Re: Burnwell (Standard/Paint Ck/Collinsdale) Waterline Design
DEP14383
Expression of Interest

Dear Mr. Coberly:

E. L. Robinson Engineering Co. (ELR) is pleased to submit this proposal in response to your request to perform professional engineering design services, mapping and construction monitoring services associated with the design of the Burnwell (Standard/Paint Creek/Collinsdale) Waterline Design project located in Kanawha and Fayette Counties.

We have completed plans and specifications for numerous waterline projects for WVDEP/AML and public utilities throughout West Virginia over the past ten years. We have descriptions of these projects in the attached proposal. Please note that the majority of staff that worked on these projects are still with ELR.

I, Gary Facemyer, P.E., will be the Project Manager for this contract. As you know, I have considerable AML design and construction experience gained in the last 19 years while employed by a construction company and then a design firm, both working in West Virginia's AML Program. I also have extensive experience in waterline design and construction monitoring. It is important to note the following information about ELR's qualifications to perform the work.

- A. ELR has ten (10) registered professional (civil or mining) engineers in the Primary Office.
- B. ELR has recent experience in designing eight (8) AML waterline projects and twenty five (25) non-AML related waterline projects. Ray Tilley and I have been responsible for hundreds of additional waterline projects while employed by others.

Burnwell (Standard/Paint Ck/Collinsdale) Waterline Design
Expression of Interest
October 8, 2008
Page 2

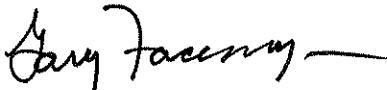

C. ELR also has six (6) waterline engineering design teams lead by Gary Facemyer, P.E./Todd Garnes.; Ray Tilley, P.E./Craig Cobb; Tim Carte, P.E./Jason Mayes; Mark McGettigan, P.E./Joey Jude; Joe Carney, P.E./Ivan Gillispie; and Brian Morton, P.E./Shawn Kelly. All of these engineers have served as project manager/project engineer for waterline projects. A substantial number of field experienced support staff are available as needed.

E. L. Robinson Engineering Co. has grown from 13 employees in 1996 to over 70 employees today. Recent areas of growth of our company which we believe will enable ELR to supply the West Virginia AML with enhanced services are expansion of our inspection capabilities and acquiring the latest GPS systems to enhance our surveying capabilities. Through this growth period we have continued to meet project deadlines while providing a high quality engineering product.

Our office location in Charleston, WV is centrally and conveniently located in respect to the referenced project.

E. L. Robinson Engineering Co. looks forward to serving your agency under this contract and if you have any questions or need clarification, please feel free to contact me at (304) 776-7473.

Sincerely,
E. L. Robinson Engineering Co.
By:

Gary Facemyer, P.E.
Project Manager

EXECUTIVE SUMMARY

For more than ten years, E.L. Robinson Engineering Company has been a prime and preferred engineering and surveying consultant to the WV Division of Environmental Protection, Office of Abandoned Mine Lands and Reclamation (WVDEP/AML) program. We have provided this Executive Summary to directly respond to the Expression of Interest and provide ease for the evaluators to score this proposal.

Understanding of Project Requirements

E.L. Robinson Engineering Co. fully understands the requirements for this project and is committed to giving the WVDEP/Office of Abandoned Mine Lands and Reclamation the time and attention that is necessary for the Reclamation project. Professional services may include: civil; structural; geological; surveying and mapping; preparation of all necessary permit applications; construction monitoring and other services that may be required.

Firm's Capacity

E.L. Robinson Engineering Co. approaches all engineering projects with the same attention to detail and fiscal responsibility to insure the client receives the most cost effective plan, design and operationally functional project possible. Our approach truly makes the WVDEP/AML engineering staff an integral part in the design of the project. We want to make sure that the review staff is comfortable with the design concept before the project is submitted for review. During this process, we evaluate all technical alternatives to determine the most cost effective plan and technically acceptable project for the WVDEP/AML staff.

E.L. Robinson Engineering Co. has over 50 professionals on staff and individuals experienced in mine reclamation. This capacity allows for the development of innovative and alternative methods to address complex issues involved in reclamation projects of this nature. Our QA/QC process also allows for a different perspective to be brought to the project before submission to the client and for review. E.L. Robinson Engineering Co. has the capacity to take this project from conception to completion with a wide variety of experienced professionals with in-house staff for planning, design, permitting, bidding, and construction monitoring.

E.L. Robinson Engineering Co. will work diligently to deliver the highest quality, cost effective solution that the WVDEP/AML deserves. We have extensive knowledge in mine reclamation and are currently working with WVDEP/AML and Ohio DNR on similar projects. We have an excellent understanding of the requirements for this type of project and a good working relationship with NEPA, permitting and regulatory issues.

PROJECT APPROACH

E.L. Robinson is familiar with the project area and the type of project you are seeking engineering services for. We believe that we have a thorough understanding of the work to be provided to the WVDEP/AML for the subject reclamation project.

We are anxious to become an extension of your staff by providing prompt planning, design and construction monitoring services as needed. We interact with the various review and permitting agencies. As you will see from our resumes, we are uniquely diversified to provide quality-engineering services to your agency.

E.L. Robinson will work closely with the WVDEP/AML and all regulatory and permitting agencies to complete this project. We feel that our extensive knowledge and experience in the planning and design of similar projects are significant assets in developing a cost-effective solution to your reclamation project.

The scope of services will include but are not limited to:

- Conceptual engineering and identification of permitting requirements
- Surveying and contour mapping
- Geotechnical services
- Design
- Preparation of plans and specifications
- Participation in the pre-bid meeting
- Participation in the pre-construction meeting
- Preparation of all necessary permit applications
- Construction monitoring
- Other services that may be required by the WVDEP/AML

OUR PROJECT TEAM

Our firm has put together a project team that is experienced in the design and construction of mine reclamation projects and has the capacity to perform the project's scope in a timely and efficient manner.

Mr. Gary Facemyer, P.E. will be assigned as the Project Manager.

Mr. John Kelly, III, E.I. will be assigned the CADD designer and principal production person for the project. He has performed this role for numerous mine reclamation projects.

Mr. Timothy Cart, P.E., Mr. Randall Lackey, P.E. and Mr. Mark McGettigan, P.E. will be assigned as the Project Engineers.

Mr. James Rayburn, P.S. will be assigned to oversee all surveying and mapping activities.

Our staff is well qualified and experienced in related reclamation projects. They have the knowledge and capabilities to perform all of the tasks required for your project.

