WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

**GENERAL TERMS & CONDITIONS
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125.00 registration fee.
5. All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the term of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this contract is automatically null and void, and is terminated without further order.
14. **HIPAA Business Associate Addendum** - The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in cases of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications.

PHOTO07 Specifications

SCOPE

Products to be provided under this contract are photographic (hereinafter called "photo") products. This contract will be a discount from catalog list price. Attached is a list of the most common photo items that the State purchased in the previous year. The award shall be made to the overall low bidder.

Question Period

Questions will be accepted through November 8, 2006, 12:00 Noon. Bidders may mail their questions to: Betty Francisco, Purchasing Division, 2019 Washington Street, East (Capitol Complex - Building 15), Charleston, WV 25305; by email: bfrancisco@wvadmin.gov (preferred method); or by fax at (304) 558-4115.

General Information

1. All products bid, furnished and delivered must be listed in a current catalog(s) that contains product lines broad enough to meet the needs of the State of West Virginia. Each item bid on the pricing page from the catalog must be identified by a reference number.
2. Vendor shall quote a percentage discount from the lowest price listed in the price list(s)/catalogs submitted. The state prefers a single percentage discount from the price list / categories, but will consider bids containing different percentage discounts for different brands, lists or categories of supplies. Vendors **MAY** submit alternate bids using a separate or additional catalog(s). All items in the discount category must have the exact same discount. (For example, if "Film" on the pricing page has a discount of 40%, EVERY film product sold must have the 40% discount.) Bids must plainly and clearly indicate the different classes of products with percentage discount for each. Bids that are not clearly identified, by easily identified classes, may be disqualified. Bids that have multiple discounts by category **MUST** list a discount for a miscellaneous category that would be applied to any product not identified by a category discount shown. For evaluation purposes, an estimate of quantity has been inserted to give the miscellaneous category a value in the bid evaluation. **NOTE:** The category discount must be for all items in that category. Bidders shall not offer greater discounts for items on the pricing pages than the category discount offered for that item.

Bidders should mark the items in the catalogs that appear on the pricing pages, to assist in the evaluation and verification of the bids. Vendors are requested to type the pricing pages. Failure to indicate the minimum order

PHOTO07 Specifications

quantity on the pricing sheets shall require the vendor to ship any quantity of that product ordered, regardless of size.

3. Bidders should attach a current catalog/price list to their bid; and must have a catalog submitted prior to the evaluation of the bids. The discount shall be taken from the lowest price column in the price list. The percentage discount shall be indicated for each list/category, etc. If multiple percentage discounts are bid, the bidder must clearly indicate which list, category, or brand to which the percentage applies. If any discrepancies exist in the prices and the bid schedule and the actual price list and percentage discount bid, the actual price list and percentage bid shall prevail and be corrected by the buyer for evaluation purposes. This catalog(s)/price list(s) will be used with any resulting contract.
4. Successful vendor shall provide catalogs/price lists, at no charge, upon request to various state agencies. Additional price lists/catalogs may be required from the vendor at any time. These shall be provided at no cost to the State. State agencies may obtain the catalogs/price lists by contacting the contract coordinator.
5. Bidders shall complete the pricing on "PHOTO07 Pricing Pages". Bidders should complete all columns and information requested. This is a list of items anticipated to be purchased. Quantities for each item represent the approximate volume of anticipated purchases. The discount rate must be extended to all items found and ordered from the price list. The "unit price" must be the final price that will be charged to the State of West Virginia.
6. The lowest cost, most complete, bid shall be awarded a contract. The discount from list shall remain the same during the entire contract period, including any renewals. The contract awarded shall be based on the entire contract; exceptions are items that are covered by other specific contracts.
7. The catalog/price list may be updated at renewal. If the Purchasing Division extends the offer to renew and the new catalogs have significant price increases, Purchasing may decline and re-bid the commodity; or renew if the vendor can provide price increase documentation from the **manufacturer** of the product. **Price increases must be a dollar amount opposed to a percentage increase. Price increase documentation will not be accepted from a wholesaler or "middle-man". Only pass-through cost changes shall be accepted.**
8. Quantity shown is for informational purposes only and is not to be construed as a guarantee of any future contract usage.
9. Products shall be delivered within five (5) working days after orders are received. Spending unit must be advised in writing if orders will be delayed

PHOTO07 Specifications

for any reason. Contractor shall carry an adequate stock to insure such delivery service for the duration of the contract.

10. All bids are to be quoted as F.O.B. destination to any West Virginia location. The minimum order for prepaid shipping to one, in-state destination shall be \$100.00. For orders less than \$100.00, transportation charges (if any) will be invoiced as a separate charge with the original freight bill attached to the invoice. Agencies may make purchases that fall under the \$100.00 limit at a local source to avoid the delivery charges if a lower price results from such local purchase. Note: Stringing orders to circumvent purchasing regulations is expressly prohibited.
11. Verification of product quality is the responsibility of the vendor. The State of West Virginia may require certified mail test data, certifications or samples for testing of material bid. All costs of test samples shall be borne by the vendor as well as freight costs to and from the agency.
12. The successful bidder shall not substitute any other brand of products from those awarded, nor sell any additional items under their contract not specifically covered herein, without prior written permission of the Purchasing Division.
13. All products must be highly efficient and effective in the performance of the tasks for which the product is intended to be used.
14. Bidders must be a manufacturer or a regular stocking licensed dealer for the products offered at the time of the bid.
15. Successful vendor shall provide quarterly reports and annual summaries showing the quantities, dollar value and agencies (including political subdivisions) which have used this contract. Successful vendor shall also be able to provide report showing the top 50 items purchased during the contract period. This report is mandatory and failure of the successful bidder to supply such reports may be grounds for cancellation of contract.
16. Nonconforming products and materials shall be returned to the vendor at no expense to the State of West Virginia at any time during the life of this contract.
17. Internet Access – Vendor should be able to provide internet ordering access. If vendor has such capabilities, this should be so noted in their quotation and describe the process for setting up such ordering for state agencies. However, internet access is not a mandatory requirement.

PHOTO07 Specifications

Reminders to Bidders:

Prior to submitting bids, bidders are cautioned to comply with all mandatory bid requirements.

Bidders shall quote a single discount from price list for all items or shall quote a discount from list by category. If multiple category discounts are given, bidders **MUST** offer a "miscellaneous" discount category for all items that may not be included in the category discount list.

Include dated and numbered catalog/price list. The successful bidder will be required to submit one additional prior to award.

Complete the Pricing Pages – including the name and other requested information on the contract coordinator to respond to agency inquiries on using the contract.

If the price list makes reference to prices being subject to change, those terms are null and void. All price changes shall be in accordance with Paragraph 7.

VENDOR INVOICING

Vendor's invoices must be submitted in original and five copies, and contain the following: (This invoicing procedure is not required for procurement card purchases.)

- 1) State Contract Order (SCO) number and this contract number PHOTO07.**
- 2) Total quantity and unit price with the total cost of each type of material furnished.**
- 3) The vendor is responsible of reminding agencies of the minimum order quantity requirement; although it is at the discretion of the vendor to waive this requirement.**
- 4) The vendor is required to accept the P-Card credit card from state agencies for purchases less than \$2,500.00.**

NOTE: Under no circumstances will any agency accept, or pay for, quantities of materials in excess of the quantity stated on the purchase order or release order to the vendor.

AFFIDAVIT

West Virginia Code §5A-3-10a states:

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions.

"Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:

The vendor must be licensed in accordance with any and all state requirements to do business with the state of West Virginia.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.

General Terms

List prices shown in this price catalog are suggested prices only. Net prices are extended only to those listed by Kodak as direct customers for the products shown. Unless otherwise indicated, these prices are FOB point of shipment and are subject to change without notice. No adjustments will be made because of price changes. All orders, in whole or in part, are subject to acceptance by Kodak at one of its Regional Distribution Centers or designated shipping points. Shipments are not made direct to consumers on customers' orders.

Sale of Long Roll Film—Kodak makes available in long rolls specified films which are also available in roll film (135-36, etc.) formats. These films are made available in long rolls so that users having cameras accepting long lengths of 35 mm films may use these particular products. They are made available for this use and are not intended for resale in repackaged or altered form. Kodak refuses to sell long roll film to customers who intend to respool that film for resale without Kodak's written permission.

Trademarks, Trade Names, and Trade Dress—All sales are made with the understanding that Kodak trademarks, trade names, trade dress, and original packaging will not be misused.

Prices, Terms, and Conditions—If, at any time, it becomes necessary to discontinue shipments to any of our customers, to revoke or modify any provisions in the foregoing schedule, or to allocate distribution of any of our products, we will take whatever action in our judgment is fair and appropriate. The prices, terms, and conditions of this price catalog shall govern despite additional or inconsistent prices, terms, or conditions included in customers' purchase orders or other customer documents. Any deviations from the prices in this catalog such as special temporary price promotions, etc. will be communicated in writing by Kodak to our customers. In absence of the aforementioned specific written communication(s), the prices, terms, and conditions shown in this catalog will be the sole governing prices, terms, and conditions for sale of these products by Kodak to our customers.

Terms of Payment—Subject to Credit Department approval and unless otherwise specified, for invoices issued on or after March 1, 2003; invoices are payable within thirty (30) days following the date of invoice (net 30 D.O.I.) for all customers with annual product sales with Kodak of over \$50,000. For customers with total product sales with Kodak of under \$50,000, orders are required to be placed electronically and payment must be made by credit card at the time of ordering. No discounts or chargebacks are allowed for early payment anticipation.

Minimum annual purchase to remain a listed direct shipment account—\$10,000 in calendar year net product revenue is required to maintain an active account with Kodak. Reviews are conducted yearly in January for prior year purchases. This dollar amount is exclusive of Qualex photofinishing services purchases.

