SCOPE

This contract is to furnish automotive and equipment lead acid batteries for vehicles and equipment owned and/or leased by various agencies and political subdivisions. It is the intent of this contract to provide a "discount from list" contract covering all current product applications and any new product applications as they become available. This bid shall be a Request for Quotation (RFQ); a single award for all items will be issued to the lowest responsible bidder, whose products meet the minimum quality defined herein. A sample shall be provided upon request.

Mandatory Pre-Bid Meeting

A mandatory pre-bid meeting shall be held on Thursday, June 22, 2206 at 11:00 a.m. The meeting will be held in the Purchasing Division Conference Room located at 2019 Washington Street, East (Capitol Complex - Building 15), Charleston, WV 25305. Any vendor who wishes to bid on this contract must be represented at this meeting. Failure to attend the pre-bid conference shall disqualify a vendor from bidding on this contract. No person can represent more than one bidder.

General Information

- All products bid, furnished and delivered must meet the needs of the State of West Virginia. Each item bid on the pricing page must be identified with the manufacturer's number and the vendor's item number on the bid form.
 Vendors are requested to type the pricing pages.
- 2. Bidders shall complete the pricing on "AEBATT07 Pricing Spreadsheet". Bidders should complete all columns and information requested. Quantities for each item represent an approximate volume. No future use of contract is guaranteed or implied. The "unit price" must be the final price that will be charged to the State of West Virginia. The award shall be a discount from list, based on discount shown on bid. Entire battery product line shall be covered by the subsequent contract awarded. One discount from list covering all batteries must be given.
- 3. The lowest cost bid whose products meet or exceeds the acceptable quality, shall be awarded a contract.
- 4. The catalogs may be updated at renewal. If the Purchasing Division extends the offer to renew, and the catalog prices have significant increases, Purchasing may decline and re-bid the contract. Any price increase request must be substantiated by information from supplier to contract holder.
- 5. Estimated Quantity amounts are shown for informational purposes only and should not be construed as a guarantee of any future contract usage.
- 6. Orders shall be delivered within three (3) working days after orders are received. Spending unit must be advised in writing if orders will be delayed for any reason.

Contractor shall carry an adequate stock to insure such delivery service for the duration of the contract.

- 7. All deliveries must be made during normal working hours for the delivery location. Any shipment of products requiring a material safety data sheet (MSDS) shall include a MSDS with the product.
- 8. All bids are to be quoted as F.O.B. destination to any West Virginia location. The minimum order for prepaid shipping to one, in-state destination shall be \$200.00. For orders less than \$200.00, transportation charges (if any) will be invoiced as a separate charge with the original freight bill attached to the invoice. Agencies may make purchases that fall under the \$200.00 limit at a local source to avoid the delivery charges. Note: Stringing orders to circumvent purchasing regulations is expressly prohibited.
- 9. All products furnished must conform to the current edition of Battery Council International (BCI) guidelines on Cold Cranking Amps (CCA) and Reserve Capacity (RC). All batteries quoted on the bid sheet itself should meet or exceed minimum performance levels which are stated. The performance levels are based on the state's requirements and original equipments specifications. All material and workmanship used in the construction of batteries through this contract must be first class to industry practice. All batteries furnished through this contract must be of a wet type and ready for service upon delivery. All batteries furnished through this contract must be manufactured within the United States and have on them manufacturers trade name, its part number, and its CCA rating.
- 10. The successful bidder shall not substitute any other brand of products from those awarded, nor sell any additional items under their contract not specifically covered herein, without prior written permission of the Purchasing Division.
- 11. All products must be highly efficient and effective in the performance of the tasks for which the product is intended to be used.
- 12. Successful vendor shall provide quarterly reports and annual summaries showing the quantities, dollar value and agencies (including political subdivisions) which have used this contract. Successful vendor shall also be able to provide report showing the top items purchased during the contract period. This report is mandatory and failure of the successful bidder to supply such reports may be grounds for cancellation of contract.
- 13. Nonconforming products and materials shall be returned to the vendor at no expense to the State of West Virginia at any time during the life of this contract; and such shipment shall be credited or not invoiced if caught prior to billing.
- 14. Internet Access Vendor should be able to provide internet ordering access. If vendor has such capabilities, this should be so noted in their quotation and describe the process for setting up such ordering for state agencies. Internet access is not a requirement for bidding.
- 15. If any battery becomes unserviceable (not merely discharged) due to defects in material or workmanship within 90 days of delivery, vendor will replace in full to the

original purchaser. After the expiration of the 90 days warranty period the vendor agrees to replace to the original purchaser, on a pro-rata basis during its insured life, based on current suggested list price which is in effect at the time of the purchase. Warranty will not apply in the following cases: If the containers, cover, or terminals are broken; if battery has been opened, frozen, or damaged due to neglect or abuse including fire, wreckage, or explosion. Warranty product must be received within 30 days upon receipt of a returned battery.

- 16. The vendor shall be required to remove junk cores on a one for one basis, if required by any agency or political subdivision. Vendor must also show the amount of credit allowance per junk core removed. The D.O.H. may at its option have their junk cores removed by sealed bid. The vendor must also submit an EPA permit number showing that they are an approved EPA recycler and hauler of acid junk cores.
- 17. Vendor certification must be signed and received prior to award of any contract.

Reminders to Bidders:

Prior to submitting bids, bidders are cautioned to comply with all mandatory bid requirements.

Bidders shall use one discount from list for all batteries. Vendors shall show the "net price" after discount on the pricing pages.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions.

"Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:
