# "SPECIFICATIONS" RFQ: BPH70354

The West Virginia Office of Emergency Medical Services, a Division of the West Virginia Department of Health and Human Resources, Bureau for Public Health, is soliciting bids for the purchase of <u>one (1) membrane shelter system</u> (with a width of no less than 18 feet and no greater than 20 feet and a length of no less than 32 feet and no greater than 40 feet) to include all accessories and electrical power distribution and heating, ventilation, and air conditioning (HVAC) equipment.

### Requirements:

- QUANTITIES: The State will purchase one (1) shelter system as specified.
- **PRICE:** Bid price shall include all costs related to the purchase and delivery of the system, required components to the F.O.B. Destination, and required on-site training.
- **DELIVERY DATE:** Delivery at the final destination is requested within thirty (30) calendar days After Receipt of Order (ARO).
- DAMAGE/SHIPPING CLAIMS: Damage to items in transit is the sole responsibility of the Contractor. The Contractor is obligated to file any claims against carrier(s) for any damage incurred while in transit from point of origin to the ultimate destination.
- GUARANTEE: All items shall be guaranteed against faulty material and workmanship. All standard items shown in the manufacturer's published specifications for the units proposed is to be supplied as a result of this bid specification.
- ACCEPTANCE: Failure of the shelter systems to meet the required specifications or to operate properly in any way will require replacement or repair by Contractor at no expense to the State of West Virginia. Acceptance of the items by the State of West Virginia does not warrant that the items are in perfect working order. The terms of the stipulated Contractor warranty will continue to apply from the date of acceptance.
- BRAND/MODEL SPECIFIED: Western Shelter Gatekeeper I (GKI) or equal.
- OR EQUAL: When a specific brand/model and the words or equal is specified, the intention is to indicate and guarantee a quality level, but not to limit other brands/models. If a bidder requests approval for an equivalent to the brand/model name specified, the bidder must

describe their justification in writing and submit with their proposal. Bidders shall justify how the brand/model offered is equivalent to the quality level of the brand/model specified by the State of West Virginia. Failure of the bidder to describe their justification and quality level of the brand/model offered will be grounds to reject the bid as non-responsive. The State of West Virginia has the sole judgment to determine approval or non-approval of a request for an equivalent to the brand specified. A bid will be rejected if the requested equivalent is not equal to or better that the system specified.

- MANUALS: Contractor shall supply product manuals at time of delivery that describe setup, operation, and service instructions.
- PARTS, ACCESSORIES, AND OPTIONAL EQUIPMENT: As part of any response hereto, the successful bidder shall be required to supply a complete listing (i.e. catalog) of other parts, options, upgrades, replacement parts, and accessories with pricing. Discounts, if applicable, must also be clearly indicated.
- TRAINING: Bid price shall include Contractor-provided on-site training in Charleston, West Virginia to include product information, shelter erection and strike, power distribution and HVAC systems.
- WARRANTY: Product parts and labor shall be warranted for a minimum of one (1) year after delivery and acceptance by the State of West Virginia. Successful bidder shall be required to submit warranty information prior to award.
- PARTS AVAILABILITY: The manufacturer must guarantee parts availability for a minimum of five (5) years.
- MULTIPLE USES: Shelter system shall have the ability to be used in a
  wide variety of configurations as dictated by the situation. Anticipated uses
  for the shelter include but are not limited to: command post, triage center,
  staging check-in, medical surge capacity, point of distribution site, mass
  care, and DMAT/DMORT (Disaster Medical Assistance Teams/Disaster
  Mortuary Teams) activities.
- SHELTER COMPONENTS: One (1) single stand-alone shelter with a
  width of 18-20 feet and a length of 32-40 feet. Shelter shall have ability to
  be connected to other shelters, without modification, via vestibule to form
  larger shelters.
  - Shall include rigid light weight frame constructed of 6063-T5 and 6061-T6 alloys with clear industrial anodized support members.

