A F F I D A V I T

West Virginia Code §5A-3-10a states:

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities

CONFIDENTIALITY:

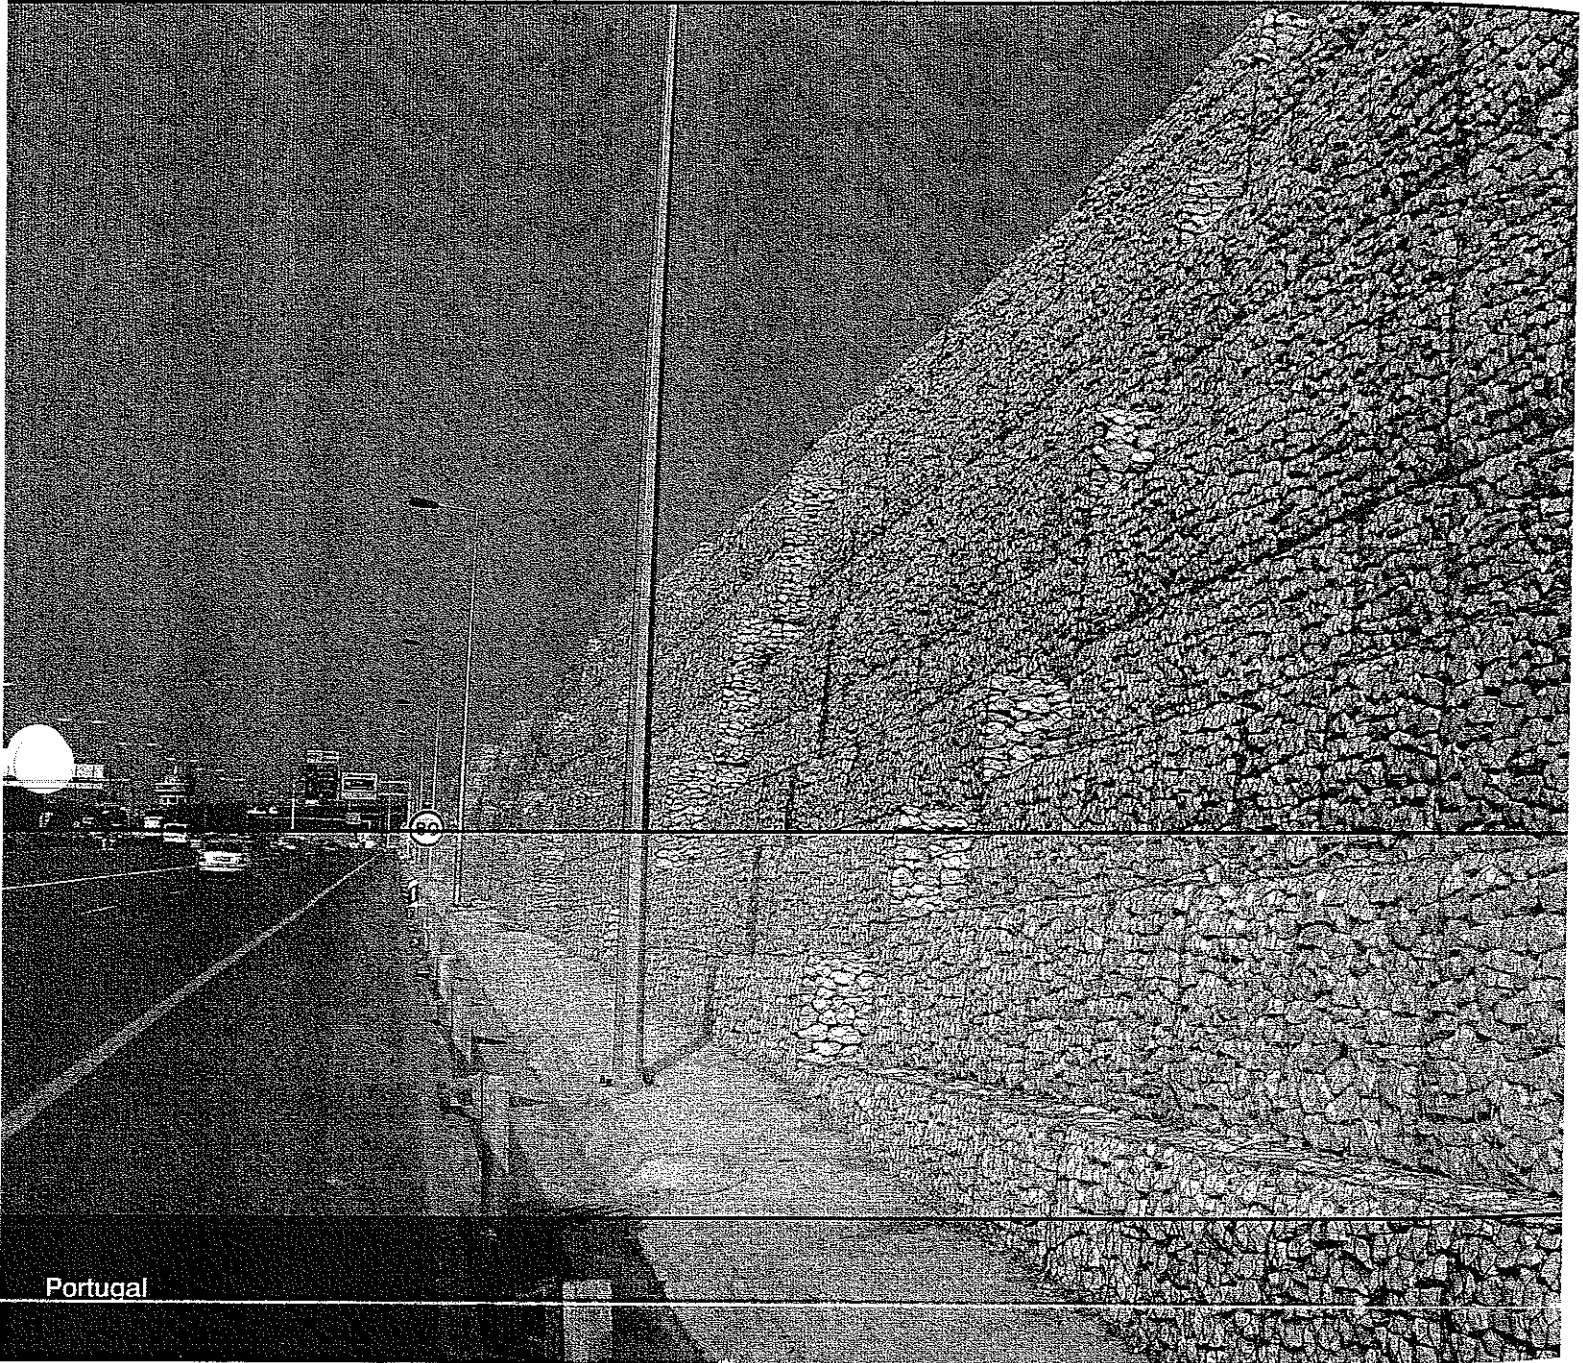

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated

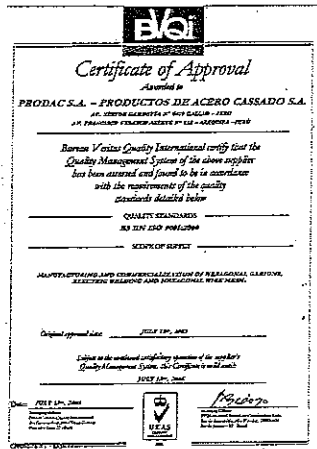

Vendor's Name: Cadillac Seed

Authorized Signature:  Date: 18 April 2007

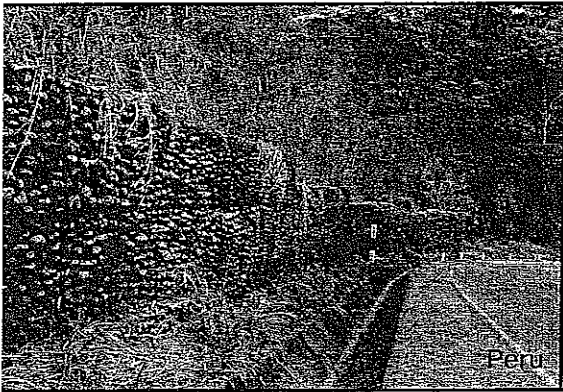

Maynard Hadden

Portugal

