return to my attention at julie.myers@wvsao.gov.

Mythics, LLC agrees to renew the contract referenced above for the period stated under the same terms, conditions and updated pricing as attached.

Toby,

Per our conversation earlier today, please review the additional language proposed from Mythic's as it pertains to the attached letter. Would this be adequate to distinguish the Mythic Contract renewal vs. Oracle Support date concerns? Also, I am adding @Vincent Smith to keep him in the loop.

Your thoughts?

Mike

**External Email:** Please use caution when clicking embedded hyperlinks or opening attachments. If you suspect this email of containing malicious links or attachments immediately report this email with the report phishing button.

Hey Mike,

Please the proposed verbiage I will be discussing with Jonothan later on:

Mythics and West Virginia Auditors Office Contract CCTAUD2100000005 is effective through April 9,2026 with the option to renew for 3 additional one-year terms. We are Choosing to exercise Option Year 6 (first additional term) on the attached pricing sheet.

Oracle Support Renewal Optional Year 6 has an effective support term of February 27,2026- February 26,2027 (1671923).

I'm not sure if you or anyone at WV Auditors can agree to this via email to expedite the process, but this clearly outlines the difference between Mythics/WV contract and the support contract.

Thank you,

Tanner Fiano

**Subject:** FW: New Voice Message from WIRELESS CALLER (304) 382-6302 on 02/23/2026 9:40 AM

Hey Mike,

Just got your voicemail through our automated system and gave you a call from my cell phone. If you'd like to discuss anything please give me a call on my cell (757-288-3916) as we are virtual on Mondays.

I have attached 2 documents signed by both WV and Mythics agreeing that the support dates are 2/27 – 2/26 every year. The statement "Please confirm that you understand and agree that the contract effective date will not be backdated but will begin upon award of the published RFQ" also clarifies that the award date of the RFQ is separate from the support dates and can't be backdated. The support term is still within the contract award dates so there will be no disruption in support.

Thank you,

Tanner Fiano

You have a new voice message:

**From:** WIRELESS CALLER (304) 382-6302  
**Received:** Monday, February 23, 2026 at 9:40 AM  
**Length:** 00:51  
**To:** (757) 785-9501 Tanner Fiano

**Voicemail Preview:**

"Hey, Tanner, this is my Barker with the West Virginia State auditor office. We have been emailing back and forth about this Oracle neural renewal and it just got kicked back again because of dates. And I wanted to talk to you, I think it is a line in the letter that Shania Ana sent to us back there was D January 15th. I wanted to talk to you about that and see if maybe we can tried to come to a resolution. I thought it was resolved. Apparently it is not. But anyway, I need to talk to you as soon as possible. You can call me direct at 304-205-8537 or you can call my mobile number 304-382-6302. It is Mike Barker with the state auditor office. Thank you."

I'm not opposed to meeting. However, if the proposed additions, along with this clarification from the original contract inception (letter attached) is sufficient to use the April dates for the CCT Year 6 Renewal, then I'm not sure we need to.

Your thoughts?

From Tanner Fiano (Mythics):

*I have attached 2 documents signed by both WV and Mythics agreeing that the support dates are 2/27 – 2/26 every year. Thanks Tim!

Hi John and Mike,

Thanks for reaching out! The contract performance dates shouldn't be an issue in this case since the contract between Mythics and WV is currently active (4/10/25 - 4/9/26) and will be active when the support contract is set to renew next month. Although the dates differ between the two contracts, the agreement between Mythics and WV will still be active for the duration of the remaining option years as well. Since the validity date of AUD2100000005 (contract between Mythics and WV) extends past the renewal term, WV should still be able to utilize that contract.

The effective date of AUD2100000005 is 4/10/21 - 4/9/26 with three remaining one-year options, which means this should be active through 4/9/29, as long as WV chooses to move forward each year.

The option years for support contract 1671923, which consist of the following POPs, fall within the expiration of 4/9/29 for AUD2100000005, so there should be no issue with renewing these under the agreement:

OY6: 2/27/26 - 2/26/27

OY7: 2/27/27 - 2/26/28

OY8: 2/27/28 - 2/26/29

This is pretty standard, since RFQs are almost always awarded with agreements that are established on a different date than the actual renewal start date. While the customer agreement is based on the renewal contract, it's a separate agreement. We just have to be aware of the expiration of each contract to ensure the renewal term does not exceed the expiration of the customer agreement.