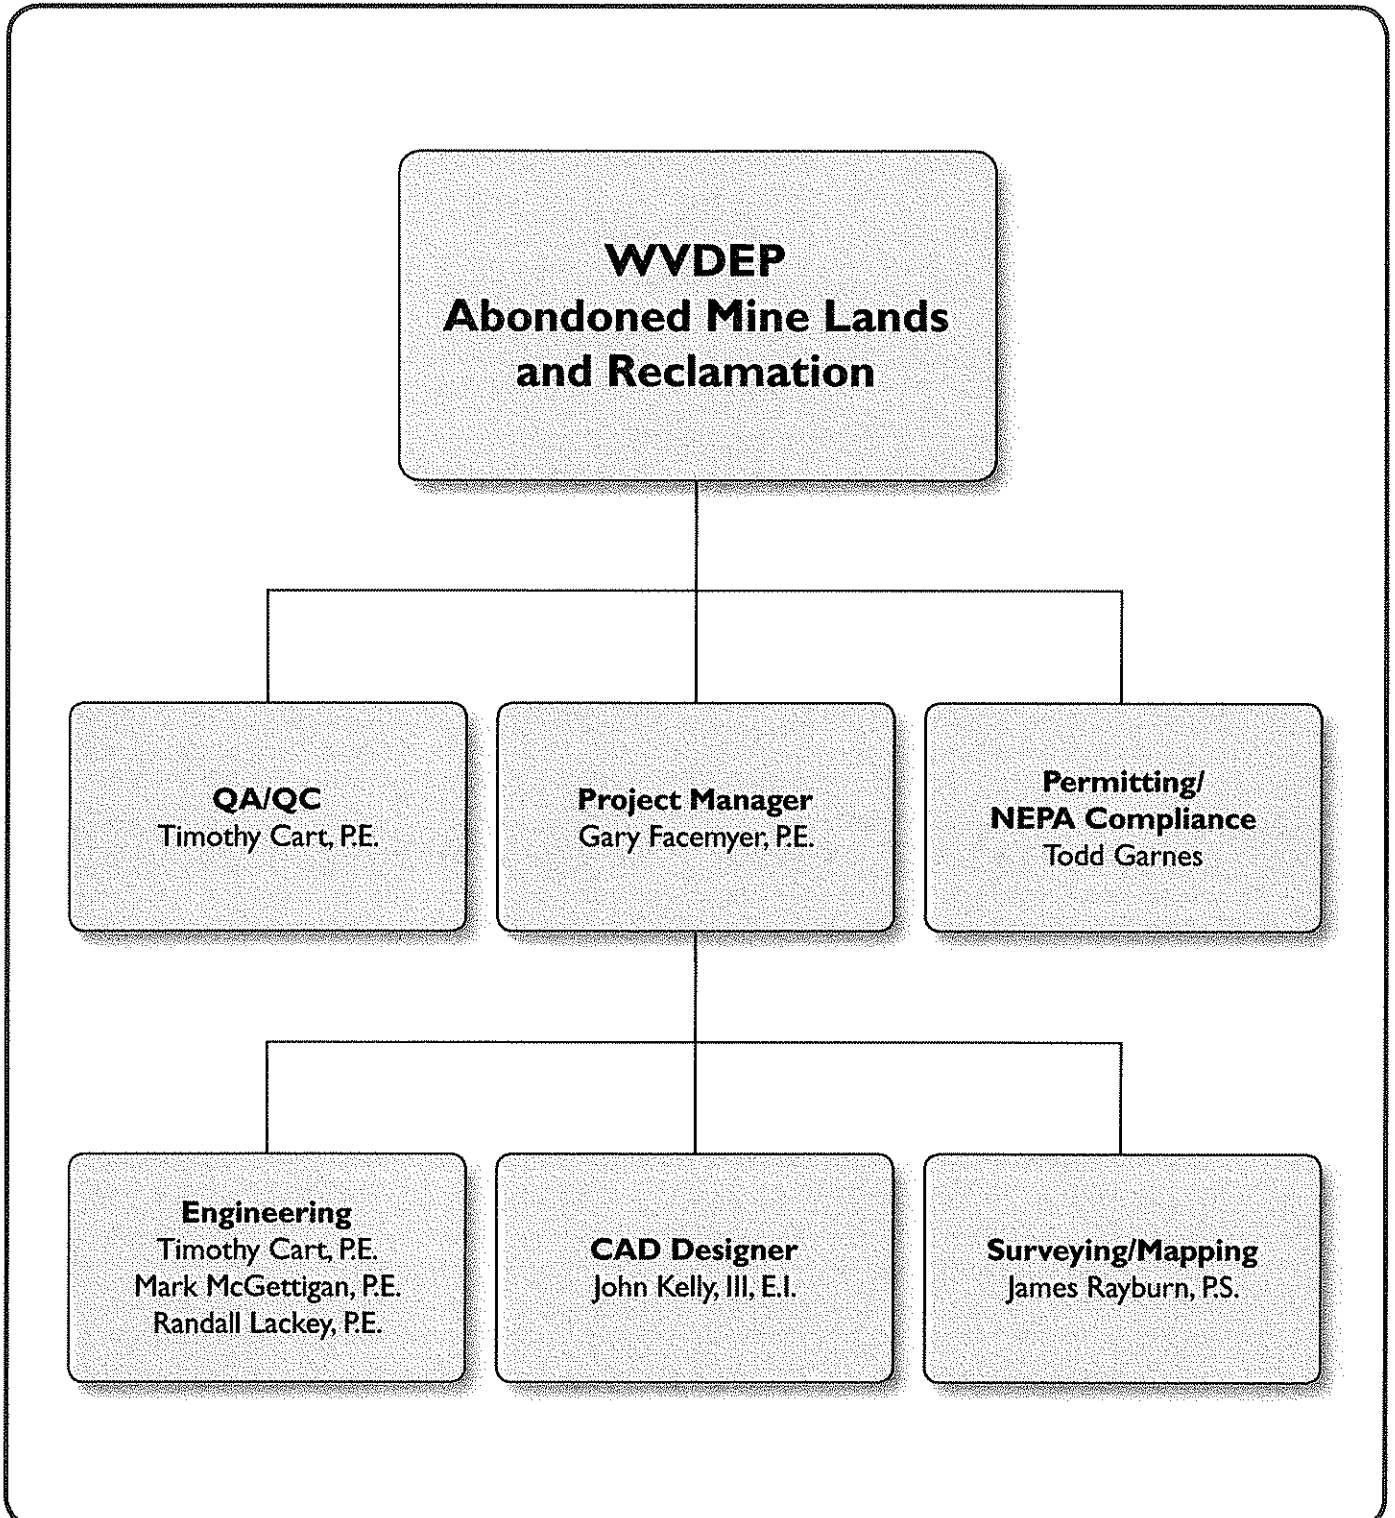

In addition to your primary project team, other members of our organization may be called upon from time-to-time to provide their expertise and assistance to ensure this important project is completed on-time and on-budget.

Our team of construction inspectors lead by Ronnie Williams, offers years of experience with construction monitoring.

Also, our team of surveyors managed by James Rayburn, P.S., provides the WVDEP/AML with the latest in technology and experience in surveying and mapping. By using GIS based mapping and high-tech instrumentation, E.L. Robinson's survey team can evaluate any type of surface. Other services pertaining to surveying that our company specializes in are aerial photogrammetric consulting, hydrographic surveying, land surveying and GPS surveying.

OUR PROJECT TEAM

OUR CAPABILITIES

Over the past 30 years, E.L. Robinson Engineering Co. has focused its efforts on delivering quality projects to our clients and building strong relationships based on trust and partnership. We believe building lasting relationships with our clients is a key to delivering exceptional service for many years to come.