Reimbursement Limitations—Claims for disputed early payment discounts, advertising, display and promotion expenses, and any and all disputed accounting or billing matters must be received by Kodak together with complete supporting documentation, by the end of the calendar year following the year in which the disputed matter occurred. As an example, claims for disputed matters which occurred in calendar year 2003, must be received by Kodak by December 31, 2004. In the case of shipment discrepancies, requests for adjustments on concealed shortages involving cartons received intact must be reported to Kodak's Customer Service within 15 days of receipt of the shipment. Proof of delivery requests must be made within nine months of the original invoice date. Any claims received by Kodak that do not comply with the policy set forth in this paragraph will not be reviewed or accepted.

Deduction Explanations—Whenever a customer does not pay a Kodak invoice in full, an explanation must be provided by the customer to Kodak stating the reason(s) for the deduction(s). This explanation must be provided on or prior to the due date of the invoice.

Right of Offset in Accounts Receivable—Kodak and its customers agree to respect each others right of offset in the settlement of the customer's account. That is, the amount owed by Kodak to the customer for product returns, cooperative advertising, promotions, and other sell-through activities performed by the customer and authorized by Kodak, may be netted against the amount the customer owes Kodak for payment of products purchased.

Taxes—Please note that sales, use, or other taxes measured by sales or receipts are not included in the prices shown. Where applicable, such taxes will be billed if a valid exemption certificate is not furnished.

Where a valid exemption certificate is furnished, tax will not be billed unless we can determine that the purchase will be used in a taxable manner. Omission of tax should not be construed as a basis for exemption. If used in a taxable manner and no tax was billed by Kodak, the purchaser is required to remit applicable taxes directly to the taxing authorities.

Shipping and Handling Prepayment Plan—Shipping and Handling costs will be paid by Kodak on all orders having a billing value of \$1,000 or more, excluding tax, and calling for single shipments to domestic U.S. addresses of photographic items shipped from Regional Distribution Centers or designated shipping points.

This prepaid shipping and handling plan applies to all regular photographic merchandise except equipment repair services and parts and special photographic goods which are listed in our price catalog as available only from Rochester. Also exempt from this plan are those items that require special handling and orders on which the customer requests a method of shipment other than that which would normally be used.

Customer orders which qualify for Kodak's Shipping and Handling Prepayment Plan, outlined above, will be shipped FOB point of shipment, transportation paid to destination. The method of transportation and carrier will be of Kodak's selection. Customer orders that do not qualify for the Kodak Shipping and Handling Prepayment Plan will be prepaid, but charges will be added to the invoice.

If a portion of an order which originally qualified for the shipping and handling prepayment plan is back-ordered, the back order will be shipped transportation paid by Kodak, regardless of billing value.

Orders received on any type of order form, by any transmission means (e.g., mail, telephone, fax, etc.), can qualify for prepaid shipping and handling.

This plan is designed to give Kodak customers better service and to facilitate an optimum balance in their stock ordering and stockkeeping. Of course, orders in addition to those on which Kodak pays the shipping and handling are welcome and these may be sent in at any time. However, by ordering in quantities sufficient to qualify for prepaid shipping and handling, a customer can realize additional savings in order handling, transportation, and receiving. This entire plan is subject to change or withdrawal.

Transportation Policy for Materials Distributed Through Advertising Distribution—Transportation costs of customer orders will be paid by Kodak if the order is for a single shipment to one address, and the routing by carrier of our selection.

If shipment is made at customer's request via a method other than what we might select, such shipments will be made FOB point of shipment with no allowance.

Ship-To-Arrive (Date) Orders—If you wish your order to arrive on a specific date, mark the order "Ship-To-Arrive _____." We determine the lead time on information provided by the carrier, but cannot guarantee its delivery since carrier operations are not under Kodak control. If Kodak must choose a means of transportation other than our normal method of shipment for the order to reach the customer on the date specified, transportation charges will be the customer's responsibility.

Return Policy—Unless otherwise specified, advertising and promotional materials are sold on a no-return basis. Regarding shipping, billing, or imprinting errors, please contact Customer Order Services for disposition instructions. Kindly provide invoice numbers and date of shipment.

Shipment Discrepancies—Any errors in shipment must be reported immediately upon receipt to the Kodak Regional Distribution Center servicing the dealer.

Requests for adjustments on concealed shortages involving cartons received intact must be reported to the Kodak Regional Distribution Center within 15 days of receipt of the shipment.

(continued on next page)

General Terms—Continued

Proof of Delivery Requests—Requests for Proof of Delivery (POD) must be made within nine months of the original invoice date. Claims for lost freight cannot be asserted after nine months from the original date of invoice. Requests received after nine months from the original invoice date will not be investigated or honored.

Return of Goods—All goods are sold without return privileges except where the product is determined to be defective in manufacturing, damaged in transit, outdated sensitized goods, or shipped in error by Kodak.

Returns of merchandise otherwise authorized under any condition will be accepted only if the merchandise was shipped from one of Kodak's Regional U.S. Distribution Centers. Merchandise returns **must be made immediately on receipt of Kodak authorization and must be prepaid by the dealer** to the Kodak Regional Distribution Center. If merchandise is defective or has been shipped incorrectly by Kodak, an adjustment will be made for the transportation charges incurred by the dealer through the use of a commercial carrier.

The credit for authorized returns will be based on the same price as on the original invoice or the current price, whichever is less. In any event, the same price level (i.e., net, low net, etc.) will always apply. Where Kodak acknowledges responsibility, the price on the original invoice will be the basis for the credit.

Return of Outdated Sensitized Goods:

The expiration dating on our sensitized goods indicates the useful life of these products when kept under recommended conditions. These goods should be rotated on the basis of expiration dates to keep stocks fresh.

Small amounts of outdated Kodak films and papers that dealers may occasionally accumulate may be returned to the appropriate Kodak Regional Distribution Center for credit consideration. On such returns, when in reasonable quantities, an allowance of 25 percent of the current lowest net price on outdated Kodak films and papers will be made. This applies only to product shipped from a Kodak Regional Distribution Center, provided the material is returned in the original packages with seals unbroken and transportation charges prepaid.

Retailers not on our list of direct dealers should return expired Kodak films and papers to the Kodak Regional Distribution Center that serves their territory. An allowance of 25 percent of the current lowest net price of the product returned will be made subject to the same conditions described above for dealers. This allowance will be in the form of currently dated carded or noncarded GB135-12 or GB135-24 film valued at current lowest net price.

In general, goods should not be returned prior to the expiration date; however, product within a month or two of expiration will be accepted as outdated product.

Kodak reserves the right to determine whether quantities of returned products are reasonable, and whether the 25% allowance should be made. For amateur films, quantities of less than five rolls in a separate shipment are not acceptable. In order for Kodak to process the credit promptly, an itemized list of the returned goods, identified by CAT No., must accompany each shipment.

Complaints on Sensitized Goods and Chemicals—On occasion, photographers return sensitized materials and chemicals to dealers with the complaint that they are defective and request replacement or credit. Kodak has never authorized dealers to make such adjustments. Quite often the difficulty is in the handling or processing of the material rather than a defect in the material itself.

Dealers should first suggest that the customer write Rochester and enclose samples of the material which forms the basis for the complaint. Occasionally customers may expect the dealer to look after this for them, and there is no objection to your accepting a sample of material claimed to be defective by customers and sending it to Rochester as an accommodation to the customer. However, we prefer to correspond directly with customers regarding the difficulty and the adjustment in order to be of the fullest service to them. Correspondence and samples should be sent to Department 841, Eastman Kodak Company, Rochester, NY 14650. In each case, full information should accompany the package of film, paper, or chemical claimed to be defective, such as the quantity in the customer's possession, brand, size, emulsion number, expiration date, and specific defect information. In the case of papers, also state the surface and contrast grade. Sample negatives or prints and, if possible, some of the unexposed film or paper and/or chemical samples should be sent to Rochester with the above information.

Dealers should specify whether replacement is to be sent directly to the customer or whether credit should be issued the dealer for the customer's account if the material is found defective after an investigation at Rochester. Where only small quantities of sensitized goods or chemicals are involved, the entire package could be sent. However, where large quantities are involved, only a representative sample should be sent, and the balance held by the customer for further instructions.

Conditions of Sales—KODAK Sales Promotion Aids—The sales promotion items described in this catalog are for appropriate use and display at sales outlets of resellers of Kodak products. They will be provided subject to the conditions that: (1) they not be altered or combined with other materials in any way which may cause public confusion or frustrate the promotion of Kodak's goods and services as originally intended, and (2) Kodak trademarks, trade dress, and the original designs of the items not be misused. As these items are available only on an equitable basis in reasonable quantities, orders for them are subject to acceptance by us. We reserve the right to discontinue items at any time and to cancel all or any part of orders for them.

Warranty and Limitations of Liability

Kodak products are sold without warranty or liability of any kind, except that which is stated on, is packaged with, or accompanies such products, and, with respect to the sale, use, and handling of Kodak sensitized goods are subject to the applicable limitation of liability listed below:

Film

Kodak films are warranted to be free from defects in manufacture, labeling, and packaging. **KODAK DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE.**

IN THE EVENT OF A BREACH OF FOREGOING WARRANTY, KODAK'S SOLE OBLIGATION, AND BUYER'S EXCLUSIVE REMEDY, SHALL BE THE REPLACEMENT OF SUCH DEFECTIVE FILMS, EVEN THOUGH THE DEFECT, DAMAGE, OR LOSS IS CAUSED BY THE NEGLIGENCE OR OTHER FAULT OF KODAK. SHOULD THIS EXCLUSIVE REMEDY FAIL ITS ESSENTIAL PURPOSE, KODAK'S ENTIRE LIABILITY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE OF THE DEFECTIVE PRODUCT.

