**RE: *Engineering Services for the WV Army National Guard Education and Division of Engineering and Facilities  
Unimproved Road Slip at Camp Dawson, Kingwood, WV –EOI # DEFK 8214***

To the Members of the Selection Committee:

Thrasher Engineering, Inc. is pleased to respond to the Request for Qualifications by the West Virginia Army National Guard for the assessment and long-term control plan for the slip at Camp Dawson. As requested, included in this response is our Statement of Qualifications including our proposed project team, along with our proposed methodology for meeting the goals of the project.

As the State of West Virginia's largest owned and operated engineering firm, Thrasher Engineering brings the resources, personnel and expertise to the project ***under single corporate management***. The only service Thrasher Engineering, Inc. will sub-contract for your project will be for geo-technical services. These will be sub-contracted to H.C. Nutting Company, a well respected and experienced firm with whom we work on many projects. However, our method of project management makes us fully responsible for all aspects of design and construction, including delivery of work from our contractors. This has proven to be beneficial in communication with our clients.

Although Thrasher Engineering, Inc. began 25 years ago doing simple water and sewer design, we have expanded in many different areas. As we are able to bring all of the services necessary to this project is of great benefit to you because of the continuity it brings to the design process. We simply function better at project delivery services than our competitors. This is exhibited every day in terms of the time necessary to complete a design, the in-house review and overlap, and one voice to the client.

It is our commitment to project integrity and client satisfaction that allows us the privilege of celebrating our 25<sup>th</sup> anniversary in 2008. Our philosophy has always been "Successful Projects Result in Repeat Clientele!" That philosophy has served our clients well. We hope to demonstrate this commitment to the West Virginia Army National Guard, as well.
