Roberta Wagner
Department of Administration
Purchasing Division
Building 15
2019 Washington Street, East
Charleston, WV 25305-0130

Dear Ms. Wagner:

As you may know, LabCorp is one of the largest and most innovative laboratory organizations in the country, capable of meeting the needs of virtually any provider. Our success was fostered by one primary objective: Provide a clinical laboratory services program that is responsive to clients' needs, wants and expectations. Our business strategy allows us to meet and anticipate the changing needs of our clients and prospects alike.

Convenience, quality, a comprehensive portfolio and excellent service describe LabCorp's network of strategically located patient service centers, local laboratories, a national esoteric laboratory and our Centers for Excellence. This network provides you with the individual attention and dependability of local personnel coupled with the support and strength of a national organization dedicated to researching, developing and implementing leading edge health care technology.

Attached for your examination is the LabCorp response to the November 18, 2009, RFQ BHS10038. Once you have reviewed this information, I hope that you will conclude that LabCorp is committed to and capable of providing you with the finest laboratory testing service available. Thank you for this opportunity to introduce LabCorp's advantages.

Sincerely,

L. Edward Gullett/Jr. Vice President, Controller

NOUZMA

## Open End Contract for Reference Laboratory Services BHS10038

#### 1.1 Purpose:

To provide reference laboratory services to the West Virginia Department of Health and Human Resources (WVDHHR), State owned facilities which include: William R. Sharpe, Jr. Hospital, Mildred Mitchell Bateman Hospital, Pinecrest Hospital, Lakin Hospital, Welch Community Hospital, Hopemont Hospital, and John Manchin Sr. Health Care Center, hereafter referred to as "hospitals".

# Location of Hospitals:

Pinecrest Hospital 105 S. Eisenhower Drive Beckley, WV 25801

Lakin Hospital 1 Bateman Circle Lakin, WV 25287

Weich Community Hospital 454 McDowell Street Welch, WV 24801

William R. Sharpe, Jr. Hospital 936 Sharpe Hospital Road Weston, WV 26452 Hopemont Hospital Rt. 3, Box 330 Terra Alta, WV 26764

John Manchin Sr. Health Care Center 401 Guffey Street Fairmont, WV 26554

Mildred Mitchell-Bateman Hospital 1530 Norway Ave. Huntington, WV 25709

## 1.2 Mandatory Requirements

- 1.2.1 The vendor shall provide reference laboratory services to the above listed hospitals.
- The vendor must build, at no expense to the state, the reference laboratory side of a point-to-point interface between the Medsphere Open VistA software and the reference laboratory to facilitate transmission of the electronic laboratory orders from hospitals listed above to the laboratory service. The results of the reference lab specimen analysis will be electronically transmitted back to the Open VistA software for provider review. As a backup, the reference lab shall also print the results at a designated printer at each facility.
- Standard HL-7 (Help Language 7) version 2.3 formatting rules shall be followed for batch and on-line import/export message segments. VistA provides functionality to print a manifest to accompany the specimen. This manifest provides a check and balance with the electronic order to ensure the order and the physical specimen are correctly matched to the patient.
- Based upon hospital requirements embedded in the electronic lab orders, vendor must telephone positive results and panic/alert values to hospital(s). Calling arrangements shall be established with each hospital.
- The Vendor must be certified by Clinical Laboratory Improvement Amendments (CLIA) and College of American Pathologists (CAP). The Vendor should provide copies of CLIA and CAP certificates with the bid response.

# WEST VIRGINIA DEPARTMENT OF HEALTH AND HUMAN RESOURCES BUREAU FOR BEHAVIORAL HEALTH AND HEALTH FACILITIES OFFICE OF HEALTH FACILITIES --- Reference Laboratory Services

