Addendum No.1

Q16. Are we going to sheet flow what's in front of the 2,000 linear feet highwall if we don't disturb it?

A16. You can't dig a hole in front to generate material and leave a low area, however if you fill down to the existing area in front of the highwall you don't have to do anymore work if you don't disturb it. You can't leave a hole between the highwall and the out slope.

Q17. Can we lock the gates if we are the successful bidder?

A17. We don't have a problem with that, but it needs to be coordinated with the property owner and it will be the successful bidder's responsibility to do that.