IN NO EVENT SHALL KODAK BE LIABLE FOR INCIDENTAL AND/OR CONSEQUENTIAL DAMAGES, INCLUDING THE COST OF COVER.

110 Film

KODAK GOLD Film

A multipurpose film designed for exposure with daylight or electronic flash which offers the color saturation and accuracy, grain, and sharpness characteristics that are expected only from slower-speed films. In addition, the exposure latitude of this film is unsurpassed by any 400-speed amateur color print film, and it produces excellent prints under a variety of lighting conditions. Process C-41 by user or independent photographic laboratories.

CONSUMER DIGITAL
IMAGING PRODUCTS

KODAK Consumer Digital Imaging Equipment—Continued

Eastman Kodak Company New Equipment Limited Warranty for KODAK Picture Maker G3

1. Warranty Period

Eastman Kodak Company ("Kodak") warrants the KODAK Picture Maker G3 Order, Digital, and Print Station hardware (collectively "KPM") against manufacturing defects for one year from date of initial installation.

2. Warranty Repair Coverage

During the warranty period, Kodak will provide telephone assistance to help isolate the hardware malfunction and instruct Customer on the appropriate repair procedure.

3. Replacement

When a replacement part is required, Kodak will provide a new or serviced Customer Replaceable Unit ("CRU") to replace the defective component or assembly. Most CRUs and parts (such as the console, printer, and print scanner) are designated as exchange parts and must be returned to Kodak to avoid a charge. The customer is responsible for removing the inoperable CRU, installing the new one, packing the inoperable unit, and requesting the carrier to pick it up for return to Kodak, in accordance with Kodak instructions. Customer will be responsible for damage to returned unit caused by failure to use packaging approved by Kodak or failure to follow Kodak's instructions.

4. Warranty Service and Support

A. Telephone Assistance (Support Center Assistance)

Base coverage – Monday – Friday, 8:00 a.m.- 5:00 p.m. local time, excluding holidays.

B. Customer Replaceable Unit ("CRU") Service – delivered Monday – Friday, 8:00 a.m. - 5:00 p.m. local time, excluding holidays.

When ordered by 7:00 p.m., Monday- Friday, Eastern Time, the CRU will be shipped pre-paid to arrive at Customer's site the next day, subject to carrier availability. Parts shipped outside the contiguous U.S. may take longer to arrive. If an exchange part is required, Customer will be provided packing and shipping instructions to permit Customer's inoperable unit to be returned to Kodak. Customer is expected to have the inoperable unit picked up by the carrier within 2 business days after receiving the CRU. If the Customer has not scheduled the inoperable unit for pickup within 7 business days, Customer will be invoiced and becomes responsible for the CRU charge, and applicable shipping.

C. Software Support

See KODAK Picture Maker Kiosk Software License Agreement for Software Limited Warranty. Kodak will provide software support by telephone or by other means deemed appropriate by Kodak. Customers will be provided updated and revised versions to correct bugs in the software when made available by Kodak. (Customer is responsible for purchasing any additional hardware that may be required to support software updates.)

D. Payment Processing Support (when applicable)

1. Payment processing procedures are enabled by the integration of 3rd party software. Support for that software is the responsibility of the 3rd party software supplier.
2. If a problem is attributable to 3rd party software, Kodak will refer the call to the software supplier for support.
3. Kodak will monitor 3rd party software supplier response to ensure prompt problem resolution.

5. How to Obtain Service, or Questions about Service

Call Kodak at 1 (800) 832-4514 and provide K-number in order to obtain service.

6. Other Customer Responsibilities

Customer is required to designate an authorized caller, who will be responsible to:

- A. Provide initial problem-solving assistance to system operators.
- B. Coordinate all requests for assistance and act as liaison with Kodak service personnel.
- C. Ensure appropriate problem analysis and corrective actions by following troubleshooting instructions and remedial actions as prescribed by Kodak.
- D. Maintain software documentation and software updates.
- E. Perform or have oversight for Customer maintenance and error recovery procedures.
- F. Ensure immediate access to equipment for service personnel when service is requested.
- G. Provide specific information when processing a CRU, and install the CRU unit per Kodak's instructions.

7. Limitations

THIS WARRANTY DOES NOT COVER:

- A. CIRCUMSTANCES BEYOND KODAK'S CONTROL
- B. PROBLEMS DUE TO FAILURE OF CUSTOMER TO CONFORM TO KODAK'S SITE SPECIFICATIONS
- C. RELOCATION OF EQUIPMENT OR SERVICE ASSOCIATED WITH SUCH RELOCATION
- D. SERVICE OR PARTS ASSOCIATED WITH ANY UNAUTHORIZED MODIFICATIONS, ATTACHMENTS OR SERVICE
- E. FAILURE TO FOLLOW KODAK'S OPERATING INSTRUCTIONS
- F. CONSUMABLES AND SUPPLY ITEMS
- G. DIGITAL PRINT SCANNER PLATEN GLASS
- H. SERVICE REQUIRED BECAUSE OF RETAILER NEGLIGENCE, MISUSE, ABUSE, OR OPERATOR ERROR.
- I. SERVICE RESULTING FROM ISSUES ASSOCIATED WITH CONNECTION TO OTHER MANUFACTURER'S EQUIPMENT NOT COVERED BY A KODAK WARRANTY OR SUPPORT AGREEMENT.

SERVICE NOT COVERED BY WARRANTY WILL BE INVOICED AT THEN-PREVAILING TIME AND MATERIAL RATES. KODAK WILL ADVISE CUSTOMER WHEN SERVICE ISSUES SHOULD BE REDIRECTED TO ANOTHER MANUFACTURER.

KODAK MAKES NO OTHER WARRANTIES, EXPRESS, IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE FOR THIS EQUIPMENT OR SOFTWARE.

REPAIR OR REPLACEMENT WITHOUT CHARGE (AT KODAK'S SOLE OPTION) IS KODAK'S ONLY OBLIGATION UNDER THIS WARRANTY. KODAK WILL NOT BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INCLUDING, WITHOUT LIMITATION, LOSS OF REVENUE OR PROFIT OR GOODWILL, DOWNTIME COSTS, LOSS OF USE OF THE EQUIPMENT, LOSS OF DATA, THE COST OF SUBSTITUTE EQUIPMENT, FACILITIES, OR SERVICES, OR CLAIMS FROM THIRD PARTIES FOR SUCH DAMAGES. KODAK WILL NOT BE LIABLE FOR ANY DIRECT OR INDIRECT DAMAGES, PERSONAL INJURY OR WRONGFUL DEATH TO ANY PERSON OR PARTY WITHOUT EXCEPTION, ARISING OUT OF THE SALE, USE, OR PERFORMANCE OF ANY MAINTENANCE OR SERVICE TO EQUIPMENT BY CUSTOMER, CUSTOMER'S EMPLOYEES OR AGENTS (OTHER THAN KODAK), AND CUSTOMER HEREBY INDEMNIFIES KODAK FROM ALL SUCH CLAIMS AND DAMAGES.

THIS LIMITATION OF LIABILITY WILL NOT APPLY TO THE EXTENT THAT CLAIMS FOR INJURY TO PERSONS ARE CAUSED BY THE NEGLIGENCE OR FAULT OF EITHER KODAK OR PERSONS UNDER ITS DIRECTION OR CONTROL.

KODAK Processing Mailers

New Kodak Prepaid Mailer Program

Bring film developing as close as your customer's mailbox.

This exciting new program makes it easier to continue offering Kodak processing! Cost justification of full service pickup and delivery on a regular basis from Kodak becomes less feasible everyday because of the changes in the film photofinishing business. Kodak Prepaid Mailers are a great alternative!

- Strong consumer value with convenient easy-to-use prepaid film processing mailers (with postage included) that deliver right to their door
- New, single-roll, convenient packaging
- One mailer per product number is easier on consumer's budget! (Previously, there were 4 per package)
- One product number for 35 mm and APS film
- Prints from C-41 color print film are made using KODAK PERFECT TOUCH Processing
- Print mailers include prepaid postage envelopes so consumers don't need to add postage
- Extra "Add-On Services" mailers for ordering a KODAK Picture CD with a roll processed, or E-6 Push Processing
- One-Time-Use Camera mailer for 27 exposure C-41 OTUC's
- 35 mm Kodachrome & Ektachrome mailer
- Wholesale pricing
- Exchange program for outdated mailers with new style mailers

How to Order

Accounts serviced by Qualex can order using their Qualex account number. Non-Qualex accounts can order by credit card.

To Order: Fax an order using the Kodak Prepaid Photo Mailer Order Form to 1-919-544-7933 or call 1-800-218-4521

General Terms

List prices shown in this price catalog are suggested prices only. Actual selling prices are determined by the dealer. Net prices are extended only to those listed by Kodak as direct customers for the products shown. Unless otherwise indicated, these prices are FOB point of shipment and are subject to change without notice. No adjustments will be made because of price changes. All orders, in whole or in part, are subject to acceptance by Kodak at one of its Regional Warehouse Locations or designated shipping points. Shipments are not made direct to consumers on customers' orders.

Sale of Long Roll Film—Kodak makes available in long rolls specified films which are also available in roll film (135-36, etc.) formats. These films are made available in long rolls so that users having cameras accepting long lengths of 35 mm films may use these particular products. These are made available for this use and are not intended for resale in repackaged or altered form. Kodak refuses to sell long roll film to customers who intend to respool that film for resale without Kodak's written permission.

Trademarks, Trade Names, and Trade Dress—All sales are made with the understanding that Kodak trademarks, trade names, trade dress, and original packaging will not be misused.