- Vendor must provide courier services seven (7) days per week for collection of specimens. Dependent upon hours of operation and specimen pickup requirements, pickup services would be provided at mutually agreeable times best suited to hospital(s) needs for optimal test result turnaround times.
- Vendor must provide a cost for phlebotomy services to the facilities. While these services are not required by every facility, at this time, the vendor will provide evidence of their ability to provide the services. When and/or if a phlebotomist is needed, the facility will contact the vendor for the provision of services pursuant to the rate(s) quoted. Please note: all travel expenses, if any, must be included in the cost bid as an all inclusive rate. Hourly costs of services available are to be entered into Exhibit C. Currently, only Lakin Hospital (Est. 2 Hrs./Day, 5 Days/Week) and Pinecrest Hospital (Est. 2-3 Hrs./Day, 3 Days/Week) are in need of morning phlebotomy services.
- Vendor must provide routine specimen collection and transport materials and all necessary supplies to hospital(s) for preparation of all specimens for testing. This includes but is not limited to vaccutainer tubes, needles, preservatives, 24 hour urine containers, cytology and histology containers with preservatives, slides, fixatives, plastic transport bags, centrifuges and directory for all the services offered.
- 1.2.9 Vendor must provide microbiology culture results for the time period based on the standards for the specimen (i.e. blood cultures for seven days). Routine cultures shall have preliminary reports within 24 hours for positive results, then after 48 hours, and final reports within 72 hours of receipt of specimens at the reference laboratory site.
- 1.2.10 Vendor must provide general routine chemistries results within 24 hours of receipt of specimens at the reference laboratory site.
- 1.2.11 Vendor shall provide histology and cytology testing and bacteriology services (cultures and sensitivity) as needed.
- 1.2.12 Vendor must have a board certified Pathologist who must be available for questions and/or interpretation of positive test results.
- 1.2.13 Vendor must assume all responsibility and liability for reading and processing of all cytology and histology specimens.
- 1.2.14 Vendor must retain positive, negative and/or unsatisfactory PAP slides and Histology slides for the current time periods mandated by regulatory bodies (CAP and CLIA).
- 1.2.15 Vendor must examine, interpret and report results on all slides submitted. Vendor must have written criteria for rejection and for categorizing specimens as unsatisfactory.

# WEST VIRGINIA DEPARTMENT OF HEALTH AND HUMAN RESOURCES BUREAU FOR BEHAVIORAL HEALTH AND HEALTH FACILITIES OFFICE OF HEALTH FACILITIES ---- Reference Laboratory Services

1 2.16 After receipt of slides/specimens, vendor must provide turnaround time for Cytology results within five (5) days and Histology within four days (4) unless further study or staining is required.

#### Exceptions:

Cytology Turnaround Time

Normal PAP Smear results reporting time is five to seven days. Suspicious, abnormal, unusual specimens or those submitted with insufficient information usually take longer. Any abnormal results must be called to hospital

Surgical Pathology Turnaround Time

Properly submitted specimens are usually processed the next working day Turnaround time for results is dependent on the complexity of diagnosis and case load. When requested (on the Request Form), a preliminary diagnosis must be available via telephone or computer printer and a final signed report will follow. All numerical abnormal results are to be clearly identified on the report form

- 1 2 17 The Vendor shall provide the hospital(s) with documentation of quality control measures being performed in the Laboratory upon request. Quality control data, quality assurance policies and results of proficiency testing surveys must be made available upon request.
- 1.2.18 Vendor must have stored lab results available for Quality Assurance monitoring and assessment of laboratory services for the current time periods mandated by regulatory bodies (CAP and CLIA) for regular test results and for pathology specimens.
- 1.2.19 Vendor must provide Hospital(s) with statistical reports including the total number of tests performed on a monthly and annual basis by individual testing category
- 1 2 20 Vendor must provide Hospital(s), on an on-going basis, with the name, address and telephone number of their account representative
- 1.2.21 A list of the type and estimated quantity of tests required by the hospital(s) is attached as Exhibit A. A list of the type and estimated quantity of panels, profiles, screens and cultures is attached as Exhibit B. Additional types of tests shall be provided by the successful vendor, as ordered by the facilities.
- 2. Method of Evaluation:
  The contract will be awarded to a single vendor with the lowest total cost for providing the specified services in Exhibits A, B & C.

## STATE OF WEST VIRGINIA Purchasing Division

# **PURCHASING AFFIDAVIT**

#### **VENDOR OWING A DEBT TO THE STATE:**

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

#### PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

if this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the **West Virginia Code**. The vendor **must** make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the **West Virginia Code** and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the **West Virginia Code** may take place before their work on the public improvement is begun.

#### ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid

#### LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

#### CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf.

Under penalty of law for false swearing (West Virginia Code §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated

ADDRESS CHANGES TO BE NOTED ABOVE

BHS10038 ADDENDUM #1

Question: 1.

Line item 3. Drug of Abuse Screen (DAU) Blood. In the previous issue of this RFQ there were large quantities of **Drugs of Abuse Urine** that have been deleted and only DAU Blood has been left in RFQ. In our experience DAU Blood are not commonly used in mental health and drug and alcohol treatment programs. Please clarify if this is a mistake and wrong screens have been deleted.

Answer: Line item 3 must be a vendor typo as it was the AFP Tetra in the current RFQ. Urine screen should not have been omitted it has been added to Exhibit B as number 26.

