Collars for Wildlife

Lotek's automatic tracking and monitoring systems provide position and other sensor data ideally suited to wildlife behaviour and habitat utilization studies.

Based on the proven design of our other GPS systems, the GPS_3300 Series includes the lightest remote tracking collar offered by Lotek to date. Weighing only 200 grams, GPS_3300SL is capable of collecting and storing up to 1700 data records. With just an extra 75 to 100g of added weight, the GPS_3300S has a larger battery enabling you to collect over 5000 records using extended memory. This significantly improves the efficiency and cost-effectiveness of any wildlife study.

The GPS_3300 Series is capable of tracking the fine-scale movements of individual animals through a

variety of habitats. Using collars with differential correction, you can obtain highly accurate position readings with an error of less than five metres. Furthermore, by taking advantage of our highly flexible scheduling option, your study can be customized to your particular research needs.

The result is a more accurate map of the travel paths and behaviour patterns of smaller animals than previously possible.

Lotek offers unlimited customer support and a full one year warranty on all of our equipment.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.