E.L. Robinson provides WVDEP/AML the capabilities, expertise, and resources of one of the top-notch civil engineering firms in the region. Our offices are staffed with professionals experienced in AML reclamation mapping, permitting, design and construction monitoring projects with over 50 employees, including 10 registered professional engineers; degreed design engineers; construction inspectors and a support team of administrative and technical personnel to assist the WVDEP/AML.

We are very familiar with the requirements of the permitting and regulatory agencies. This experience expedites the completion of projects.

As part of our commitment to quality, E.L. Robinson realizes that every project, client, and location is very different. As a result we look at each project independently to determine the most cost effective solution. Specifically, we look at ways we can maximize the project benefit and minimize the construction cost, at the same time completing projects on-time and within budget.

PREVIOUS EXPERIENCE

E.L. Robinson is well qualified and experienced in mine reclamation projects. We are very familiar with the requirements of the project. We have demonstrated abilities in developing practical and cost effective reclamation and improvement projects and are dedicated to meeting project schedules and budgets.

Such demonstrations can be seen in our recent and past work on reclamation projects including:

- **Jacob's Fork Complex – recent P.O. September 2008**
- **Rhodell Refuse and Portals – final review comments, September 2008**
- **Gilmer B Sites 3-8 – final review comments, September 2008**
- **Ohio DNR Emergency Reclamation – 19 sites completed**
- **Toney Fork Landslide Emergency – complete February 2006**
- **North Matewan – complete February 2005**
- **Big Creek "C" Refuse – complete July 2004**
- **Charleston Romeo Landslide – complete May 2004**
- **Gooney Otter Refuse – complete January 2004**
- **Chapmanville (Gorby) Mine Blowout – December 2003**
- **Tuppers Creek (Layne) Landslide – July 2003**
- **Rich Fork (Thaxton) Landslide – July 2003**
- **Maidsville (Tennant) Landslide – February 2003**

Scott LeRose, P.E.	YEARS OF AML DESIGN EXPERIENCE: 1	YEARS OF AML RELATED DESIGN EXPERIENCE: 1	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE: 1

Brief Explanation of Responsibilities

Mr. LeRose is experienced in developing major highway and right of way plans; Bridge Construction Inspections; Core Drilling Operations; Groundwater Sampling/Monitoring; USF Removal/Replacement and Mine Permitting/Reclamation.

Specific major highway design and right of way plan development projects include: Meadowbrook Road, a 2 mile design of new four lane highway; US 52(I-73), a 3.5 mile design and ROW plans for a new four lane highway with two major interchanges; design of 2 mile section of Appalachian Corridor H from Davis to Bismark; design of 5.2 mile section of Corridor H from Grant/Hardy County line to Moorefield.

While working on these projects, he has gained experience in major drainage design, site grading design, utility relocation, MOT, signing and pavement stripping. He has performed quantity calculations for pavement, drainage, seeding, pollution control quantities, and other items associated with roadway plans. He is also experienced in the development of ROW plans, including deed plots and legal descriptions.

14. PROVIDE A LIST OF SOFTWARE AND EQUIPMENT AVAILABLE IN THE PRIMARY OFFICE WHICH WILL BE USED TO COMPLETE AML DESIGN SERVICES

Various computer hardware and software including: Microstation, InRoads, AutoCAD, ELRSoil, Microsoft Office applications, Haested, Water CADD, Culvert Master, Flow Master

Various surveying equipment:

Instruments - Topcon Total Station (6), Trimble Robotic DR200+ (2)

GPS Equipment - Trimble 5700 Receiver (6), Trimble TSce Controller/Handheld (5)

*all equipment lists have various misc. survey equipment to go along (poles, tape measures, data collectors, etc.)

Riegl LMS - 360 3D Laser Scanner - surface imaging system based upon accurate distance measurement by means of electro-optical range measurement and a two axis scanning mechanism.

12E DOMESTIC WATERLINE DESIGN EXPERIENCE AML RELATED

Project: Lick Creek
Waterline Extension Project
Mingo County, WV

Year: 2003

Client: Mingo County Commission

Contact: Sheila Erwin 304 235-0338

Description: Prepared plans and specifications for the construction of a waterline extension to serve 249 customers along Rt. 49. The project involved approximately 60,000 linear feet of 8 inch or smaller waterline, one booster pump station and one water storage tank.

Project: Glen Rogers
Waterline Extension Project
Wyoming County, WV

Year: August 2002

Client: WVDEP-AML
116 Industrial Drive
Oak Hill, WV 25901

Contact: Dean Stiltner 465-1911

Description: Preparing plans and specifications for the construction of a waterline extension to serve the Glen Rogers area of Wyoming County. The project involved approximately two and one-half miles of waterline, pump station and water storage tank.

Project: Davis Water Tank Project
Tucker County, WV

Year: June 2002

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Gregg Smith 304 457-4583

Description: Prepared plans and specifications for the construction of a water tank to serve as a replacement to the existing tank that was damaged due to the mine subsidence. A mine grouting program was developed to stabilize the ground beneath the constructed tank

12E DOMESTIC WATERLINE DESIGN EXPERIENCE AML RELATED

Project: Coopers Rock, Pisgah and Laurel Run
Waterline Extension Project
Preston County, WV

Year: September 2001

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess 759-0521

Description: Prepared plans and specifications for the construction of a waterline extension to serve the Coopers Rock, Pisgah and Laurel Run areas of Preston County. The project involved approximately seven miles of waterline, one booster pump station and one water storage tank.

Project: Mount Zion
Waterline Extension Project
Preston County, WV

Year: August 2001

Client: WVDEP-AML
105 South Railroad St., Suite 301
Philippi, WV 26416

Contact: Greg Smith 457-3219

Description: Prepared plans and specifications for the construction of a waterline extension to serve the Mount Zion area of Preston County. The project involved approximately two and one-half miles of waterline and a pressure reducing station. Riprap ditch projection was also provided on the steeper grades.

Project: Matewan/Red Jacket/Newtown
Mingo County, WV

Year: June 1998

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess 759-0521

Description: Prepared plans and specifications for the construction of a waterline to serve the Matewan/Red Jacket/Newtown area of Mingo County. This area's groundwater had been affected by pre-law mining. The project involved approximately 13 miles of waterline, two (2) booster pump stations and two (2) water storage tanks.

12E DOMESTIC WATERLINE DESIGN EXPERIENCE AML RELATED

Project: Marrowbone Waterline Project
Mingo County, WV

Year: June 1998

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess 759-0521

Description: Prepared plans and specifications for the construction of a waterline system to serve the Marrowbone Creek area. This area's groundwater quality has been affected by pre-law mining. The project involved approximately 10.5 miles of waterline, two booster pump stations, and one storage tank.

Project: Pigeon Creek Waterline Project
Mingo County, WV

Year: June 1998

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess 759-0521

Description: Prepared plans and specifications for the construction of a waterline system to serve the Pigeon Creek area. This area's groundwater quality has been affected by pre-law mining. The project involved approximately 29 miles of waterline, three (3) storage tanks, and four (4) booster pump stations.