Question: 2.

Line item 69. Hep Panel A, B,C. Please clarify which Hepatitis tests are included in this panel, e.g. Hepatitis A, Igg or Igm, Hepatitis Bs AB or Hep Bs Ag. +

Answer: Hepatitis A, B & C Screen (acute hepatitis panel) has been placed in Exhibit B, as number 25. Line 69 will now be HIV-1 Antibodies, which also should not have been omitted.

Questions 3.

Line item 113. RNA PCR Quant. Please clarify which RNA PCR test is required. HIV, Hep C etc.

Answer: Line 113 will be modified to reflect Hepatitis C Virus (HCV) in Exhibit A.

#### Note:

The above corrections or clarifications require changes in the original exhibits. Please discard the original Exhibits A, B & C.

Bidders are to use the attached Exhibits A, B, & C with (Addendum #1) in the upper right corner of each page

Laboratory Corporation of America Holdings (LabCorp) Response

Page 4 Exhibit 4

LOCAL GOVERNMENT BODIES: UNLESS THE VENDOR INDICATES IN THE BID HIS REFUSAL TO EXTEND THE PRICES, TERMS AND CONDITIONS OF THE BID TO COUNTY, SCHOOL, MUNICIPAL AND OTHER LOCAL GOVERNMENT BODIES, THE BID SHALL EXTEND TO POLITICAL SUBDIVISIONS OF THE STATE OF WEST VIRGINIA IF THE VENDOR DOES NOT WISH TO EXTEND THE PRICES, TERMS, AND CONDITIONS OF THE BID TO ALL POLITICAL SUBDIVISIONS OF THE STATE, THE VENDOR MUST CLEARLY INDICATE SUCH REFUSAL IN HIS BID. SUCH REFUSAL SHLL NOT PREJUDICE THE AWARD OF THIS CONTRACT IN ANY MANNER.

LabCorp Response

LabCorp has agreements with thousands of customers, including various federal, state and local governmental agencies and departments, managed care plans, health systems, hospitals and physicians Each of these arrangements provide for different terms of service, including fees that are based, in part, on the service requirements, test utilization projections, local market factors and other services that may be incorporated into the fee schedule. Therefore, LabCorp cannot agree to provide any specific customer with fees that are not higher than fees provided to any other customer. LabCorp can provide that the fee schedule proposed for The West Virginia Department of Health and Human Resources State Owned Facilities will be, in the aggregate, comparable to the fees charged to similarly situated customers whose service requirements and test utilization are comparable to those required by The West Virginia Department of Health and Human Resources State Owned Facilities

1.1 Purpose:

To provide reference laboratory services to the West Virginia Department of Health and Human Resources (WVDHHR), State owned facilities which include: William R Sharpe, Jr Hospital, Mildred Mitchell Bateman Hospital, Pinecrest Hospital, Lakin

Hospital, Welch Community Hospital, Hopemont Hospital, and John Manchin Sr. Health Care Center, hearafter referred to as "hospitals".

## **Locations of Hospitals:**

Pinecrest Hospital 105 S. Eisenhower Drive Beckley, WV 25801 Hopemont Hospital Rt. 3, Box 330 Terra Alta, WV 26764

Lakin Hospital 1 Bateman Circle Lakin, WV 25287 John Manchin Sr. Health Care Center 401 Guffey Street Fairmont, WV 26554

Welch Community Hospital 454 McDowell Street Welch, WV 24801 Mildred Mitchell-Bateman Hospital 1530 Norway Avenue Huntington, WV 25709

William R. Sharpe, Jr. Hospital 936 Sharpe Hospital Road Weston, WV 26452

#### 1.2 Mandatory Requirements:

**1.2.1** The vendor shall provide reference laboratory services to the above listed hospitals

# LabCorp Response

LabCorp can comply.

**1.2.2** The vendor must build, at no expense to the state, the reference laboratory side of a point-to-point interface between the Medsphere Open Vista software and the reference laboratory to facilitate transmission of the electronic laboratory orders from hospitals listed above to the laboratory service. The results of the reference lab specimen analysis will be electronically transmitted back to the Open Vista software for provider review. As a backup, the reference lab shall also print the results at a designated printer at each facility.

# LabCorp Response

LabCorp can comply.

**1.2.3** Standard HL-7 (Help Language 7) version 2.3 formatting rules shall be followed for batch and on-line import/export messages segments. Vista provides functionality to print a manifest to accompany the specimen. This manifest provides a check and balance with the electronic order to ensure the order and the physical specimen are correctly matched to the patient.

