12. P Is your firm experienced in Abandoned Mine Lar Remediation/Mine Reclamation Engineering?

YES Description and Number of Projects: Patrick Murphy provided project management and engineering design for both Article 3 and AML permitting for the Buck Lilly Surface Mine Located near Anjean WV. This scope of this project was to remove abandoned refuse for use in a future co-generation plant and reclaim the site with spoil from the Buck Lilly Surface Mine.

NO

B. Is your firm experienced in Soil Analysis?

YES Description and Number of Projects: Patrick Murphy performed soils analysis for two years on a U.S. Corps of Engineers project studying the affects of woody vegetation in levees. Analysis performed included: falling head permeability, grain size analysis, Altenburg limits, moisture contents, and shear strength. Gates also utilizes Triad and Novel as sub-consultants on projects as necessary.

NO

C. Is your firm experienced in hydrology and hydraulics?

YES Description and Number of Projects: Engineers within the company have performed hydrology and hydraulics functions on 30 plus surface and deep mine projects located throughout the state. These engineers are well experienced in determining peak flows, sediment and storm water detention designs, surface water runoff analysis', and culvert designs. Hydraulics is also a critical factor in the 35 bridges and structures that LA Gates Company staff has designed.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?

YES Description and Number of Projects: Contour mapping is generated for virtually every project in both civil and mining divisions.
NO Aerial photography. Some aerial photography is obtained through the internet. In many cases such as reclamation design work, Gates typically utilizes a Photo Science as a sub consultant

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in Evaluation of aquifer degradation as a result of mining.)

YES Description and Number of Projects: Shady Spring PSD / Flat Top Lake potable water system. This portion of the company has been sold and. LA Gates Company no longer design domestic waterline systems.

NO

F. Is your firm experienced in Acid Mine Drainage Evaluation and Abatement Design?

YES Description and Number of Projects: LA Gates Company has designed AMD treatment plants. Tim Coleman has constructed and managed 6 AMD abatement facilities for several coal companies. Gates deals with water quality parameters on a routine bases as part of permitting activities.