12E NON AML DOMESTIC WATERLINE EXPERIENCE

Project: Holden Water System Upgrade Project
Year: 2007
Client: Logan County PSD
Contact: Rick Roberts, Managing Engineer
 304-946-2641
Description: Prepared engineering design, plans, and specifications for 65,000 linear foot of 10 inch or smaller waterline to serve 690 customers in Logan County.

Project: Route 37 Waterline Extension Project
Year: 2007
Client: Lavalette PSD
Contact: Darrell Wellman, General Manager
 304-525-3711
Description: Prepared engineering design, plans, and specifications for 84,000 linear foot of 8 inch or smaller waterline to serve 258 customers in Wayne County.

Project: Route 52 North Waterline Extension Project
Year: 2004
Client: Lavalette PSD
Contact: Darrell Wellman, General Manager
 304-525-3711
Description: Prepared engineering design, plans, specifications for 72,000 linear foot of 8 inch waterline and 44,000 of 6 inch waterline along Route 52 and on Hurricane Creek and Little Hurricane Creek and necessary appurtances to serve 260 customers in Wayne County.

Project: Hukill Run & Greens Run Waterline Extension
Year: 2004
Client: Hammond PSD
Contact: Bob Hildebrand, General Manager
 304-737-4421
Description: Prepared engineering design, plans, specifications for 25,000 linear foot of waterline along Routes 30, 28 and 67 to serve 39 customers in Brooke County.

12E NON AML DOMESTIC WATERLINE EXPERIENCE

Project: Rt. 34 / Winfield Exit
Year: 2003
Client: South Putnam PSD
Contact: Fred Stottlemeyer, General Manager
 304-757-6551
Description: Prepared engineering design, plans, specs for 7,500 linear foot of waterline due to the widening of Route 34.

Project: Widening of Rt. 34
Year: 2003
Client: South Putnam PSD
Contact: Fred Stottlemeyer, General Manager
 304-757-6551
Description: Prepared engineering design, plans, specifications for over two miles of waterline due to the widening of Rt. 34 in Teays Valley.

Project: Right Fork of Wilson and Newcomb Creek
Year: 2002
Client: Wayne County Commission
 P.O. Box 248
 Wayne, WV 25570
Contact: James Booton, Commissioner
 304-272-6350
Description: Prepared engineering design, plans, specs for over 9 miles of new 6" and 2" water lines, a 78,000 gallon water tank, and a 70 gpm pump station to serve 160 customers of Wilson and Newcomb Creek.

Project: Crockett and Millers Fork Waterline Extension
Year: 2002
Client: Wayne County Commission
 P.O. Box 248
 Wayne, WV 25570
Contact: James Booton, Commissioner
 304-272-6350
Description: Prepared engineering design, plans, specs for over 13 miles of new 6" and 2" water lines, water storage tank and pump station to serve more than 150 customers

12E NON AML DOMESTIC WATERLINE EXPERIENCE

Project: Southern Wayne County Waterline Extension
Year: 2002
Client: Wayne County Commission
P.O. Box 248
Wayne, WV 25570
Contact: James Booton, Commissioner
304-272-6350
Description: Prepared engineering design, plans, specs for over 100 miles of new 6" and 2" water lines, water storage tanks and pump station to serve more than 1200 customers

Project: Laurel Creek Waterline Extension
Year: 2001
Client: Town of Wayne
P.O. Box 186
Wayne, WV 25570
Contact: James Ramey, Jr., III, Mayor
304-272-3221
Description: Prepared engineering design, plans and specs for approximately seven (7) miles of L.F. of new 6" and 2" water lines, one booster pumps station for the Town of Wayne.

Project: Route 34/Winfield Exit
Year: 2001
Client: South Putnam PSD
Contact: Fred Stottlemeyer, General Manager
304-757-6551
Description: Prepared engineering design and construction inspection for the relocation of 1,600 L.F. of 8" sanitary sewer, 7,500 L.F. of 6", 8", 10" and 12" waterline due to widening of Route 34.

Project: Cabell County Waterline Extension
Year: 1999
Client: West Virginia American Water Co.
1900 Pennsylvania Ave.
Charleston, WV 25301
Contact: Jim Nagy
(304)340-2018
Description: Prepared engineering design, plans, specs for over 45,219 L.F. of new 8", 6" and 2" water lines for Cabell County, WV.

12E NON AML DOMESTIC WATERLINE EXPERIENCE

Project: 18 Mile Creek Waterline Extension
Year: 1999
Client: West Virginia American Water Co.
 1900 Pennsylvania Ave.
 Charleston, WV 25301
Contact: Dave Carovallano
 (304)340-2018
Description: Prepared engineering design, plans, specs for over 48,750 L.F. of 8", 6" and 2" water lines in the 18 Mile Creek area of Putnam County, WV.

Project: Kanawha County Water Projects
Year: 1997
Client: Kanawha County Regional Development Authority
 409 Virginia Street, East
 Charleston, WV 25301
Contact: Dave Bostic, Planning Director
 (304) 357-0570
Description: Prepared engineering design, plans, specs for over 100,000 L.F. of new 8" and 6" water lines at thirteen locations in Kanawha County and will serve over 500 new customers. Also provided construction inspection.

Project: Edgewood Summit Water Storage Tank
Year: 1994
Client: West Virginia American Water Company
 P. O. Box 1906
 Charleston, WV 25327
Contact: Mark Sankoff, P.E.
 (304) 340-2012
Description: Preparing engineering design, plans and specs for a 194,000 gallon water tank to serve Edgewood Summit Retirement Community.

Project: Corridor "G" Waterline Extension
Year: 1993
Client: Southern Public Service Company
 1075 Main Street
 Milton, WV 25541
Contact: Tim Wilcox, President
 (304) 743-3501
Description: Design 7,800 L.F. of 6" waterline, a pump station and a water tank due to the construction of Corridor G near Holden and Logan, West Virginia. Construction inspection was also provided.

12E NON AML DOMESTIC WATERLINE EXPERIENCE

Project: Rockstep Road Upgrade
Year: 1990
Client: South Putnam PSD
Contact: Fred Stottlemeyer, General Manager
 304-757-6551
Description: Prepared engineering design, plans, specs for 15,000 L.F. of new 8" and 6" water lines and a new 200,000 gallon water storage tank. Also provided construction inspection.

Project: Coopers Creek Waterline Extension
Year: 1989
Client: Kanawha County Planning Commission
 409 Virginia Street, East, 2nd Floor
 Charleston, WV 25301
Contact: David Bostic
 (304) 357-0570
Description: Prepared engineering design, plans, specs for over 5,350 L.F. of water lines to serve 38 new customers. Also provided construction inspection.

