WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

Equipment, workmanship and mobilization furnished under this contract shall meet the following requirements:

1. EQUIPMENT REQUIREMENT

- A. Drill shall be mounted on a turntable base with a 240-degree rotation and a 30-inch slide stroke at any point in the arc of rotation.
- B. Drill shall possess a power plant and a mechanical drill assembly, which delivers 35,000 foot-pounds of torque to the Kelly bar, which rotate the Auger or Core Barrel.
- C. Drill shall be equipped with a power plant and mechanical or hydraulic mechanism capable of exerting a down pressure or crowding force of at least 12,000 pounds.
- D. Drill shall be equipped with power and mechanical mechanism to operate a service hoist for installing piles; the hoist system shall have a lifting capacity of 8,000 pounds and be capable of installing (40') piling.
- E. Drill shall be equipped with two (2) hydraulic outriggers and jacks in the front area and two (2) hydraulic outriggers and jacks in the rear of the drill carrier for fast and efficient leveling purposes. The outriggers are not required on track mounted drills.
- F. Vendor shall furnish Augers, Core Barrels, Rock Cutting Teeth, Muck Bucket and Casing which are in good condition. Rock Cutting Teeth shall be of the type and quality comparable to the "Kenametal" brand. Vendor shall, also, furnish all water needed for drilling purposes. All drills are to have at least one operator and one helper present during drilling.

2. MOBILIZATION

One time one way mobilization shall be paid by the Division of Highways for moving of said equipment from the contractor's base of operations to the work site specified in the State Contract Order (SCO) and/or from one Division of Highways work site to another, whichever mileage would be of lesser cost to the Division of Highways. The most direct suitable route from the contractor's base of operations to the work site or between work sites will be agreed upon by the Division of Highways and the contractor as mileage for calculation of Mobilization. The exact location of the contractor's base of operations must be stated on each quotation sheet (mailing address is not adequate).

3. SITE PREPARATION, PLANS, STAKE-OUT, HOLE SIZE AND PILE INSTALLATION

The West Virginia Division of Highways will, in advance of drilling operations, prepare the sites for safe and efficient work. This shall be done in collaboration with the Vendor, or his authorized representative. The Vendor and the West Virginia Division of Highways will jointly determine that safe working conditions do exist and either party will have the right to refuse to perform work if, in their opinion, unsafe working conditions exist.

The West Virginia Division of Highways will provide plans and stakeout of all work to be performed. The location of holes and piles to be installed shall be shown on the plans or directed by the District Engineer/Manager or his designee.

The depth of each hole, angle of inclination from the vertical and the length of each pile shall be shown on the plans, or directed by the District Engineer/Manager or his designee.

The West Virginia Division of Highways will perform required splicing of piles and pile cutoff. Piles shall be furnished, delivered and positioned on the site by the West Virginia Division of Highways so that they are conveniently available for immediate installation at each hole.

The size of holes will be governed by the size of piles. In general, the hole should be at least two (2) inches greater in diameter than the maximum dimension of pile to be installed. In conditions where boulders, etc., are encountered, the hole diameter may have to be considerably larger than the maximum dimensions of the pile. Piles shall be installed immediately after each hole is drilled, unless otherwise directed by the District Engineer/Manager or his designee.

4. DOWN EQUIPMENT

Equipment shall be considered down if it is out of production due to mechanical failure or other conditions and no pay will be authorized until production is resumed. The Division of Highways will not pay time for fueling, lubrication and warm-up of the unit (s).

5. WORKMANSHIP

The West Virginia Division of Highways reserves the right to terminate the usage of any drill, which does not perform work in conformance with reasonable production standards.

Production standards will be based on historical performance data under similar circumstances.

Only firms who show evidence of employment of qualified and experienced operators who have satisfactory performance reputation in this specialized field will be considered.

6. BASIS OF PAYMENT

The Vendor may invoice the West Virginia Division of Highways for hours worked on a semi-monthly basis (half and end of month).

