PROCUREMENT SPECIFICATIONS
NO. 131-1-F

OPEN END CONTRACT

2 WHEEL DRIVE UTILITY TRACTOR WITH UNIVERSAL
MID MOUNTED ARTICULATED BOOM MOWER/
GRASS ROTARY MOWER/SIDE FLAIL MOWER

1.0 PURPOSE

It is the purpose of these specifications to describe a 2 Wheel Drive Utility Tractor with Universal Mid Mounted Articulated Boom Mower constructed in a manner that will also allow a Short Boom 60 Inch Grass Rotary Mower or 74 Inch Side Flail Mower to use the same frame work as the Boom Mower (hereinafter referred to as a "tractor/mower" or a "unit") to be purchased for use by the West Virginia Division of Highways (DOH) on an Open End Contract basis.

2.0 BIDDING PROCEDURES

The current purchasing procedures regarding bidding as established by the Department of Administration, Purchasing Division, shall apply. Failure to submit the "Request for Quotation" forms, complete in its entirety and according to directions indicated, may subject the bidder to disqualification. **Each bid submitted shall also be accompanied by a Bidder's Evaluation Report completed in detail.** Addendums in order, along with exception sheets, should be with Bidder's Evaluation Report. **FAILURE TO SUBMIT THE BIDDER'S EVALUATION REPORT, COMPLETE IN ITS ENTIRETY, MAY RESULT IN AUTOMATIC DISQUALIFICATION.**

3.0 SPECIFICATIONS

The specifications named herein, mandatory and non-mandatory, establish the acceptable level of quality only and are not intended to reflect a preference or favor any particular brand or vendor.

3.1 EXCEPTIONS TO NON-MANDATORY SPECIFICATIONS

Exception to a non-mandatory unit specification may be made by the bidder, providing the exception is not available from the manufacturer. **Any such exception must be noted on the bidder's evaluation report and should be accompanied by supporting documentation/literature from the manufacturer. Any exception must be indicated on a separate attachment to the bidder's evaluation report and labeled as "Exception to Specifications".** The state reserves the right to determine whether the stated exception does or does not reduce the quality and performance of the unit. Failure to provide information for any exceptions may be grounds for rejection of the bid. The state reserves the right to waive minor irregularities in bids or specifications in accordance with §148-1-4(f) of the WV Legislative Rules and Regulations.

3.2 MANDATORY SPECIFICATIONS

All specifications preceded by "shall and/or must" or are stated as a "minimum and/or maximum" are mandatory. Any bid failing to meet any mandatory item shall be immediately disqualified. Failure to respond in the appropriate evaluation section may also be grounds for immediate disqualification at the discretion of the State.

(NOTE: Mandatory specifications have been typed in bold print.)

A mandatory pre-bid conference is scheduled for this equipment purchase as stated in the RFQ. Vendors having products with variations or exceptions in specified mandatory items are expected to address any such variations or exceptions during the pre-bid conference. **The State shall review and consider any such variation or exception, and may at its sole discretion, issue an addendum to change mandatory specifications deemed to be in the State's best interest. Bids from any vendor failing to attend the mandatory pre-bid shall be disqualified. Bids containing any variation or exception to a mandatory specification that was not addressed during the pre-bid conference and accepted by the issuance of an Addendum shall be disqualified.**

4.0 REPRESENTATIVE UNIT FOR TEST

The successful vendor must (if specified) provide DOH one (1) completed representative unit to be observed and evaluated on each order to insure compliance with specification. If requested, the time period for testing and evaluation shall be seven (7) working days following receipt of the unit. DOH will incur no obligation for deterioration of surfaces, finishes, seals, and mechanical or electrical parts on the unit resulting from operation and testing within the limits of these specifications; nor will DOH incur obligation for damage to the unit resulting from failure to meet specifications when due care and attention is given by DOH and testing is done within the limits of these specifications. Failure of the pilot unit to satisfactorily meet specifications as bid shall be cause for cancellation of the purchase order, and return of the delivered unit along with all associated equipment to the vendor at the vendor's expense.

4.1 CONDITION OF UNIT(S) UPON DELIVERY

All units must arrive at the prescribed delivery point having been completely preserviced with oil, lubricants, and coolant. All prescribed precautions pertaining to first operations and break-in of the unit are to be posted conspicuously on the unit for ready observance by the operator.