All of our products are manufactured in accordance to a quality management system certified by BVQI, which meets ISO 9001:2000 requirements with certificate number 133670. Our gabions also meet requirements of Bolivian standard IBNORCA: Standard NB 710-00.

PRODUCTOS DE ACERO CASSADO S.A., PRODAC, was established in 1994 as a result of the merger between INDUSTRIAS CASSADO S.A. and PROLANSA, the two largest wire manufacturers in Peru.

This is how Prodac, the most ambitious wire manufacturing projects ever created in Peru, started its operations.

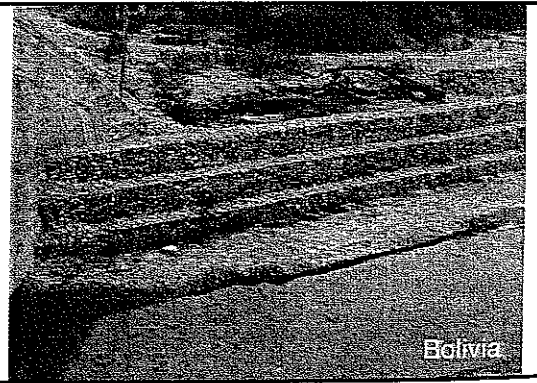

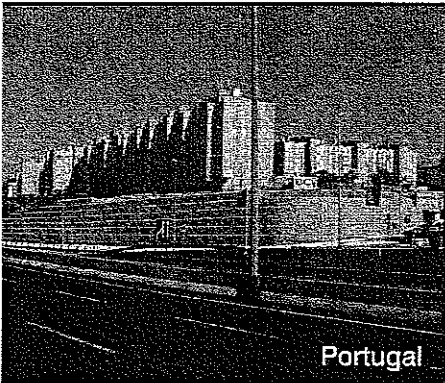

Nowadays, Prodac is the largest wire manufacturer in Peru. Its sales have successfully expanded to South America, Central America, The Caribbean, North America, Europe and Oceania. Prodac strives day to day to improve its quality standards, and to become the leading wire company of the region.