If this is an issue for WV, we can look at short-termining to align the support end date with the agreement end date for this year of 4/9/26. However, you would then be renewing twice in one year and would therefore be uplifted on support costs twice. Also, in order to still utilize AUD2100000005 moving forward, WV would have to submit an amendment to include new pricing for the remaining option years which we would then need to submit to our legal team for approval.

The path of least resistance would be to move forward with the current support dates since the renewal term remains within the validity dates of contract AUD2100000005. As long as we have the modification letter for this option year, which shows the two performance terms (was signed and returned to customer) we should be good to go.

Hope this helps but I am free Monday after 1pm if you'd still like to hop on a call!

Thank you,

**Subject:** WV Auditor Support Term Alignment – Request for Joint Discussion

**CAUTION:** External email message. Look carefully at the sender's email address before clicking links, opening attachments or sharing information.

Hi Tim,

I wanted to share some context following a recent call with Mike Barker from the WV Auditor's Office and align with you on an issue they are currently working through related to support term alignment. I have cc'd Mike, so we are all able to be on the same page.

Historically, the Auditor's Office has renewed Oracle Support on a February-to-February cycle. When the contract was awarded to Mythics in 2021, it was established as a five-year agreement; however, the Mythics contract term renews on an April cycle, with the current term ending April 9. As a result, Oracle Support for the environment expires in February, while the Mythics contract extends two months beyond that date.

This timing difference had not surfaced as an issue in prior years, largely because purchasing managed renewals and the original purchasing contact—who was closely familiar with the contract structure—left the organization approximately two years ago. This is the first year the misalignment has created a challenge during renewal.

As they approach renewal now:

- Oracle Support expires in February
- The Mythics contract does not renew until April
- Mythics has quoted years 6, 7, and 8 for continued support
- If the Auditor's Office attempts to bridge the two-month gap, those months would be billed at the year 6 rate, which is problematic given the rate increase
- Any solution must also align with WV purchasing guidelines
- 

The Auditor's Office would prefer to continue working with Mythics, particularly given that years 6–8 are already quoted, but they are trying to understand what options exist that do not put them in a difficult position from a cost or procurement standpoint.

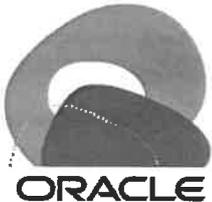

With that in mind, would you be open to a joint Zoom call with the Auditor's Office, Mythics, and Oracle to walk through the situation together and explore potential paths forward? The goal would be to ensure everyone has the same understanding of the contracts and timing, and to collaboratively identify a workable solution.

Let me know your availability and I'm happy to help coordinate.

--

Kind Regards,

*John*

Toby,

Just following up to see if you received this email with some options proposed by Mythics in regards to our Oracle support renewal snafu. Shaina of Mythics indicates this is quite common for them, but still not sure what she is proposing falls within the guidelines of state policies. We did have our counsel have a look and the consensus is that if Mythics is

2/10/26, 9:20 AM

State of West Virginia Mail - FW: WV Auditor Support Term Alignment – Request for Joint Discussion

able to do the renewal, then if WV Purchasing sees a viable solution in Shaina's proposed options, then SAO would be on board to proceed with renewing. Even if this is a short term solution for this renewal term (Year 6), that would still keep SAO in support until such time we can either come up with a longer term solution for years 6,7 & 8, or just rebid Oracle support altogether.

Your thoughts?

As I read it, Mythic's is ok with moving forward as is, as long as they receive a modification letter for Year 6, (Support term of February 27,2026 through February 26,2027) on contract CCTAUD21\*005, which Julie has already provided and they (Mythic's) have signed off on.

If the state is not on board with these terms, Shaina has offered a couple of additional options for our consideration.

Julie – please correct me if I'm wrong.

Hi Toby & Frank,

With this week coming to a close, and our current Oracle support term is soon to expire on 02/26/26, I am following up to get your thoughts on the Mythic's suggestions for resolution to our Oracle support Year 6 renewal.