Prices, Terms, and Conditions—If, at any time, it becomes necessary to discontinue shipments to any of our customers, to revoke or modify any provisions in the foregoing schedule, or to allocate distribution of any of our products, we will take whatever action in our judgment is fair and appropriate. The prices, terms, and conditions of this price catalog shall govern despite additional or inconsistent prices, terms, or conditions included in customers' purchase orders or other customer documents. Any deviations from the prices in this catalog such as special temporary price promotions, etc. will be communicated in writing by Kodak to our customers. In absence of the aforementioned specific written communication(s), the prices, terms, and conditions shown in this catalog will be the sole governing prices, terms, and conditions for sale of these products by Kodak to our customers.

Terms of Payment—Subject to Credit Department approval and unless otherwise specified, for invoices issued on or after March 1, 2003; invoices are payable within thirty (30) days following the date of invoice (net 30 D.O.I.) for all customers with annual product sales with Kodak of over \$50,000. For customers with total product sales with Kodak of under \$50,000, orders are required to be placed electronically and payment must be made by credit card at the time of ordering. No discounts or chargebacks are allowed for early payment anticipation.

Note: Equipment with a unit value greater than \$50,000.00, requires a non-refundable 20% deposit prior to shipment, with the balance receiving Net 45 DOI terms of sale.

Reimbursement Limitations—Claims for disputed early payment discounts, advertising, display and promotion expenses, and any and all disputed accounting or billing matters must be received by Kodak together with complete supporting documentation, by the end of the calendar year following the year in which the disputed matter occurred. As an example, claims for disputed matters which occurred in calendar year 2003, must be received by Kodak by December 31, 2004. In the case of shipment discrepancies, requests for adjustments on concealed shortages involving cartons received intact must be reported to Kodak's Customer Service within 15 days of receipt of the shipment. Proof of delivery requests must be made within nine months of the original invoice date. Any claims received by Kodak that do not comply with the policy set forth in this paragraph will not be reviewed or accepted.

Deduction Explanations—Whenever a customer does not pay a Kodak invoice in full, an explanation must be provided by the customer to Kodak stating the reason(s) for the deduction(s). This explanation must be provided on or prior to the due date of the invoice.

Right of Offset in Accounts Receivable—Kodak and its customers agree to respect each others right of offset in the settlement of the customer's account. That is, the amount owed by Kodak to the customer for product returns, cooperative advertising, promotions, and other sell-through activities performed by the customer and authorized by Kodak, may be netted against the amount the customer owes Kodak for payment of products purchased.

Installation—Information for Kodak mechanical equipment is shown on page 7.

Taxes—Please note that sales, use, or other taxes measured by sales or receipts are not included in the prices shown. Where applicable, such taxes will be billed if a valid exemption certificate is not furnished.

Where a valid exemption certificate is furnished, tax will not be billed unless we can determine that the purchase will be used in a taxable manner. Omission of tax should not be construed as a basis for exemption. If used in a taxable manner and no tax was billed by Kodak, the purchaser is required to remit applicable taxes directly to the taxing authorities.

Shipping and Handling Prepayment Plan—Shipping and Handling costs will be paid by Kodak on all orders having a billing value of \$1,000 or more, excluding tax, and calling for single shipments to domestic U.S. addresses of photographic items shipped from Regional Warehouse Locations or designated shipping points.

This prepaid shipping and handling plan applies to all regular photographic merchandise *except* equipment repair services and parts and special photographic goods which are listed in our price catalog as available only from Rochester, NY. Also exempt from this plan are those items that require special handling and orders on which the customer requests a method of shipment other than that which would normally be used.

Customer orders which qualify for Kodak's Shipping and Handling Prepayment Plan, outlined above, will be shipped FOB point of shipment, transportation paid to destination. The method of transportation and carrier will be of Kodak's selection. Customer orders that do not qualify for the Kodak Shipping and Handling Prepayment Plan will be prepaid, but charges will be added to the invoice.

If a portion of an order which originally qualified for the shipping and handling prepayment plan is back-ordered, the back order will be shipped transportation paid by Kodak, regardless of billing value.

Orders received on any type of order form, by any transmission means (e.g., fax, mail, telephone, etc.), can qualify for prepaid shipping and handling.

This plan is designed to give Kodak customers better service and to facilitate an optimum balance in their stock ordering and stockkeeping. Of course, orders in addition to those on which Kodak pays the shipping and handling are welcome and these may be sent in at any time. However, by ordering in quantities sufficient to qualify for prepaid shipping and handling, a customer can realize additional savings in order handling, transportation, and receiving. This entire plan is subject to change or withdrawal.

Nonfactory-Stocked Delivery Guidelines

—See the Film Section page entitled "KODAK PROFESSIONAL Films—Ordering, Pricing, and Stocking Information" under heading "Nonfactory-Stocked Items" for delivery lead-time of special order Professional Films.
—See the Paper Section page entitled "KODAK Photographic Papers—Ordering, Pricing, and Stocking Information" under heading "Nonfactory-stocked Items" for delivery lead-time of special order Professional Papers.

General Terms—Continued

Shipment Discrepancies—Any errors in shipment must be reported immediately upon receipt to the Kodak Regional Warehouse Location servicing the dealer.

Requests for adjustments on concealed shortages involving cartons received intact must be reported to the Kodak Regional Warehouse Location within 15 days of receipt of the shipment.

Proof of Delivery Requests—Requests for Proof of Delivery (POD) must be made within nine months of the original invoice date. Claims for lost freight cannot be asserted after nine months from the original date of invoice. Requests received after nine months from the original invoice date will not be investigated or honored.

Return of Goods—All goods are sold without return privileges except where the product is outdated sensitized goods, determined to be defective in manufacturing, damaged in transit, or shipped in error by Kodak.

Returns of merchandise otherwise authorized under any condition will be accepted only if the merchandise was shipped from one of Kodak's U.S. Regional Warehouse Locations. Merchandise returns *must be made immediately on receipt of Kodak authorization and must be prepaid by the dealer* to the Kodak Regional Warehouse Location. If merchandise is defective or has been shipped incorrectly by Kodak, an adjustment will be made for the transportation charges incurred by the dealer through the use of a commercial carrier.

The credit for authorized returns will be based on the same price as on the original invoice or the current price, whichever is less. In any event, the same price level (i.e., net, low net, etc.) will always apply. Where Kodak acknowledges responsibility, the price on the original invoice will be the basis for the credit.

Returns of Dealer-Owned KODAK Audiovisual Equipment:

All return requests involving dealer-owned equipment must be accompanied by a completed Kodak Dealer Adjustment Request Form (KO 6037). In determining the action to be taken on requests for return, the condition of the equipment, i.e., new or used, as represented on the Dealer Adjustment Request by the dealer is important. By way of clarification, photographic equipment shall be considered used when it has been sold to and delivered to an ultimate consumer or when the photographic equipment has been utilized for general demonstration purposes.

Return of Outdated Sensitized Goods:

The expiration dating on our sensitized goods indicates the useful life of these products when kept under recommended conditions. These goods should be rotated on the basis of expiration dates to keep stocks fresh.

Small amounts of outdated Kodak films and papers that dealers may occasionally accumulate may be returned to the appropriate Kodak Regional Warehouse Location for credit consideration. On such returns, when in reasonable quantities, an allowance of 25% of the current lowest net price on outdated Kodak films and papers will be made. This applies only to product shipped from a Kodak Regional Warehouse Location, provided the material is returned in the original packages with seals unbroken and transportation charges prepaid. The same allowance applies for outdated 8 mm or 16 mm Kodak magazine film, except that, in addition, full credit will be issued for the magazine deposit.

Retailers not on our list of direct dealers should return expired Kodak films and papers to the Kodak Regional Warehouse Location that serves their territory. An allowance of 25% of the current lowest net price of the product returned will be made subject to the same conditions described above for dealers. This allowance will be in the form of currently dated carded or uncarded film valued at current basic net price.

In general, goods should not be returned prior to the expiration date; however, product within a month or two of expiration will be accepted as outdated product.

Kodak reserves the right to determine whether the quantities of returned products are reasonable, and whether the allowance should be made in full. For amateur films, quantities of less than five rolls in a separate shipment are not acceptable. In order for Kodak to process the credit promptly, an itemized list of the returned goods, identified by CAT No., must accompany each shipment.

Complaints on Sensitized Goods and Chemicals—On occasion, photographers return sensitized materials and chemicals to dealers with the complaint that they are defective and request replacement or credit. Kodak has never authorized dealers to make such adjustments. Quite often the difficulty is in the handling or processing of the material rather than a defect in the material itself. For this reason it is felt that whenever possible such complaints should be referred to a Kodak Account Executive thereby allowing him/her to investigate in the photographers' own darkrooms.

In cases where it is not possible for the complaint to be checked by a Kodak Account Executive within a reasonable time, dealers should first suggest that the customer write Rochester, NY and enclose samples of the material which forms the basis for the complaint. Occasionally customers may expect the dealer to look after this for them, and there is no objection to your accepting a sample of material claimed to be defective by customers and sending it to Rochester, NY as an accommodation to the customer. However, we prefer to correspond directly with customers regarding the difficulty and the adjustment in order to be of the fullest service to them. In each case, full information should accompany the package of film, paper, plates, or chemical claimed to be defective, such as the quantity in the customer's possession, brand, size, emulsion number, expiration date, and specific defect information. In the case of papers, also state the surface and degree of contrast. Sample negatives or prints and, if possible, some of the unexposed film, paper, or plates and/or chemical samples should be sent to Rochester, NY with the above information.

Dealers should specify whether replacement is to be sent directly to the customer or whether credit should be issued the dealer for the customer's account if the material is found defective after an investigation at Rochester, NY. Where only small quantities of sensitized goods or chemicals are involved, the entire package could be sent. However, where large quantities are involved, only a representative sample should be sent, and the balance held by the customer for further instructions.

