Roscor Corporation's Quality Policy

An ISO 9001:2000 Certified Company

With the support and contribution of all of our employees, we will endeavor to exceed our customer's highest expectations through continual improvement in quality, delivery and service.

Roscor has made the company-wide commitment to become ISO 9001:2000 certified. This is a commitment that not only affects the management team, but every employee within our organization. It is the commitment and dedication of all our employees that have allowed us to attain this prestigious certification and maintain it since our original certification on 4/25/2003. ISO 9001:2000 is a series of quality management system standards created by the International Organization of Standardization (ISO), a federation of 132 national standards bodies based in Geneva, Switzerland.

The ISO 9001:2000 standards include Design, Manufacturing and, most importantly, Customer Focus. There are five major clauses and numerous elements within these standards. Roscor has developed policies and procedures to which all of our employees are dedicated and have been made accountable.

- ❖ A company-wide Quality Management System
- ❖ Definitions of Management Responsibility
- ❖ Resource Management System
- ❖ Product Realization Definitions
- ❖ Measurement, Analysis and Improvement

The various elements include company procedures for:

- | | |
|---|--|
| ❖ Control of Documents | ❖ Control of Records |
| ❖ Customer Related Processes | ❖ Purchasing |
| ❖ Systems Integration Engineering | ❖ Control of Production and Service Provision |
| ❖ Customer Property | ❖ Preservation and Identification of Product |
| ❖ Customer Satisfaction | ❖ Internal Audits |
| ❖ Analysis of Data | ❖ Continual Improvement |
| ❖ Corrective and Preventive Actions | ❖ Control of Monitoring & Measuring Devices |
| ❖ Monitoring and Measurement of Product | ❖ Control of Nonconformity (Processes and Product) |

As a means of monitoring and ensuring conformance to our own procedures and to ensure we are meeting our Quality Objectives of *On-Time Performance* and *Zero System Rework*, Roscor conducts internal audits every six months. In addition to the internal audits, we are also audited by an outside source, our Certification Registrar, every six months. These audits are conducted at our headquarters location in Mount Prospect, IL and satellite offices in Michigan, Ohio and Wisconsin. The audits incorporate the review and evaluation of each of our procedures and the gathering of objective evidence to ensure we are adhering to the rigorous ISO 9001:2000 standards.

Customer Satisfaction is one of our major focuses and is taken very seriously. We have developed a process by which each and every one of our customers has an avenue to share with us their feedback regarding the service we have provided. This entire process is tracked, reviewed and evaluated. By monitoring this process, it allows us to identify areas for Continual Improvement.

On a quarterly basis, Roscor brings together the entire management staff for our Management Review Meeting. This again gives us an opportunity to review our goals and objectives as a means of Continual Improvement to our Quality Management System. We are dedicated to the growing needs of our customers and through the constant review and training of our own employees, are able to work with our customers to not only meet but exceed their expectations.