- The exterior shall be durable cover material of at least 14 oz. thermo-welded vinyl with ultraviolet ray and mildew inhibitors and shall meet NFPA-701 standards for fire resistance.
- Roof trusses shall be of a telescoping nature to minimize packaging.
- Eave bars and base bars shall lock and unlock into the mainframe with integral spring loaded buttons requiring no tools for assembly.
- Eave bars and base bars shall have a clear anodized finish. Eave bars shall be of an extruded design to accommodate rigid hook and loop-type strips for the attachment of roof and sidewalls.
- Upright legs shall lock either up or down with captive locking aluminum pins. Legs shall have a flat foot with provisions for securing to the ground or floor surface. Leg length shall be sufficient to ensure the shelter has a minimum of a full 6-foot vertical sidewall.
- Shall include one (1) aluminum-framed, fabric covered double doors with a minimum 44-inch width.
- Shall include one (1) aluminum vent cap system.
- A minimum of eight (8) clear-view windows (32-38 inches x 32-38 inches) that are fully screened with privacy flaps shall be installed.
- Shall be equipped with an integral self-sealing floor system using overlapping fabric with hook and loop fasteners.
- Insulated roof panel shall be thermo-welded to ensure against leakage shall be included.
- A minimum of two (2) 12" HVAC duct receivers with two (2) 12inch x 20ft duct boots shall be installed.
- A minimum of six (6) fluorescent lights with dimmer sleeves, internal 110V electrical wiring harness and GFCI (ground-fault circuit interrupter)-protected modular daisy-chained together with outlet boxes (containing a minimum of two (2) outlets) every eight (8) feet shall be included.
- One (1) high wind tie down bracket and stake kit with pouches shall be supplied.
- Appropriate travel cases shall be included.
- One (1) vinyl repair kit shall be supplied.

### • ELECTRICAL POWER AND DISTRUBUTION: shall consist of:

- One (1) generator of no less than 36kW (up to 480V) diesel-fueled, with a noise-signature of no more than 65dB(A) at 25 feet with a fuel tank of no less than twenty-five (25) gallons. The generator shall be equipped with one (1) high-amp breaker panel. The generator is to be trailer-mounted with an additional fuel tank of no less than fifty (50) gallons. The trailer shall be equipped with 2" ball hitch and electrical brakes.
- One (1) 50 Amp power distribution box for use between high-amp power distribution panel and internal shelter wiring harness.

Distribution box must include a minimum of the following circuits: six (6) 20-amp 120V GFCI-protected outlets, one (1) 20-amp 240V GFCI-protected outlet, and one (1) 50 amp, 240 volt feed-through.

- One (1) 240V power cable of no less than 50 feet.
- One (1) 110V power cable of no less than 50 feet.
- One (1) storage case for power distribution system.
- **CLIMATE CONTROL:** A self-contained and portable HVAC system is to be included with the shelter. The system shall:
  - Be capable of providing a minimum of 3.5 tons of cooling and 42,000 BTU/hr. of heating and include a supplemental 27,000 BTU/hr heat strip.

- Be UL listed for outdoor use and rated at 230V, single-phase power.

- Include two (2) 20' ducts, one (1) intake boot, and one (1) discharge boot.

- Include one (1) full-framed, wheeled transport cart with vinyl cover.
- **EASE OF SETUP:** Shelter system must be able to be erected in remote areas without use of specialized equipment, ladders or tools, with no more than four (4) people in less than 90 minutes.
- COMPATIBILITY WITH FEMA EQUIPMENT: Shelter system must include vestibules which will allow positive connections to FEMA (Federal Emergency Management) and the National Disaster Medical System's DMAT and DMORT shelters without compromising isolation capabilities.
- ALL WEATHER CAPABLE: Shelter system must have proven record to withstand 50 mph sustained wind loads, 6" snow loads, heavy rain (2" per hour), and cold temperature extremes to -30F without compromising structure of effectiveness or primary mission.
- SELF-CONTAINED: Shelter system must be self-contained in regards to electrical and HVAC.

# **PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

### **DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING: Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/ admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.

## WhisperWatt Generator

# WhisperWatt<sup>™</sup> 45

Prime Rating: 36 kW (45 kVA)

Standby Rating: 37.8 kW (47.3 kVA)

60 Hertz

### WhisperWatt<sup>™</sup> Standard Features

- Heavy duty, 4-cycle, diesel engine provides maximum reliability.
- Brushless alternator reduces service and maintenance requirements and meets temperature rise standards for Class F insulation systems.
- Open delta alternator design provides virtually unlimited excitation for maximum motor starting capability.
- Automatic voltage regulator (AVR) provides precise regulation.
- Full load acceptance of standby nameplate rating in one step (NFPA 110, para 5-13.2.6).
- Sound attenuated, weather resistant, steel housing provides operation at 65 dB(A) at 23 feet. Fully lockable enclosure allows safe unattended operation.
- Internal fuel tank with direct reading fuel gauges are standard.
- Seven-stage powder coat paint provides durability and weather protection.
- **EPA-MOH emissions certified** Tier 2 emissions compliant.