General Terms—Continued

New Equipment Warranty Information

Warranty Time Period: Kodak equipment when installed in new condition is warranted to function properly for the periods indicated in the warranty code descriptions listed below. This warranty covers the purchaser of this equipment and anyone else who owns it during the warranty period.

Warranty Repair Coverage: If this equipment does not function properly during the warranty period, a Kodak Global Customer Service and Support (GCSS) representative will repair the equipment without charge during Kodak's normal working hours (usually 8:00 a.m. to 5:00 p.m. Monday through Friday). Such repair service will include any necessary adjustments and/or replacement of parts. If included, a Kodak representative will perform periodic maintenance service to clean, test, and maintain the equipment in good working order. Supply items are billed as required.

Off-hours service is available at overtime rates.

How To Obtain Service (except for equipment that the customer should return to Kodak for service): Call your nearest GCSS District Office. A Kodak representative will provide the requested on-site equipment repair service.

Limitations: Warranty service is limited to the contiguous United States, the Island of Oahu in Hawaii, and certain areas of Alaska.

This warranty does not cover circumstances beyond Kodak's control; service or parts for any attachments, accessories, or alterations not marketed by Kodak, nor to correct problems resulting from their use.

Kodak makes no other warranties, express, implied, or of merchantability for this equipment.

Repair without charge is Kodak's only obligation under this warranty. **Kodak will not be responsible for any consequential or incidental damages resulting from the sale, use, or improper functioning of this equipment, even if loss or damage is caused by the negligence or other fault of Kodak.**

This limitation of liability will not apply to claims for injury to persons or damage to property caused by the sole negligence or fault of Kodak.

Warranty Code	Warranty Period
W-02	Three months from date of shipment.
W-40	One year from date of shipment.
W-50	One year from date of initial installation.*
W-52	One year from date of purchase. Warranty service provided at Kodak Equipment Service Centers.

*Warranty applies when equipment is installed within one year from date of shipment.

The applicable warranty code appears after the Equipment Description on the pages which follow.

NOTE: Equipment without a warranty code is not serviced by GCSS. For replacement consideration, equipment should be returned (with details of problem and date of purchase) to the Regional Distribution Center.

Installation Information

PRICES OF ALL EQUIPMENT WITH A WARRANTY CODE (EXCEPT CODES W-02, W-40, AND W-49) INCLUDE INSTALLATION BY KODAK DURING KODAK'S NORMAL WORKING HOURS AFTER THE INSTALLATION SITE HAS BEEN PREPARED BY THE CUSTOMER TO MEET

KODAK'S SITE SPECIFICATIONS. IF REQUESTED BY THE CUSTOMER, GCSS WILL INSTALL EQUIPMENT WITH WARRANTY CODES W-02, W-40, AND W-52 ACCORDING TO THE APPLICABLE PER-CALL TERMS AND RATES.

General Terms—Continued

Limitations of Liability on Sensitized Goods and Chemicals

The sale, use, and handling of Kodak sensitized goods and chemicals are subject to the applicable limitation of liability listed below:

Film

Kodak films are warranted to be free from defects in manufacture, labeling, and packaging. Kodak disclaims all other warranties, expressed or implied, including the implied warranties of merchantability and fitness for a particular use.

In the event of a breach of foregoing warranty, Kodak's sole obligation, and buyer's exclusive remedy, shall be the replacement of such defective films, even though the defect, damage, or loss is caused by the negligence or other fault of Kodak. Should this exclusive remedy fail its essential purpose, Kodak's entire liability shall be limited to the refund of the purchase price of the defective product.

In no event shall Kodak be liable for incidental and/or consequential damages, including the cost of cover.

Paper

Kodak photographic papers are warranted to be free from defects in manufacture, labeling, and packaging. Kodak disclaims all other warranties, expressed or implied, including the implied warranties of merchantability and fitness for a particular use.

In the event of a breach of foregoing warranty, Kodak's sole obligation, and buyer's exclusive remedy, shall be the replacement of such defective photographic papers, even though the defect, damage, or loss is caused by the negligence or other fault of Kodak. Should this exclusive remedy fail its essential purpose, Kodak's entire liability shall be limited to the refund of the purchase price of the defective product.

In no event shall Kodak be liable for incidental and/or consequential damages, including the cost of cover.

Chemicals

The chemicals listed in this price catalog are warranted to be merchantable. Kodak disclaims all other warranties, expressed or implied, including the implied warranties of fitness for a particular use and merchantability.

In the event of a breach of foregoing warranty, Kodak's sole obligation, and buyer's exclusive remedy, shall be the replacement of the chemicals even though the defect, damage, or loss is caused by the negligence or other fault of Kodak. In the event that circumstances cause this exclusive remedy to fail its essential purpose, Kodak's entire liability shall be limited to the refund of the purchase price.

In no event shall Kodak be liable for incidental and/or consequential damages, including the cost of cover.

General Terms—Continued

Special-Order Sizes and Formats Availability

Eastman Kodak Company receives frequent requests for special-order sizes of our conventional professional and amateur film and paper products. The company will attempt to provide such products to meet customer needs where practical. Thus, the company provides special-order guidelines with regard to minimum-order quantities and prices. Dealers in Kodak products may obtain quotations on minimum-order quantities and prices through their regional distribution customer service representative. The quotation of prices and minimum-order quantities shall not constitute agreement to supply these products, but are offered as guidelines and are provided contingent upon our manufacturability study. After receipt of a firm order based upon the minimum-order quantities and prices quoted, Eastman Kodak Company will confirm whether the order is going to be filled, usually within 2 weeks. If the order is accepted we will provide for delivery of the product, usually within 4 to 8 weeks. If the particular configuration is not manufacturable, the order will be canceled.

The providing of special-order sizes and formats does not constitute a commitment by Eastman Kodak Company to continue to supply such materials in the future. Product specifications designed for normal product usage apply and individual production batches shall not constitute a standard that must be met by Eastman Kodak Company.

Special-order items may be provided in generic packaging and identified as "SO," "MX," "KIND," or "GRADE" product (e.g., SO-366).

FILM

The following represent general guidelines based upon product film codes and the specifications outlined under the headings "Film Code Index" and/or "Descriptions of Specification Numbers" in the Film Section of this price catalog. There may be exceptions to the following guidelines for business or technological reasons. However, generally the company will provide product as follows:

1. The company will generally supply most product codes 50XX and 21XX in sizes from 16 mm to 9½ inches in the recognized specifications outlined on the previously identified pages. Currently noted exceptions include:
 - KODACHROME Films
 - KODACOLOR VR Films
 - Amateur EKTACHROME Films
 - Any amateur product where an equivalent professional product is available.

Exception items may be available in a limited number of specific types, sizes, or formats but do not fall within these more general guidelines.
2. The company will generally supply films in most product codes 60XX in 120 and/or 220 sizes.
3. The company will generally supply most product codes 41XX or 61XX in sheet film sizes from 2¼ x 3¼ inches to 30 x 40 inches and/or in wide-roll sizes in specifications 351 from 40 to 50 inches in width and in specified lengths of 30, 100, and/or 200 feet.
4. **Minimum-Order Price and Quantities**—See the Film Section page entitled "KODAK Films—Ordering, Pricing, and Stocking Information" under heading "Nonfactory-Stocked Items."

PAPER

For paper products, the general guidelines are:

1. The company will generally supply most professional paper products in sheet sizes from 2¾ x 4½ inches to 30 x 40 inches.
2. The company will generally provide professional paper products in special-order sizes from 35 mm to 40-inch width for most products, and up to 72 inches for some EKTACOLOR Paper products. These rolls shall be in standard recognized lengths (100 feet through 2000 feet) and restricted by packaging materials, weight considerations, and any other manufacturing constraints.
3. **Minimum-Order Price and Quantities**—See the Paper Section page entitled "KODAK Photographic Papers—Ordering, Pricing, and Stocking Information" under heading "Nonfactory-Stocked Items."

LIMITATION OF LIABILITY

The terms outlined on page 9 apply with the addition that special-order sizes and formats are not warranted against any physical or sensitometric effects arising out of, or related to, any unique aspects of the special-order specification.

SPECIAL ORDER PRODUCTS

Eastman Kodak Company provides a number of Special Order items that are used in special trade applications. These materials may be unique products derived from a parent product, product being test marketed, low volume products, products seeing diminished use, and similar considerations. These products may be listed as SO, O, MX, KIND, GRADE, or other generic designation. The listing of such a product in the catalog does not represent a commitment of continued availability by Eastman Kodak Company. Most of the Special Order Items are available in sizes or configurations other than shown here, however, there will generally be substantial minimum-order requirements.

KODAK PROFESSIONAL Films

Ordering, Pricing, and Stocking Information

Ordering Information

When ordering, please state quantity, package unit, size, product name, thickness, specification number (where applicable) and  No.

Sale of Long Roll Film

Kodak makes available in long rolls specified films which are also available in roll film (135-36, etc.) formats. These films are made available in long rolls so that users having cameras accepting long lengths of 35 mm films may use these particular products. These are made available for this use and are not intended for resale in repackaging or altered form. Kodak refuses to sell long roll film to customers who intend to respool that film for resale without Kodak's written permission.

Stocking Information

Factory Stocking

It is our intention to maintain a factory stock of all of the films shown in the following pages (except as otherwise noted for aerial films listed in the Aerial Products Section). This stocking information is intended as a general guide to dealers and necessarily relates to factory-stocking conditions only. Regional Warehouse Locations do not stock all the items that are indicated as factory stocked. Contact the Center in your region for information on specific items.

