## R.D. Zande & Associates, Inc.

September 13, 2207

Mr. John Stafford, P.E., Design Administrator West Virginia Department of Environmental Protection Office of Abandoned Mine Lands 601 57<sup>th</sup> Street, SE – Box 20 Charleston, West Virginia 25304-2345

Re: Pendleton Creek Strip, P.O. No. DEP14126

Dear Mr. Stafford:

Please find enclosed a completed "AML Consultant Confidential Qualification Ouestionnaire" for R. D. Zande and Associates, Inc. (RDZ) to perform engineering services for Pendleton Creek Strip, P.O. Number DEP 14126. RDZ is a 308-member engineering firm with offices in five states, including two offices in West Virginia at Charleston and Buckhannon. RDZ recently hired Mr. Will Thornton, P.E., who will be working from our Charleston Office. Mr. Thornton has AML experience through his employment at DLZ and Woolpert. RDZ has Project specific experience successfully completing Projects for the West Virginia Department of Environmental Protection, Office of Abandoned Mine Lands (WVAML) Program; for the West Virginia Department of Environmental Protection, Office of Special Reclamation; for the Ohio Department of Natural Resources (ODNR) AML Program; and for the West Virginia Conservation Agency. In addition, RDZ has employee project-specific experience completing additional Projects for the WVAML Program. Our AML Project experience includes concrete and steel structural designs; surveying and mapping; subsurface investigations; groundwater and surface water testing and analyses; wet mine seals and modified wet mine seals with bat gates design; mass balanced earthwork quantities; structure demolition and removal plans; site drainage design including hydrologic and hydraulic studies for bridges, natural stream design; channels, ditches, pipes and box culverts; civil site design; sediment control; and revegetation plans as well as construction plans and specifications. 15 of these 34 Projects involved passive acid mine drainage designs ranging from simple limestone beds to complex interactive systems that boost AMD pH to precipitate metals, settle and filter dissolved metals, and polish effluent water with alkalinity

to release of near neutral waters from the Project area. In addition, RDZ designed the first active alkaline treatment system for the State of West Virginia (Special Reclamation), which is nearing construction completion and start-up operations.

Project-Specific AML reclamation and related experience competed for the WVDEP includes:

1.	WVDEP: Weaver Portals and Mine Drainage, Phase I and Phase II;		
\$2,200,000	162,821 C.Y. Earthwork	14 Wet Mine Seals	Construction Plans and
Eng. Estimate	6,543 L.Ft. "V" Ditches	1,170 L.Ft. Subs. Drain	Specifications Project Mapping,
	1,947 L.Ft. Flt Btm Ditches	Debris Removal	Subsurface Investigation,
	321 L.Ft. Culverts	De-watering Plan	Hydrologic Investigation
		Six Limestone Beds w/Aluminators and	
		Flush Ponds	
		1 12511 1 01145	
2. WVDEP: Nixon Run AMD;			
\$250,000	1,800 C.Y. Earthwork	1 Wet Mine Seal with	Construction Plans and
Bid Estiamte	240 "V" Ditches	Bat Gate	Specifications Project Mapping,
	601 L.Ft. Grouted "V" Ditches	Debris Removal De-watering Plan	Subsurface Investigation, Hydrologic Investigation
	387 L.Ft. Culverts 75 L.Ft. Subsurface Drain	De-watering rian	Hydrologic investigation
	75 E.I t. Subsurface Drain		
3.	3. WVDEP: Old Bridgeport Hill, Phase II;		
\$312,000	8,800 C.Y. Earthwork	4 Wet Mine Seals	Construction Plans and
Eng. Estimate	1,109 L.Ft. Pipes	Debris Removal	Specifications Project Mapping,
	1,597 L.Ft. Ditches	De-watering Plan	Subsurface Investigation,
	80 L.Ft. Subsurface Drain	Asphalt and Concrete	Hydrologic Investigation
		Paving repair plans	
4.	4. WVDOH: U.S. Route 35 Little Five Mile Creek to County Route 17/1;		
\$27,300,000	1,780,000 C.Y. Earthwork	Demolition of 21	Construction Plans and
Eng. Estimate	4 Bridges	buildings	Specifications, Project Mapping,
	29-foot box culvert 10' x 6'	550 L.Ft. Natural	Subsurface Investigation,
	23,500 L.Ft. Ditches	Stream Design	Hydrologic Investigation
	6,510 L.Ft. Culverts		

RDZ provides Quality Control/Quality Assurance and Construction Inspection to governmental and private agencies on a regular basis. Some Project-Specific QA/QC experience includes:

1. WVDEP SPEC REC: Glady Fork Mining D-35-82 Bond Forfeiture \$3.0M Active Alkaline Treatment Plant;

Construction Inspection: Active Alkaline Treatment Concrete Aeration Basin \$3,100,000 Concrete testing and reporting, Concrete Flocculator Plant - Single Train to Treat Bid Compaction testing and reporting, 1.000 GPM Concrete Settling Basin Estimate Construction Plans and Concrete Sludge Thickener **Full Time Construction** Specifications Project Concrete Geo-Tube Slab Observation and Reporting Bridge over Stonecoal Mapping Hydrologic Investigation Creek

2. WVCA: Fisher-Mill Creek Bank Stabilization;

\$284,000 148 L.Ft. Drilled Pile and Eng. Est. Lag Wall,

Ground Water and Surface Water Diversions

Construction Inspection:
Concrete testing and reporting,
Compaction testing and reporting,
Full Time Construction Observation
and Reporting

Construction Plans and Specifications, Project Mapping, Hydrologic Investigation

The above Projects demonstrate some of our Project-Specific experience and details a "one-stop shopping" solution for the Pendleton Creek Strip AML Project. Projects detailed in our attached AMLCCQQ provide more details on the above Projects as well as other Projects completed by RDZ and our employees for the West Virginia Department of Environmental Protection AML and Special Reclamation Programs; the Ohio Department of Natural Resources AML Program; the West Virginia Conservation Agency; and others. RDZ also has employee experience with numerous Small Operators Assistance Program Applications for surface and deep mine applications in West Virginia and Maryland, as well as over 438 hydrologic investigations for Special Reclamation on bond forfeited sites, all involving hydrologic and geologic investigations and Probable Consequences of Mining in different geologic and hydrologic settings across the State.

RDZ has read and understands the Appalachian Regional Reforestation Initiative (ARRI). The five (5) step process endorsed by ARRI will be applied in the Excavation and Revegetation portions of the specifications for this project.

RDZ can allot three (3) design teams to this project. Design Team leaders are: Gregory Linder, P.E., Will Thornton, P.E., and Randy Calkins, P.S. each design team will have necessary support personnel including CADD Operators, Staff Engineers, Survey Crews, and other support personnel to ensure the project is completed within WVDEP timeframes. In addition, Randy Calkins will serve as AML Corporate Manager.

We are very excited about the opportunity to continue our working relationship with the West Virginia Department of Environmental Protection and look forward to providing engineering services on this most important Project. We believe no other company can meet our quality of work, which, when coupled with our experience, allows us to be more efficient and therefore very cost competitive. Our Buckhannon Office will respond quickly, effectively, and in the most economical way. If chosen, our primary objective will be to address WVAML needs with numerous professionals in varying fields of expertise available on an "as needed" basis from our Columbus and Charleston Offices.

Should any questions arise, or if we can supply additional information or be of further service to you, the Purchasing Division, or the West Virginia Department of Environmental Protection, please contact me anytime at (304) 472-7140.

Respectfully Submitted,

R. D. ZANDE AND ASSOCIATES, INC.

Dennis E. Miller, Senior Associate / Office Manager