Have you reviewed and or discussed the options presented by Shaina? Do you see a viable option within her response? The first choice for SAO position would be to renew exercising the Year 6 option that was included in CCTAUD21\*005. We have already obtained a Year 6 support term modification letter that was agreed to and signed by the Mythic's Director of Contracts on 01/20/2026.

Please advise of your thoughts or if we need to have further discussion as to how we wish to proceed from here.

Best regards,

If the vendor (Mythics) is ok with a renewal as it is, with the short time span, I would recommend renewing for another year and then the Agency will have time to pivot to determine what actions you want to take on the contract.

I would like to mention that in the original specs 4.1.3 did state that reinstatement fees for lapsed support must be included in year one pricing, so the vendor is paid for those services. This is complicated because all we can really enforce is what is in the contract as far as dates.

If The agency and Mythics can come to a legal agreement on how to go forward, we would be happy to help facilitate that.

Good afternoon,

Yes, we do want to proceed with the renewal. So, the letter that I have attached to header page on the CCTAUD2100000005 should be correct unless you recommend us wording it differently. Is the letter acceptable with the change order end date being 4/09/2027?

Thank you.

Toby,

The Oracle Support term dates were added at the request of Shaina Hyman of Mythic' s, (see below).

*'Are you able to include something that states Contract #2100000005 is effective through 4/9/26 with the option to renew for 3 additional one-year terms and you are choosing to exercise Option Year 6 (first additional term) on the attached pricing sheet? Then if you could just add that Option Year 6 has an effective support term of 2/27/26 - 2/26/27, that would be great! I've attached the Oracle report which shows this support term.'*

I think a reason Shaina requested that line be added is because I do not see where the actual dates for Year 6 of Oracle Support are identified on the original CCT. Perhaps they would just let us make reference to the attached Oracle report instead for the support term?

I have tried to contact Shaina, to see if that may be an option.

Toby,

I have reviewed. I do not have concerns because we need the service and the vendor is honoring the renewal pricing. Since I'm not confident Oracle will provide the service without agreement on the term as it understands it, and that view not being wholly unreasonable, we would like to move forward with the renewal.

I apologize for any confusion, I just want to make sure that the point of the February dates is clear so we can have a clearer understanding.

1) Did your Attorney's have a chance to review, and do they have any concerns? ***Yes, our counsel has reviewed and believe that since the dates if we exercise the Year 6 Mythics CCT renewal option, along with what remains of our current Year 5 Mythics contract are sufficient to cover what remains of our year 5 & upcoming year 6 of our Oracle Support Terms, that we should be good to proceed, provided WV Purchasing is in agreement.***

2) The vendor won't budge off of the February dates even though our contract started in April? Is that correct? ***I think this is actually to provide clarity that by exercising the Year 6 renewal option of the Mythics contract (April 2026 – April 2027 dates) that the Oracle Support Term for year 6 (February 2026-February 2027 dates) falls within that range. I think it is to both our and Mythics benefit to include the dates of Oracle Support term for Year 6. This would define that despite the dates don't aligning, its clearly stated that the renewal of Mythics Year 6 Option ensures there would be no lapse in coverage for our Oracle Support Terms for Year 6.***

Hey Toby,

I have looked back into the file for Mythics to try and see where the dates are coming from for Feb. It looks like this was discussed between Kelly and Melissa Pettrey back when in 2021 in emails. If you can review over and see if this answers any questions and what we may be able to do at this point. I have been in touch with Mike and forwarded what I have found to him as well for his review. We would like to set up a call with all three of us tomorrow if it works with everyone's schedules.

Thanks

Thanks Julie, I had Mark review this and he said the only path forward in order to sync this up is to to a shorter renewal. for example 4/10/26 - 2/256/27. Then the additional renewals will be in sync. The only caveat to this is you wont get 3 months out of the contract. It will expire in February instead of April.

Toby,

Thanks for getting back to us. If I'm understanding you correctly, this would create a lapse in Oracle coverage between February and April of this year (2026). It's been our previous experience that Oracle is reluctant to reinstate coverage after a lapse.

I think what has created the issue here was that back in 2021 there was a similar instance in getting our new contract in place. Essentially, the contract dates do not align with the coverage support dates. Is there any possibility that since Mythics specifically included years 6,7 and 8 pricing in that contract, that and addendum or Change Order could be done? If Mythics would be agreeable to extend that date(s) effective in February rather than April?