Prices indicated on the following pages apply only to those sizes and package quantities which are factory stocked. Items which are not factory stocked will be furnished in accordance with guidelines outlined below.

Nonfactory-Stocked Items

If available, nonfactory-stocked items of catalog-listed brands of film will be furnished at different price levels, determined by the quantity ordered for any one brand, size, package unit, or specification number as measured in terms of square feet of product. **To determine availability and pricing, requests should be submitted to your Regional Warehouse Location for consideration.** The following table reflects the various order levels, in terms of square feet, on which prices will be calculated. The lowest number in the table indicates the minimum order in terms of square feet for that product whether it is ordered in sheets or rolls. Prices will be quoted in terms of the normal packaging for the product (i.e., packages or rolls). Film in rolls must meet both the minimum square foot requirement and the full-width requirement.

Minimum-Order Requirements

Order Quantity 	B & W Films (square feet)	Color Films (square feet)
Large 	15,000 & Over	—
Standard	6,000-14,999	4,000 & Over
Intermediate	3,000- 5,999	2,000-3,999
Low	1,500- 2,999	1,000-1,999
Least	750- 1,499	500- 999

The suggested resale price relates to the net price for the **standard** order quantity.

To determine the suggested resale price for the intermediate, low, or least order quantity level, divide the suggested resale price by the net price for the standard order quantity and multiply the resulting factor by the appropriate net price level (i.e., intermediate, low, or least).

Full-Width Requirements

Order quantities for film in rolls must be in minimums and multiples of the number of rolls that can be cut out of a nominal full width of 47 inches. For typical roll widths, this full-width requirement results in the following minimum- and multiple-order quantities:

Roll Width	Minimum & Multiple Order Quantity
16 mm	75
35 mm	35
46 mm	26
70 mm	18
105 mm	12
3½ inches	14
4 inches	12
5 inches	10
6 inches	8
8 inches	6
9½ inches	5
10 inches	5

Minimum- and multiple-order requirements for rolls in widths other than those listed will be determined by dividing the 47-inch nominal full-width requirement by the nominal width of the roll (in inches) and rounding up. The minimum/multiple is one roll for rolls wider than 25 inches.

Shipment of nonfactory-stocked items may be subject to a delay. These items may not be returned for credit without authorization from Rochester, NY. Since it is not always practical to produce exactly the amount ordered, we reserve the option to ship plus or minus 10% on nonfactory stocked items.

Delivery Guidelines

Delivery lead-time for most nonfactory-stocked film will usually be 2 to 4 weeks with the exception of orders totaling 10,000 square feet or more.

 Quantity to be delivered at one time to one destination.

 Only applies to brands eligible for low net.

KODAK PROFESSIONAL TRI-X 320 / 400 Film

KODAK PROFESSIONAL TRI-X 320 and 400 Films are high-speed panchromatic films that are a good choice for photographing dimly lighted subjects or fast action, for photographing subjects that require good depth of field and fast shutter speeds, and for extending the distance range for flash pictures. TRI-X 320 Films (320TXP) feature excellent tone gradation and brilliant highlights. Both are especially well suited to low-flare interior lighting or flash illumination. They are also useful for portraiture with low-contrast backlighting outdoors. You can retouch these films on the emulsion or base side.

KODAK EKTACHROME Professional Infrared EIR Film

EIR Film features fine grain and medium sharpness. It has normal sensitivity to both ultraviolet and visible colors found between 380 and 700 nanometers, and sensitivity to infrared radiation found between 700 and 900 nanometers. Special Note: Due to its infrared sensitivity, exposure to any infrared source will fog this film. Do not open the film can except in total darkness. Turn off all infrared sensors, cameras, goggles, etc. in the area or on the processing equipment. Process AR-5 or E-6 by independent processing laboratories.

KODAK PROFESSIONAL EKTACHROME Duplicating Film EDUPE

Color reversal duplicating film designed for making high quality duplicate slides and transparencies from original chromes. EDUPE Film features outstanding latent image keeping, excellent reciprocity characteristics and superb highlight and shadow detail with a neutral tone scale. Used primarily by laboratories for the reproduction of original films under controlled conditions. Generally these films are not used for original photography due to their design characteristics which are optimized for faithful duplication of original films. Process E-6, by user or independent processing laboratories.

Additional Terms—For Purchases of KODAK Products for Aerial Photography

Warranty—Kodak films will be replaced if defective in manufacture, labeling, or packaging. Except for such replacement, the sale or any subsequent handling of these films is without warranty or liability, even though defect, damage, or loss is caused by negligence or other fault. Since color dyes may in time change, color films will not be replaced for, or otherwise warranted against, any change in color.

Factory Stocking—The films on which our factory aims to maintain a stock are indicated opposite their listings by an X. This stocking information is intended as a general guide to dealers and necessarily relates to factory stocking conditions only. Regional Distribution Centers do not stock all the items that are indicated as factory stocked. Contact the Center in your region for information on specific items.

Nonfactory-Stocked Items—If available, nonfactory-stocked items of catalog-listed brands of film will be furnished at different price levels, determined by the quantity ordered for any one brand, size, package unit, or specification number as measured in terms of square feet of product. **To determine availability and pricing, requests should be submitted to your Regional Distribution Center for consideration.** The table below reflects the various order levels, in terms of square feet, on which prices will be calculated. The lowest number in the table indicates the minimum order in terms of square feet for that product whether it is ordered in sheets or rolls. Prices will be quoted in terms of the normal packaging for the product (i.e., packages or rolls). Film in rolls must meet both the minimum square foot requirement and the full-width requirement.

Minimum-Order Requirements

Order Quantity	B & W Films (square feet)	Color Films (square feet)
Standard	6,000 & Over	4,000 & Over
Intermediate	3,000-5,999	2,000-3,999
Low	1,500-2,999	1,000-1,999
Least	750-1,499	500-999

The suggested resale price relates to the net price for the **standard** order quantity.

To determine the suggested resale price for the intermediate, low, or least order quantity level, divide the suggested resale price by the net price for the standard order quantity and multiply the resulting factor by the appropriate net price level (i.e., intermediate, low, or least).

As a guide in determining square feet of product for ordering nonfactory-stocked items, the following film lengths are approximately equal to 250 square feet.

- 70 mm x 1,000 feet
- 5 inches x 600 feet
- 9½ inches x 300 feet

Full-Width Requirements

Order quantities for film in rolls must be in minimums and multiples of the number of rolls that can be cut out of a nominal full width of 47 inches. For typical roll widths, this full-width requirement results in the following minimum- and multiple-order quantities:

Roll Width	Minimum & Multiple Order Quantity
16 mm	75
35 mm	35
46 mm	26
70 mm	18
105 mm	12
3½ inches	14
4 inches	12
5 inches	10
6 inches	8
8 inches	6
9½ inches	5
10 inches	5

Minimum- and multiple-order requirements for rolls in widths other than those listed will be determined by dividing the 47-inch nominal full-width requirement by the nominal width of the roll (in inches) and rounding up. The minimum/multiple is one roll for rolls wider than 25 inches.

Shipment of nonfactory-stocked items may be subject to a delay. In general, a minimum of 45 days should be allowed for delivery after Kodak's receipt of an order. A manufacturing allowance of plus or minus 10% is required on all orders for nonfactory-stocked aerial films.

AERIAL PRODUCTS

☐ Quantity to be delivered at one time to one destination.

KODAK Aerial Film Specification Numbers

KODAK Aerial Films, both black-and-white and color, are available in sizes to fit all American mapping and reconnaissance cameras, as well as standard European mapping cameras and many special aerial cameras. Kodak specification (Sp) numbers have been assigned to identify film width, spool sizes and design, type of perforations if used, and other details for regularly supplied sizes. The following tables are only a partial list of Kodak specification numbers for aerial films on ESTAR Base, both black-and-white and color.

For ESTAR Base Black-and-White Films

The three thicknesses of KODAK ESTAR Base, 2.5-mil, 4-mil, and 7-mil, cause different lengths of film to be spooled on each standard aerial spool. The following list indicates the standard length of each type of film that would be supplied. All sizes are supplied without leader or trailer.

Film Length (without leader or trailer)

Film Sp No.	Film Width	ESTAR Thin Base (2.5-mil)	ESTAR Base (4-mil)	ESTAR Thick Base (7-mil)	ANSI PH1.2-1979 Spool No.	Kodak Spool No.	Core Diameter (inches)	Flange Diameter (inches)	Spool Material ^①

For ESTAR Base Color Films

In general, KODAK Color Film emulsions are slightly thicker than black-and-white film emulsions. For this reason, color film lengths spooled on standard spool may be slightly less than black-and-white film lengths. The following *partial list* indicates the standard length of each type of film that would be supplied. All sizes are supplied without leader or trailer.

Film Length (without leader or trailer)

Film Sp No.	Film Width	ESTAR Thin Base (2.5-mil)	ESTAR Base (4-mil)	ANSI PH1.2-1979 Spool No.	Kodak Spool No.	Core Diameter (inches)	Flange Diameter (inches)	Spool Material ^①

KODAK Photographic Papers

Ordering, Pricing, and Stocking Information

Ordering Information

When ordering, please state quantity, package unit, size, brand, surface, contrast grade, weight, specification number (where applicable) and **CAT No.**

Stocking Information

Factory Stocking

It is our intention to maintain a factory stock of all of the papers shown on these pages. Roll sizes are stocked in the winding specifications shown; other styles of winding are prepared on order. This stocking information is intended as a general guide to dealers and necessarily relates to factory-stocking conditions only. Regional Warehouse Locations do not stock all the items that are indicated as factory stocked. Contact the Center in your region for information on specific items.

Prices indicated on the following pages apply only to those sizes and package quantities which are factory stocked. Items which are not factory stocked will be furnished in accordance with guidelines outlined below.

