**Re: A/E Services for Little Beaver State Park  
RFQ DNR90182**

Dear Selection Committee:

Chapman Technical Group is most interested in providing the engineering and landscape architectural services for the design of the campground improvements at Little Beaver State Park. Our firm can offer several advantages that will translate into a more successful project for the West Virginia Division of Natural Resources.

Having designed several projects for the WV State Parks, including the campground improvements at Beech Fork State Park, we are familiar with State Parks' procedures, desires and goals. With every project we develop we continue to learn and we'll take our experiences from past projects to develop an even better project at Little Beaver State Park.

All West Virginia State Parks are special places which are sometimes taken for granted by state residents. While the demand for more facilities no doubt is the impetus for this project, it is critical that the facilities be developed in such a way that minimizes the construction footprint and maximizes the natural beauty of the park. Chapman Technical Group's landscape architects and engineers will work together to carefully craft the design package to accomplish these goals.

You will find all of the requested information regarding our firm and our ability to execute the requirements of this project within this submittal. We would very much appreciate the opportunity to present our project team and further discuss your project. In the meantime, if you have any questions or need additional information, please contact me.

Sincerely,

**CHAPMAN TECHNICAL GROUP**