Project: Widening of WV 34 in Teays Valley
Year: 1989
Client: South Putnam PSD
Contact: Fred Stottlemeyer, General Manager
 304-757-6551
Description: Prepared engineering design, plans, specs for over 2 miles of new 6", 8" and 12" water lines, due to the widening of WV 34 in Teays Valley.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Boone County PSD Waterline Feasibility Study
Boone County, WV

Year: 2007-2008

Client: WVDEP-AML
Oak Hill, WV

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity and quality of the water in the study area. The investigation included interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended. It was also recommended to revise the study area to exclude a post-law mining area in the southern portion of the project.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The Phase II investigation recommended that the study area be again revised. The newly revised study area had 65% of the groundwater resources impacted by pre-law mining, therefore being eligible for Abandoned Mine Lands funding.

Project: New Haven PSD Waterline Feasibility Study
Fayette County, WV

Year: 2006

Client: WVDEP-AML
601 57th Street
Charleston, WV

Contact: Dean Stiltner (304) 465-1911

Description: This waterline feasibility study was divided into four projects. These projects are described below.

Arrowwood Creek Road / Dotson Ridge Road - A Phase I investigation was performed by conducting interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that a majority of the study area had been impacted by post-law mining and therefore not eligible for Abandoned Mine Lands funding.

Beauty Mountain / Sub-Station Road - A Phase I investigation was performed by conducting interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

12E EVALUATION OF AQUIFER DEGRADATION

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that 100% of the study area had been affected by pre-law mining and therefore eligible for Abandoned Mine Lands funding.

Derryhale / Sun Mine Road - A Phase I investigation was performed by conducting interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that 89% of the study area had been affected by pre-law mining and therefore eligible for Abandoned Mine Lands funding.

Edmond Road - A Phase I investigation was performed by conducting interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that less than 50% of the study area had been affected by pre-law mining and therefore not eligible for Abandoned Mine Lands funding.

Project: New Haven Waterline Feasibility Study
Mason County, WV

Year: 2005

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity and quality of the water in the study area. The investigation included interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that less than 50% of the study area had been affected by pre-law mining and therefore not eligible for Abandoned Mine Lands funding.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Danese PSD Waterline Feasibility Study
Fayette County, WV

Year: 2005

Client: WVDEP-AML
 Oak Hill, WV

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity and quality of the water in the study area. The investigation included interviews with area residents and water testing and analysis. The investigation concluded the groundwater in the area had been affected by pre-law mining and a Phase II investigation was recommended.

The Phase II investigation was commenced and additional interviews and water testing and analysis was performed. The investigation found that 89% of the study area had been affected by pre-law mining and therefore eligible for Abandoned Mine Lands funding.

Project: Mercer County Commission Waterline Feasibility Study
Mercer County, WV

Year: 2003

Client: WVDEP-AML
 Oak Hill, WV

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

The Phase II investigation was conducted which included interviews with residents in the area and additional water testing and analysis. The Phase II investigation concluded that less than 50% of the residents' access to water had been affected by pre-law mining.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Dingess Area Waterline Feasibility Study
Mingo County, WV

Year: 2001 & 2003

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

Project: Sharon Heights and Gilbert Creek Waterline Feasibility Study
Mingo County, WV

Year: May 2002

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Amherstdale Waterline Feasibility Study
Logan County, WV

Year: April 2002

Client: WVDEP-AML
 10 McJunkin Road
 Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

In April 2003, a Phase II investigation was conducted due to condition changes allegedly brought on by pre-law mining. The Phase II investigation was conducted which included interviews with residents in the area and additional water testing and analysis. The Phase II investigation concluded that a substantial portion of the resident's access to water had been affected by pre-law mining.

Project: Ragland Area Waterline Feasibility Study
Mingo County, WV

Year: April 2002

Client: WVDEP-AML
 10 McJunkin Road
 Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Beech Creek and Ben Creek Waterline Feasibility Study
Mingo County, WV

Year: April 2002

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

Project: Lick Creek Phase I and Phase II Investigations
Mingo County, WV

Year: June 2001

Client: WVDEP-AML
116 Industrial Drive
Oak Hill, WV 25901

Contact: Dean Stiltner (304) 465-1911

Description: A Phase I investigation was conducted to assess the affects of pre-law mining on the water quality and quantity of the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. Sufficient data was gathered to recommend a Phase II investigation be conducted.

The Phase II investigation was conducted, which included interviews with residents in the study area. The Phase II investigation concluded that a substantial portion of the residents' access to water had been affected by pre-law mining.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Blair/Sharples Phase I and Phase II Investigations
Logan County, WV

Year: May 2001

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: A Phase I investigation was conducted to assess the affects of pre-law mining on the water quality and quantity of the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. Sufficient data was gathered to recommend a Phase II investigation be conducted.

The Phase II investigation was conducted which included interviews with residents in the area and additional water testing and analysis. During the interview portion of the Phase II investigation it was concluded that the population of the study area had substantially declined and would probably continue to decline in the future. The average cost per customer would have been prohibitive and it was recommended that the Phase II study be terminated with an abbreviated report issued.

Project: Camp Creek Phase I and Phase II Investigations
Wayne County, WV

Year: May 2001

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: A Phase I investigation was conducted to assess the affects of pre-law mining on the water quality and quantity of the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. Sufficient data was gathered to recommend a Phase II investigation be conducted.

The Phase II investigation was conducted which included interviews with residents in the area and additional water testing and analysis. The Phase II investigation concluded that over 50% of the water supplies of residents within the study area had been adversely affected by pre-law mining.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Jennie Creek Phase I Investigation
Mingo County, WV

Year: April 2001

Client: WVDEP-AML
 116 Industrial Drive
 Oak Hill, WV 25901

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been substantially affected by pre-law mining; therefore a Phase II investigation was not pursued.

Project: Beech Creek and Ben Areas Phase I Investigation
Mingo County, WV

Year: April 2001

Client: WVDEP-AML
 116 Industrial Drive
 Oak Hill, WV 25901

Contact: Dean Stiltner (304) 465-1911

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

Project: Coaldale and Coaldale Mountain Phase I and Phase II Investigation
Mercer County, WV

Year: May 2000

Client: WVDEP-AML
 10 McJunkin Road
 Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. Sufficient data was gathered to recommend a Phase II investigation be conducted.

The Phase II investigation was conducted which included interviews with residents in the area and additional water testing and analysis. The Phase II investigation concluded that a substantial portion of the resident's access to water had been affected by pre-law mining.

12E EVALUATION OF AQUIFER DEGRADATION

Project: Nubbin Ridge/Camp Creek/Spanishburg Phase I Investigation
Mercer County, WV

Year: March 2000

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

Contact: Danny Bess (304) 759-0521

Description: Performed a Phase I investigation of the project area to determine if pre-law mining had affected the quantity or quality of the water in the study area. The investigation included the evaluation of acid mine drainage sources and water sampling and analysis of seeps and groundwater sources. The investigation concluded that this area has not been affected by pre-law mining; therefore a Phase II investigation was not pursued.

Project: Browning Lambert Mountain Phase I Investigation
Mercer County, WV

Year: March 2000

Client: WVDEP-AML
10 McJunkin Road
Nitro, WV 25143

EDWARD L. ROBINSON, P.E., P.S.

