**FOR IMMEDIATE RELEASE**

DATE: 16 November, 2007

TO: All Head Lites Corp customers, suppliers and partners  
FR: Gary Lesley; President and founder  
RE: Advanced Tactical Fabrication, Inc

In collaboration with **Ballistic Recovery Systems, Inc** (BRS) of St. Paul, MN, I am very pleased to announce the creation of **Advanced Tactical Fabrication** (ATF) with its headquarters in St. Paul and production facilities in Pinebluff, NC and Tijuana, Mexico.

ATF will now be your source for **Head Lites**™ brand high visibility components and trims, **Vis-Mat**™ brand high visibility vest apparel, headwear and accessories, **Vis-Tac**™ brand load-bearing tactical vest platforms and attachables and **ELMO**™ brand emergency lighting systems.

ATF will also bring to the personal safety markets it's capabilities for custom product design and development along with full-package supply chain management for U.S. or O.U.S. sourced cut-and-sew fabrication.

**Head Lites Corporation**; now doing business as **HLC**, will be focusing it's 27 years of passion, experience and vision on assisting others in the design and development of next-generation PPE with *Tactical Environmental Apparel*™ solutions. We will be working intimately with ATF and supporting it's mission to carry on and expand the industry's leading-edge high visibility products; continuing to make the world a '*safer, brighter place*'.

**HLC** will also continue with it's commitment to developing superior body armor vest carriers and quick-release systems for our military and law enforcement professionals. Working closely with **First Choice Armor**, our ballistics protection partner, the legacy of remaining true to the statement: "*It's about the people...*" is not only assured but strengthened.

With the new **HLC/ATF** team, I am very excited and equally confident that for all those we have worked with and worked for, the next 27 years will be even be greater and more rewarding. For the immediate future, phone, fax and mailing address for ATF will be the same as HLC. More announcements will be forthcoming.

Thanks again. Stay safe. Be bright.  
Gary Lesley

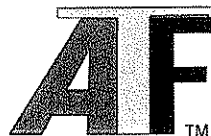

# Advanced Tactical Fabrication™ Inc

\*Saint Paul, MN   \*Pinebluff, NC   \*Tijuana, Mexico

Introducing ATF... The new home for industry-leading Head Lites™ brand reflective components and trims, Vis-Mat™ vests, apparel and headwear, Vis-Tac™ load-bearing vest platforms, carriers and accessories and ELMO™ emergency lighting systems.

Working closely with HLC, the ATF team will also *design, develop and produce* your custom, mission-critical, tactical-practical product solutions including covers and cases, bags, high visibility and load-bearing vest/gear systems, and more with fabrication capabilities that include cut/sew, printing, die-cutting, compression packing, heat applications, lamination and more...

Experienced in ANSI standards, high-performance, mil-spec fabrics, closure and attachment systems, quick-release capabilities, FR, static dissipating, enhanced visibility or low-profile/covert schemes, ATF integrates a wide-ranging base of experience and a choice of Made in USA or D.U.S. full-package supply chain options.

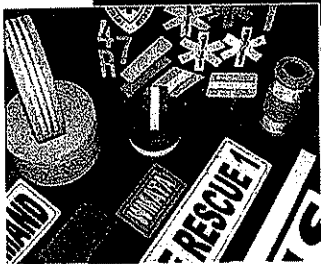

FABRICATING SAFETY FOR YOU.
