**DNR209122 Question and Answers
Cedar Creek State Park Playground**

Q: Will DNR accept 3.5 inch round posts, in order to have "as equal" support post specs for this RFP? (If they meet the required tensil strength of 55,000 psi for strength)

A: It has been determined that 4 ½ inch round posts are the equivalent of 4 inch square posts. DNR will accept 4 ½ inch round posts as the equivalent.

Q: We have a question concerning the Cedar Creek State Park bid. While working on our quote, our playground designer, along with Miracle's safety department, noticed that these playgrounds are not ADA Compliant. Yet the bid package states that the playgrounds are required to meet ADA Accessibility Guidelines. Are we to adhere to the bid requirements of ADA Compliance or attempt to match the components on the provided top view drawings as they are currently shown? Please let us know as we are in the process of designing these playgrounds.

A: ADA accessibility was brought up at our pre-bid meeting. According to our design the border around each play areas which consists of (Childforms funtimbers/Model# FTB-00002, OR EQUAL) will have an open space left to provide for an entrance area. Item#8 on page 16 (Childforms filter ends/Model# ADJ-00008) provides end caps for the border material. We need a total of 8 for the four entrance areas. The design would meet ADA Compliance.