Hours worked must be verified and substantiated on a daily basis by an authorized representative of the West Virginia Division of Highways. Payment for hours worked shall include the time required to position equipment, drill and place piles. Down, warm-up and equipment maintenance time will not be considered as work hours. The Vendor shall supply the Division of Highways with daily work tickets as verification of hours worked.

7. BIDDING INSTRUCTIONS

Bidder shall submit a separate bid sheet for each proposed equipment unit.

The Vendor shall quote a single hourly rate for each drill unit proposed, which shall be full compensation for all equipment rental and required operators up to a standard 40 hour workweek. For hours beyond 40 hours in a workweek, the Vendor shall quote a rate per hour to cover overtime costs of labor only and that amount will be added to the operating rate for all additional operating hours beyond 40 hours in a workweek.

The cost of auger and core barrel resurfacing shall be included in unit price bid for operating rate.

The Vendor shall quote for the additional pay items of casing pipe and crane mats which may be needed occasionally when directed by the Engineer.

8. AWARD OF CONTRACT

The award of this contract shall be made to all bidders submitting a bid, which meets the specifications.

9. AWARD OF STATE CONTRACT ORDER (SCO)

The District Engineer/Manager shall issue the SCO to the low bidder based on type and size of equipment required and the lowest projected cost. The SCO shall specify the type and size of equipment required for the project. The projected cost is the estimated hours to complete the project multiplied by the Vendor's hourly rate plus the mobilization costs. Refer to the section titled "Mobilization" for a full explanation of Mobilization Cost.

In the event the low bidder for a particular project cannot perform, the District Engineer/Manager shall have the option to contact the next low bidder. The District Engineer/Manager shall document in writing the Vendor's inability to perform and award to the next low bidder. Vendors must notify the District Engineer/Manager of their ability to perform, within five (5) days of their receipt of a State Contract Order (SCO), or the SCO may be cancelled.

In the event of an emergency situation, the District Engineer/Manager may require notification of a Vendor's ability to perform within twenty-four (24) hours of their receipt of a State Contract Order (SCO).

Each SCO for hiring Power Earth and Rock Augers/Drills with Operators must list the tentative date the project is to begin. Work on the project shall be continuous unless approved by the District Engineer/Manager.

Vendors performance on any project may be considered when awarding subsequent State Contract Orders (SCO's).

Prior approval for Holiday work shall be obtained from the District Engineer/Manager. The official Holidays are New Year's, Martin Luther King, Jr. Day, Lincoln's Birthday, Washington's Birthday, Memorial Day, West Virginia Day, Fourth of July, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, Christmas Day, Election (Primary and General) Day, and other days proclaimed by the President or Governor.

10. WAGE RATES

The Contractor or Subcontractor shall pay the higher of the U.S. Department of Labor minimum wage rates or the West Virginia Department of Labor minimum wage rates as established for *various* counties, pursuant to West Virginia Code §21-5A, ET SEQ.

11. WORKER'S COMPENSATION

Vendor is required to provide a certificate from Worker's Compensation if successful.

12. INSURANCE

Successful Vendor shall furnish proof of coverage of commercial General Liability Insurance prior to issuance of a contract. Unless otherwise specified in the bid documents, the minimum amount of insurance coverage required is \$250,000.

13. PURCHASING CARD ACCEPTANCE

The State of West Virginia currently utilizes a VISA Purchasing Card Program which is issued through a bank. The successful vendors must accept the State of West Virginia VISA Purchasing Card for payment of all orders placed by State DOT agency for orders as a condition of award.

NOTE: Vendor may submit a copy of a Certificate of Liability Insurance and Workers Compensation Certificate with bid.

NOTE: Vendor should type Bid Schedules

The *Bid Schedules* are ready for download on Purchasing's Web site at www.state.wv.us/admin/purchase