Nonfactory-Stocked Items

If available, nonfactory-stocked items of catalog-listed brands of paper will be furnished at different price levels determined by the quantity ordered for any one brand, size, package unit, or specification number as measured in terms of square feet of product, and where applicable, rounded up to the next whole case quantity. **To determine availability and pricing, requests should be submitted to your Regional Warehouse Location for consideration.** The table below reflects the various order levels, in terms of square feet, on which prices will be calculated. The lowest number in the table indicates the minimum order in terms of square feet for that product whether it is ordered in sheets or rolls. Prices will be quoted in terms of the normal packaging for the product (i.e., packages or rolls).

Order Quantity ^①	B&W and Color Papers (square feet)
Large (B&W only) ^②	30,000 & Over
Standard	12,000-29,999 ^③
Intermediate	6,000-11,999
Low	3,000- 5,999
Least ^④	1,500- 2,999

The suggested resale price relates to the net price for the **standard** order quantity.

To determine the suggested resale price for the intermediate, low, or least order quantity level, divide the suggested resale price by the net price for the standard order quantity and multiply the resulting factor by the appropriate net price level (i.e., intermediate, low, or least).

Shipment of nonfactory-stocked items may be subject to a delay. These items may not be returned for credit without authorization from Rochester. Since it is not always practical to produce exactly the amount ordered, we reserve the option to ship plus or minus 10% on nonfactory-stocked items.

Cutting is in conformance with USA standards, and in most sizes is from one direction of the grain. Special orders, such as undercut paper to fit film holders or cutting from a different grain direction, will not be factory stocked, and special pricing will apply.

Delivery Guidelines

Delivery lead-time for most nonfactory-stocked paper will usually be 2 to 4 weeks with the exception of:

- All color reversal paper
- Ultra paper
- Orders totaling 10,000 square feet or more

^① Quantity to be delivered at one time to one destination.
^② Only applies to brands eligible for low net.
^③ Refers to B&W only. For color the standard order quantity is 12,000 and over.
^④ Does not apply to KODAK EKTACHROME Materials.

Paper in Rolls

Black-and-white single weight papers in 1,000-foot rolls, medium-weight papers in 700-foot rolls, and double-weight papers in 500-foot rolls, in width 2½ inches to 5 inches inclusive, are available only in a bulk package of two rolls. The two rolls are without individual wrapping, packed in one bag an enclosed in a corrugated case. Color papers in all lengths and widths are individually bagged or wrapped. Color papers are packaged in boxes in the numbers indicated in the individual listings on pages 49 through 54.

Orders should specify the number of rolls, rather than the number of cases. Orders for full-width rolls for papers listed in this catalog are supplied untrimmed unless the order specifically requests trimmed paper. The state widths of 40-inch and 42-inch refer to the emulsion widths. In the untrimmed format the paper width is greater than the emulsion width, and this safe edge should not be considered for square footage computation. This applies to all photographic paper listed in this catalog.

The maximum number of splices for narrow-width rolls 10 inches and under are: 000-199 feet—no splices; 200-300 feet—2 splices; 301-75 feet—3 splices; 751-999 feet—4 splices; 1,000 feet and over—5 splices.

Following is a description of most commonly ordered roll winding specification numbers. Information on other windings is available on request; specification numbers are included on labels to assist when reordering.

Sp No.	Core and ID	Winding	Uses
75	14 3"	In	Straight Edge
80	127 2" (Square)	In	Straight Edge
87	14 3"	In	Straight Edge

KODAK PROFESSIONAL ULTRA ENDURA Paper														
KODAK PROFESSIONAL ULTRA ENDURA Paper features an extended print life, digital/optical exposure capability, and improved processing characteristics. It has high levels of contrast and color saturation and deeper D-max which produces crisp text and intense blacks. It also features a non-watermarked back on F and N surfaces.

KODAK Hazardous Chemical Label Program

If you need emergency information:

**KODAK MAINTAINS 24-HOUR HEALTH, SAFETY, AND
ENVIRONMENTAL EMERGENCY INFORMATION
SERVICES FOR [REDACTED] PRODUCTS**

The telephone number is

(585) 722-5151

(24 hours a day, 7 days a week)

If you have questions about health emergencies, leaks, or spills:

READ THE LABEL AND THE MATERIAL SAFETY DATA SHEET

(MSDS): The precautionary and first-aid statements on the label and in the MSDS are carefully prepared, and will answer many questions on health, safety, and environmental hazards. For more information on Kodak chemicals, visit Kodak Environmental Services on-line at:
[REDACTED].

These labels are provided to assist you in complying with Federal OSHA Hazardous Communication Standard 29 (CFR 1910.1200)

Since May 1988, the Occupational Safety and Health Act requires employers to inform their employees about hazardous chemicals used in the workplace. Kodak provides self-adhesive labels (4 x 5 inch) for use in identifying chemicals used in Kodak Processes C-41, RA-4, E-6 and R-3, and for attachment to processing machine tanks and replenisher tanks.

Visit Kodak Environmental Services website at www.kodak.com to print your own labels. These labels are available for download as PDF files. Unless otherwise noted, all files are formatted for printing on 8 1/2 x 11-inch sheets designed to yield six (3 1/2 x 4-inch) self-adhesive labels per sheet (such as AVERY 8164 White Ink Jet Labels.)

KODAK Hazardous Chemical Label / PF7-90 / English

The Process C-41 set includes ten self adhesive labels, each 4 x 5 in, printed on two 8 x 10 in sheets, stapled, and refers to: KODAK FLEXICOLOR Developers, Bleaches, Fixers, Stabilizers and Final Rinse.

KODAK Hazardous Chemical Label / PF7-90 / Process C-41/ English	8477556	1	1-+	\$6.00			11/30/2001	...	11/30/2001
---	---------	---	-----	--------	--	--	------------	-----	------------

KODAK Hazardous Chemical Label / PF7-93 / English

The Process E-6 and E6-AR set includes twenty self adhesive labels, each 4 x 5 in, printed on four 8 x 10 in sheets, stapled, and refers to: KODAK First Developer, Reversal Bath, Color Developer, Pre-Bleach, Bleach, Fixer, Conditioner, Stabilizer and Final Rinse.

KODAK Hazardous Chemical Label / PF7-93 / Process E-6 and E6-AR/ English	8328429	1	1-+	4.00			05/01/1996	\$5.00	05/01/1996

• Eastman Kodak Company, as a chemical manufacturer, is concerned about customers generating hazardous fumes and gases by bringing concentrated CLEANING AGENTS (i.e., Clorox, Liquid Plumber, Drano, developer system cleaners, etc.) into direct contact with photochemicals...especially fixing chemicals.

This dangerous combination can be made during the cleaning of processor racks and machine tanks. Thorough rinsing with water BEFORE USING CLEANING AGENTS must become a standard operating procedure.

These new DANGER labels will help alert lab personnel during rack washing and/or machine cleaning.

We have labels (order item CIESS-50) in stock which can be ordered at no charge in reasonable quantities from Eastman Kodak Company, Kodak Environmental Services, 1100 Ridgeway Avenue, Rochester, New York 14652 or call 1-585-477-3194.

CHEMICALS

KODAK Hazardous Chemical Label / PF7-105 / English

The Process EKTACOLOR Processing Cartridge 75 set includes nine self adhesive labels each 2 x 2.5 in printed on an 8.5 x 11 in sheet and refers to: Developer Working Solution, Bleach Fix Working Solution and Stabilizer Working Solution.

KODAK FLEXICOLOR Chemicals for Process C-41, C-41B, and C-41RA

KODAK FLEXICOLOR Chemicals are supplied as all liquid concentrates for easy mixing and handling, and in these sizes for the most economical and efficient use in your laboratory.

One each of the following chemicals is needed for a complete process:

- Color Negative Film Developer
- Color Negative Film Bleach
- Color Negative Film Fixer
- Color Negative Film Stabilizer

Color Negative Film Developer*

KODAK FLEXICOLOR Developer Replenisher

Parts A, B, and C are needed to make complete working solution.

KODAK FLEXICOLOR Bleach Starter

Use this starter to prepare a bleach working solution from FLEXICOLOR Bleach III Replenisher. This product is odorless, non-corrosive, and non-foaming for ease of use. See instructions on bottle for how to use.

KODAK FLEXICOLOR Bleach Starter / 1 gal bottle	8566796	1	1-11	9.53	12-+	\$8.59	02/15/1998	15.10	02/15/1998
--	---------	---	------	------	------	--------	------------	-------	------------

KODAK FLEXICOLOR Bleach III Replenisher

You can use this bleach as a replenisher or mix it with starter to make a working solution. The bleach overflow can also be regenerated to reduce the chemical costs and minimize the chemical discharge. Both Part A and Part B are needed to make a complete working replenisher solution.

KODAK FLEXICOLOR Bleach III Replenisher / To make 5 gal	1987924	1	1-+	77.21			02/15/1998	121.90	02/15/1998

KODAK EKTACOLOR RA Developer Regenerator 12/55

Designed to regenerate developer overflow from EKTACOLOR RA Developer tank solution without using ion-exchange equipment. The developer temperature is 100°F. This product is for photofinishers who have at least one developer tank turnover per week. Can be used with KODAK EKTACOLOR RA Developer Regenerator Converter to make 100 gal of KODAK EKTACOLOR RA Developer Replenisher 12. Parts A, B, and C should be used together.

