RE: DEP14178 – Chapmanville Portals/ Lake Landslide/ Stone Branch Landslide # 1/  
Mud Fork Drainage # 1

Dear Mr. Bowman,

**HMB Professional Engineers, Inc. (HMB)** is pleased to submit our Expression of Interest for the Chapmanville Portals/ Lake Landslide/ Stone Branch Landslide # 1/ Mud Fork Drainage # 1 project. As our submittal clearly demonstrates, HMB draws upon an extensive list of AML project experience, most of which has been done for the West Virginia Office of Abandoned Mine Lands. Many of our past designs involved wet sealing portals, stabilizing landslides, stabilizing and revegetating refuse piles, and designing drainage control channels. In addition to that, we have experienced environmentalists and biologists on staff that can offer insight into the design of the bat gates. Not only is our list of past AML projects extensive, but also relevant, due to the similarities with the above-referenced project.

We have the capacity in our South Charleston, WV office to provide the services for this project. In addition, the WV office has the full support of our main office in Frankfort, KY, which has surveyors, geologists, biologists, environmentalists and over 20 civil engineers on staff. We hope that you consider using HMB's professional engineering services for this project.

Sincerely,  
**HMB PROFESSIONAL ENGINEERS, INC.**

Greg Boleyn, PE  
West Virginia Office Manager