I am going to reachout to our Oracle rep to make them aware and what they can do or suggest.

**Subject:** [External] RE: Oracle

**CAUTION: External email. Do not click links or open attachments unless you verify sender.**

Good Morning – Mythics was the lowest bid for the 5 year term and they were the previous vendor so I don't think we really have an issue but I wanted to point out a comment that they added to their bid.

**Comments:** Acceptance of Mythics submission is confirmation the initial support renewal term is 5 years, 2/27/21 through 2/26/26. By placing a 5 year order to Oracle, Mythics is able to lock in your current support rate. You will not incur annual uplifts until you start to execute the option years.

So they were the vendor who had this contract up until 2/26/2021 when it expired. We spoke with Oracle directly and they have granted us a grace period during this lapse in service providers. It looks like Mythics is under the impression that if they are awarded the bid we will backdate to the 2/26/2021 expiration of their previous contract. Obviously, that's not going to happen and it will have a new effective date based on this RFQ award so do we need to reach out to the vendor to clarify that?

I didn't include them on the CRQS because you said you were transferring terms and conditions to the new form and adding some specific language about the award being based on the 5 year pricing.

I can send my draft if you need it.

Good Morning! Happy Monday ☺

We had a call with Oracle on Friday and they are not giving us much grace on this contract renewal. They are extending our coverage without contract through 3/19 and we have to have a follow up call to update the status of the bid and request an additional coverage extension.

I think we already discussed this, but we need to post this bid for only ten days. It's cookie-cutter stuff so that should be plenty to get bids from qualified vendors.

Let me know if you need anything more from me. I didn't attach anything to the CRQS in the system, but I'll approve it over to your workflow when you're ready.

Thanks!!

I deleted the CRQM since we decided to do this as a CCT rather than a CMA. It is now in Oasis as CRQS AUD21\*003.

I added the individual commodity lines, matching the pricing sheet.

I've attached a copy of the revised pricing sheet and specifications just to keep track of the revisions and clean copies.

We are satisfied with both the specs and pricing sheet on our end. I haven't attached anything to the CRQS yet though...wanted you to take one more look.

Thanks!

James,

Thank you for your email. So we were approved to process the two renewals Kelly sent me last week and we successfully booked them because we received approval from Oracle to utilize the expired OMA, but only for those two renewals. I have cc'd Chris Brown at Oracle who is currently working with the State of WV to renew your OMA. Chris, could you provide an update for James where we stand with the WV OMA? In the meantime, I confirm the WV State Auditor's Office is fully supported. Please let me know if you have any other questions or concerns.

Kind regards,  
Maddy

**Subject:** RE: Renewal Quotes - Corrections Needed

Maddy Humphrey,

I am General Counsel for the State's Purchasing Division and one of the attorneys that negotiated the original OMA agreement back in 2014.

You mentioned "that [the OMA] is currently being renewed as it expired this fall, between the State and Oracle. I am waiting on a response from Oracle for an update on this legal process but have not heard back yet." To date, the Purchasing Division has no record of any attempt by Oracle to renew the OMA. We are certainly amenable to renewing the 2014 agreement and could have that completed in days if Oracle agrees to renew without changes. Should Oracle need changes to the agreement, perhaps they could agree to renew the existing 2014 agreement for a period of time to allow for negotiation.

If you could forward this request to your contact at Oracle, it would be greatly appreciated.

Sincerely,

James Meadows  
General Counsel

**Subject:** RE: Renewal Quotes - Corrections Needed

We are not looking to cancel or non-renew any items. The line description used simply is not correct. We had this very same issue last year. The Change Management Pack and the Database Enterprise Edition do not have renewable annual support under this contract number. The two items under this contract for renewable annual support are the Diagnostic Pack and the Tuning Pack. I have attached the pricing page from CCT AUD1800000004 for your reference. Please note – the pricing page does not reflect the pricing for years 1-3 annual support, as a maximum of 4% increase is allowed under the terms and conditions of this agreement.

Each of these contracts are stand-alone contracts specific to our agency. (CCT AUD1800000004 and CMA AUD17\*00000002) The renewal or expiration of the OMA should have no bearing on these two renewals.  
Thanks!