- Complete engine analog instrumentation includes DC ammeter, oil pressure gauge, water temp. gauge, fuel level gauge, tachometer/hour meter, preheat indicator, emergency shutdown monitors, and keyed start switch.
- Complete generator analog instrumentation includes voltage regulator control, ammeter phase selector switch, voltmeter phase selector switch, AC voltmeter, AC ammeter, frequency meter, panel light, and circuit breaker.
- Automatic safety shutdown system monitors the engine oil pressure and water temperature. Warning lights indicate abnormal conditions.
- Complete power panel. Fully covered; three-phase terminals and single phase receptacles allow fast and convenient hookup for most applications including temporary power boxes, tools and lighting equipment. All are NEMA standard.
- Simultaneous single and three phase power.
- Voltage selector switch allows easy to change voltages as your applications require.
- Fuel / water separater removes condensation from fuel for extended engine life. Panel mounted alarm light included.

# DCA45SSIU3

# WhisperWatt Generator

# **Specifications**

	Generator
Design	Revolving field, self-ventilated drip-proof, single bearing
No. of Poles	4-pole
Excitation	Brushless with AVR
Standby Output	37.8 KW (47.3 KVA)
Prime Output	36 KW (45 KVA)
Generator RPM	1800
Voltage — 30	208, 220, 240, 416, 440, 480V Switchable
Voltage — 10	120, 127, 139, 240, 254, 277V Switchable
Armature Connection	Star with neutral / Zig Zag
Voltage Regulation (No load to full load)	±1.0%
Power Factor	0.8
Frequency	60 Hz
Frequency Regulation: No Load to Full Load	3-5% under varying loads from no load to 100% rated Load
Frequency Regulation: Steady State	±0.5% of mean value for constant loads from no load to full load
Insulation	Class F
Sound Level dB(A) Full load at 23 feet	65

Engir	ne
Make / Model	Isuzu / BB-4JG1T
Emissions.	EPA Tier 2 Certified
Starting System	Electric
Design	4-cycle, water cooled, direct injection, turbocharged
Displacement	186.7 in <sup>3</sup> (3059 cc)
No. cylinders	4
Bore x Stroke (mm)	95.4 x 107
Gross Engine Power Output	64.8 hp (48.3 kW)
BMEP	134 psi (924 kPa)
Piston Speed	1264 ft./min. (6.42 m/s)
Compression Ratio	18:1
Engine Speed	1800 rpm
Overspeed Limit	2100 rpm
Oil Capacity	2.64 gallons (10.0 liters)
Battery	12V 72Ah x 1

Fuel		
Maximum Fuel Flow (per hour)	11.9 gallons	(45.2 liters)
Maximum Inlet Restriction (Hg)	2.39 in. (	60.8 mm)
Fuel Tank Capacity	26.4 gallons	(100.0 liters)
Fuel Consumption	gph	lph
At full load	2.98	11.30
At 3/4 load	2.25	8.52
At 1/2 load	1.65	6.24
At 1/4 load	1.09	4.12

Cooling	
Fan Load	0.94 HP (0.7 KW)
Coolant Capacity (with radiator)	2.88 gallons (10.9 liters)
Coolant Flow Rate (per minute)	21.1 gallons (80.0 liters)
Heat Rejection to Coolant (per minute)	1668 Blu (1.76 MJ)
Heat Rejection to Room (per minute)	246.4 Blu (0.26 MJ)
Maximum Coolant Friction Head	6.4 psi (44.1 kPa)
Maximum Coolant Static Head	6.56 feet (2.0 meters)
Ambient Temperature Rating	104 °F (40 °C)

''' 'Ali	
Combustion As	82.6 cfm (2.34 m³/min)
Maximum Air Cleaner Restriction	24.9 in, H'O (6.2 kPa)
Alternator Cooling Air	565.0 cfm (16.0 m³/min)
Radiator Cooling Air	2330 cfm (66.0 m³/min)
Minimum Air Opening to Room	4.09 sq.ft (0.38 sq.m)
Minimum Discharge Opening	1.63 sq.ft (0.15 sq.m)

Exhau	Exhaust .	
Gas Flow (full load)	175.0 cfm (4.97 m³/min)	
Gas Temperature	860 °F (460 °C)	
Maximum Back Pressure	53.5 in. H°O (13.3 kPa)	

Size	
L x W x H inches (cm)	74.8 x 35.4 x 49.2 (190 x 90 x 125)
Approx. Net Dry Weight	2204.6 lbs. (1000.0 kg)

Rated Voltage	Maximum Amps
10 120 Volt	100 amps (4 wire)
10 240 Volt	50 amps (4 wire)
3Ø 240 Volt	108 amps
3Ø 480 Volt	54 amps

### Warranty\*

### Isuzu Engine

12 months from date of purchase with unlimited hours or 24 months from date of purchase with 2000 hours (whichever occurs first).

