VENDOR PREFERENCE CERTIFICATE

Certification and application\* is hereby made for Preference in accordance with West Virginia Code, §5A-3-37. (Does not apply to construction contracts). West Virginia Code, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the West Virginia Code. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

- 1. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,
2. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
3. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. Application is made for 5% resident vendor preference for the reason checked: Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
5. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,
6. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: CANADE, INC. Signed: [Signature]
Date: 3/27/2009 Title: PRESIDENT

**PURCHASING AFFIDAVIT**

**VENDOR OWING A DEBT TO THE STATE:**

*West Virginia Code* §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

**PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:**

If this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code*. The vendor **must** make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code* and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the *West Virginia Code* may take place before their work on the public improvement is begun.

**ANTITRUST:**

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

**LICENSING:**

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

**CONFIDENTIALITY:**

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

[ MSA Millennium<sup>®</sup> CBRN Gas Mask ]

**POLICE/FIRE**

**DO NOT CROSS**

# New protection standards apply today...

Government and industry representatives had been working on defining standards for protective equipment to safeguard individuals against airborne terrorist attacks prior to the events of September 11, 2001. Following that day's attacks, efforts were accelerated with establishment of the National Personal Protective Technology Laboratory in Pittsburgh, which took on the role of certifying new standards for CBRN respiratory protection and clothing.

The new National Institute for Occupational Safety and Health (NIOSH) CBRN standard for full-facepiece gas masks was issued on March 7, 2003. In conjunction with U.S. Army Edgewood Chemical Biological Center it tests and approves devices as "CBRN compliant" and establishes very stringent testing and certification protocols for:

- Chemical, biological, radiological and nuclear agents.
- Mask penetration and permeation.
- Carry and transportation.
- Use performance.
- Quality assurance.

The new NIOSH standards also establish:

- Performance requirements for protection against high concentrations of agents (the shortest period being 15 minutes).
- Parameters on environments and applications where masks are to be used, including warm zone environments (locations away from the highest concentrations) and crisis provisions (should terrorists deploy a secondary device as responders arrive at the scene).
- Representative degrees of agents, working on the idea that preparing for the worst potential in a family of chemicals would enable protection against the entire family of agents.
- Rules for testing service life, particulate efficiency, permeation and penetration, fit factors, field of view and interoperability.
- MSA has been an active participant and contributor to the process of determining these new standards and is considered to be a leading expert.

## POLICE/FIRE LINE DO NOT CROSS PO

This chart shows the test representative chemicals for CBRN approved and represents roughly 150 potential chemical compounds.

**Canister Test Challenge and Test Breakthrough Concentrations\***

Concentration (ppm)	Test	Breakthrough*
Ammonia	2500	12.5 ppm
Cyanogen chloride	300	2 ppm
Cyclohexane	2600	10 ppm
Formaldehyde	500	1 ppm
Hydrogen cyanide	940	4.7 ppm <sup>1</sup>
Hydrogen sulfide	1000	5 ppm
Nitrogen dioxide	200	1 ppm NO <sup>2</sup> or 25 ppm NO <sup>1</sup>
Phosgene	250	1.25 ppm
Phosphine	300	0.3 ppm
Sulfur dioxide	1500	5 ppm

<sup>1</sup> Sum of HCN and C<sub>2</sub>H<sub>2</sub>.

<sup>2</sup> Nitrogen Dioxide breakthrough is monitored for both NO<sub>2</sub> and NO. The breakthrough is determined by which quantity, NO<sub>2</sub> or NO, reaches breakthrough first.

\* Table 3 from "Statement of Standard for Chemical, Biological, Radiological, and Nuclear (CBRN) Full Facepiece Air Purifying Respirator (APR)," revision 1; March 17, 2003.

\* Maximum breakthrough for greater than 15 minutes.

# The MSA Millennium® Gas Mask answers the call, and then some...

With nearly a century of history and success behind it, MSA today again stands ready to protect Americans – this time against potential airborne contaminants that could be unleashed by terrorists across our homeland.

September 11, 2001 changed the face of homeland security

The MSA Millennium CBRN Gas Mask meets or exceeds all performance requirements of the new NIOSH CBRN Standard by effectively removing harmful gases, vapors and particulates so that the user can confidently breathe safely. The Millennium CBRN canister contains chemical sorbents and a P100 filter to attract, retain, and neutralize contaminants.

The Millennium CBRN design is based on a highly successful military gas mask. The wearer enjoys a wide field of view and great flexibility, making it possible to safely perform any tasks required, including firing weapons if needed. The wearer can communicate easily while wearing the Millennium CBRN Gas Mask, too.

The mask is lightweight and provides a tight seal on the face. A nose cup is also incorporated for reduced fogging of the facepiece. The material is impermeable to chemical agents such as mustard (HD), providing maximum assurance to the wearer. A butyl coated nylon hood also is available for total head protection.

Regarding interoperability, the Millennium CBRN Gas Mask is designed as a system and while the thread and gasket are designed to meet the requirements of the standard, only the manufacturer's assemblies are tested and certified. The mask also permits hydration once the wearer has moved to an uncontaminated area.

**POLICE / FIRE LI**

**DO NOT CROSS**

Six-point head harness means easy donning, adjustment and removal with no hair pulling

Flexible, one-piece polyurethane lens eliminates uncomfortable pressure points

Canister inlet ports on left or right side enables weapon sighting from either side

Super-soft black Hycar rubber exceeds CBRN permeation requirements

# MSA has been there all along...

Since 1914, MSA has pioneered solutions to protect individuals from hazards at work and at war.

From World War I to World War II, from Desert Storm to September 11, 2001, MSA has always helped America's military and its first responders before, during and after emergencies.

From the earliest days of the company – when two mining engineers developed and improved safety, rescue and protective gear for those working underground – to the homeland security issues of responding and recovering from terrorist attacks today, MSA has the experience, talent and resources to continue its record of producing the finest protective equipment on the market.

The Millennium CBRN Gas Mask is the most current example of that commitment.

SS

**POLICE / FIRE**

**DO NOT CROSS**

MSA

# When the line must be crossed...

1st Responders are the first to cross the line into danger.  
They must do their work quickly or a disaster can become even more tragic.

Their respiratory equipment must be ready and reliable to protect them against potentially lethal airborne threats. They can't stop to question whether their equipment will do the job.

The MSA Millennium CBRN Gas Mask was made for this very purpose.

## Defining the CBRN threat

CBRN encompasses Chemical, Biological, Radiological and Nuclear agents – airborne hazards which could be used as weapons in a terrorist attack.

Chemical agents include cyanide, mustard gas, ricin, sarin and VX, each of which represents multiple sources of physical distress, some leading even to death. Certain chemical agents attack the central nervous system, disabling the body's ability to control its functions and permitting muscles and organs to work themselves to death. Others attack the skin and mucous membranes on contact, causing severe blistering.

Biological agents include anthrax, botulism and smallpox. These agents are bacteria or viruses endangering the life and health of organisms, specifically human beings. Some multiply within the body to release toxins into the blood, others paralyze muscles, still others are severe and contagious viral infections.

Radiological and nuclear agents include "dirty bombs," or radiological dispersal devices combining conventional explosives like dynamite with radioactive materials in the form of powder or pellets. Classic nuclear hazards are those associated with the aftermath of detonation of a nuclear device. Radiation cannot be seen, smelled, felt or tasted by humans.
