Re: Expression of Interest # DPS0843

Dear Mr. Abbott and Members of the Selection Committee;

McKinley & Associates are honored to submit our qualifications and design approach to provide Architectural and Engineering Services for the Open-End Contract to design or renovate facilities located throughout West Virginia. We have examined your RFQ, have worked on dozens of West Virginia State Police facilities in the past, and are confident that the enclosed materials demonstrate that our team is exceptionally qualified to provide the best service to you.

McKinley & Associates has been honored the past 10 years to be a partner with the West Virginia State Police and we wish to continue our service with you not only on large projects but smaller projects as well.

McKinley & Associates has been providing design services since 1981. With offices in Wheeling, Charleston, and Washington PA, McKinley & Associates supports a professional staff of 40+ that includes architects, mechanical, electrical, plumbing/life safety engineers (MEP engineers) as well as a certified interior design department. We bring something very unique to the West Virginia State Police. The size of our staff allows us to keep project schedules moving and on time. Although we are generally recognized as West Virginia's largest A/E firm, I can promise you personal attention to every idea and detail throughout the process.

McKinley & Associates has worked on projects in every county within the State of West Virginia. Our team has experience with both small and large projects on tight schedules and fixed budgets. More importantly, the staff possessing such experiences is assigned directly to this team, a team of considerably depth and capacity.

Thank you for reviewing our submission and considering McKinley & Associates for your project. We are very excited about the possibility of working again with the West Virginia State Police. If you have any questions, please do not hesitate to call at any time.

Personal Regards,

James E. Buch
McKinley & Associates
