Services	VarioPrint 6000 Services	VarioPrint 6000 Key Operator training by Client Education Specialist. VarioPrint 6000 Key Operator training by Client Education Specialist is required with every order. Provides customers with up to two (2) days of Key Operator training support for VarioPrint 6000 printers delivered by a local Client Education Specialist. Special applications or complex implementations may require additonal training days as outlined in the Plan of Approach. Contact your local Pre-sales Systems Analyst to confirm the number of units required for individual opportunities. Education Services are consumed at the time of installation or within 30 days of the order date, whichever comes first (i.e. cannot be banked for future use). Please utilize the Subscription Support Services packages for opportunities that require prepaid support (i.e. banked support time).	2375V279	$3,680.00	0.00%	$3,680.00

<1> All Technical & Implementation Services are Statement of Work based and require Canon Professional Services to provide estimated hours required per project.
<2> Canon Professional Services **MUST** be engaged prior to any services order entry. All engagements required a Project ID with order submission.
<3> Customization Services are based on level of effort and requirements assessed per project.
<4> Support Services are provided on a points based system with points allocation based on the complexity of the solution being supported.
<5> Allocated points are established on either a monthly or annual basis depending upon the engagement and support services being provided.

Managed Print Services: Cost Per Impression (CPI) Device Pricing

In the effort to provide Sourcewell and its members with the best pricing representative of their fleet of devices, Canon has established a price range for the expected CPI. The CPI low/high ranges have been established as a bench mark. The actual pricing the end customer will receive will not exceed the high CPI rates published in the table below. Variables that are taken into consideration in determining the CPI for a fleet of devices are items such as the age of device since manufacture date, cost of toner as it relates to yield, cost of parts, historical mean-time-between-failure and device service costs.

		Maintenance and Support Services of Third Party Equipment	Low CPI
Services	MPS	Mono	$0.0033
Services	MPS	Mono on Color	$0.0037
Services	MPS	Color	$0.0363

Device Re-Allocation

		Item Code	Description	Sourcewell
Services	MPS	TBD	Relocation of Device	$150 - $1800 /Device

- As part of the account review process, over and underutilized devices may be identified. In order to maintain maximum efficiency of the fleet these devices may need to be relocated on the same floor, within the building, or to another location covered by your MDS agreement.

- The Device Relocation Fee is for the de-installation of the device, transportation to the new location, and re-installation of the device at the new location.

- Canon has established the above price range for device re-allocation services as a bench mark. Variables that are taken into consideration in determining the price for reallocating devices are items such as the type of device (printer or imageRUNNER), the on-site location (within the building or floor), or the distance to a new building (within 50 miles of the original location).

- Please note that rigging requirements will apply. Rigging refers to any inside delivery or removal from or to point of installation where adequate access (elevator) is not available, requiring movement of equipment up stairways, through windows, etc. If rigging is required this will be quoted as an Open Market Item.

Hi Mark,

Hope you are having a great week.

Please find the attached updated Sourcewell price file, which has been approved by Sourcewell and includes our newly added models. I have also included the signed Sourcewell product change request form for your records.

Thank you!
Wendy.
