Re: Expression of Interest
For DEP 14783 – Little Laurel Run Highwall – Preston County, WV

Dear Mr. Estes:

RPM Engineers is pleased to submit this Expression of Interest for providing the engineering services for the Little Laurel Run Highwall in response to your RFQ #DEP14783 due on October 1, 2009.

RPM recently completed the design of the Stephenson (Mills) Subsidence project for the WVDEP Office of Abandoned Mine Lands and Reclamation (AML&R). We completed this specialty project ahead of schedule and under budget. We worked directly with Mark Proctor, P.E. of the Oak Hill, WV office on this project.

RPM also recently completed several Waterline Feasibility Studies for AML&R. These projects were also completed within the schedule and under budget. We worked directly with Eric Coberly, P.E., in Charleston, WV on these projects.

We have put together a highly qualified staff of civil engineers, surveyors, environmentalists, geologists, and CADD technicians that have prepared surveying, environmental documents, construction plans, construction specifications, contract documents, and cost estimates of hundreds of projects across the great state of West Virginia.

Please provide us an opportunity to further demonstrate our qualifications, our proposed project plan, our enthusiasm, and our commitment to customer service during an oral interview.

We want to be a part of your mission to protect public health, safety, and property from past coal mining and enhance the environment through reclamation and restoration of land and water resources of West Virginia. Thank you for allowing our firm the opportunity to submit this Expression of Interest!

Warmest Regards,

James A. Bumgarner, Jr., P.E.

What People are Saying About Us

RPM's mission to achieve 'Total Client Satisfaction' has been demonstrated by the feedback that we receive from our clients. Here are some of our most recent client testimonials.

- We performed several projects for the West Virginia Department of Transportation, Division of Highways District 5 in 2007 and 2008. These projects were located in Grant, Hampshire, and Berkeley counties. These projects were completed on a very fast track schedule. This was our first job working directly for WVDOH, District 5. After completion, **RPM** received some of the highest compliments that we have ever received.

The District Bridge Engineer told us that in his 35 year career, that working with **RPM** was one of the biggest successes that he has experienced. He also wrote that "**RPM** did these jobs for us, and did very commendable work. Working with the folks at their firm has been a rewarding experience for us here in District 5"- Gary Klavuhn, District Bridge Engineer, WVDOH District 5, March 2008.