PRESIDENT

Education

M.S. Civil Engineering, University of West Virginia (COGS), 1981
B.S. Civil Engineering, West Virginia Institute of Technology, 1969

Registrations

Registered Professional Engineer in West Virginia, Kentucky, Ohio, Pennsylvania, North Carolina, South Carolina, Virginia, Georgia, Maryland and Colorado
Registered Professional Surveyor in West Virginia

Professional Experience

Mr. Robinson founded E. L. Robinson Engineering Co. in 1978 with four employees. Initially the firm provided land surveying and land development services. Over the course of the next 20 years, the firm added water and wastewater engineering as well as structural inspection services simultaneously growing to 14 employees.

Under his leadership, E. L. Robinson enters the new millennium as a multi-disciplined professional services firm that utilizes the latest technology in the design of highways, bridges, structures, environmental, civil, and geotechnical projects as well as global position satellite surveying, right-of-way, construction inspection and architectural services.

The firm now employs more than 85 engineers, architects, surveyors and support personnel and has been converted to an employee owned company through an Employee Stock Ownership Plan (ESOP).

Professional Memberships

National Society of Professional Engineers
American Society of Civil Engineers
Water Environmental Federation

Offices Held

Chairman of WVUIT Advisory Board
President of West Virginia Council of Engineering Companies
Chairman Transportation Committee – WV Association of Consulting Engineers
State Director of West Virginia Society of Professional Engineers
President of West Virginia Society of Professional Engineers
Assistant Treasurer of the American Society of Civil Engineers
National Director of the ASCE representing WV, NC, SC and VA
President of West Virginia Section of ASCE

Honors Awarded

Alumnus of the Year – West Virginia University Institute of Technology, 1992
Engineer of the Year – West Virginia Society of Professional Engineers, 1997
Engineer of the Year – American Society of Civil Engineers, 1998
National Entrepreneur of the Year Finalist – Ernst & Young, 2001
Engineering Entrepreneur of the Year – Ernst & Young, 2001
Honorary PhD, Doctor of Science – West Virginia Institute of Technology 2002

GARY FACEMYER, P.E., P.S.

PROJECT MANAGER

Education

B.S. Civil Engineering, West Virginia Institute of Technology, 1975

Professional Registrations

Registered Professional Engineer in West Virginia, Ohio, Pennsylvania, Maryland, Virginia and Kentucky.
Registered Professional Surveyor in West Virginia

Professional Memberships

American Society of Civil Engineers
American Water Works Association
WV Rural Water Association
American Council of Engineering Companies/West Virginia
WV Society of Professional Surveyors

Professional Experience

Mr. Facemyer has been in responsible charge of planning, permitting, design and construction of public works projects for more than 30 years.

Mr. Facemyer has been Project Manager/Project Engineer on various numerous abandoned mine reclamation project while employed by others and has extensive experience in water line extension and distribution systems; site development, solid waste landfills, earthen dams, geotechnical investigations, hazardous waste sites and many other miscellaneous civil engineering projects.

Duties included project planning and design, managing construction bid and award, construction oversight and inspection, and project closeout.

Representative Projects

- Abandoned Mine Land Reclamation
 - » Land Reclamation Grading and Drainage
 - » Subsurface Investigation,
 - » Aquifer Degradation Evaluation,
 - » Waterline Design
 - » Acid Mine Drainage
- Geotechnical Investigations
- Wetland Design
- Water Distribution, Pumping and Storage
- Surveying and Mapping
- Construction Management
- Earthen Dams
- Wastewater Collection and Treatment
- Sanitary and Industrial Landfill
- Commercial Site Development
- Hazardous Waste Site Development
- Hazardous Waste Tank Certification
- Residential Development
- Wireless Communications

TIMOTHY B. CART, P.E., P.S.

PROJECT ENGINEER

Education

B.S. Civil Engineering, West Virginia University, 1981

Registrations

Registered Professional Engineer in West Virginia and Ohio

Registered Professional Surveyor in West Virginia

Professional Memberships

American Society of Civil Engineers

Professional Experience

Mr. Cart has over 25 years of experience in providing consulting engineering services. Clients served have included Industrial, Public and Private Institutions and State and Federal Agencies.

Mr. Cart has served as Project Engineer on numerous geotechnical investigations over the years. These projects have included highways, bridges, industrial sites and private development.

He has designed numerous waterline extensions and sewer collection systems. These extensions have included providing service to many residential as well as industrial customers. The sewer collection systems have included design of systems to collect sewage from residential and industrial sites. Mr. Cart served as a project engineer on several major waste water treatment plant upgrades for industrial clients in the Kanawha Valley. He has designed several plants to serve industrial as well.

Mr. Cart has performed over 100 Abandoned Mine Land Reclamations projects throughout Appalachia. These projects have been mainly in Ohio, West Virginia and Eastern Kentucky. These projects have involved draining flooded mine workings, support of ground experiencing or subject to Mine subsidence and the stabilization of landslides.

Mr. Cart has designed numerous retention and retaining ponds for sites. These designs have involved the determination of storm runoff and design of structures to safely retain and pass the required storm peak flows.

His experience includes permitting activities for projects which have included:

- Railroad Occupancy Permits for Utilities
- NPDES Permits for Industrial and Public Wastewater Facilities
- Highway Permits for Utility Occupancy and Access Road Tie Ins
- Health Department Permits for Water and Sewer Projects
- US Corps of Engineers Permits – Nationwide and Individual
- West Virginia Public Lands Permits

JOHN R. KELLY, III, E.I.

PROJECT DESIGNER

Education

B.S. Civil Engineering, West Virginia University, 1998

Computer Skills

AutoCAD, Microstation, COM624-P, Inroads, Hec-Ras and ELRSoil

Professional Memberships

American Society of Civil Engineers

Professional Experience

Mr. Kelly has performed layout and inspection of core drilling operations for bridge and roadway projects. He has also designed numerous mine reclamation projects, as well as assisted in completion of water feasibility studies. Mr. Kelly has performed construction inspections of waste water treatment facilities and has experience with roadway design, foundation design and retaining walls.

Representative Projects

Mr. Kelly has designed cut slopes for large scale roadway projects including Kermit Bypass, Mingo County, WV; Meadowbrook Road, Harrison County, WV; US 35, Mason County, WV and Corridor H, Section 7, Hardy County, WV.

RANDALL L. LACKEY, P.E.

PROJECT ENGINEER

Education

B.S. Civil Engineering
West Virginia University Institute of Technology, 1999

Registrations

Registered Professional Engineer in West Virginia, Ohio and Kentucky

Professional Memberships

American Society of Civil Engineers
Society of American Military Engineers

Computer Skills

C++, AutoCAD, MathCAD, Microstation, MS Excel, MS Word, MS Project, MS PowerPoint, Windows, MDS, MERLIN, BRASS Systems, SIMON, HEC-RAS, RC Pier and HY8

Professional Experience

Prior to joining E.L. Robinson Engineering Co., Mr. Lackey worked with the WV Division of Highways as an Engineering Co-op Technician. As part of his co-op experiences, he performed calculations for steel, flowrate and roadway. He performed roadway and guardrail design and construction inspection for bridge and roadway projects.