#### LabCorp Response

LabCorp can comply

**1.2.4** Based upon hospital requirements embedded in the electronic lab orders, vendor must telephone positive results and panic or toxic values to hospital(s). Calling arrangements shall be established with each hospital.

LabCorp Response

LabCorp notifies physicians of **panic results** as soon as possible via telephone, unless otherwise instructed by the client

LabCorp clients can customize how they want to be notified of **alert results**, called during normal business hours. Customers have the option of:

- getting all of the LabCorp Alert tests on the list called at the default values,
- indicating which specific tests and values the client is to be called,
- or, defaulting to getting no alert results called With the advent of electronic and auto-fax reporting capabilities, many customers received their completed patient reports prior to the "normal business hours" alert call Many clients wanted to reduce the time spent on unnecessary or redundant telephone calls

All results that exceed the normal reference range are flagged as abnormal on the patient result report

A copy of the Alert result call designation form can be found under TAB 4.

**1.2.5** The Vendor must be certified by Clinical Laboratory Improvement Amendments (CLIA) and College of American Pathologists (CAP). The Vendor shall provide copies of CLIA and CAP certificates with the bid response.

LabCorp Response

LabCorp facilities maintain CAP and CLIA accreditations. Copies of the facility licensures and accreditations for the Dublin, Ohio, regional laboratory can be found in **TAB 5**.

1.2.6 Vendor must provide courier services seven (7) days per week for collection of specimens. Dependent upon hours of operation and specimen pickup requirements, pickup services would be provided at mutually agreeable times best suited to hospital(s) needs for optimal test result turnaround times.

LabCorp Response

LabCorp's courier service is critical as the first point of contact in the turn-around time process. Our couriers provide direct specimen receipt, a controlled environment for specimen transport and delivery of necessary supplies. The courier personnel are generally employees of LabCorp, trained in the proper handling and transportation of various specimen types, such as frozen and room temperature samples. Dependent on hours of operation and specimen pickup requirements, mutually agreeable times could be scheduled to meet these specific needs, including multiple daily pick-ups consistent with LabCorp policies.

**1.2.7** Vendor must provide a cost for phlebotomy services to the facilities. While these services are not required by every facility, at this time, the vendor will provide evidence of their ability to provide the services. When and/or if a phlebotomist is needed, the facility will contact the vendor for the provision of services pursuant to the rate(s) quoted. Please note: all travel expenses, if any, must be included in the cost bid as an all inclusive rate. Hourly costs of services available are to be entered into Exhibit C Currently, only Laken Hospital (Est. 2 Hrs /Day, 5 Days/Week) and Pinecrest Hospital (Est. 2-3 Hrs/Day, 3 Days/Week) are in need of morning phlebotomy services.

LabCorp Response

LabCorp will work with the current phlebotomy arrangement at each facility to maintain the service level See Exhibit C for Cost. LabCorp bills phlebotomy charges on a per draw basis. The charge for the West Virginia State Owned Facilities name in this RFQ will be \$3.00 per draw

**1.2.8** Vendor must provide routine specimen collection and transport materials and all necessary supplies to hospital(s) for preparation of all specimens for testing. This includes but is not limited to vaccutainer tubes, needles, preservatives, 24 hour urine containers, cytology and histology containers with preservatives, slides, fixatives, plastic transport bags, centrifuges and directory for all the services offered.

LabCorp Response

As permitted by applicable law, LabCorp provides its clients with routine specimen collection and transport materials for specimens that are analyzed within our laboratory network. A sample supply requisition in **TAB 6** has been provided for your reference.

- **1.2.9** Vendor must provide microbiology culture results for the time period based on the standards for specimen (i.e. blood cultures for seven days). Routine cultures shall have preliminary reports with 24 hours for positive results, then after 48 hours, and final reports within 72 hours of receipt of specimens at the reference laboratory site.
- **1.2.10** Vendor must provide general routine chemistries results with 24 hours of receipt of specimens a the reference laboratory site.

LabCorp Response to 1.2.9 & 1.2.10

Routine tests are typically reported within 24 hours of receipt of the specimen by the testing facility Significant anomalies may require more time. Esoteric tests that cannot be processed at a regional laboratory will be transported to one of our esoteric laboratories.

**1.2.11** Vendor shall provide histology and cytology testing and bacteriology services (cultures and sensitivity) as needed.

# LabCorp Response

LabCorp can comply

**1.2.12** Vendor must have a board certified Pathologist who must be available for questions and/or interpretation of positive test results.

### LabCorp Response

LabCorp can comply

**1.2.13** Vendor must assume all responsibility and liability for reading and processing of all cytology and histology specimens.

