BPH90123 Addendum 2

To respond to vendor questions as follows:

1. Question: Is this an Andrew only bid or will equivalents be accepted. We only provide Andrew but I need to know please.
Response: We prefer Andrew, but if equivalent is used it must match the Andrew part number spec exactly to assure integration into the existing system. No deviation will be acceptable in this case due to the very tight engineering specs on this part of the project.
2. Question: Line items 4, 5, 22-23 and 30-31 have changed product numbers as the old numbers are obsolete. I am going to bid with the new part # pricing. I just wanted to make you aware.
Response: Line items 4, 5, 22-23 and 30-31. The newer part numbers may be used as long as the spec is the same.
3. Question: Line 37 is obsolete with no Andrew replacement according to the factory.
Response: Line 37 can be deleted from this bid.
4. Question: Is freight to be included or added? What is the expected FOB? and Does this bid need to be broken out by individual site?
Response: The last question concerning freight and the break out by individual site is already clearly answered in the specifications section of the bid under #1 (one) and #2(two). It clearly states the quoted prices must include freight, NO separate additional charges for freight can be quoted. Namely, the prices they quote must include the freight as part of the cost. The likely destination will be Shinnston or Charleston. Also as clearly stated in #2 of the specifications sheet, each path shall be packaged and labeled prior to shipping. Each path quote sheet must be completed and then the summary sheet completed to show the overall total cost.

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT****VENDOR OWING A DEBT TO THE STATE:**

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

If this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code*. The vendor **must** make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code* and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the *West Virginia Code* may take place before their work on the public improvement is begun.

ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

INSTALLATION INSTRUCTION BULLETIN

Description:

The LM400 series line monitors are gas distribution systems that provide unlimited pressure outlets from a single pressure inlet. Manifolds allow you to pressurize multiple transmission lines using one dehydrator. Each manifold panel is equipped with a flow meter and pressure gauge at each outlet for individual line pressure and flow readings.

Type LM400-H has 0 to 103 kPa (0 to 15 psig) pressure gauges;

Type LM400-M has 0 to 35 kPa (0 to 5 psig) pressure gauges.

Type LM400-L has 0 to 14 kPa (0 to 2 psig) pressure gauges.

Join Distribution Panels:

Individual manifold panels are supplied fully assembled, tested and ready for connection to the transmission line.

Multiple panels can be connected in series to provide additional monitoring as necessary.

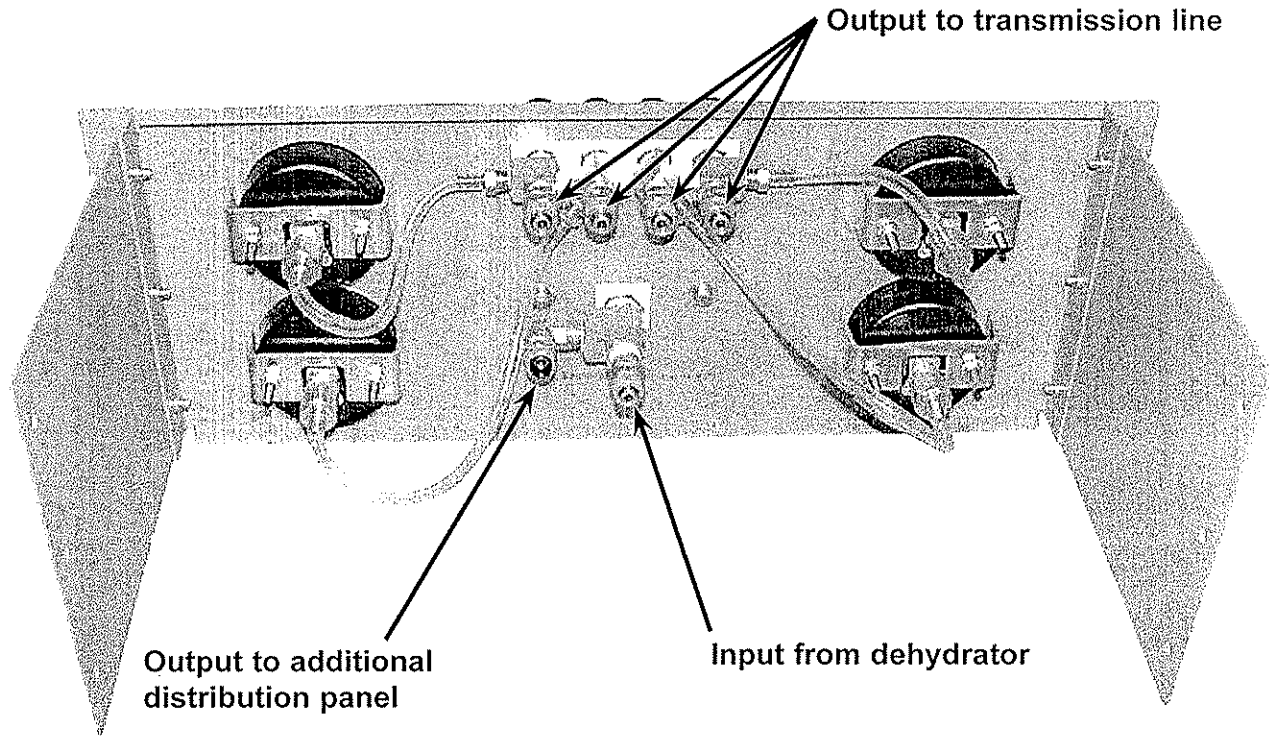

Mounting:

The LM400 is designed to mount in a 19" equipment rack (use 4 rack units) or to set on a shelf. By reversing the mounting ears, the LM400 can easily be mounted to a wall or backer board.

Purge System

Before putting your transmission line system into service, purge each line to remove the moist air that was trapped inside during installation. Leave a flange(s) open at the antenna end and operate the dehydrator until the volume has been changed at least three times. Secure the flange(s).

If the above method is not possible, create a leak at the tubing fitting prior to the manifold by loosening the compression nut and pulling back on the tubing. Adjust the leak so that the dehydrator pressurizes the system approximately every 60 minutes. Allow the dehydrator to run overnight and retighten fitting.
