

ARMORED SOLUTIONS®, INC.

A.S.I.

February 26, 2006

Mr. John Abbott Purchasing Division
2019 Washington St. East
P.O. Box 50130
Charleston, WV 25305-0130

Mr. Abbott:

We have received your request to bid on the bullet resistant body armor for the West Virginia State Police. We do appreciate the interest the State Police have in our company.

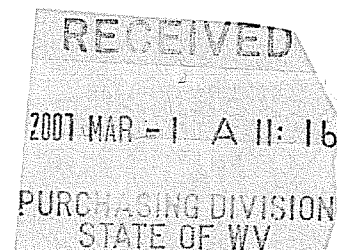

This is just to let you know that our company is going to have to decline bidding due to the fact that our company does not make body armor. Armored Solutions®, Inc. is a custom armored vehicle builder, and we build any type of vehicle for police use. We also manufacture ballistic entry tools, and ballistic shields. Our ballistic shields are custom made any size and to the specs. of the agency.

We also have a new item which is an armor kit that armors the doors and windows of existing vehicles, notice our insert on this item. This kit can be used to armor vehicles which don't have, or need armor, and allows for an "in-house" install. I am enclosing information on our products and services, and again we appreciate your interest in our company.

If I can be of any service or assistance in any way please contact me. I am a retired officer from the Pittsfield Police Dept. who retired after 32 years of service, and I would be more than happy to assist in any way possible. Again thank you for the interest in our company, and if we can be of any service in the future don't hesitate to contact us. I am,

Very truly yours,

Paul R. Therrien