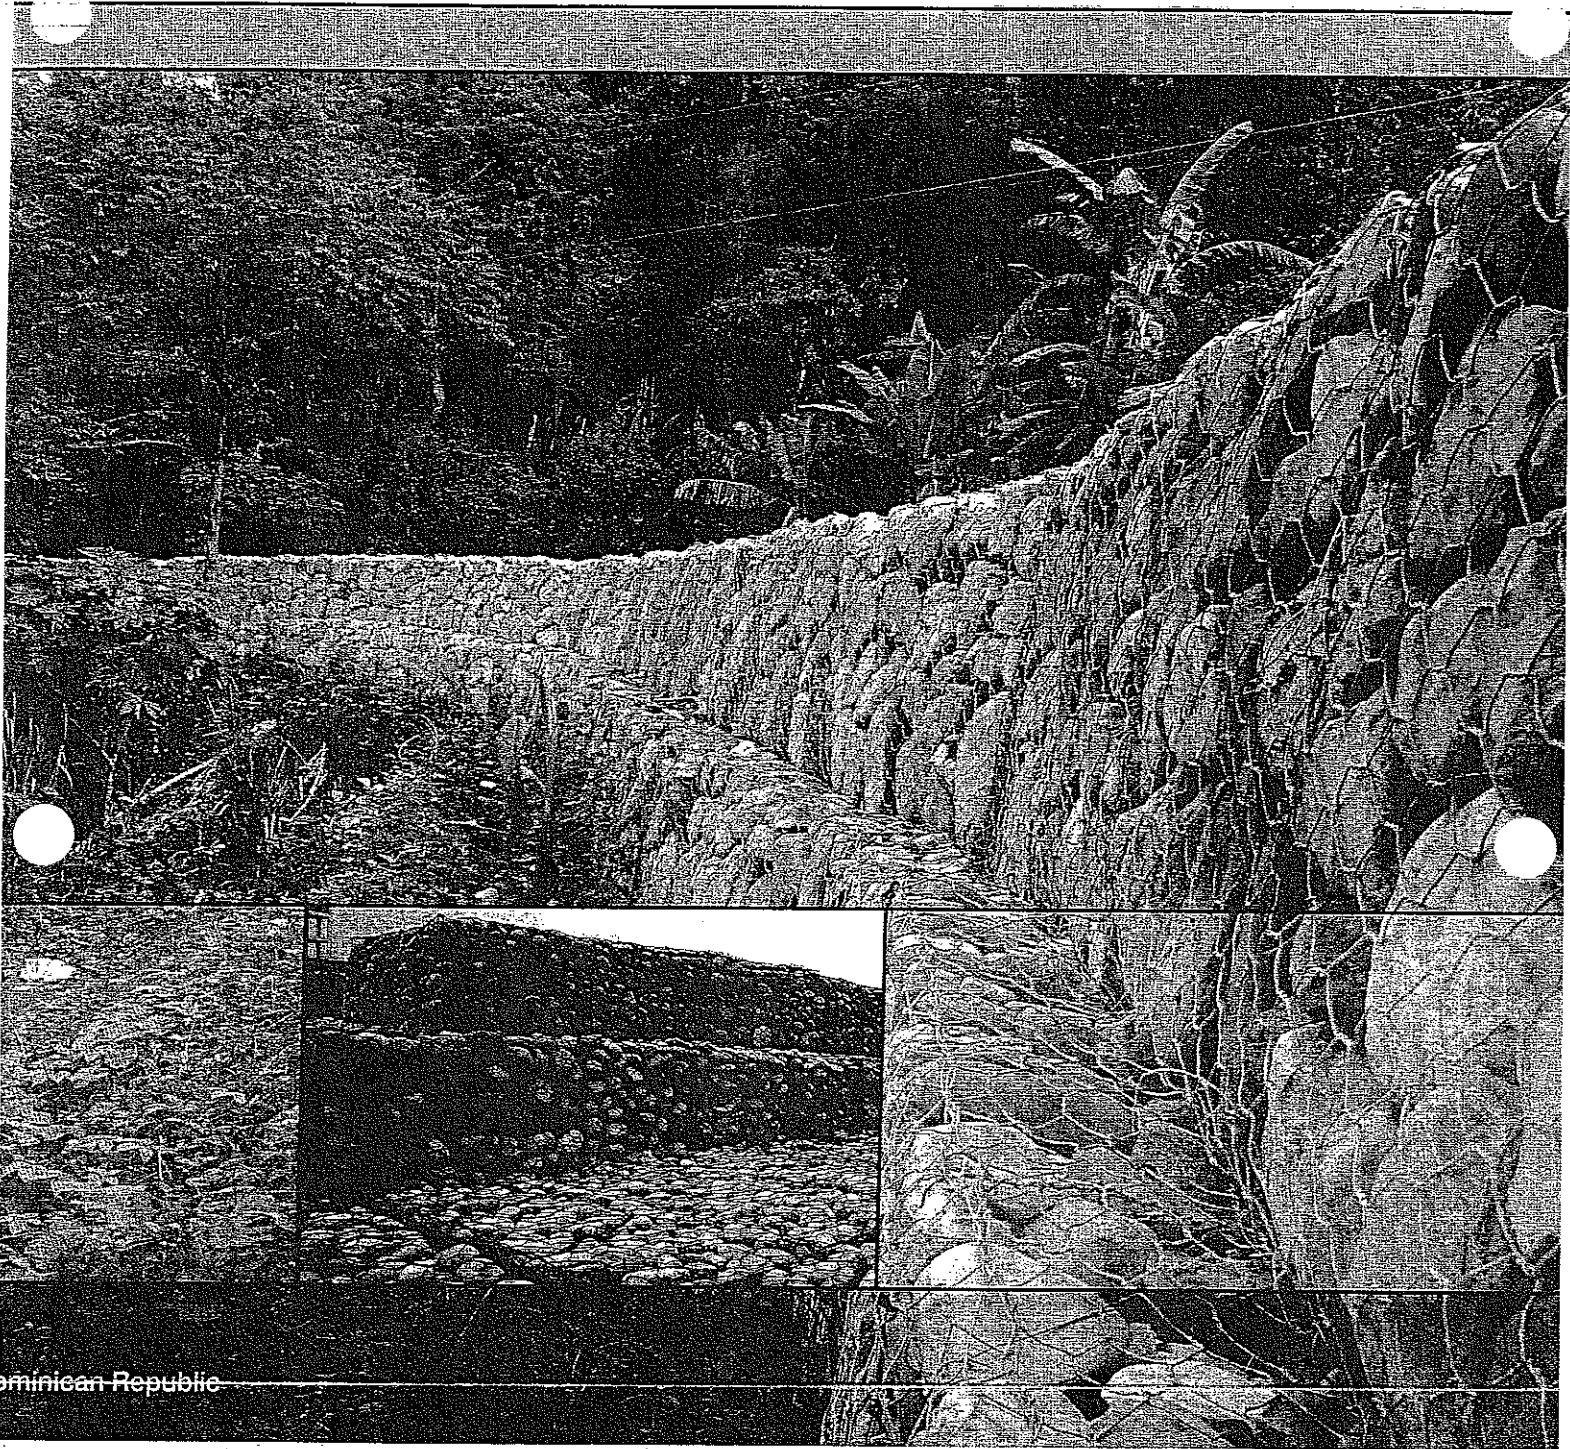

Prodac's products meet international quality standards as ASTM, Euronorm, British Standard, AFNOR and others. This commitment to quality, and its technological know how guarantee a quality product, designed and produced with the latest technology.

Introduction

Prodac gabion baskets and mattresses represent an efficient technical - economical, as well as aesthetic and ecological solution in civil engineering works.

Prodac gabions are easy to install, and they integrate and adapt in harmony to their surroundings, allowing vegetation to grow. This provides a pleasant landscape in contrast to the rigid or semi-rigid solutions of concrete or ripraps.

ominican Republic

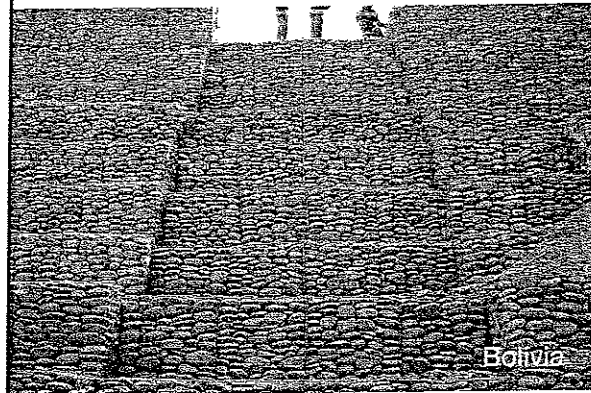

Definition

Prodac Gabion baskets and mattresses are rectangular parallelepipeds composed of meshes with particular characteristics which form a base, vertical walls and a cover. The cover can occasionally be formed separately.

