RE: DEP14232 – Anglins Run and Roaring Creek Stream Restoration

Dear Mr. Bowman,

HMB Professional Engineers, Inc. (HMB) is pleased to submit our Expression of Interest for the Anglins Run and Roaring Creek Stream Restoration project. As our submittal clearly demonstrates, HMB draws upon an extensive list of AML project experience, most of which has been done for the West Virginia Office of Abandoned Mine Lands. Many of our past designs involved wet sealing portals and designing drainage control channels. Not only is our list of past AML projects extensive, but also relevant, due to the similarities with the above-referenced project.

We have the capacity in our South Charleston, WV office to provide the services for this project. In addition, the WV office has the full support of our main office in Frankfort, KY, which has surveyors, geologists, biologists, environmentalists and over 20 civil engineers on staff. We hope that you consider using HMB's professional engineering services for this project.

Sincerely,
HMB PROFESSIONAL ENGINEERS, INC.