KODAK EKTACOLOR RA Developer Regenerator 12/55 / Part A / To make 150 gal	8094997	1	1-11	218.97	12+	207.77	02/15/1998	345.70	02/15/1998

KODAK EKTACOLOR RA Developer Regenerator Converter / RA-4

Designed to be used as an option with a 150 gal kit of KODAK EKTACOLOR RA Developer Regenerator 12/55 to create 100 gal of KODAK EKTACOLOR RA Developer Replenisher 12. Photofinishers who regenerate using KODAK EKTACOLOR RA Developer Regenerator 12/55 normally carry inventories of KODAK EKTACOLOR RA Developer Replenisher 12 in case of regeneration or tank solution losses. This solution provides the option of eliminating KODAK EKTACOLOR RA Developer Replenisher 12 emergency inventories and carrying costs.

Color Negative Paper Developer Replenisher♦-continued

KODAK EKTACOLOR RA Developer Additive

Add to KODAK EKTACOLOR RA Developer Replenisher RT if the processor utilization is very low and additional protection from oxidation is needed. Use this additive only with EKTACOLOR RA Developer Replenisher RT, NOT EKTACOLOR RA Developer Replenisher or EKTACOLOR Digital Developer Replenisher RT. Do NOT add this additive directly to the developer tank solution. Add one 48 oz unit to 12.5 gal (47.3 L) of EKTACOLOR RA Developer Replenisher RT and bring to a final volume of 15.6 gallons with water. A replenisher treated with this additive requires a different replenishment rate. (See KODAK Publication Z-130D included in the Z-130 manual, 'Using KODAK EKTACOLOR Chemicals'.)

Miscellaneous Color Negative Paper Chemicals

KODAK EKTACOLOR RA Bleach Regenerator

This product is designed for use in processors having a separate bleach and fixer cycle. Bleach overflow is collected and EKTACOLOR RA Bleach Regenerator is added making reusable bleach replenisher. A significant reduction in the amount of iron and BOD/COD will result.

KODAK EKTACOLOR RA Bleach Regenerator / To make 150 gal	8158784	1	1+	368.88			02/15/1998	582.40	02/15/1998

KODAK EKTACOLOR Processing Cartridge 111 / RA-4

Use without adjustment, or modification, on the Fuji Frontier Model 340 Printer that uses Fuji's short cycle paper chemical Process CP-49E in addition to its current use on Frontier Models 330, 350, 355, 370, 375 and 390 that use Fuji Process CP-48S. Replaces Processing Cartridge 111, CAT No. 8665788. Dimensions and weights remain the same. The only visible difference to current users will be different alignment slots on the cartridges and bottle design to accommodate placement on the different equipment models. Cartridges will also have a "NEW" callout on the cartridge itself. No changes in replenishment rates or handling and placement procedures are required.

KODAK EKTACOLOR Processing Cartridge 111 / RA-4 / To process 111 sq m of media / 7170 4 x 6-in prints	1270263	2	1+	64.87			05/03/2005	...	05/03/2005
---	---------	---	----	-------	--	--	------------	-----	------------

KODAK Rinse Tablets

For use on all models of the FUJI Frontier Digital Minilab paper and film processors. It is a drop-in product requiring NO changes or modification to the equipment or existing chemistry. Just place the tablet in the slot on the machine and mix with water.

Process E-6 Chemicals for Machine Processing

KODAK Process E-6 chemicals are supplied as all liquid concentrates for easy mixing and handling, and in these sizes for the most economical and efficient use in your laboratory.

Each of the following E-6 Chemicals are needed for a complete process:

- First Developer Replenisher
- Reversal Bath and Replenisher
- Color Developer Replenisher
- Pre-Bleach
- Bleach Replenisher
- Fixer Replenisher
- Final Rinse

The following Process E-6 Chemicals are designed for machine processing. First Developer Starter, Color Developer Starter, and Bleach Starter are required to make a working tank solution. Process E-6AR products are suitable for use on automatic replenishment chemical blending systems. Process E-6AR chemicals can also be used to make a replenisher tank solution.

KODAK PROFESSIONAL Rapid Fixer

Rapid acting hardening fixer for papers, film and plates for machine or manual processing. To prepare a complete hardening fixer requires Solution A, the fixer concentrate, and Solution B, the hardener concentrate. 1 and 5-gal sizes provides enough Solution A and B concentrate to prepare 1 and 5-gal respectively of film fixer or 2 and 10-gal respectively of paper fixer. For machine process of paper, use the 1 to 3 dilution. Rapid Fixer dilutes 1 to 3 for film and 1 to 7 for paper.

KODAK Chemical Recovery Cartridge, Junior Model II

Improved chemical recovery cartridge. For use when at least 2.5 gal of fixer are discharged per week. Unlike the previous cartridge, this product comes with fittings for both inflow and outflow although no tubing is included. Recessed cover has a double seal gasket and hot melt adhesive system that snap locks in place for corrosion proof security and triple reinforcing rings. Same features as the KODAK Chemical Recovery Cartridge, Model II.

Processing Aids and Supplies†

KODAK Process Hydrometer Syphon Set / for Process C-41

Designed to provide an accurate means for measuring specific gravity of the C-41 developer at both room temperature (25°C or 77°F) and working tank temperature (37°C or 100°F). These instruments may be found useful when diagnosing developer tank or replenisher mix errors. They are also useful when diagnosing evaporation of dilution problems of the developer working tank.

Safelight Lamps♦

KODAK Darkroom Lamp

Can be used in wall socket or from drop cord socket. Accepts a circular 5.5 in filter (not included), which is held in position in the lamp base by a molded lock ring. Sturdy metal construction with a pebbled gray finish. Uses a 15 watt bulb (not included). 110-220 V, AC or DC (UL approved).

KODAK Darkroom Lamp / Accepts circular 5.5 in filter	1521178	1	1-5	\$35.14	6+	\$31.63	02/01/1999	\$52.70	02/01/1999
--	---------	---	-----	---------	----	---------	------------	---------	------------

KODAK Adjustable Safelight Lamp, Model B

With its double-swivel shank and bracket, it can be attached to a wall, shelf or bench and swung or tipped allowing light to be moved as needed. Uses 15- or 7.5 watt bulb (not included) depending on sensitized material and safelight specifications. Holds a 5.5 in circular filter (not included). Supplied with bracket and 6 ft cord set with 2 prong plug. 110-125 V, AC or DC (UL approved).

KODAK Adjustable Safelight Lamp, Model B / Holds circular 5.5 in filter	1412212	1	1-5	96.03	6+	86.44	02/01/1999	160.05	02/01/1999
---	---------	---	-----	-------	----	-------	------------	--------	------------

KODAK Utility Safelight Lamp

Suspends from the ceiling for direct or indirect illumination. A support chain and 6 foot, 3 wire grounded cord set (without switch) are provided. For connection directly to a grounded outlet with remote switch control. Holds a 10 x 12 in safelight filter (not supplied). Use with bulb of recommended wattage (7.5, 15 or 25 W). Lamp can be positioned on wall, table, or workbench using the Bracket for the KODAK Utility Safelight Lamp CAT No. 1521194.

Exposure and Processing Control Materials

KODAK Control Strips, Process E-6

These new E-6 control strips provide labs with a tool to keep their process in tight control. They enable labs to provide the highest quality E-6 processing for their customers, so customers can truly Experience the Difference of using a Pro Lab. The new control strips are made using KODAK PROFESSIONAL EKTACHROME Film E100G and replace the current KODAK Control Strips, Process E-6 manufactured on KODAK EKTACHROME 64 Professional Film / EPR. Manufacturing the strips on EKTACHROME E100G Film provides several benefits to the E-6 processing lab including earlier detection of conditions such as low utilization, oxidation, and retained silver due to inadequate bleaching, as well as improved process tracking.

KODAK Control Strips, Process E-6 / Box of 50 / 35 mm x 5.25 in	1063239	1	1-+	46.35			07/16/2004	69.55	07/16/2004

KODAK Full Frame Control Strips, Process C-41⁺

Sensitometrically exposed film strips to monitor the processing of color negative films in KODAK FLEXICOLOR Chemicals. Primarily designed for use in minilab film processors, in conjunction with a minilab printer that has a negative scanner capable of being used as a built-in densitometer. Each strip is 15 in long and contains density steps that are 36 x 24 mm (full frame image size). Identifying notches on the film edge every 15 in.

Each carton contains 5 moisture-proof envelopes with five 3.5 x 12 inch strips each.									

KODAK Control Strips, Process RA-4 / Extended Length

The number of Fuji Frontier processors using Kodak Paper and Chemicals has been increasing significantly. Subsequently, Kodak will now be selling extended length paper process control strips that can be used with all Frontier models and paper control strip holders including models 330 and 340. The KODAK Control Strips, Process RA-4 / Extended Length, are 13 ¾ inches long and eliminate the need for a shim when used with the control strip holders used on models 350, 355, 370, 375 and 390.

Exposure and Processing Control Materials—Continued

KODAK PROFESSIONAL PORTRA Color Exposure Set (KCES) / Size 120

Designed to measure and assist in the adjustment of chromatic levels on Kodak printers. After a Printing Density Matrix (PDEN) change has been made, it is recommended that the Color Exposure Set (KCES) be read to check and set chromatic correction to lab aims.

KODAK PROFESSIONAL Q-60 Color Input Targets

KODAK PROFESSIONAL Q-60 Targets are available on KODAK PROFESSIONAL EKTACHROME Film in both 35 mm and 4 x 5 inch formats, and on KODAK ENDURA Paper in a 5 x 7 inch format. Developed primarily for use by prepress houses in the printing industry, this target can also be used by professional photographers, desktop publishers, and in the emerging hybrid imaging area. The target is designed for use, in the commercial and desktop arenas, as a comparative control tool to help customers calibrate their input product to the final output. These targets are produced in accordance with ANSI IT8.7/1 (transmission) and IT8.7/2 (reflection) Standards. (Note: The K3 CAT No. 1575141, is on KODACHROME Film manufactured in IT8 format but not to ANSI standards.)