**Subject:** RE: Renewal Quotes - Corrections Needed

Good afternoon Kelly,

I am working on your request. Thank you for the follow-up and thorough response with your review of these quotes. I will get these updated back to you soon. For the Quote # WV 18273637 20-21 are you wishing to cancel/not renew certain CSIs/line items? I can request this to Oracle to provide a new quote.

Also, for the Contract Vehicle being used we have been using the State of WV's OMA agreement and I am unsure if you are aware or not but that contract is currently being renewed as it expired this fall, between the State and Oracle. I am waiting on a response from Oracle for an update on this legal process but have not heard back yet. If you have any insights please let me know as this will benefit the renewal process.

Kind regards,  
Maddy

**Cc:** Mike Barker <[Mike.Barker@wvsao.gov](mailto:Mike.Barker@wvsao.gov)>; Nathan Ellis <[Nathan.Ellis@wvsao.gov](mailto:Nathan.Ellis@wvsao.gov)>  
**Subject:** Renewal Quotes - Corrections Needed

Good Morning Maddy – there are a few issues we need to get corrected before we can proceed with this renewal.

For your Quote # WV 18273637 20-21, the item descriptions are incorrect. We are renewing the service on the Oracle Diagnostic Pack, not the Change Management Pack and on the Oracle Tuning Pack, not the Oracle Database Enterprise Edition. These line item descriptions need corrected. The price increase on these two items does fall at 4%, so we are ok with the pricing for these items.

For your Quote #WV 16719323 FY20, the price increase is above what was quoted in the original RFQ response for the Year 4 Support Renewal. We cannot deviate from the original amount quoted. The quote pricing will need to be revised to match the pricing quoted on the pricing sheet.

Once the corrections are made, we will review and proceed with the additional renewal forms.

Thanks!

Ok.... I think I have the pricing page right now 😊

I talked to Mike about the issue with the "or equal" and the possible voiding of a warranty. This may be easier with a phone call but, this is where we have an issue with knowing how to answer this...

This really isn't a tangible item that has a manufacturer's warranty, nor is it something that has any equal. This is licensed software that we OWN, and this RFQ is for the support services that pertain to the licensed software. So, there really isn't a need for an "or equal" as far as we are concerned because again, it's an item we own so there is no equal. We're simply looking for support on something we own so the product is what it is.

Like... if we said we are looking for tires for our 2020 Ford F-150. There is no "or equal" to the 2020 Ford F-150 because it is the truck we need tires for and we just need the best price for those tires. Make sense so far?

So as far as a warranty being voided is concerned ... there is no warranty to void because, if for some reason we would change/delete/upgrade any of the Oracle licenses we own, we would really need to do a full change order to this contract because we would need to fully delete – or add – a line item based on Oracle's new license agreement. Again, this isn't a tangible item with a warranty or product life or anything like that. If we find we don't need the particular software item that we have support for, then we just don't use it anymore. Or if we would need to get the 'latest and greatest' and upgrade, we'd have to add the new license to our support.

I hope I explained that well enough... and I hope you can tell me how to answer your question. LOL! 😊

**Subject:** RE: [External] Oracle RFQ

Hey!

I am hoping to get this out today.

I am looking at the pricing page, here is what I have found:

1. The extended Total Price years 1-5 only covers the total for year one.
2. The last line that will total that column, once corrected, should say Total Bid Amount years 1-5
3. The optional years need to have the same formulas, and total of that column.
4. Somewhere there needs to be a Total Bid Amount, that will add the 4 columns together.
5. Add "Solicitation will be evaluated on Total Bid Amount. Award will be for the initial five (5) years services only. Any services for subsequent years will be added by change Order, initiated by the WVSAO option, with the approval of the Vendor and approved by the West Virginia Purchasing Division."  
You can add that below the totals.

I am going to transfer your T&C's over to the latest version, and I will add the blurb about the award. And I will add it to the specs as well.

On the specs, with the or equal, you are supposed to give three mandatory components of the original that the or equal must have.

Obviously, there aren't three. SO is there a warranty that could be voided by using a different product? If there is, I will add that to the or equal.

Let me know.

*Sincerely,*