Representative Projects

Mr. Lackey was intricately involved in the hydraulic design process of the Blennerhassett Island Bridge Project, which connects West Virginia to Ohio, as well as spans the Ohio River and Blennerhassett Island. Included in this project are the following: Preparation of flood plain analysis for existing, temporary and various post construction conditions, scour analysis using FHWA approved publications, analyzing the affects that debris flow will have on the bridge and Blennerhassett Island and studying the potential for lateral channel migration and understanding the affects the migration would have on the design on the bridge substructure.

Mr. Lackey has also been involved with the hydraulic design process of the Corridor H South Branch of the Potomac River Bridge. Included in this project are the following: Preparation of flood plain analysis for existing, temporary and various post construction conditions, scour analysis using FHWA approved publications, analyzing the affects that debris flow will have on the bridge, studying the affects the proposed conditions will have on the town of Moorefield, WV, flood level and studying the potential for lateral channel migration and understanding the affects the migration would have on the design on the bridge substructure.

Mr. Lackey has also performed hydraulics and scour computations for Ripley Town Bridge, Jackson Bridge, Beaver Creek Bridge, Walnut Bottom Bridge, Tallman Bridge, Meadowbrook Road Bridge, Simpson Creek Bridge, Kermit Bypass Bridges and culverts, Left Hand Fork Bridge and Corridor H Bridges over Walnut Bottom Run and an unnamed tributary.

Mr. Lackey has prepared Section 404 permitting analysis and paperwork for Ripley Town Bridge, Simpson Creek Bridge, Meadowbrook Road Bridge and the Left Hand Fork Bridge. Along with this work, Mr. Lackey has prepared CLOMR analysis and documentation for Horseshoe Village Subdivision and for The Ohio State University Medical Center's two proposed bridges that connect the University with OH SR 314 over Olentangy River.

MARK A. McGETTIGAN, P.E.

PROJECT MANAGER

Education

M.S.E. Engineering Management/Environmental Engineering, Marshall University December 2007
B.S. Civil Engineering Technology, Fairmont State College, 1999

Registrations

Registered Professional Engineer in West Virginia

Professional Memberships

American Society of Civil Engineers

Professional Experience

Successfully worked on and managed numerous Phase I and II ground water quality investigations and feasibility studies for the West Virginia Department of Environmental Protection.

Mr. McGettigan has taken several large water and wastewater projects from the initial development phase through the construction phase. This includes writing the preliminary engineering report, developing funding scenarios, designing the system, developing the plans and specifications, developing the bid documents/overseeing the bid process and managing the construction inspection.

Developed specifications and managed construction inspection for land development and utility construction projects.

Representative Projects

Mr. McGettigan has been the design engineer on the following projects:

- **Delbarton Sewer Line Replacement project.** Worked on all phases of the project including preliminary design, permits, specifications, etc.
- **Town of Pax Waterline Relocation project.** Designed and managed project through construction phase.
- **Glen Rogers Waterline Extension project for WVDEP-AML.** Worked on design, hydraulics, permits, specifications, etc.
- **Charles Pointe North Landbay Phase I Infrastructure project.** Developed specifications and managed construction inspection for this commercial land development project

JAMES T. RAYBURN, P.S.

CHIEF SURVEYOR

Education

A.S. Mechanical Engineering, West Virginia Institute of Technology, 1970

Registrations

Registered Professional Surveyor in West Virginia

Professional Memberships

American Congress on Surveying and Mapping

The American Association for Geodetic Surveying (AAGS), a Member Organization of ACSM

Cartography and Geographic Information Society (CaGIS)

Geographic and Land Information Society (GLIS)

National Society of Professional Surveyors (NSPS)

West Virginia Association of Land Surveyors, Inc.

Professional Experience

Mr. Rayburn currently serves as Manager of Surveying for E.L. Robinson Engineering (ELR) and has more than 30 years of Design Surveying and Construction Surveying experience. The responsibilities include management of surveying and control for various design projects, including highways, buildings, and bridges. In addition, Mr. Rayburn manages and performs work consisting of courthouse research for property ownership resolution for the above mentioned project types. This includes preparation of property resolution maps, deed descriptions for property acquisitions required for project plan preparation. Mr. Rayburn has experience in Geodetic Control Surveys, 3D Laser Scanning, Photogrammetric Control, Topographic Surveys, Cemetery Surveys, Boundary Surveys, Construction Stakeout, Subdivision Surveys, along with Hydrographic surveys of river and lake bottoms. A few of the more notable surveying projects performed by ELR under the supervision of Mr. Rayburn, has been the Blennerhassett Bridge Project, 11 continuous miles of Corridor H design surveys, GPS Control for the West Virginia Statewide Mapping and Addressing Board Project, 3D Laser Scan and mapping of the CAMC Parking Garage partial collapse, and 3D Laser Scanning of I64/I77 Retaining Wall for Monitoring.

Representative Projects

Design Surveys

- **Corridor H (WVDOT) Hardy County, WV:** Lead Surveyor for Design Surveys, Right of Way Staking, etc. for approximately 11 miles of Corridor H in Hardy County, WV. This was for Sections 6 & 7 of Corridor H, both Sections of which are now under construction. Estimated construction cost of \$150 million dollars.
- **WV Route 10 (WVDOT) Logan to Man WV, Logan County, WV:** Lead Surveyor for Design Surveys for a section approximately five miles in length from Man, WV, to Rita, WV, including the Man Bridge. Also provided control surveying for the entire project length of approximately 12 miles. The approximate five miles section of roadway is now under construction at an estimated cost of \$51 million dollars.
- **Blennerhassett Bridge, Corridor D (WVDOT), Wood County, WV:** Lead Surveyor for Design Surveys for this landmark Bridge Project which is now under construction at an estimated cost of \$120 million dollars.
- **James Ramsey Bridge (WVDOT) Potomac River, Shepardstown, WV:** Lead Surveyor for Design Surveys for this Bridge Project which is now completed at an estimated cost \$15.5 million dollars. This project involved working in an environmentally historic area, which adjoined a National Park.

JAMES T. RAYBURN, P.S.

CHIEF SURVEYOR

- **US Route 35 (WVDOT) Mason County, WV:** Lead Surveyor for Design Surveys for two Design Sections each approximately 2.5 miles in length from Lower Five Mile Road to Upper Nine Mile Road. Also provided control surveying for the entire US 35 design project length of approximately 22 miles.
- **I64/US 35 (WVDOT) I64 to US 34 Crooked Creek, Putnam County, WV:** Lead Surveyor for Design Surveys, Right of Way Staking, etc. for approximately four miles of US 35 including Interstate 64 Ramps and Flyovers in Putnam County, WV. This included the I64 Bridges and Flyovers, which is now under construction.
- **ATB-Parrish Road (ODOT) Ashtabula County, Ohio:** Project Design Surveyor for rail grade separation project. Project involved roadway realignment, 900' new bridge, new waterline, storm and sanitary sewers. Project is currently under construction. Estimated construction cost: \$8.6 million.
- **PIC-23-3.21 and Various (ODOT) Pickaway County, Ohio:** Project Design Surveyor for ODOT Project PIC-23-3.21 and Various. Project involves deck replacements along 11 miles of US 23 in Pickaway County. Project includes large diameter culvert liner, interchange upgrade that includes mainline profile correction, ramp reconstruction, and addition of barrier wall and storm drainage. Project is currently under design (90%). Project scheduled for construction in 2007. Estimated construction cost: \$12 million.
- **ATB-90-22.06 (ODOT) Ashtabula County, Ohio:** Project Design Surveyor for Interstate Reconstruction Project. Project includes total pavement replacement, bridge widening, and contra – crossover maintenance of traffic, culvert replacements and storm sewer rehabilitation and sign replacements. Project is currently under design (50%) and scheduled for construction in 2011. Estimated construction cost: \$36 million.

