Re: **DEFK8214**

Dear Mr. Abbott:

AMEC Earth & Environmental, Inc. (AMEC) is pleased to submit this Expression of Interest (EOI) in designing repair of the South Gate Road slope failure at Camp Dawson for the West Virginia Army National Guard (WVARNG) in Kingwood, West Virginia. AMEC has a long, successful history providing geotechnical and transportation design services to the Army and Air National Guards (ARNG and ANG), including WVARNG; as well as a variety of other federal, state, and local government and commercial clients. The State of West Virginia and WVARNG can have a high level of confidence in engaging AMEC for this contract.

- The ARNG is one of our top 5 clients. AMEC has provided value-added, professional consulting services to the National Guard Bureau (NGB), including both the ARNG and ANG, since 1994. Throughout this 14-year service history, we have successfully completed over 750 Delivery Orders totaling well over \$225M for the NGB, of which the majority has been for the ARNG.
- Since 1994, AMEC has worked in all 54 of the states and territories the ARNG serves. AMEC currently is working in 38 ARNG states, including West Virginia, and an additional 10 ANG states, providing on-going consulting services.
- The professional project team has the appropriate relevant experience with roadway failures and slope stability challenges, has more than adequate capacity to perform the services requested, and can initiate work immediately.

Our EOI is organized as follows:

- **Section 1.0 Team Introduction** provides a brief introduction to AMEC, presents our proposed project organization, and introduces our ARNG Program Manager and Project Manager.
- **Section 2.0 Relevant Project Experience** consists of selected project examples that demonstrate our expertise with providing quality, cost effective solutions to roadway failures and slope stability issues.
- **Section 3.0 Project Concept and Approach** describes our impressions of the project challenges and our approach to developing a solution.
- **Section 4.0 Project Team Resumes** presents the relevant qualifications, education, and experience of our proposed project team.
- **Section 5.0 Past Performance** reflects our penchant for complete client satisfaction.
- **Section 6.0 Bid Forms** includes the required RFQ forms and Purchasing Affidavit.

We look forward to the opportunity to put our expertise to work for the State of West Virginia and the WVARNG. Should you have any questions concerning our EOI, or if you would like to schedule a personal interview, please do not hesitate to contact us. We will make ourselves available at your convenience.

Respectfully,

David G. Sawitzki, PE
Geotechnical Branch Manager

Stevin A. Paznokas
Senior Program Manager

Enclosures: 2 Originals + 1 CD (single pdf) of proposal