## LabCorp Response

LabCorp can comply

**1.2.14** Vendor must retain positive, negative and unsatisfactory Pap slides and Histology slides for the current time periods mandated by regulatory bodies (CAP and CLIA).

LabCorp Response

LabCorp retains pap slides for 5 years, regardless of the diagnosis, as required by CAP and LabCorp company policy. Histology slides are retained for 10 years

**1.2.15** Vendor must examine, interpret and report results on all slides submitted. Vendor must have written criteria for rejection and for categorizing specimens as unsatisfactory.

# <u>LabCorp Response</u> <u>Reporting Tests Not Performed (TNP)</u>

LabCorp is responsible for communicating the result(s) of all tests ordered by LabCorp clients. This responsibility extends to those tests where LabCorp is not able to provide a result. There are three common scenarios where LabCorp must report a TNP (test not performed) to clients:

- 1 Pre-analytical problems such as receiving the incorrect specimen for a given test, or no test requested for a specimen.
- 2 Specimen Rejection Where the condition of the specimen is such that testing cannot be performed, such as: Insufficient quantity, Hemolysis or Wrong pH.
- 3. Lab Identified Specimen Quality Issues Where an accident occurred such that testing is no longer possible, such as: Lost sample, Thawed sample, or Broken sample.

LabCorp communicates this information to the client by adding the appropriate explanation to the patient's report In some instances, this is followed up with a phone call to the client to alert them to the problem

**1.2.16** After receipt of slides/specimens, vendor must provide turnaround time for Cytology results within five (5) days and Histology within four (4) unless further study or staining is required.

#### Exceptions:

### Cytology Turnaround Time

Normal PAP Smears results reporting time is five to seven days. Suspicious, abnormal, unusual specimens or those submitted with insufficient information usually take longer. Any abnormal results must be called to hospital.

Surgical Pathology Turnaround Time

Properly submitted specimens are usually processed the next working day. Turnaround time for results is dependent on the complexity of diagnosis and case load. When requested (on the Request Form), a preliminary diagnosis must be available via telephone or computer printer and a final signed report will follow. All numerical abnormal results are to be clearly identified on the report form.

LabCorp Response

LabCorp normal turnaround time for Cytology specimens is 5 Days and turnaround time for Histology specimens is 2-4 days. Abnormal results notification can be customized by submitting the Alert Result Call Designation Form. A copy of the Alert result call designation form can be found under TAB 4.

**1.2.17** The Vendor shall provide the hospital(s) with documentation of quality control measures being performed in the Laboratory upon request. Quality control data, quality assurance policies and results of proficiency testing surveys must be made available upon request.

LabCorp Response

At LabCorp, quality is never compromised. Test results from every section of the laboratory are routinely monitored for reliability, precision, and accuracy by both internal and external quality control programs LabCorp voluntarily participates in more than 20 external quality control programs and is inspected regularly by state, federal, and private accrediting agencies.

- Quality Assurance/Quality Control Programs Quality assurance (QA) and quality control (QC) are integral parts of LabCorp's daily operation LabCorp uses both internal and external systems to monitor the accuracy and precision of patient runs for assays performed in LabCorp facilities.
- Organization LabCorp's QA and QC programs are overseen and administered by dedicated laboratory professionals, working full-time for the improvement of testing quality. A corporate quality group provides direction for the overall program in quality. Standardized QA programs are implemented and monitored by QA managers located in each of the operating divisions throughout the country. Also, each major laboratory has a full time QA coordinator who is responsible for quality activities at that laboratory site and reports to the divisional QA manager.
- Corporate QA Mission Statement To facilitate the delivery of accurate testing and reporting to our customers by providing high quality programs, information, standardized policies, and training materials to our laboratories.

Quality Assurance (QA) Plans – Personnel at each laboratory facility develop written QA plan
documents that specify a systematic process for monitoring and evaluating testing quality and resolving
identified concerns Testing quality is monitored and evaluated through (1) the routine collection of
information about various aspects of lab operations and testing and (2) periodic assessment of
collected information in order to identify and address concerns about testing quality and opportunities
for improvement

A QA committee, consisting of laboratorians and service staff, meets regularly at each lab site to review performance monitors and to resolve issues that lead to a monitor's "threshold" level being exceeded. The committee also evaluates the effectiveness of remedial actions taken. The effectiveness of the overall plan and the appropriateness of each quality monitor are reviewed on an annual basis

• Internal Quality Control (QC) – LabCorp's national quality control (QC) program allows for the assessment of accuracy and precision of patient results generated by our laboratories. Control samples with known analyte concentrations are routinely interspersed and analyzed with patient samples submitted for testing. Our computerized control algorithms, based on the widely accepted, state-of-the-art Westgard rules, alert the testing analyst of statistically or clinically significant analytical anomalies as they occur during the run. The analyst is charged with taking immediate and appropriate corrective action. This highly responsive computer-assisted quality control process helps to detect and correct potentially erroneous results before they are released to clients.

