BPH90123 Addendum 2

To respond to vendor questions as follows:

1. **Question:** Is this an Andrew only bid or will equivalents be accepted. We only provide Andrew but I need to know please.
Response: We prefer Andrew, but if equivalent is used it must match the Andrew part number spec exactly to assure integration into the existing system. No deviation will be acceptable in this case due to the very tight engineering specs on this part of the project.
2. **Question:** Line items 4, 5, 22-23 and 30-31 have changed product numbers as the old numbers are obsolete. I am going to bid with the new part # pricing. I just wanted to make you aware.
Response: Line items 4, 5, 22-23 and 30-31. The newer part numbers may be used as long as the spec is the same.
3. **Question:** Line 37 is obsolete with no Andrew replacement according to the factory.
Response: Line 37 can be deleted from this bid.
4. **Question:** Is freight to be included or added? What is the expected FOB? and Does this bid need to be broken out by individual site?
Response: The last question concerning freight and the break out by individual site is already clearly answered in the specifications section of the bid under #1 (one) and #2(two). It clearly states the quoted prices must include freight, NO separate additional charges for freight can be quoted. Namely, the prices they quote must include the freight as part of the cost. The likely destination will be Shinnston or Charleston. Also as clearly stated in #2 of the specifications sheet, each path shall be packaged and labeled prior to shipping. Each path quote sheet must be completed and then the summary sheet completed to show the overall total cost.
