**Attention: Mr. Nick Estes, P.E., Design Administrator**

Dear Mr. Estes:

**Reference: Chapmanville (Henry) Portals, Lake (Winkler) Landslide, Stone Branch (Adkins) Landslide One, Mud Fork (Braisden) Drainage One**

On January 2, 2008 R.D. Zande and Associates, Inc. joined Stantec Consulting Services, Inc. The integration of these two engineering organizations provides an enormous, broad-based pool of over 8,200 employees with specialized expertise in all forms of engineering and construction tasks to better serve our local customer's needs. Stantec now has two office locations in West Virginia at Charleston and Buckhannon. Office work will be completed at our Buckhannon office with the field work directed from our Charleston office, which is located in close proximity to the project area and is readily available to provide engineering services on the Chapmanville (Henry) Portals, Lake (Winkler) Landslide, Stone Branch (Adkins) Landslide One, Mud Fork (Braisden) Drainage One AML Project. Please review the enclosed completed "AML Consultant Confidential Qualification Questionnaire", "AML and Related Project Experience Matrix", and Purchasing Affidavit for Stantec to perform engineering services for Chapmanville (Henry) Portals, Lake (Winkler) Landslide, Stone Branch (Adkins) Landslide One, Mud Fork (Braisden) Drainage One AML Project, P.O. Number DEP 14178. This proposed team of field work directed from our Charleston office supplemented by office work from our Buckhannon office recently completed the Price Hill Complex AML project located in the Oak Hill DEP District.

Stantec (formerly R.D. Zande and Associates, Inc.) has Project specific experience successfully completing Projects for the West Virginia Department of Environmental Protection, Office of Abandoned Mine Lands (WVAML) Program; for the West Virginia Department of Environmental Protection, Office of Special Reclamation; for the Ohio Department of Natural Resources (ODNR) AML Program; and for the West Virginia Conservation Agency. In addition, Stantec has employee project-specific experience completing additional Projects for the WVAML Program. Our AML Project experience includes surveying and mapping; subsurface and geotechnical investigations; groundwater and surface water testing and analyses; wet mine seals and modified wet mine seals with bat gates design; mass balanced earthwork quantities; structure demolition and removal plans; site drainage design including hydrologic and hydraulic studies for bridges, natural stream design; channels, ditches, pipes and box culverts; civil site design with existing and proposed slope stability