More than 200,000 individual QC values are reviewed to detect systematic (accuracy) and random (precision) errors each month by the Burlington, North Carolina, reference facility. In addition, more than 1.9 million QC values are generated for evaluation each month by LabCorp's facilities nationwide.

Retrospective on-line QC inquiry for any LabCorp test is available to lab technicians, technologists, and supervisors via the laboratory computer system. This valuable QC information provides up-to-date feedback to the technologist and lab directors on the performance of the assay. Quantitative QC data, including monthly lot-to-date and cumulative statistics, are summarized in graphic format each month for retrospective review by department personnel.

In order to compare testing quality throughout the LabCorp network of laboratories, LabCorp's individual laboratory computer systems are linked together. A national QC database, containing all quantitative QC results, has been compiled. A computer program checks this database for any bias between laboratories and identifies any significant exceptions. This system ensures that consistently high quality results are generated by every LabCorp facility.

• Internal Proficiencies Testing – LabCorp has an extensive, internally administered program of blind sample proficiency testing in which laboratories receive test samples from the quality assurance and corporate technical services departments for analysis. Results are graded and summarized by LabCorp's corporate QA group and distributed to the laboratory directors for evaluation and follow-up This internal proficiency program serves to test LabCorp's complete testing service: specimen logistics, order entry and accessioning systems, accuracy and precision of its testing protocols, technologist/technician performance, quality assurance reporting checks, and turnaround time from specimen pick-up to final reporting. This monthly program serves to supplement the external proficiency programs supplied by the laboratory accrediting agencies

 External Proficiency Testing – LabCorp participates in numerous externally administered blind quality surveillance programs, including the College of American Pathologists (CAP) program Consistently acceptable performance on these surveys is a prerequisite for continued licensure and certification LabCorp voluntarily participates in more than 15 external quality control programs

Significant findings from the internal and the external proficiency programs are reviewed at the national level and summarized in a monthly report called a "watch list." Monthly summaries are submitted to senior LabCorp management. The internal and external proficiency programs supplement other QA procedures and provide LabCorp's management with monitors that can be used to review technical and service performance from the user's perspective.

These programs facilitate the evaluation of LabCorp's primary program for internal quality assurance, which emphasizes the use of controls during the testing process

- Internal Inspections The LabCorp divisional QA managers perform regular internal inspections at the laboratories within their division and audit compliance with federal and state regulations. Deficiencies are corrected with the help of laboratory managers and directors. This ensures that all laboratories within LabCorp perform at a high level of quality.
- Quality Assessment Reporting The LabCorp quality assessment program is an ongoing process of
  comparing actual performance to the desired performance goals detailed in the quality plan To our
  clients, laboratory quality is more than just accurate test results. It consists of all facets of our laboratory
  service, including turnaround time, client services, patient satisfaction, billing, etc. Our quality plan is the
  yardstick against which all of our daily activities are measured. Using quality assessment techniques,
  LabCorp locations have created a variety of programs to monitor critical aspects of providing results and
  services to our customers. Knowing customers' needs, wants, and expectations and then evaluating our
  ability to meet them are a part of the LabCorp quality commitment.

External measures of quality are taken continuously at all LabCorp locations and rolled-up monthly into national reports. These reports provide an overview of our performance on various aspects of patient care called for in our QA plans. These reports include:

- Client Concerns This report provides an early indicator of laboratory concerns and details the number of client inquiries received by our laboratories. These reports include categories from all facets of LabCorp operations, including pre-analytic (phone response, courier pick-up), analytic (turnaround time, specimen handling, etc), and post-analytic (reporting, billing) client concerns.
- Laboratory Corrected Reports Client reports that were modified, corrected, and then reissued are tracked. These errors are also categorized as pre-analytic (specimen identification errors, incorrect test numbers), analytic (technical errors), and post-analytic (result entry, transcription errors) types of errors
- Managed Care QA Monitors Reporting Large managed care groups now require that LabCorp provide them with summary reports on various aspects of patient care that they consider "quality monitors" of LabCorp's performance. These quality monitors include (1) licensure/accreditation, (2) client service response, (3) proficiency testing, and (4) turnaround time The divisional QA managers produce the managed care reports that are required by groups in their division Quality metrics are also converted to a six-sigma scale, so that they may be benchmarked against industry standards

• Standardization – The QA department works with LabCorp's science and technology group to assure that standard analytical methods are used by LabCorp's various labs. Our standardization philosophy is unique in the industry in that it provides a uniform level of result quality throughout all laboratory facilities. This further ensures that quality is consistent from location to location.