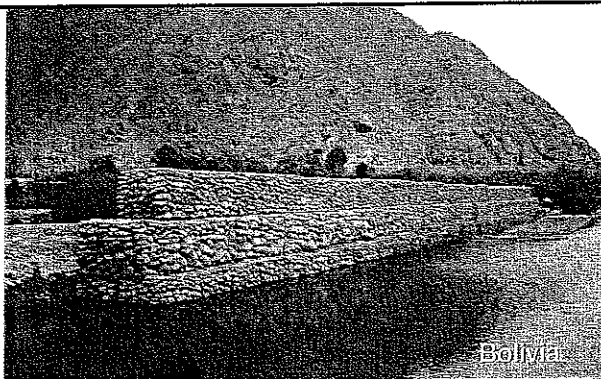

According to the mesh type, they can be:

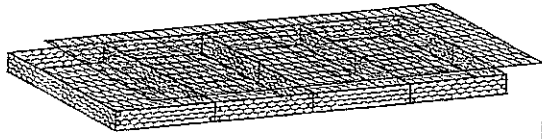

- Hexagonal openings (woven).
- Orthogonal openings (electrowelded).

Baskets are gabions whose height ranges from 0.50 m to 1.00 m while mattresses have a height range from 0.17 m to 0.30 m. Gabions can be partitioned by internal diaphragms forming cells whose length must not be greater than $1\frac{1}{2}$ the width of the mesh. Usually, this spacing is 1 meter.

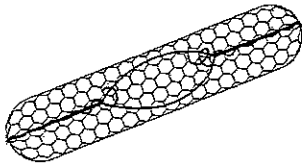

There is a third type of gabion called sack which is mainly used in emergency works or in places where it is not possible to make an installation in optimal conditions. Unlike gabion baskets or mattresses, gabion sacks are assembled off-site and they are mounted in their final location with the use of heavy machinery.

Mexico

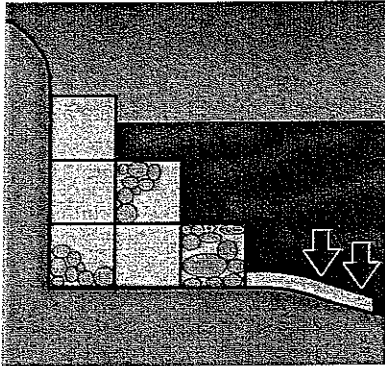

Guatemala

Characteristics and Advantages

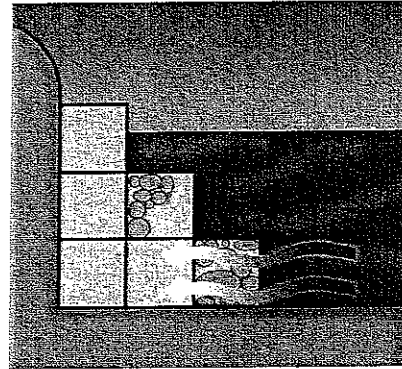

FLEXIBILITY

Prodac gabions allow deformation of the structures without losing their functionality. This feature is very important when the work must support high ground movements, it is set on unstable soils, or is exposed to severe erosions. Unlike rigid structures, gabions collapses do not occur suddenly, allowing adequate recovery actions.

