## GameTime Policies

**Specifications:** Specifications were current at the time of publication. GameTime has an ongoing policy of product improvement and therefore reserves the right to improve specifications or discontinue products without notice.

**Terms of Sale:** To governmental agencies and tax supported institutions, and those with approved credit, payment is due within 30 days from the date of invoice. A 1.5% per month finance charge will be imposed on all past due accounts. We also accept payment by VISA, MasterCard or American Express. All other orders will require a 50% deposit at the time of order entry. The balance will be due with a certified check upon receipt of shipment (C.O.D.).

**Prices:** Prices are F.O.B. factory and do not include freight charges. All prices listed were current at the time of publication and quoted in U.S. Funds. Prices are subject to change without notice. Current prices will apply at the time of shipment. Due to the abnormally high cost of fuel and its impact on many of the materials used in our industry, quotations are valid for 30 days only and prices may be subject to material and fuel surcharges at the time of shipment.

**Freight charges:** Freight charges are determined and collected by the carrier unless GameTime is requested and agrees to prepay and add these costs to the invoice.

**Taxes:** If applicable, taxes will be added to the invoice except when a tax exempt certificate is provided with the purchase order at the time of order entry.

**Minimum Order:** Our minimum order is US \$50.00.

**Order Cancellation:** Once accepted, orders can be canceled only with the consent of GameTime, and on terms which will indemnify GameTime against loss. Canceled orders will be subject to a restocking fee. Equipment "built-to-order" is non-cancelable.

**Domestic Shipments:** Unless specifically given routing instructions on the purchase order, shipment will be made via the carrier we consider to be the most economical and practical in reaching the final destination. All domestic shipments are governed by ICC Regulations.

**Delays in transit:** GameTime is not responsible for delays in transit and such delays shall not alter our invoicing terms. If your order does not reach you within a reasonable time after being advised that shipment went forward from our plant, GameTime will be glad to assist in the tracking process.

**Loss or damage in transit:** GameTime is not responsible for loss or damage in transit. When we release the material to the carrier, a bill of lading is signed which states that the shipment was received from us complete and in good condition. A copy of this bill of lading is forwarded to you with the shipment and should be checked carefully with the materials you receive. Any shortage, discrepancy or damage must be noted on the delivery receipt and signed by the carrier's representative. Failure to note exceptions on the delivery receipt may impair your right to recovery from the carrier.

**Weights:** All published weights are estimated and include appropriate packing materials. Actual weights may vary slightly.

Galvanizing provides electrochemical protection to steel, in addition to forming a protective barrier. Allied's unique triple layer Flo-Coat galvanizing process goes even a step further by adding a conversion coating to passivate the zinc, and a clear polymer topcoat that reduces the general corrosion rate of the zinc. This synergy between the coatings allows the zinc to be more effective in protecting uncoated edges through the self-sacrificial galvanic effect. If the powder coated surface is scratched or marred, the galvanized substrate protects the powder/paint from creeping and rusting underneath. Independent testing shows up to 6 times greater corrosion resistance with powder coating over Flo-Coat as compared to powder coating over bare steel.

QUESTIONS  
ADDENDUM #2**

**Questions from Pre Bid Meeting conducted on 9/15/09**

- Q: Will a request for a certified payroll be made?
- A: Yes, according to W.V. Prevailing Wage Law.
- Q: Will sod need to be taken off prior to construction?
- A: No, we want to seek maximum elevation. We will build on top of sod layer where appropriate.
- Q: Are all materials to be installed by contractor?
- A: Yes, all materials specified are to be installed by contractor. Additionally, the curbs and spike item which was overlooked as a specified installation item in the RFQ on each playground is to be installed by contractor.
- Q: If the adjacent areas are disturbed during construction, is the contractor responsible for restoring areas to the original condition through leveling surface, sewing grass seed, and applying straw for cover?
- A: Yes
- Q: How is the pea gravel to be disposed of in existing playgrounds?
- A: Pea gravel material may be used to spread as fill in the lower lying areas.
- Q: Will tree limbs be removed in the applicable playground areas prior to construction?
- A: Yes
- Q: Where will we put excess cut our fill dirt in the Four Coves area?
- A: Excess fill dirt not used in new site preparation will be placed in adjacent old playground area to cover any holes and uneven surface.
- Q: Will other rock like material playgrounds be considered at the Four Coves area other than the Playworld systems boulders?
- A: If the product bid is equivalent to the solid rock like structure material specified in the RFQ, it will be considered.
- Q: Will other coated steel material uprights be considered other than aluminum?

- A: No, due to potential of equipment submerged under water, aluminum uprights were specified to increase life span of equipment.
- Q: Are the entrance positions changed from the drawings?
- A: Yes, the entrance positions are to be located nearest to the accessible parking area via the closest existing sidewalk.
- Q: Will we consider 6' self standing slides instead of the 8' self standing slides due to safety for use by younger children?
- A: The 8' slides are a mandatory minimum height requirement in the RFQ.
- Q: Will the dirt on the playground sites be leveled out by contractor or park staff?
- A: The fill dirt will be leveled out by contractor in the lowest setting areas to raise the overall level of the playground.
- Q: How will the site work in the Four Coves Playground area be done?
- A: The designated area shown by the four corner flags during the meeting will need all ground work for a level site completed by contractor. The exterior sections of the site will need to be sloped and dressed when finished.

**Questions from Pre Bid Meeting conducted on 9/30/09**

- Q: Does the ADA ramp have to be compliant or was it specified in the RFQ?
- A: The ADA ramps are specified in the RFQ and are to provide barrier proof access and prevent wood fiber spillage.
- Q: We did not review the playground sites on this pre-bid meeting as everyone in attendance had reviewed them at previous meetings and had pictures. The comment was made by me that bids will need to provide stainless steel chains on swings as specified in the RFQ. The super seat specified by Gametime is flat seat and it and other swing seats need to be equal to specifications in RFQ.
- A: All post on the swings may be galvanized, but the playground structure in the Franklin Wooten Recreation Area need to be aluminum uprights.
- Additionally, it should be noted that the Jumbo Flyer and the Dinosaur Rider must be an equal molded design, mount, and size.
  - Additionally, the Zero G accessible swing seats are specified to accommodate different age classes. As stated in the RFQ, One seat is sized to accommodate ages 2-5 and the other size is to accommodate ages 5-12. The proposal should reflect these

specifications.

**Technical Questions submitted in writing**

- Q: Does the 60 Calendar day time for completion contemplate that most of the equipment will take 30-45 calendar days to procure after the award?
- A: Yes.
- Q: Must the "vendor must submit" items on page 19 be submitted with the bid or are they to be submitted with/after award?
- A: Vendors must submit this documentation. It is strongly preferred that this information be submitted with the bid.
- Q: Page 25 of the proposal (bid) states that for Add alternate number one at Four Coves Campground Playground there shall be a quantity of 53 tuff clad benches. Can you please verify this quantity as it appears to be a mistake?
- A: The quantity is 1.
- Q: Page 19 of the proposal (bid) states that the playground equipment must meet certain guidelines, ADA being just one. We need to know if the playground equipment, as designed and specified in the proposal, meets ADA regulations, as we are being told from an alternate playground equipment source that it does not.
- A: It is required that all playground equipment bid is ADA Compliant.
- Q: On page 3 it states that the contract is to be performed within 60 calendar days after the notice to proceed is received. However on page 12, it states that delivery and installation must be completed within 30 day of purchase order award? Can you please explain the conflict in duration? Will the notice to proceed be given once the approval process has taken place and the proper playground equipment has been delivered?
- A: The delivery requirement is 60 calendar days.