Results from many of our locations that employ identical methodologies can be used interchangeably Health care organizations and providers recognize the advantage of not having to adjust their practice parameters to geographic laboratory result and reference interval variations.

- Corporate Quality Policies The corporate QA group, working with committees consisting of divisional QA managers and laboratorians, formulates and issues corporate policies that provide direction on key quality areas of concern in the laboratory These policies, which allow LabCorp to standardize its approach to quality in various areas, address such issues as specimen identification, alert/panic value reporting, and corrected reports. In addition, a lab certification manual that details accepted laboratory protocols has been prepared to assist labs in maintaining acceptable levels of quality and in meeting all federal and state regulatory requirements.
- 1.2.18 Vendor must have stored lab results available for Quality Assurance monitoring and assessment of laboratory services for the current time periods mandated by regulatory bodies (CAP and CLIA) for regular test results and pathology specimens.

### LabCorp Response

LabCorp can comply

**1.2.19** Vendor must provide Hospital(s) with statistical reports including the total number of test performed on a monthly and annual basis by individual testing category.

LabCorp Response

LabCorp maintains an array of utilization options, which may benefit the facilities. LabCorp maintains flexibility with respect to reporting options and can provide certain customized reports. Available fields for report customization includes, test number, test name, client price, current price, current month and year to date test quantity, and current month and year-to-date net revenues

LabCorp recognizes that various levels of summary reporting may be required for aggregated reviews of test usage. To that end, grouping and summarizing of individual accounts totals are also available through the utilization packages offered at LabCorp. In addition to the individual accounts totals, groups of accounts may be established for facility, and/or association totals. These reporting options may be provided in hard-copy or electronic format. Copies of sample reports can be found under TAB 7.

### Standard Utilization Report (Order #RCMB015 - A)

This report provides clients with account data for book keeping purposes. LabCorp Test Code Number and Test Name, Test Price, Current Month Quantity (how many of the test were ordered that month), Current Month Dollars (test quantity times test price), and Year-To-Date Quantity, and Year-To-Date Dollars.

### Standard Utilization Report Without Pricing (Order #RCMB015 - B)

The same report as above without the pricing information. LabCorp Test Code Number and Test Name, Current Month Quantity, and Year-To-Date Quantity.

### Physician Level Utilization Report with Formularies (RCMB015 - D)

This report was created to help our clients monitor their individual physicians' ordering patterns. It provides clients with account data sorted by account number, ordering physician, and then by ordered tests. Each test is categorized as either a "Formulary Test" or a "Non-Formulary Test." The "Formulary" is a group of tests put together and recommended for use by the client's Corporate Medical Director. Formulary and Non-Formulary Sub Totals will only be provided if an account supplies LabCorp with the list of tests they want to monitor. The report also exhibits account pricing.

### Physician Level Utilization Report without Formularies (RCMB015-E)

This report is identical to the previous report without categorizing tests as "Formulary" or "Non-Formulary."

### Year-To-Date Utilization Report (RCMB015-G)

This report supplies the volume of tests ordered and the **adjusted** (e.g., includes any credits issued) dollars cumulatively from January to the last month that has been through an end of the month production cycle. The report is sorted by quantity in descending order and shows the account quantity and dollar totals at the bottom of the report.

### Standard Utilization Report by Line of Business (RCMB015-H)

This summary report shows tests ordered sorted by account number and then sorted again by the line of business within the account. The line of business codes are CM = Commercial, MC = Medicare, PI = Private Insurance, PT = Patient, MD = Medicaid. This report is sorted in alphabetical order by test name

**1.2.20** Vendor must provide Hospital(s), on an on-going basis, the name, address and telephone number of their account representative.

### LabCorp Response

LabCorp can comply

**1.2.21** A list of the type and estimated quantity of tests required by the hospital(s) is attached as Exhibit A. A list of the type and estimated quantity of panels, profiles, screens and cultures is attached as Exhibit B. Additional types of tests shall be provided by the successful vendor, as ordered by the facilities.

### 2. Method of Evaluation:

The contract will be awarded to a single vendor with the lowest total cost for providing the specified services in Exhibits A, B & C.