### Generator

12 months from date of purchase or 1000 hours (whichever occurs first).

\*Refer to the express written, one-year finited warranty sheet for additional information.

Backleed to a utily system can cause electrocuron and/or property damage. Do not connect to any building's electrical system except through an approved device.

Specifications are subject to change without notice.

# DCA45SSIU3 WhisperWatt Generator

### MQ POWER DECIBEL LEVELS

Our soundproof housing allows substantially lower operating noise levels than competitive designs. WhisperWatts are at home on construction sites, in residential

neighborhoods, and at

hospitals - just about

anywhere.

80 — Average city traffic

70—Inside car at 60 mph —Ultra-Silent at 23 feet

60 — Air conditioner at 20 feet

(50) — Normal conversation

## **Optional Generator Features**

- ☐ Electronic Governor Control (Crystal Sync) maintains frequency to within ±0.25% from no load to full load.
- ☐ Battery Charger provides fully automatic and selfadjusting charging to the generator's battery system.
- ☐ Special Batteries long life batteries provide extra engine cranking power.
- ☐ Low Coolant Level Shutdown provides protection from critically low coolant levels. Includes control panel warning light.
- □ Jacket Water Heater for easy starting in cold weather climates.
- ☐ Spring Isolators provides extra vibration protection for standby applications.
- ☐ Trailer Mounted Package highway legal trailer with electric or surge brakes with tandem axle configuration.

# **Optional Control Features**

- ☐ Emergency Stop Switch.
- ☐ Audible Alarm alerts operator of abnormal conditions.
- □ Automatic Start / Stop Control automatically starts the generator set during a commercial power failure when used in conjunction with a transfer switch.

### **Optional Fuel Cell Features**

- □ Trailer fuel tank a second fuel cell located in the trailer allows for extended run time.
- □ Sub-base fuel cells (double wall) Additional fuel cell for extended runtime operation. Contains a leak sensor, low fuel level switch, and a secondary containment tank. UL142 listed.
  - ☐ 12 hours of minimum run time.
  - □ 24 hours of minimum run time.

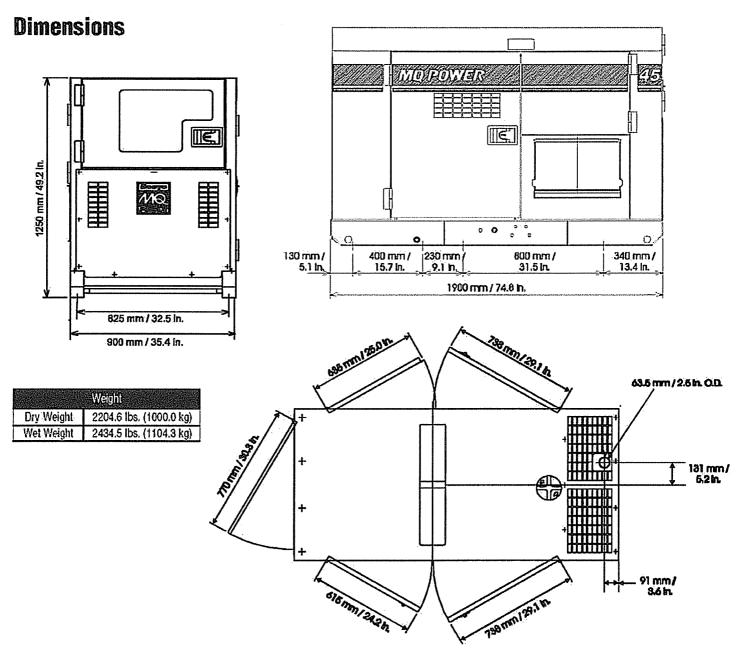

### **Optional Distribution Devices**

- ☐ Cam-Lock connectors.
- ☐ Pin & Sleeve Connectors.
- □ AC Output Cable.