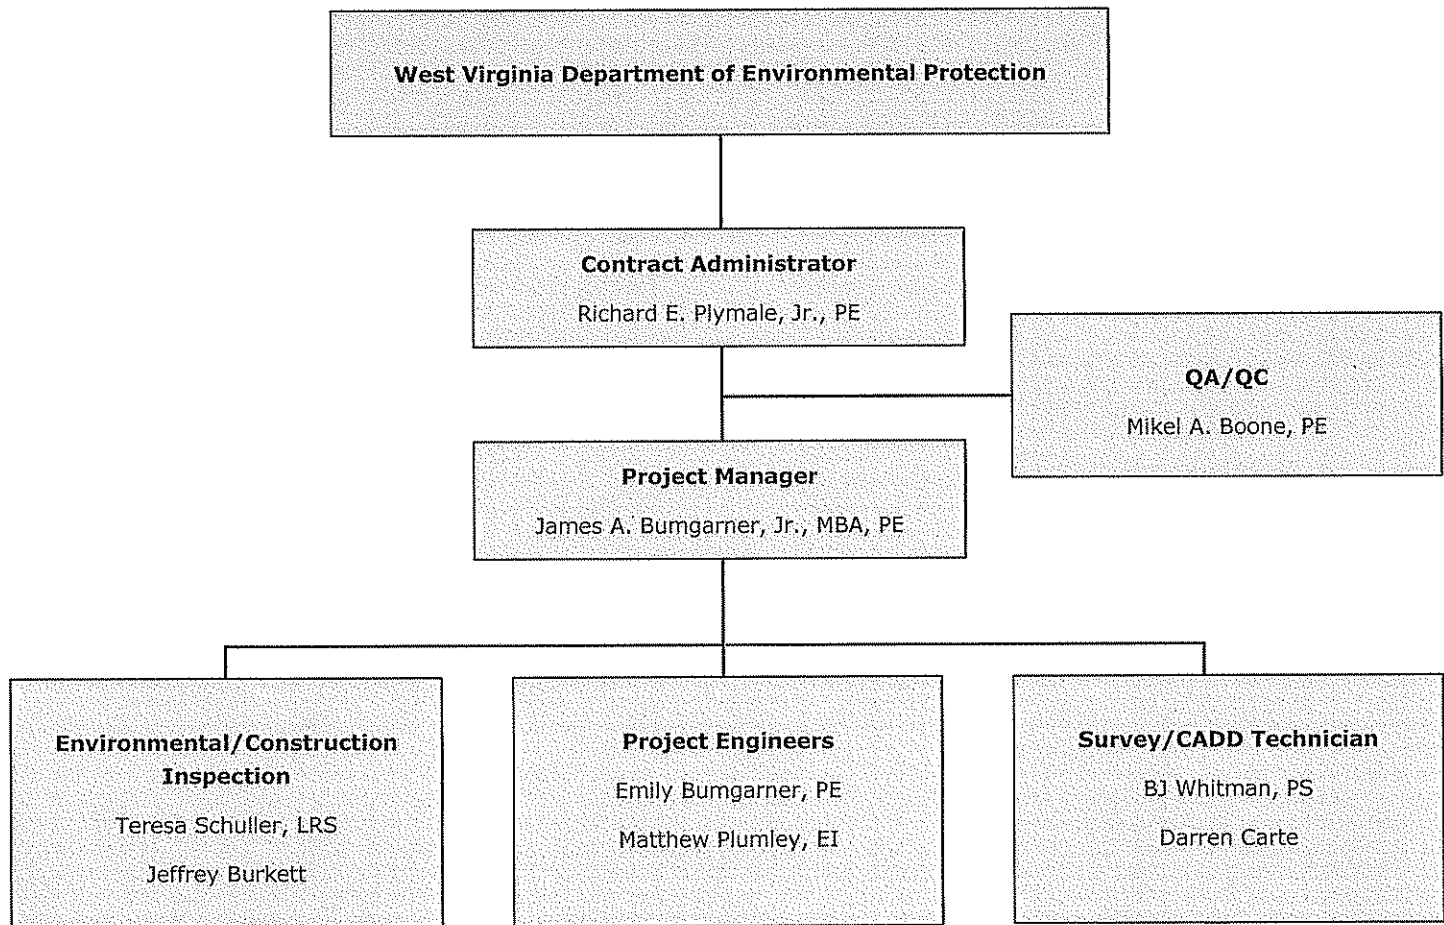

- We performed a design project for the Ohio Department of Transportation, District 7 in 2007. This was our first job for ODOT. After completion, **RPM** received the highest consultant rating for design services in modern ODOT history.

ODOT's Project Manager wrote in the consultant evaluation that "This was a pilot LRFD project for ODOT... **RPM** was always ahead of the game, and provided guidance on decisions...we were pleased with the work of the subconsultants, and never had to provide any direction to them... **RPM** turned in exceptional plans more than 30 days ahead of schedule... every submission was early, complete and of good quality." - Amy L. Schmidt, Project Manager, ODOT District 7 Contract Section, September 2007.

- We performed a construction inspection in early 2008 for one of our clients in South Carolina. The client told us that it was the "was the smoothest overhead inspection I have ever had". In addition, he stated that "I must also include you and your team at **RPM** for all of your hard work in making for the successful Overhead Inspection Tuesday at NPES! Thanks for all you guys do. It is very much appreciated!" - Steven Howe, Project Manager, M. B. Kahn Construction Co., Inc., March 2008

These examples are only a few of many positive remarks that we have received from our clients. This feedback reinforces our commitment to customer service. We pledge that if we are fortunate to be awarded this project, we will deliver 'Total Client Satisfaction'.

EVALUATION & AWARD

4.1 Evaluation and Award Process:

- a) Expressions of Interest will be evaluated and awarded in accordance with **§5G-1-3 "Contracts for architectural and engineering services; selection process where total project costs are estimated to cost two hundred fifty thousand dollars or more."**

"In the procurement of architectural and engineering services for projects estimated to cost two hundred and fifty thousand dollars or more the director of purchasing shall encourage such firms engaged in the lawful practice of the profession to submit an expression of interest, which shall include a statement of qualifications, and performance data and may include anticipated concepts and proposed methods of approach to the project. All such jobs shall be announced by public notice published as a Class II legal advertisement in compliance with the provisions of article three [§59-3-1et seq.] A committee comprised of three to five representatives of the agency initiating the request shall evaluate the statements of qualifications and performance data and other material submitted by the interested firms and select three firms which in their opinion are the best qualified to perform the desired service. Interviews with each firm selected shall be conducted and the committee shall conduct discussions regarding anticipated concepts and the proposed methods of approach to the assignment. The committee shall then rank in order of preference no less than three professional firms deemed to be the most highly qualified to provide the services required, and shall commence scope of service and price negotiations with the highest qualified professional firm for architectural or engineering services or both. Should the agency be unable to negotiate a satisfactory contract with the professional firm considered to be the most qualified, at a fee determined to be fair and reasonable, price negotiations with the firm of second choice shall commence. Failing accord with the second most qualified professional firm, the committee shall undertake price negotiations with the third most qualified professional firm. Should the agency be unable to negotiate a satisfactory contract with any of the selected professional firms, it shall select additional professional firms in order of their competence and qualifications and it shall continue negotiations in accordance with this section until an agreement is reached."