Construction Surveys

- **Corridor D (WVDOT) Wood County, WV:** Lead Surveyor for Highway/Bridge Construction Monitoring surveys for the following segments of Corridor D and related relocation projects:
 - » Godbey Athletic Field Relocation Construction
 - » Godbey Colt Field and Soccer Field Construction
 - » West WV 47-East WV 47 Highway/Bridge Construction
 - » East Buckeye-West Little Kanawha River Highway/Bridge Construction
- **Interstate I-79 Widening and Median Barrier (WVDOT) Harrison County, WV:** Lead Surveyor for construction layout surveys for the widening of I-79 from the Meadowbrook Exit, north to the Jerry Dove Exit approximately three miles in length, as a subcontractor to the prime contractor.
- **CAMC 33rd Street Relocation and Building Expansion, Charleston, WV:** Lead Surveyor for construction layout surveys for 33rd Street relocation along with ancillary items including sidewalks, drainage and utilities. Also layout surveys for building expansion project.
- **Saturn Dealership, Hurricane, WV:** Lead Surveyor for Saturn Dealership site development and access roads at Hurricane Interchange of Interstate 64.
- **Arch Coal WV Mining Operations:** Lead Surveyor as a subcontractor to Arch Coal operations for Valley Fill Construction (Up to 27 million cubic yard fills), mine haul road layout, drill line staking, and dragline pit layout.

RONALD L. WILLIAMS, II

SURVEYOR/INSPECTOR

Education

High School Diploma, Sissonville High School, 1978

Professional Experience

Mr. Williams has been employed at ELR since 1978. Mr. Williams has had primary responsibility for the inspection of water, wastewater, and gasline construction and drilling projects.

Waterline projects he has inspected include: Cooper's Creek, Oak Hill, Uneeda/Quinland, Town of Danville, Southern PSC, South Putnam PSD, Kanawha Orchard PSD, Webster County Commission, Kanawha County's 1997 Water Extension projects and most recently RDA 1999 water extension projects.

He has also inspected the construction of sanitary sewer installation for the City of Charleston, Greater St. Albans PSD and South Putnam PSD.

Mr. Williams has inspected the construction of storm sewers for the City of Charleston and the City of Parkersburg. He has also inspected the relocation of gas lines for the Southern PSC and Consumer's Gas.

Mr. Williams has been involved both as a surveyor and inspector on all major projects performed by ELR. Mr. Williams has performed extensive courthouse research on numerous survey projects and is responsible for the field work associated with the AML projects.

Representative Projects

Mr. Williams has worked on the following projects:

- Sewer Installation for the City of Gilbert
- Sewer Installation for the City of Weston
- Highway Construction Inspection on Corridor D in Parkersburg, WV

MICHAEL HODGES

INSPECTOR/TECHNICIAN

Education

B.A. Finance, Marshall University, 1995

Completed right-of-way Acquisition seminar while employed by E.L. Robinson Engineering Co.

Certifications

Certified WVDOH Compaction Technician

Certified WVDOH Aggregate Inspector

ACI Concrete Technician

Certified Water Sample Collector

Professional Experience

Mr. Hodges has been with E.L. Robinson Engineering Co. since graduating from Marshall University. While still in school, he worked on E.L. Robinson Engineering Co.'s survey crew during the summer months and school breaks on E.L. Robinson's DEP projects.

Mr. Hodges has experience running Total Stations on several surveys in regards to: highways, roads and bridges, property lines, boundary surveys, topographic surveys, utility surveys and subdivision lots. He has experience running GPS units for aerial mapping and topographic surveys.

Representative Projects

Mr. Hodges has performed construction inspections on the following projects:

Putnam County Sewer line at I-64 Interchange, Pigeon Creek Waterline for DEP in Mingo County, 18 Mile Creek Waterline for Putnam County Commission West Virginia American Water Company and Coolridge PSD Waterline.

In 1998, he inspected a \$1 million waterline project in Kanawha County. In addition, he has extensive experience in pipe laying, and working with heavy machinery.

Mr. Hodges has inspected bridge construction including core drilling, pile driving, rebar placement and concrete pours. He has inspected cut and fill operations including compactions tests and has checked grade work and asphalt placement. Mr. Hodges has also inspected utility and lighting placement, erosion and sediment control projects as required by WVDEP. He has been involved in the inspection of at least seven bridges on the Corridor D project.

Mr. Hodges has been the inspector on the Charles Pointe project in Bridgeport, West Virginia. He has performed the inspection of infrastructure for a business park including utilities, storm, road, lighting, sidewalk, curbs, gutter, asphalt and landscaping.

19 PROJECT SPECIFIC QUALIFICATIONS

Mr. Gary Facemyer, P.E. will be the Project Manager/Project Engineer for this project. Mr. Todd Garnes will be the CAD designer. These two have completed 3 waterline extension projects in the past 2 years and are in the design phase of 3 additional projects. Support staff include Ron Williams, Rick Reynolds, Mike Hodges and others. The subject project will fit well with the current workload that will be completed by the time a purchase order is issued for the subject project. The work will be done out of the Charleston office of ELR.

In addition to the above very senior staff to perform the requested work; it is important to note the following information about ELR's overall qualifications to perform the work.

- A. ELR has ten (10) registered professional (civil or mining) engineers in the Primary Office.
- B. ELR has recent experience in designing eight (8) AML waterline projects and twenty five (25) non-AML related waterline projects. Mr. Facemyer has been responsible for hundreds of additional waterline projects while employed by others.
- C. ELR also has six (6) waterline engineering design teams lead by Gary Facemyer, P.E./Todd Garnes.; Ray Tilley, P.E./Craig Cobb; Tim Carte, P.E./Jason Mayes; Mark McGettigan, P.E./Joey Jude; Joe Carney, P.E./Ivan Gillispie; and Brian Morton, P.E./Shawn Kelly. All have served as project manager/project engineer for waterline projects. A substantial number of field experienced support staff are available as needed.

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT****VENDOR OWING A DEBT TO THE STATE:**

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

West Virginia Code §21-1D-5 provides that: Any solicitation for a public improvement construction contract shall require each vendor that submits a bid for the work to submit at the same time an affidavit that the vendor has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the West Virginia Code. A public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the West Virginia Code and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the West Virginia Code may take place before their work on the public improvement is begun.

ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and is in compliance with the requirements as stated.

Vendor's Name: E. L. Robinson Engineering Co.

Authorized Signature: Jerry Jacey Date: 10/08/2008