4.2 DELIVERY

Delivery point of the completely assembled representative unit will be the DOH, Equipment Division, Route 33 at Brushy Fork Road, Buckhannon, West Virginia (26201).

The vendor is responsible for guaranteeing delivery of the completed units within the time specified and agreed to by the State. Delivery is preferred within 90 days. The vendor is responsible for establishing and coordinating delivery terms with allied manufacturers or suppliers. **Delivery terms shall be stated in the bid and the State**

reserves the right to accept or negotiate such terms. Failure to reach an agreement may result in rejection of the bid. **The successful bidder shall provide their manufacturer's confirmation of the order to the WVDOH contact person within seven (7) working days after receiving the approved purchase order.**

A completed pilot model for inspection must be provided within 45 calendar days after the date of the purchase agreement by the successful vendor.

Delivery is an integral part of this specification and failure to comply will be cause to initiate a D.O.T. Administrative Form WV-82, Vendor Performance Form. The WV-82 Form will provide a means of officially notifying the Purchasing Division and the vendor of unsatisfactory performance; such as late deliveries, poor service, inadequate parts supplies, etc.

The decision to initiate subject Form will be at the sole discretion of the D.O.H. Commissioner's established Equipment Review Board.

Issuance of the WV-82 Vendor Complaint Form on unsatisfactory delivery against any vendor will be cause to refuse to consider similar items from those vendors on future Request For Quotations.

(NOTE: Delivery time could be altered due to labor strikes, severe inclement weather conditions, etc.)

5.0 AWARD CRITERIA

- 5.1 DOH will recommend the award in accordance with the RFQ evaluation criteria described in the requisition. **The award shall be made to the lowest complete unit cost vendor that meets or exceeds the specifications.**

Prices for the units shall be in quantities of 1-5, 6-10, 11-20, and 21 and over for the complete units and option of tractor only, boom mower only, grass rotary mower only, and/or side flail mower only. However, for evaluation purposes, we will use the complete unit quantities 1-5 for the 2 wheel drive utility tractor with universal mid mounted articulated boom mower/grass rotary mower/side flail mower. The successful vendor for the complete unit of 2 wheel drive will also be awarded the options of tractor only, boom mower only, grass rotary mower only and side flail mower only. Evaluation and award is based on the complete unit. DOH reserves the right to place multiple orders in any quantity.

6.0 SPECIFICATIONS AND GUIDELINES - GENERAL

6.1 IDENTIFICATION OF THE UNIT BEING PROPOSED

The bidder must identify the unit by manufacturer, model, series, and year of manufacture, in the bid to enable identification by DOH in the manufacturer's specifications of the proposed unit. POLICY ON MASSEY FERGUSON® OWNER SERVICE

New Equipment Warranty- Equipment is eligible for warranty service only if it qualifies under the Massey Ferguson® New Agricultural Tractor and Equipment Warranty. The selling dealer will deliver the Warranty Terms and Conditions to the original retail purchaser at the time of sale and the dealer will register the sale and Warranty with the Company.

Subsequent Owners- The Massey Ferguson® New Agricultural Equipment Warranty covers the first retail purchaser and all subsequent owners of the equipment during the specified warranty period. Should you sell this equipment it is therefore important that you deliver the warranty document to the buyer so that the new owner can register ownership with the Company and obtain the remaining warranty benefits with no interruption in the Warranty Period. Massey Ferguson Subsequent Owner Procedure will apply.

Warranty Service- To be covered by Warranty, service must be performed by an authorized Massey Ferguson® dealer. It is recommended that you obtain warranty service from the dealer who sold you the equipment because of that dealer's continued interest in you as a valued customer. In the event this is not possible, warranty service may be performed by any other authorized Massey Ferguson® Dealer in the United States and Canada.

Maintenance Service- The Owner's Manual furnished to you with the equipment at the time of delivery contains important maintenance and service information. You should read the manual carefully and follow all the maintenance and service recommendations. Doing so will result in greater satisfaction with your equipment and help avoid service and warranty issues.

Maintenance Inspections- To insure the continued best performance from your agricultural equipment we recommend that you arrange to make your equipment available to your Massey Ferguson® dealer for a maintenance inspection 30 days prior to warranty expiration.
