Re: Qualifications for New Jackson County Army National Guard Facility

Dear Mr. Abbott:

Please accept the attached Statements of Qualifications for Professional Design Services regarding the WV Army National Guard Facility to be located in Jackson County. As you may know, Pickering Associates has always been primarily an Electrical Engineering firm. In recent years, we have expanded our services in other areas such as Mechanical Engineering, Civil / Structural Engineering and even Architecture. Projects such as the new WV Army National Guard Facility in Jackson County allow us to showcase our extensive electrical experience while incorporating some of our lesser known talents in the other fields. Pickering Associates has been involved in several projects throughout West Virginia and we hope to continue that trend through this project.

We would very much like to be a part of this project. We are a local firm and respect the communities in which we live. Pride in a job well done should be part of every project and one way to ensure that is by hiring someone who will have to live and work around it everyday. We would like to be that firm!

We thank you for the opportunity to submit and look forward to bringing our team strength to the WV Army National Guard in order to plan for the future.

If you have any questions, please do not hesitate to contact us.

Respectfully Submitted,

Ryan K. Taylor
Vice President of Operations