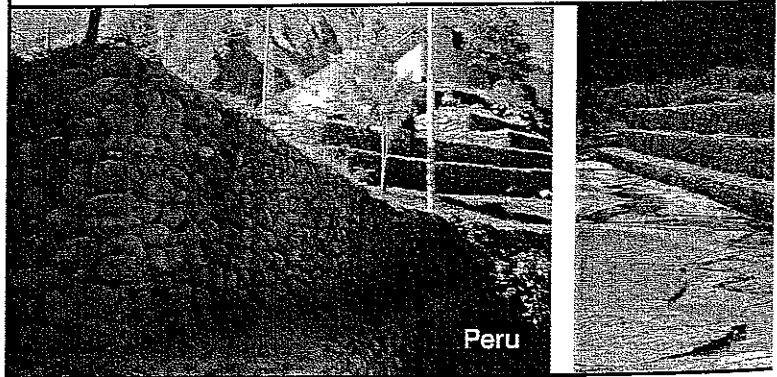

PERMEABILITY

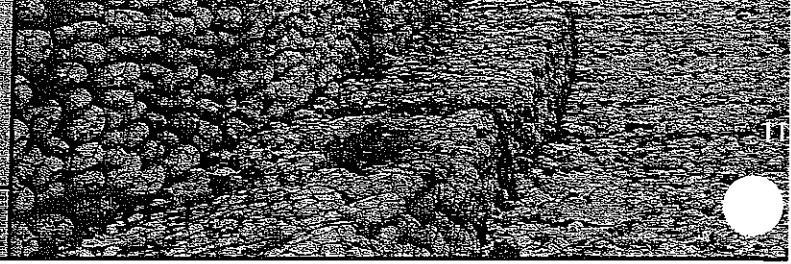

As Prodac gabions are composed of mesh and rocks, they are highly permeable structures. This prevents hydrostatic pressures from building up in bank protection works. They form drains which allow water discharge, avoiding movements to occur from the dry face of the structure.

AESTHETICS

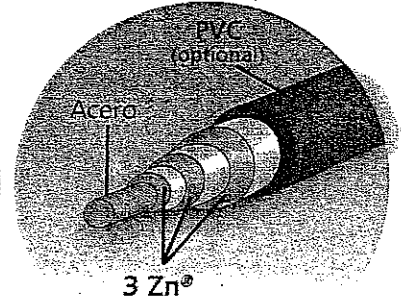

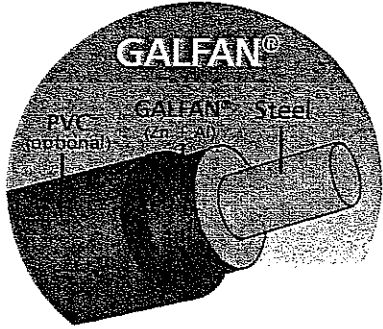

Prodac gabions integrate with their surroundings, naturally and in harmony, allowing the growth of vegetation and preserving the existing ecosystem.

DURABILITY

The protective coating of the wires used for manufacturing Prodac gabions ensures their useful life. The triple zinc layer or heavy galvanization (BS 443-82 / ASTM A 641), as well as Galfan®, ensures protection against corrosion and abrasion. A PVC coating protection, recommended in cases of severe corrosion, can be added to these metallic coatings.

ECONOMY

As Prodac Gabions are easy to assemble, they do not require specialized labor. The tools required are simple (shears, pliers, etc.), achieving high performance in the installation. In many cases fill tones are extracted from the site where the installation is being performed which has a favorable influence on the reduction of the final cost of the work.

RESISTANCE

The materials used for manufacturing gabions meet the most exigent international standards, ensuring a 100% reliable gabion, guaranteed by wire diameters and mesh openings.

VERSATILITY

The type of materials used in the gabions allow their construction either manually or mechanically in any weather conditions, either in presence of water or in places difficult to access. The gabion construction is fast and it starts working immediately after the construction is completed. It also allows working in phases and a fast repair in the event of any failure.

