December 20, 2007

Mr. Abbot,

Please accept this letter and its accompanying document as an expression of interest for professional design service for the design of a new Army National Guard facility in Fairmont, West Virginia. We are proudly joined in this expression by Capitol Engineering, McKinley and Associates, Construction Cost Systems, inc. and Moment Engineering.

I am honored and personally humbled by the opportunities to serve as the architect for some of the most visible projects that the West Virginia Army National Guard has developed over the past 10 years. Our commitment to better serve you has promoted us to open an office in Morgantown, which we expect to be operational as early as January 2008. With a permanent presence in Morgantown we will be able to offer a greater level of availability and service to you.

Our extensive experience in the National Guard Bureau projects allows this team to contribute towards the goal for a collection of timeless and functional facilities that can serve the vision and the mission of the West Virginia Army National Guard for many years to come.

With Respect,

Hamid Noughani, AIA