West Virginia Department of Health and Human Resources Bureau for Behavioral Health and Health Facilities Office of Health Facilities ---- Reference Laboratory Services BHS10038

Total of Exhibit A - Bid Sheet \$263,002 20

LabCorp has attempted to match a test code to each test or profile identified in this bid based on the written test descriptions provided. If the specific test code is used in ordering the test, the price quoted will be in effect. If LabCorp has assigned an inaccurate test code due to its misunderstanding of your test description, or if the test configurations do not meet your needs for any reason, please contact your LabCorp sales representative or account manager immediately. We will review the test requirements and, if necessary, assign a more appropriate test code at a mutually agreeable price.

For the performance of tests not set forth above, LabCorp will offer the fees set forth in the price list current at the time the test is performed less an across-the-board discount of 50%, except for the tests listed in LabCorp's "Non-Discountable List", which will be performed at book price. LabCorp shall have the right to remove any test from the set price list and place it on the Non-Discountable List in the event of a material change which affects the difficulty or cost of providing any test. Any other change in the fees reflected herein shall be effective following a 30-day written notice.

### ALERT result call designation form 8 of 9

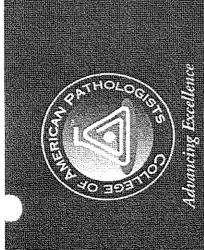

Alpha or Qualitative ALERT Results (results that are not numbers)

LabCorp will continue to call qualitative ALERT results as soon as they are resulted and verified, Monday through Friday, 8:00 AM to 5:00 PM; however, for cytology and histology, you can request calls for low-grade lesions and/or suspicious results

Call as Alert	Test	Abnormal Result	Call at Default Level
	Cytology and Histology Tests	Abnormal Results	Special Request(s)
X	Pap Smear	High-grade squamous intraepithelial lesions (HSIL) or malignant	
X	Nongynecological Specimens	All positive and highly suspicious specimens or specially requested call reports	
X	Tissue Analysis	Malignancy	
	Microbiology Test	Abnormal Results	
X	Acid-fast Bacilli Stains and Cultures	Positive smear and/or culture	Unavailable for Change
X	Stool Cultures	Positive For: Salmonella, Shigella, Campylobacter, Yersinia (special culture) Vibro (special culture) and enterohemorrhagic <i>E. coli</i>	Unavailable for Change
X	Cryptococcal Antigen, Serum and CSF	Positive	Unavailable for Change
<b>X</b>	Strep pneumoniae Antigen	Positive	Unavailable for Change
X	<i>Haemophilus influenzae,</i> B Antigen	Positive	Unavailable for Change
<b>X</b>	Neisseria meningitidis Antigen	Positive	Unavailable for Change
	Other Test	Abnormal Results	
X	Blood Smear	Presence of malarial parasites	Unavailable for Change
X	L/S Ratio (Amniotic Fluid)	All results	Unavailable for Change
Χ	Amniotic Scan for Bilirubin	All results	Unavailable for Change

# The College of American Pathologists

certifies that the laboratory named below

### Laboratory Corporation of America Modina R. Thrasher, MD Dublin, Ohio

CLIA Number: 36D0327333 LAP Number: 1635001 AU-ID: 1182090

Laboratory Accreditation Program. Reinspection should occur prior is hereby fully accredited by the College of American Pathologists has met all applicable standards for accreditation and to September 20, 2011 to maintain accreditation.

Accreditation does not automatically survive a change in director, ownership. or location and assumes that all interim requirements are met.

How Willow, or

Chair, Commission on Laboratory Accreditation

Java A Schuest mo Dro FCAD President, College of American Pathologists

### CENTERS FOR MEDICARE & MEDICAID SERVICES CLINICAL LABORATORY IMPROVEMENT AMENDMENTS CERTIFICATE OF ACCREDITATION

LABORATORY NAME AND ADDRESS

LABORATORY CORPORATION OF AMERICA 6370 WILCOX ROAD DUBLIN, OH 43016

LABORATORY DIRECTOR MODINA THRASHER MD

CLIA ID NUMBER 36D0327333

06/14/2009

EXPIRATION DATE 06/13/2011

Pursuant to Section 353 of the Public Health Services Act (42 U.S.C. 263n) as revised by the Clinical Laboratory Improvement Amendments (CLIA), the above named laboratory located at the address shown hereon (and other approved locations) may accept human specimens for the purposes of performing laboratory examinations or procedures.

This certificate shall be valid and the expiration date above, but is subject to revocation, suspension, limitation, or other sanctions for violation of the Act or the regulations promulgated thereunder.