Costa Rica

Hexagonal Mesh Gabions

1.1 PRODAC HEXAGONAL GABIONS

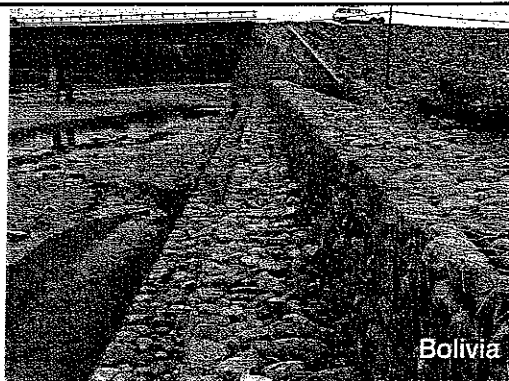

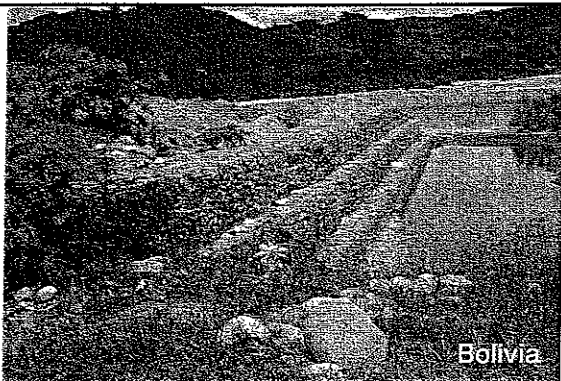

GENERAL DESCRIPTION

Prodac gabion baskets are regular parallelepipeds of various sizes, manufactured with double twisted metallic mesh (ASTM A 975 97) and filled on site with stones of appropriate hardness and weight.

Table Nº 1 GABION BASKET

DIMENSIONS				
Length m	Width m	Height m	Diaphragms N°	Volume m ³
1.0	1.0	1.0	-	1.0
1.5	1.0	1.0	-	1.5
2.0	1.0	0.5	1	1.0
2.0	1.0	1.0	-	2.0
2.0	1.0	1.0	1	2.0
3.0	1.0	0.5	2	1.5
3.0	1.0	1.0	2	3.0
4.0	1.0	0.5	3	2.0
4.0	1.0	1.0	3	4.0
4.0	1.5	1.0	3	6.0
5.0	1.0	0.5	4	2.5
5.0	1.0	1.0	4	5.0
5.0	1.5	1.0	4	7.5
6.0	2.0	0.5	5	6.0

Other sizes can be manufactured upon request. Tolerances meet ASTM A 975-97.

MESH

The mesh is a hexagonal double twisted wire net made by interweaving two wire threads by three half turns. The mesh type is 8 x 10 cm (ASTM A 975 97).

Since these structures are affected by differential ground settlements, external movements, etc., the use of gabions with openings bigger than 8 x 10 cm is not recommended. A bigger mesh opening reduces the gabions steel area and weakens the structure.

Mesh opening tolerance is +/- 10%. Wire diameters will depend on the planned structural building conditions.

1.2 PRODAC HEXAGONAL REVET MATTRESSES

GENERAL DESCRIPTION

Prodac Revet Mattresses are regular parallelepipeds of various sizes manufactured with a double-twisted woven metallic mesh filled on site with stones of appropriate hardness and weight.

QUOTATION No. 060-04-07-E

We are pleased to send you our quotation for the following products:

DESCRIPTION	
A	<p>DOUBLE TWISTED HEXAGONAL GALVANIZED GABIONS</p> <p><i>Technical Specifications</i></p> <ul style="list-style-type: none"> • Mesh Type : 8 x 10 cm (ASTM A 975-97) • Mesh wire diameter : 3.05 mm • Selvedge wire diameter : 3.90 mm • Lacing wire (8%) : 2.20 mm • Tensile strength range : 51 Kg/mm2 (BS 1052) • Wire Coating : HEAVILY GALVANIZED (BS 443-82) (ASTM-641) • Tolerances : Comply ASTM 975-97 inc. 9.4, 9.6 y 9.8

Item	Qty.	Unit.	DIMENSIONS	Unit. Price FOB (US\$)	Total Price FOB (US\$)
01	5,000	Pcs	GALVANIZED GABION 6.0' x 3.0' x 3.0'		
02	5,000	Pcs	GALVANIZED GABION 9.0' x 3.0' x 3.0'		
03	2,500	Pcs	GALVANIZED GABION 12.0' x 3.0' x 3.0'		

Notes:

- Prices include lacing wire (6%) and diaphragms (w/d)
- Our products comply ASTM-A 975-97 Standard Specification for Double – Twisted Hexagonal Mesh Gabions
- Material will be loaded in 40'HC containers, with pallets
- Technical assistance and ISO 9001-2000 certificate are included
- For further information please visit our web site at www.gavion.com
- Loadability (approx): 16 Tons per 40' container.
